I will read the labirhin the goat doc and do what I can to defend myself. but only my part because I can only talk about what I experience. So I won't talk about someone else's part because it has nothing to do with me.

I Will separate these into three categories

- i remember

- It's clearly fake I have this screenshot about kenjius fakeing stuff, so i will spot it if its actually fake

The reason why Kenjius did all this

And faked a lot of shit

Is because he wanted to “take over Mau makan apa”

And like create his own thing ?

Which is like kinda weird

Thank you Ari and viceroy the borzoi for this.

I will say that I learned so much for the past 2 or 3 years about the bad side of the internet, and I really didn't know anything about most of the disgusting stuff back then. I think I understand most of it now and I will talk about all this stuff about me.

Just a reminder I'm not growing up with the internet like all of you, I have lived in a village from when I was born until now and it's like everything that I learned about all this internet stuff is new for me. I also have a different educational system with people outside Indonesia and I have no internet friends until like I was in highschool that can tell me which one is wrong and which one is correct (it was around this era of Lex stuff happening too).

1.

The Parallel of Labirhin

Labirhin was already a strange man, he spoke in a silly way, he accepted all sorts of things. I remember he was in a voice chat on the server and people started saying "wow, I love this character so much" or "he's my husband," and then he blurted out "you can goon the characters." With that simple phrase, in my opinion, it made the server even worse.

I don't remember this

I would never say "my husband" because I'm straight, it's more believable if I say "wife". And if it was real, I might be just joking because I said goon? Like I just found an Instagram word and am trying to use it for the first time. I really don't remember my English was that bad just for a simple sentence, even for the old server era.

2.

As mentioned, let's focus on the heavy part. In 2024 or 2025, the server suffered a shutdown, and when it came back online, I saw that a user named Lex had left the server. Some members were worried and trying to find out what had happened. Some time passed, and in October or August 2025, a friend sent me some evidence about what labirhin did... I feel nauseous. Labirhin, an idol I admired, had done something that filled me with pure rage; Lex had been mistreated.

I remember

But only the server shuts down part, its not because of Lex, but because there's too many channels in the server and the moderators want to make everything simple again by removing a lot of channels, and I don't think it lasted that long, because after that the moderators created the new server from scratch again (the now KDI server).

Because this part was not my point of view, I can only say. WHY IS SHE THE ONE WHO SHOWING EVIDENCE?

I'm the one who wants to break up, I'm the one that should show evidence why I don't want to be with her. But I don't know who that I can show to because it's all very disgusting stuff ever in this world, and it will be weird if I just post it out of nowhere, because it will look like I'm attacking someone that is still 14 (i didn't know her age when we dating, she lied about her age to me). I was collecting Her weird messages from very early (you can see her profile picture is changing all the time from the different Times i screenshot it) because I though this is how internet user talking to each other, I don't know if talking like this is normal for her and I need to learn and adapt the way she is talking if i she will be my girlfriend (I was a stupid kid back then to think "trying to adapt this sexual texting will help me talking with someone in Internet").

Also, she's the one asking me to be her boyfriend and I was so stupid, I said yes because she told me she's a real life exoworo and i thought she's joking its not, and i actually stuck with her in front of someone in my class that i have crush too and know about it (Everyone please if there's someone asking if you if they want to be your life partner, ask for their age with proof first, don't do my mistake, i literally thought she will looks exactly like exoworo)

3.

But before I go on, I'm going to say one thing: what Labirhin said about Lex is pure lies and pure stupid manipulation. To say she was a pervert makes absolutely no sense. Lex was around 15 or 16 years old at the time, and Labirhin was 18. He was an adult man dating a girl that age, a minor who suffers grooming and opens herself up completely to any relationship. And most importantly, she told me that she was depressed and that he had attempted suicide. Don't stop accusing someone without knowing their life story.

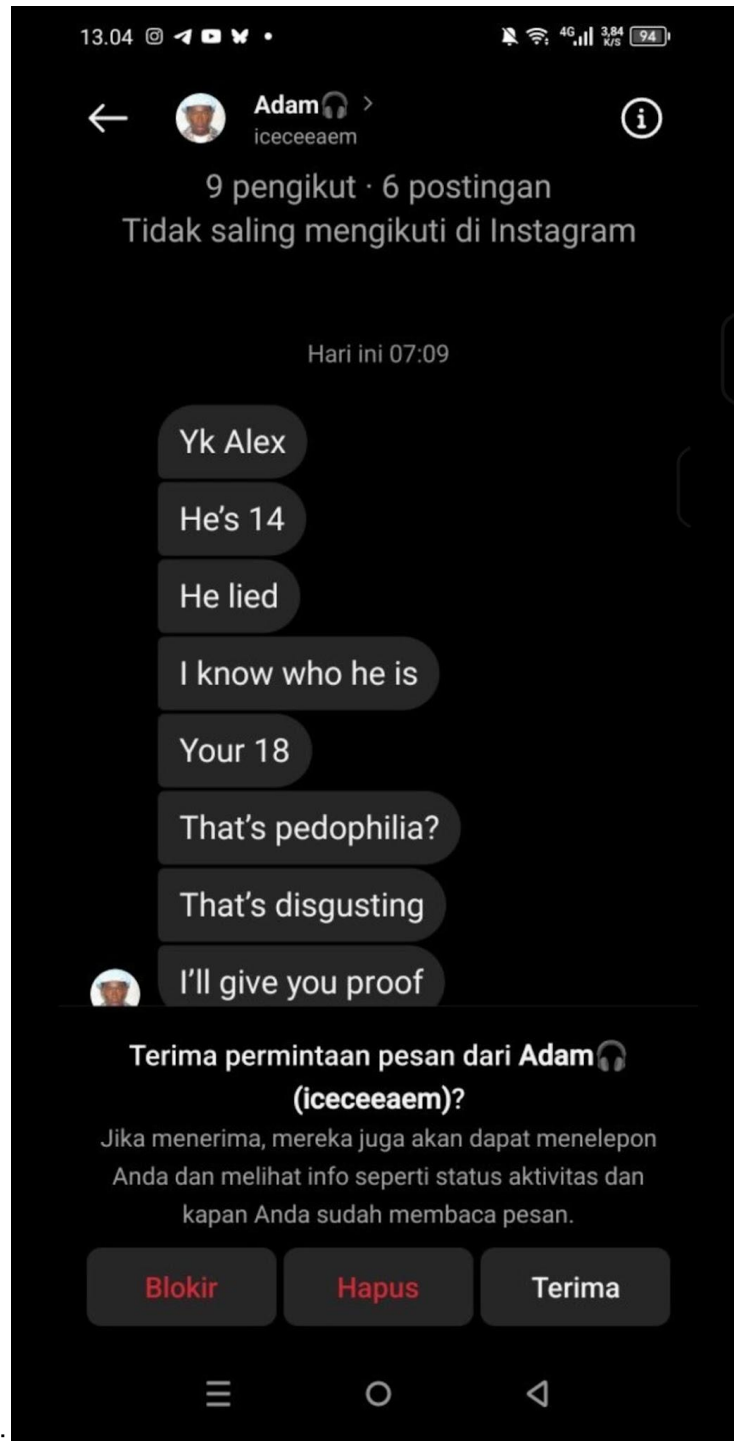

It's clearly fake

About what I said about Lex in the two docs I made 7 months ago are real, I might have more proof if my Instagram account was not banned permanently. I feel like Lex reporting my account and getting it banned permanently just because she was scared and wanted to burn all the evidence that I might get. I collected some from the old message to the new message and it is so clear that she's the creepy one.

I don't even know how to manipulate, I can't even do it in Indonesian, how can I do it in English.

