

## Short Pitch To Potential Distributors

Water pollution is one of the greatest threats to the nation.

There is no other time when we **DESPERATELY NEED** a product that **ABSOLUTELY OVERCOMES** the worldwide water crisis.

Introducing ***Vortex Water Revitalizer***...

Our revolutionary product is taking the industry by storm.

Let me explain:

Most of our water is treated in an unnatural way, and it's turning our precious water into *dead water*.

Backed by decades of hard research (since 1996), **The Vortex Water Revitalizer** fixes all of that.

Water revitalized through our vortex technology restores water's ability to self-heal.

And here's the best part:

Revitalized water is pumped with 25% more oxygen!

Even more, once the water is revitalized, it **STAYS REVITALIZED!**

This means that when **Revitalized Water**(pumped with 25% more oxygen) pours through the ground water, the entire eco-system begins to change. Restored water runs through river streams to the oceans, *all while cleaning the pipes it travels through!*
