## What will an LA do in this course?

The role of the LA varies slightly in each course. Read below for more information from Professor Stevens on the LA's role in this course.

### *What is the role of the LA in this course?*

LAs will interact with students in this course in two ways. During lecture, they will assist students with small-group activities and with complex clicker questions. They will also hold twice-weekly optional help

sessions. During these sessions, they will help students with both course content and study strategies. During our weekly preparation meetings, LAs will give me feedback on how well students are understanding the material and suggestions for course improvement.

***How could being an LA for this course benefit you?***

By serving as an LA in this course, you will strengthen your understanding of the course material. You never learn a subject as well as you do by teaching them! You'll also experience different ways of learning material, which can help you in your other courses. If you're thinking about graduate school or other paths that involve instruction, you gain valuable pedagogical training and practical teaching experience.