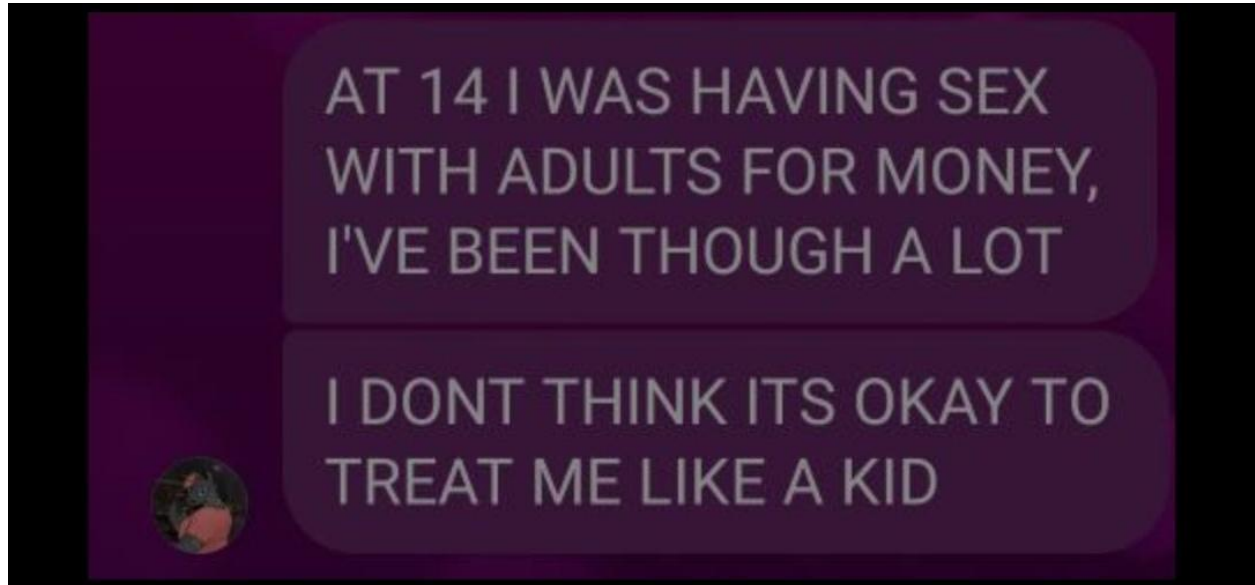

I just learned the word "pervert" today when I was typing this, I learned it from that doc this 15 year old typed. That means, i never said it before ever.

She lied about her age being 18 to ME and telling EVERYONE her age was 15/16 at that time?. Can you believe that too or is it another of her lies, because I don't know anymore the line between reality or the fantasy if it comes out from her mouth. And i know about her real age from her irl friend that dm's me. You can clearly see that text "he lied" in this DM by Lex's irl friend

It explains two things, that Lex is LIED and she's biologically a man? Which is really not exoworo at all, which everything that i know about her is FAKE, and she scared if i ever making docs about her (which i didn't know i can do that, now i know) so she team up with people that have problems with KDI staff and those people excited for an opportunity to have me in their docs, making everyone who read the docs think im controlling all of this? I literally have zero control over anything discord server related because I don't understand how discord works, I can't even add bots.

And also she always says something similar to "I DONT THINK IT'S OKAY TO TREAT ME LIKE A KID!" under that very weird thing to say about being 14 and having sex with adults? I really hope its not real (this screenshot is a bit darker because i use app that darker the screen because i have very bright phone screen at that time, im not editing any of these screenshots because i don't even want to type something like that to trap my biggest enemy if i ever have one)

this part written by kenjius:

"Don't stop accusing someone without knowing their life story"

Is kenjius trying to tell himself to stop accusing me, because he doesn't know my life story?

im depressed too from him and had attempt suicide not because of his lies, but from everyone that believe in his lies.

Now more people already understand the real story because they talk to me one by one.

But look at this, wow.. Maybe Kenjius's life story might be interesting because he likes to dox people, threaten people, then harass people too? Problematic, control freak, attention seeing little prick, awful and horrible human? What an achievement (its not me who saying that)

Viceroy the Borzoi  3:22 PM

Most of it's fake, I was helping out with exposing them like 7 ish month ago, I left it all when he started to take it too far by involving doxxing, Kenjius is a awful person, a lot of the like screenshots and photoshopped/don't add up, also Kenjius has attempted to dox people that ik and that I'm close with and is also an attention seeking little prick

Most of the zoophile shit is not real, and was created by Kenijus, I was in a vc with him when it happened

Same for all the other shit abt Labi

Kenijus is a control freak and a horrible human being who needs to shut his little mouth

Kazer (person who made the document) is also severely problematic, in the early stages of this server he argued and harassed me and my game, people who don't agree with him will be threatened to be doxed by him. Kazer also argues with many people. The document was made after he got banned from kdi for sending death threats

By knowing kenjius life story, I can say that

Kenjius definitely has more time on the internet, browsing about all the internet drama possible at 15 btw. Does he even have talent or anything? because his time is wasted for being this doxing, threatening, harassing, problematic, control freak, attention-seeking little prick, awful and horrible human (he got all those achievements from those screenshot above).

while I was learning about this bad stuff too late because I'm not really into internet stuff until I was in high school, then I got bad influence from someone from my class that showed me about Pixif (I hate that website now, I thought it was like DeviantArt without famous characters because of my friend just showed me it had a lot of fat furies in there, but it's actually not, it's filled with worst stuff imaginable and AI generates stuff)

4.

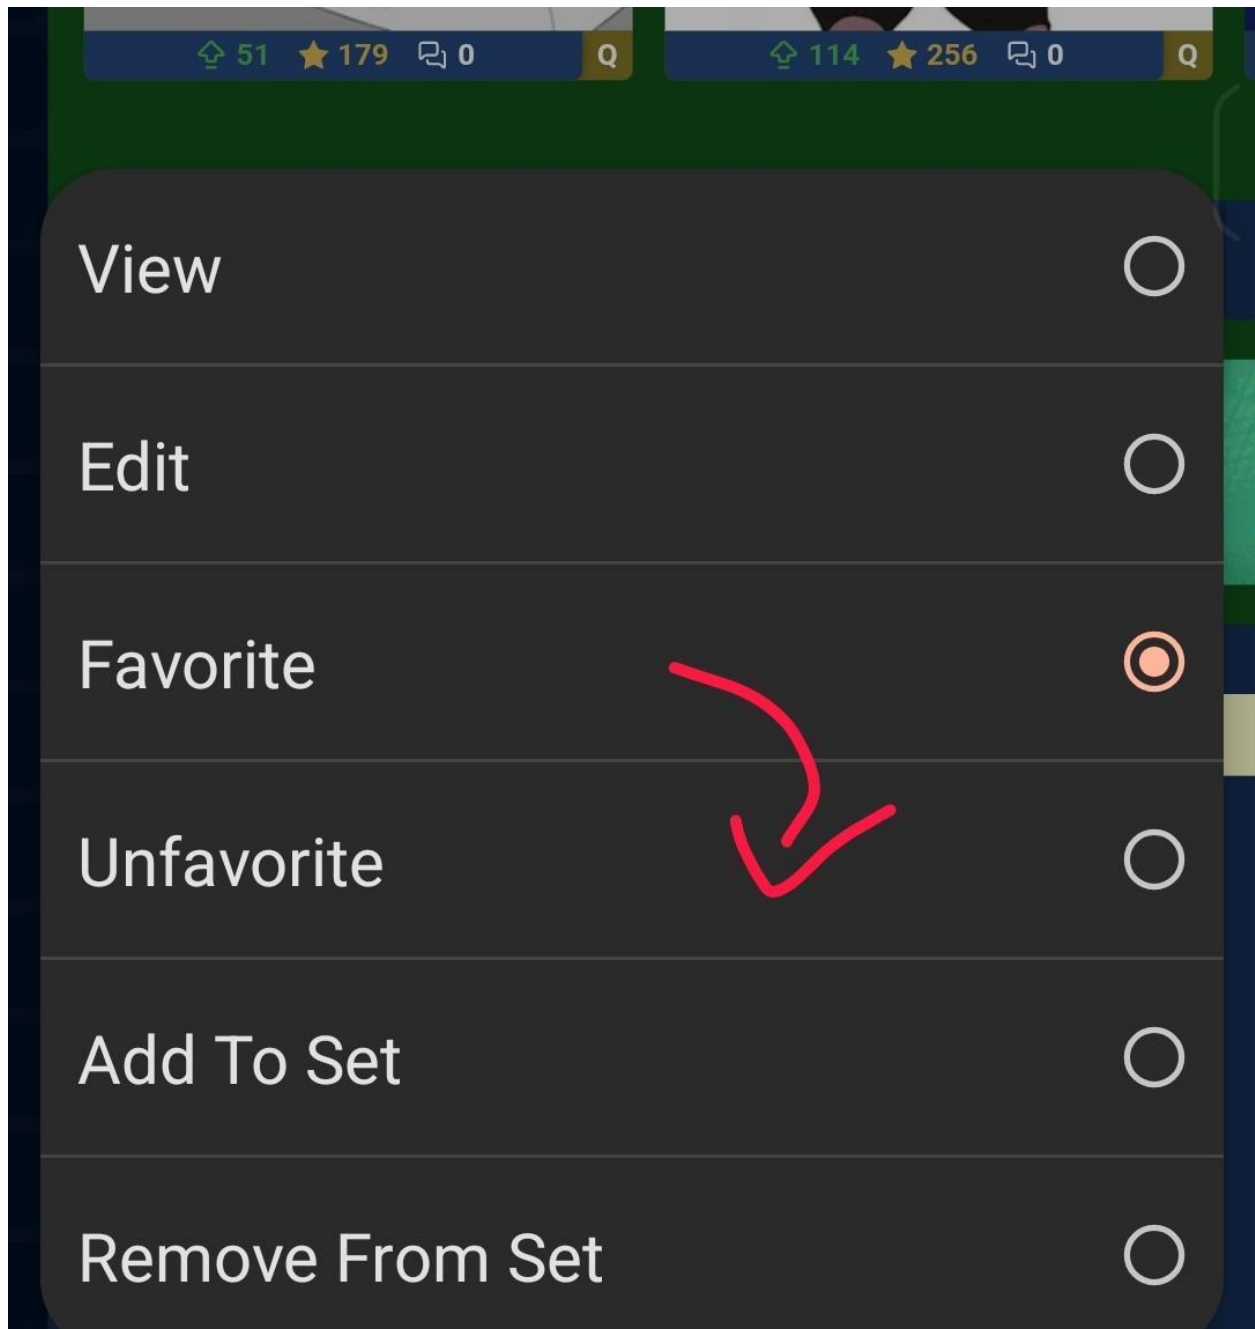

It's clearly fake.
And I remember.

But first I have to explain how I got into that Millions favorites in e6. It was my fault because I joined back in 2021, that means I was 14 or 15. Lex was also 14 to 16 too, when joining e6 because she literally saw my stuff. The difference is, I didn't know anything about what did I favorited in e6 back then. I favorited like millions of stuff immediately, just like when I first joined x around the similar Times, I followed like 2000+ people without knowing who I followed (now

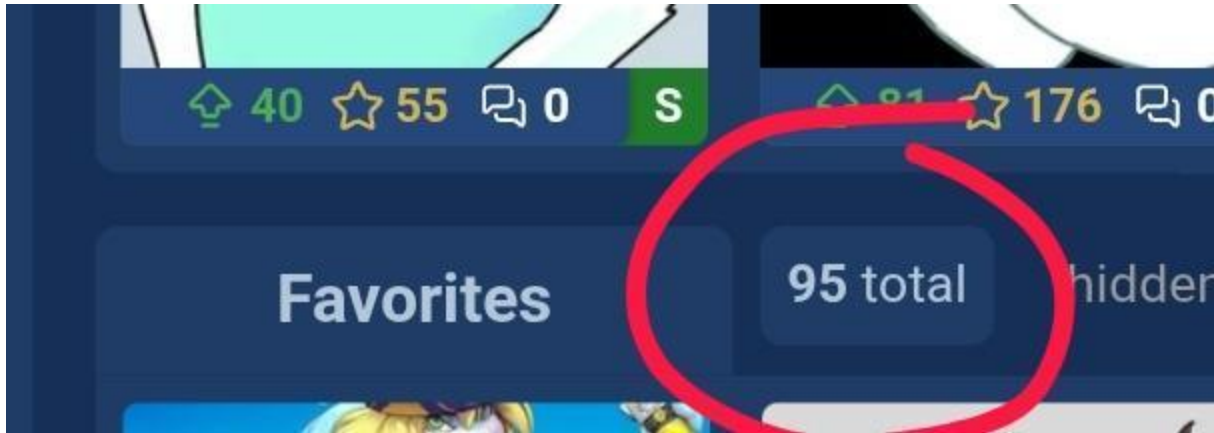

I'm trying to unfollow dangerous people in there too (Lex is actually helping me using like chrome technology to unfollow everyone that not following me in x).

Back to e6, I didn't know about what is feral, what is cub, what is Gore, and everything except vore, sex and inflation and that's it.

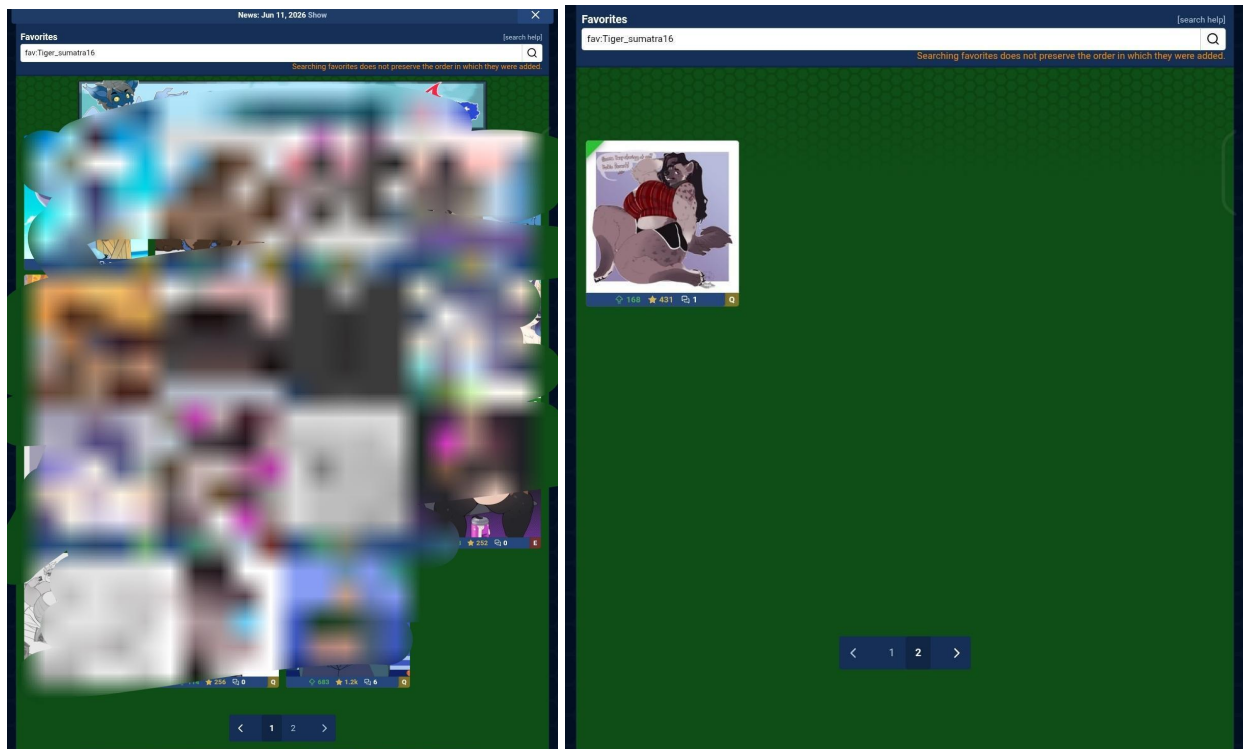

That time when Lex found my account, she was actually helping me by telling me about what cubs are, and why it is bad and told me to unfavorite them all. The same with penis too, I spend hours unfavorite all posts with penis tags, and Lex telling me how to unfavorite faster by changing the option thing on the left top from favorite to unfavorite to make me only click it once to unfavorite post.

but I don't know why my e6 favorite page still shows a higher number than the actual post in it.

I can only see 16 post in my favorite page now (mostly fat furries)
But it says 95 and not 16 posts.

I'm scared that if i still have all the weird posts that i favorited before i know it's wrong still can be available to be seen by people.

I learned about all of the bad tags in e6 one by one the following years until (this year, i forgot when, but it was a long time ago) I realized I had my e6 account might favoriting all of that millions stuff from when i didn't know anything. And I'm so scared of what I did. I immediately unfavorite everything except those 16 posts that are safe from all the bad stuff, but the number still shows 95. I don't know how to show the hidden post because it might still have the bad tags post hidden and people can see it and I'm scared. But i think i found how to make my favorite page private now, but i don't know if it works or not.

Back then I thought feral was the same as anthoro just in realistic style. I thought human drawings with a large chest are all adult and I thought cubs were just a chibi version of furry and I didn't know anything about Bluey characters too back then, I saw it as fanart and not a show because it's not aired in Indonesia. but i just realized there's a father dog, the mother dog, and they have two kids. I thought the father or the mother is the same as the kids, the color is the same. I'm so sorry, I didn't have any friend on the internet that can tell me which ones are bad and good.

Now talking about why her story is fake.

Lex knows about the meaning and the existence of those bad tags, before me. She said "I was trying to be weird because of the posts that labi favorited" but there's something that makes me think she didn't really do it for that.

She likes donut assholes a lot (it's like a drawing of an asshole that is shaped like a donut and really big), she likes photos of a person with two genitals, and she likes padding inside underwear too. I literally have never favorited those because it's very very specific to even find it. But she always sent me those donut asshole pictures and wanted to roleplay it with me while sending she using padding inside her underwear, and she likes roleplay a lot, like omega a lot, everytime she asking me for roleplay, i always answer "im noob at roleplaying, i have never roleplay ever, im not good at English" and anything similar to that because most of the time, I didn't even understand what she likes about the roleplay because it's just making me confused.

(I don't have any screenshots for this one, because she requested me to delete every picture of her). But she sent me herself wearing padding inside the underwear and a photo of her actually cumming on herself too.

(Im not good at explaining in English, so im not even trying to fake it to make it sound even worse). I have never sent a photo of me doing sexual stuff to her like she did sent to me.

But yeah her story is fake.

If she wants cub, diaper, zoophile, hyperpreg roleplay (the screenshots under there) because she "saw Labi's favorite page", why was she telling me it's bad in the first place, but then want to roleplay it? Isn't she supposed to avoid it? because she already told me it's bad?

And what are those donut assholes, multiple genitals and the padding inside her underwear stuff? I never favoriting all of those.

She's give up begging me to pick the age for the roleplay because I'm not choosing in that! (screenshot above).

She's the one pedophile for wanting that roleplay after she told me the meaning of cub. And zoophile too, but she is not telling me what it means (Now i know what it means). Maybe she gatekeep what it actually means because she always sent a hyena cub picture

5.

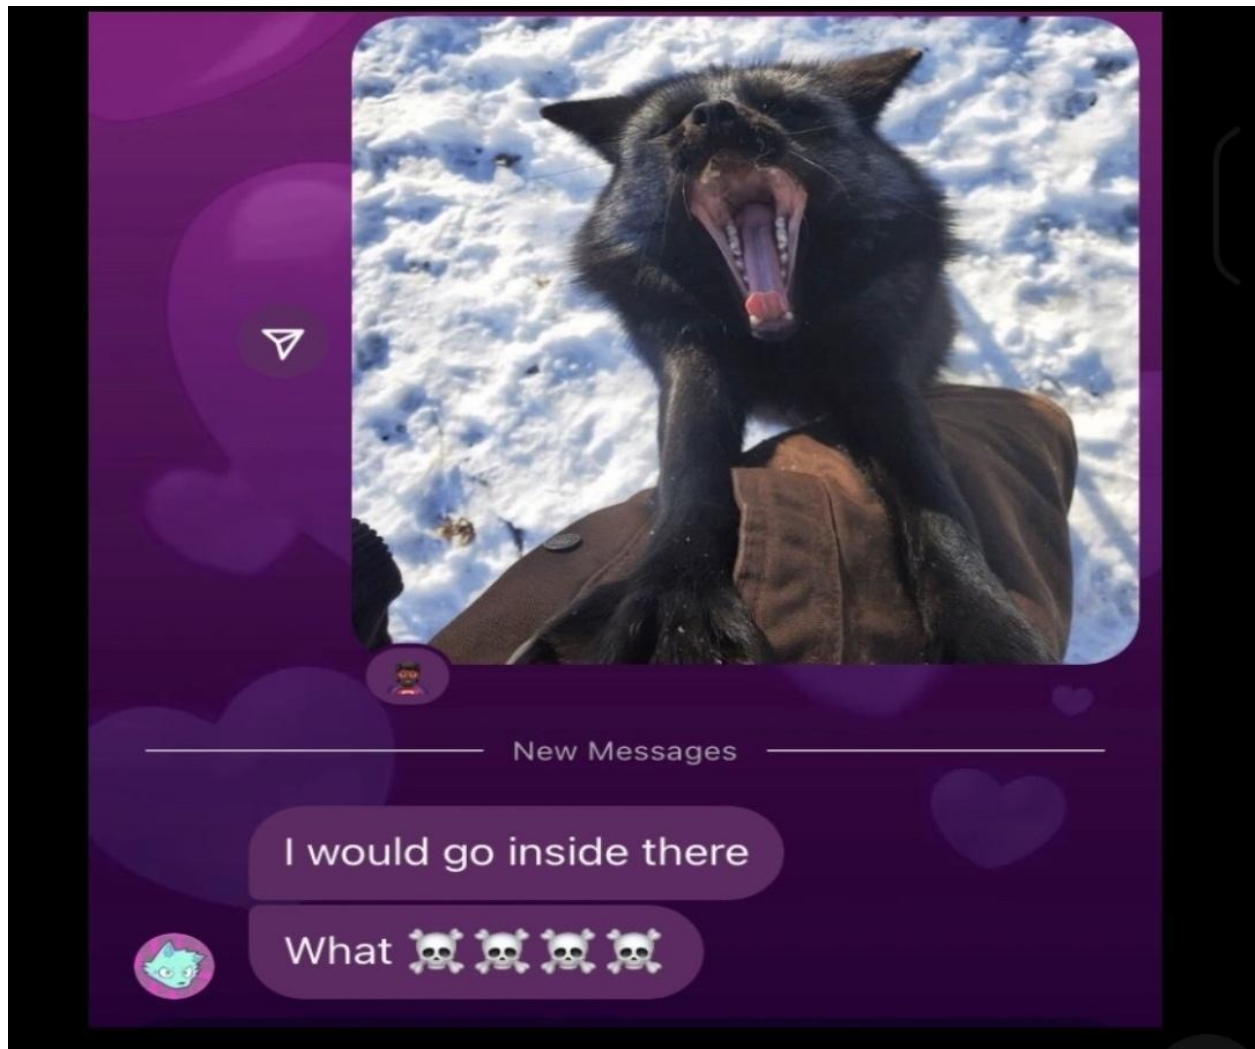

I remember,

But it's misunderstood. I didn't know about zoophile yet, she didn't tell me about the meaning of feral or zoophile, she just told me about cub and penis are bad. And It's not about I wanking it to the fish, but to the vore, the fish was swallowed by another fish whole. There's a cropped

message on top “that does vore” (why isn't she just cropped a little lower on top of the image, but thank you its not cropped). I'm not into the fish, I was into the idea of vore itself, i just didn't learn about its bad if it contain real animals in the video because I didn't know what a zoophile was.

Same with this one:

6.

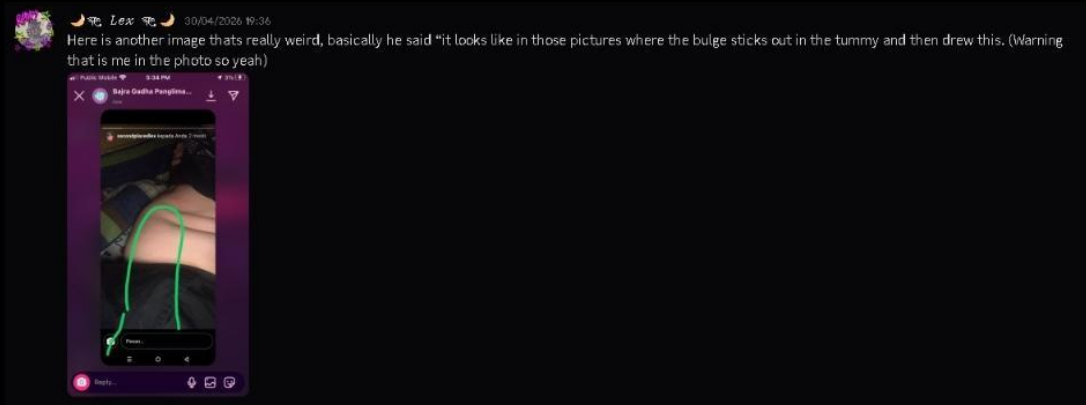

I remember,

But misunderstood

“I would go inside there”, which means I want to get swallowed whole into the fox’s mouth, because of the idea of vore. Not because I want to have sexual activity with the fox like how it sounds after I learned about zoophile and feral. Now I know it sounds so bad, just like what she wants everyone to see. But i really never thought about that because i didn't know about that.

7.

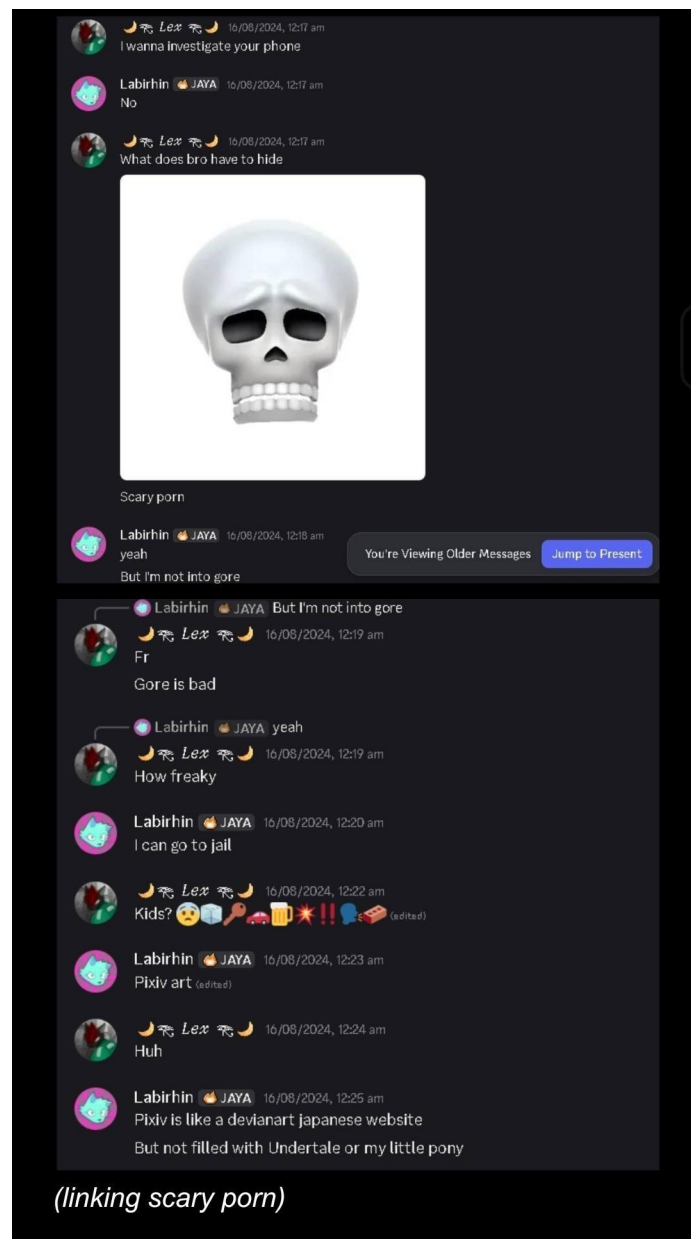

(obsession with vore)

I remember

I don't think it's vore this one, but it's more to joke because of how her belly looks like it's having a cylinder shape inside there. I didn't know about her age yet at that time.

8.

I remember

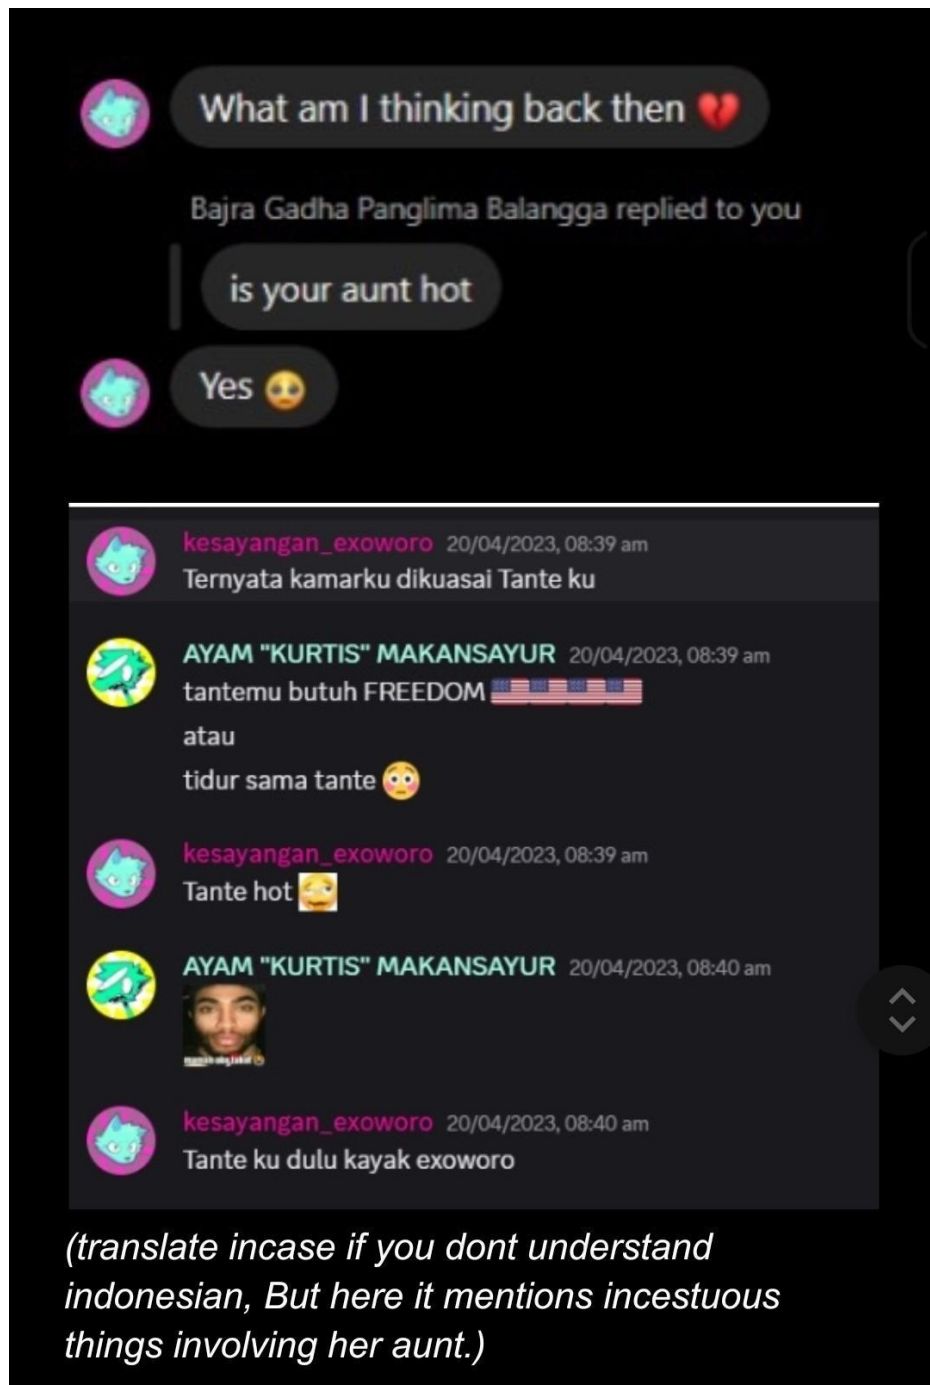

This is the era when I got bad influence from my highschool people that showed me this website. But they only showing me fat furies at first, And i try to use it myself, and stuck in scary animal crossing ai generated stuff, i didn't know how to use that website because everything is in Japanese and the only thing that i can search from japan is animal crossing and i stuck in the ai part, and i download some of it and scared to getting into jail because of i download ai stuff, like artist jail. And ai looks so bad back in 2024. Lex also found AI generated stuff that i favorite in deviantart I think. But it was stupid, I'm not supporting AI generated images.

But speaking of Ai, wow look what i found:

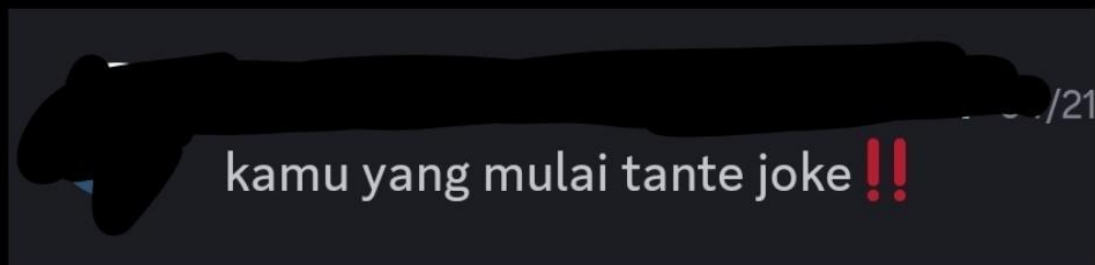

Why is she having so much of that dictator in there?

9.

I remember

But it's misunderstood. I already talked about this one on the 7 months old response. It was an inside joke between me and Kurtis because there's someone's drawing of a fat wolf lady with a caption about the wolf lady who looks like "that one aunty that you had a crush on when you were still a kid, but not really understand how it feels". And it's become an inside joke for me and Kurtis

(My irl friend said “You started the aunt joke!!”)

And I remember it also around the time of meme galvanized steel borrowing bolt from aunt in Instagram making it even funnier. I'm sorry my aunt, I'm just joking about all of that.

10.

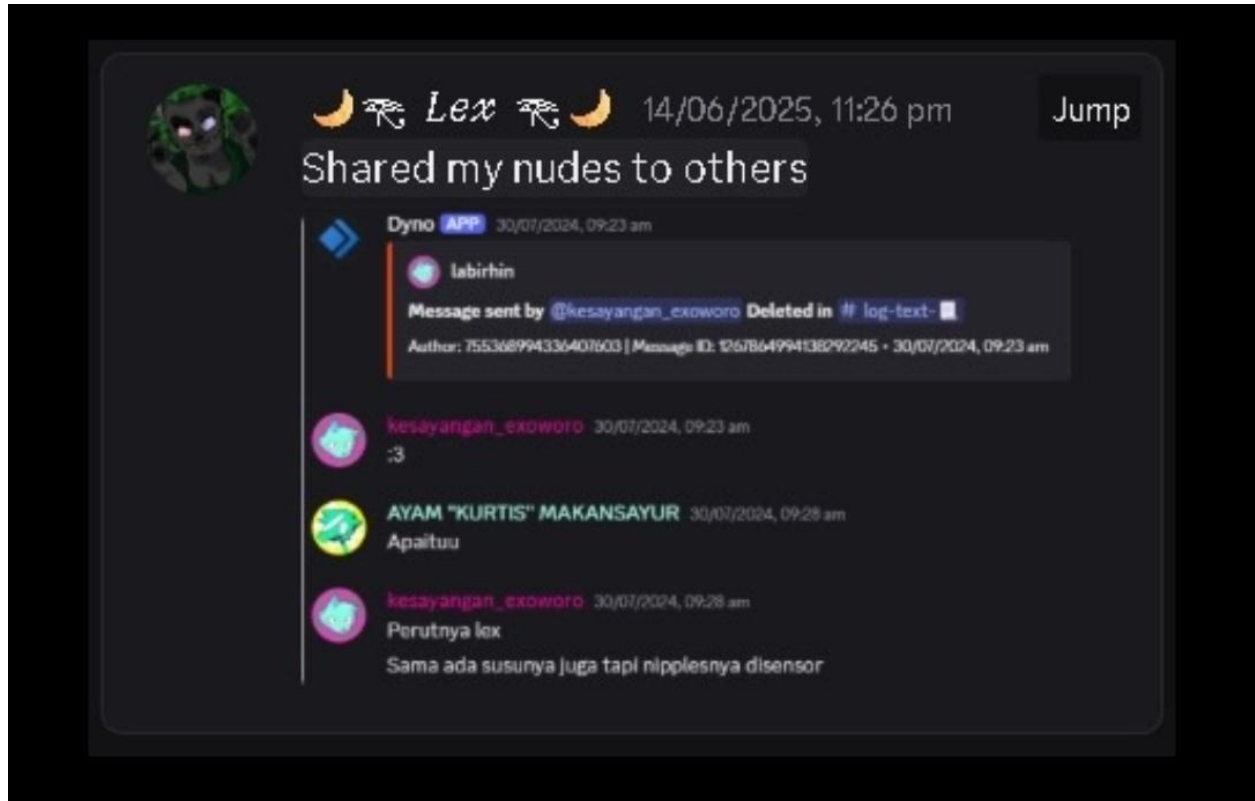

“Kenji, those are just silly jokes, there's nothing wrong with that.” jokes involving feral vore with a minor including saying stuff like “i love my aunt” knowing you are public figure is surprise me alot By the way, Labirhin didn't tell us that he's a welcoming or supportive person. Look, if Lex was saying that she was a fan of his for a long time and almost killed herself, it surprises me. But first, I want to show you some disgusting things about Labirhin.

(zoo kink)

I don't remember this,
but it might be real because i didn't know about zoophile, feral yet. And I thought nimona was an adult, i barely watched and remember the movie because i skipped it a lot just to see the animation and the style. All I know is she can shape shift and the text clearly sounds like a joke.

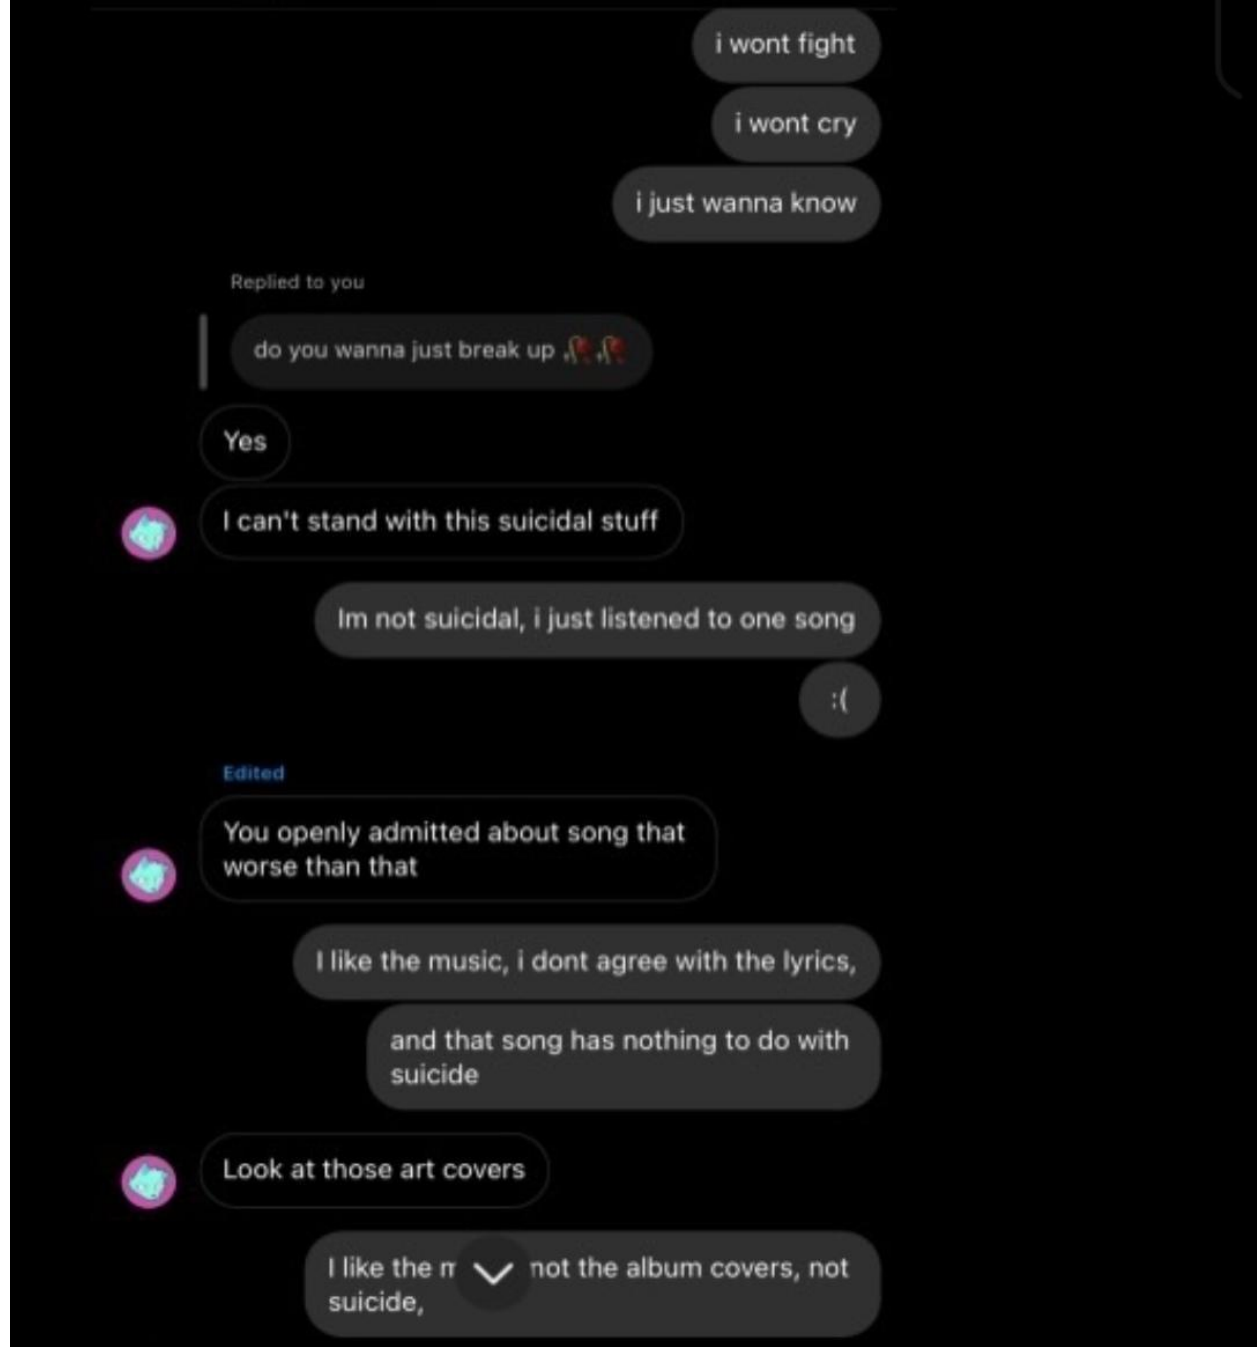

11.

I remember
It looked exactly like the same one as the number 7 and she allows it in the docs? To be seen by a lot of people. I even censored her nipples and I didn't know about her age at that time. And it's also in a private log channel (you can see the dyno bot's log on top of it because I just upload then delete it so fast because I only want to make Kurtis see a glimpse of I have a girlfriend).

12.

Anyways Regarding her depression, she started listening to music like popkill or incelcore, which angered Labirhin, who decided to argue with her.

I remember,

But this is not the full context. A few days before or maybe just a day before this, she literally threatened to shoot herself with a shotgun because i don't want to be with her anymore, i found

out about her age from her friend, then I was scared and begged her not to shoot herself. She said she has a shotgun in the basement and her necklace is literally the shotgun bullet. And she stopped from shooting herself. The next day

She talks about music stuff, at first it's actually chill because she's talking about she's the top 1 listener of my music in Apple music i think? I forgot. But I'm thinking that I need to ask her again if I want to break up. And she shows her top 5 songs and three of them have very Gore album art.

Ronnie McNutt
PopKill

Chris Chan
PopKill

Scars
PopKill

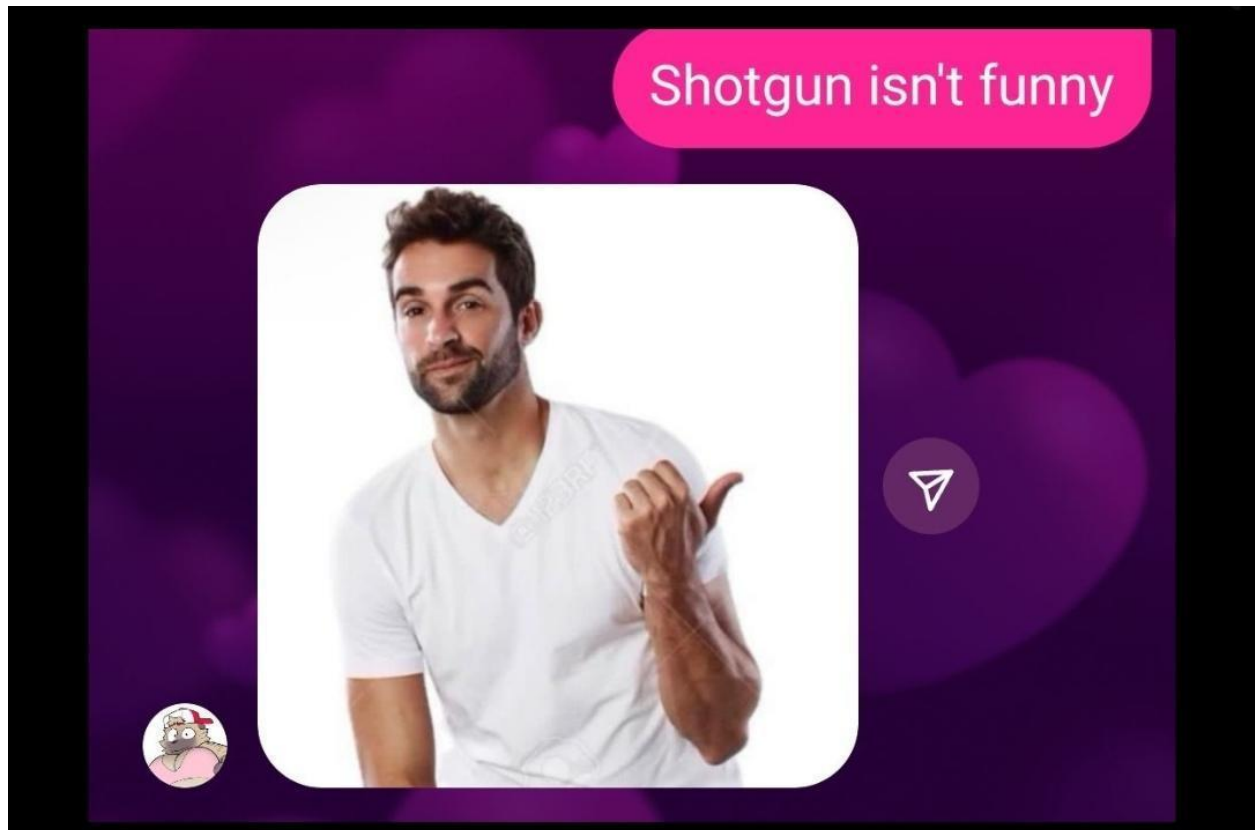

I just don't want all this suicide stuff got involved again, like im really scared of this stuff. Im so scared of suicide because of i Saw something that traumatize me until now, was a title of one of the song in her top 5 song. That's why i said "i cant stand with the suicidal stuff"

Its not means im not supprting suicidal people, but i just too scared of the shotgun related suicide. And i don't think underage should listening to song about suicide, she should get help and support from her family,irl friends, therapy or psychology/psychiatriis counseling because one of my friend is actually getting better with with mental health, she have the same thing on her arm like this image of Lex, but my friend's one is healing.

Lex was a nice person before all that, she actually gave me robux in draw to donate and even played Minecraft together with me. She also bought me buckshot roulette, like an interesting choice for a game about shotgun stuff but ok.

I wish I could pay her back for the robux and the buckshot roulette because of that one time we broke up for the 3rd time or something, it's actually peaceful. Like we were saying "goodbye nice to meet you" and "I hope you will do good in your next chapter in your life" and "i will always remember you in as my past chapter" while we separated on our own path... but then the next day she DMed me again and was so angry like crazy. It's so sudden and I think it's because of Kenjius manipulating her. I remember around that time she said that her friend told her to make docs about me.

She shows her interest in school shooters too.

I learned about what school shootings are also from her, I think. Like she shows me her favorite film is elephant.

Membalas dirinya sendiri

and i said one of them was hot

but it doesnt really matter
because i think lots of
things are hot

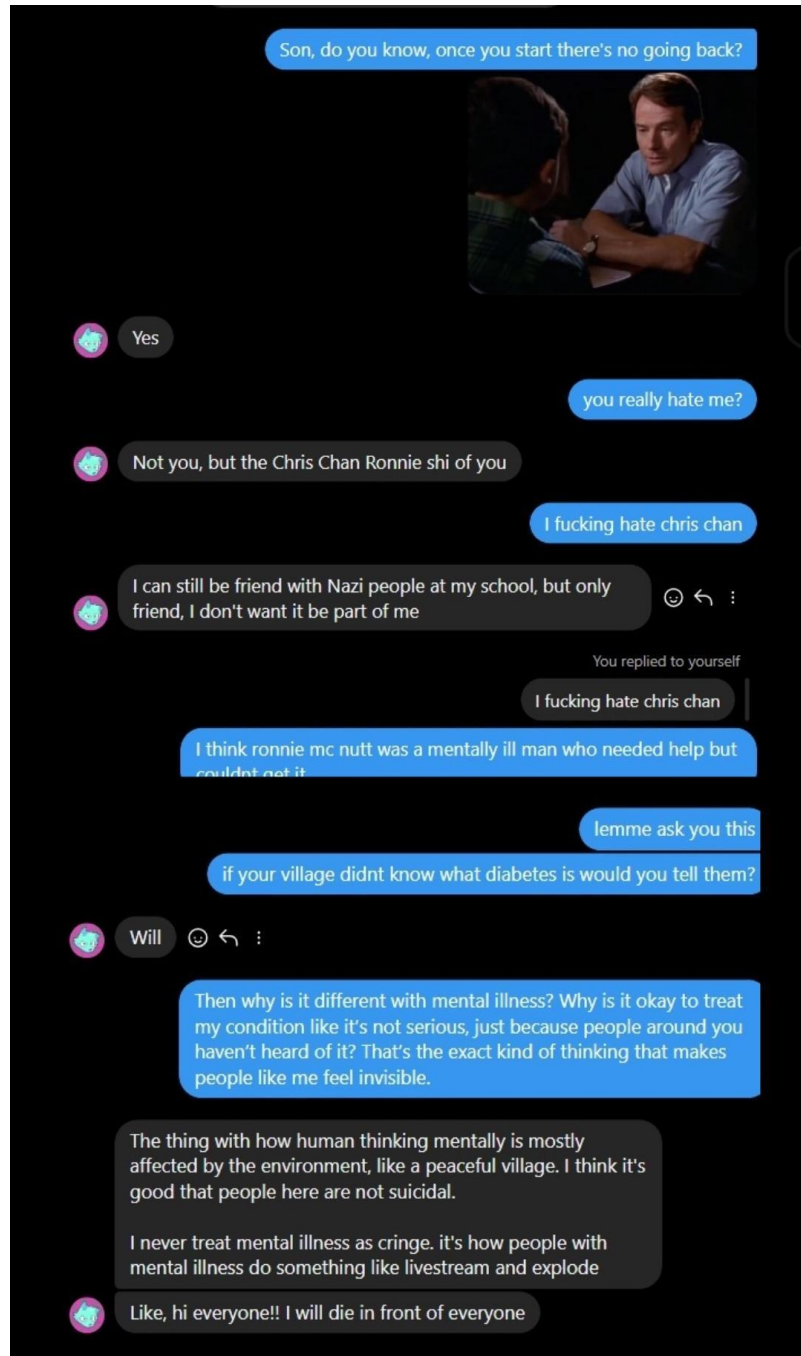

the shooter in elephant

(They replied their own message)

I don't know much about mental health, because I'm not studying in university to learn about mental health. But I know this type of depression is dangerous if she doesn't get help. I don't want she harm herself even more, suicide, or harm other people in her school.

13.

I remember,
It has been misunderstood and I already explained this part in my 7 months old response about this. I'll just screenshot it here.

The Nazi part:

And the nazi people in my school is not a neonazi or og nazi, it's just like they pretending to be nazi because it's my class's inside joke, im an art student, their jokes are like Hitler getting rejected from art school type jokes (my group class name was "nazi goreng", its parody of "nasi goreng", means fried rice), but they not actually neonazi like what kenjius explain.

Kenjius also said that I am disrespecting people with mental illness and said mental health doesn't matter. But I know what kenjius said about the choice or not, Mental illness is not a choice, i never said its a choice. But if a person really wants to take their own life, I feel like there's a choice to do it "not" or in front of many people knowing that people will be scared or happy about it (im not asking anyone to do it in any way too! getting help from someone who cares about you is what im asking). People with no feelings will use a tragedy as something like a whatsapp sticker to make other people scared or even joking about it, and it's just more disrespectful. But speaking of this, I read this story of my show that helped someone through depression and it makes me so happy because I can help, I even tell people about this.

APPRECIATION POST

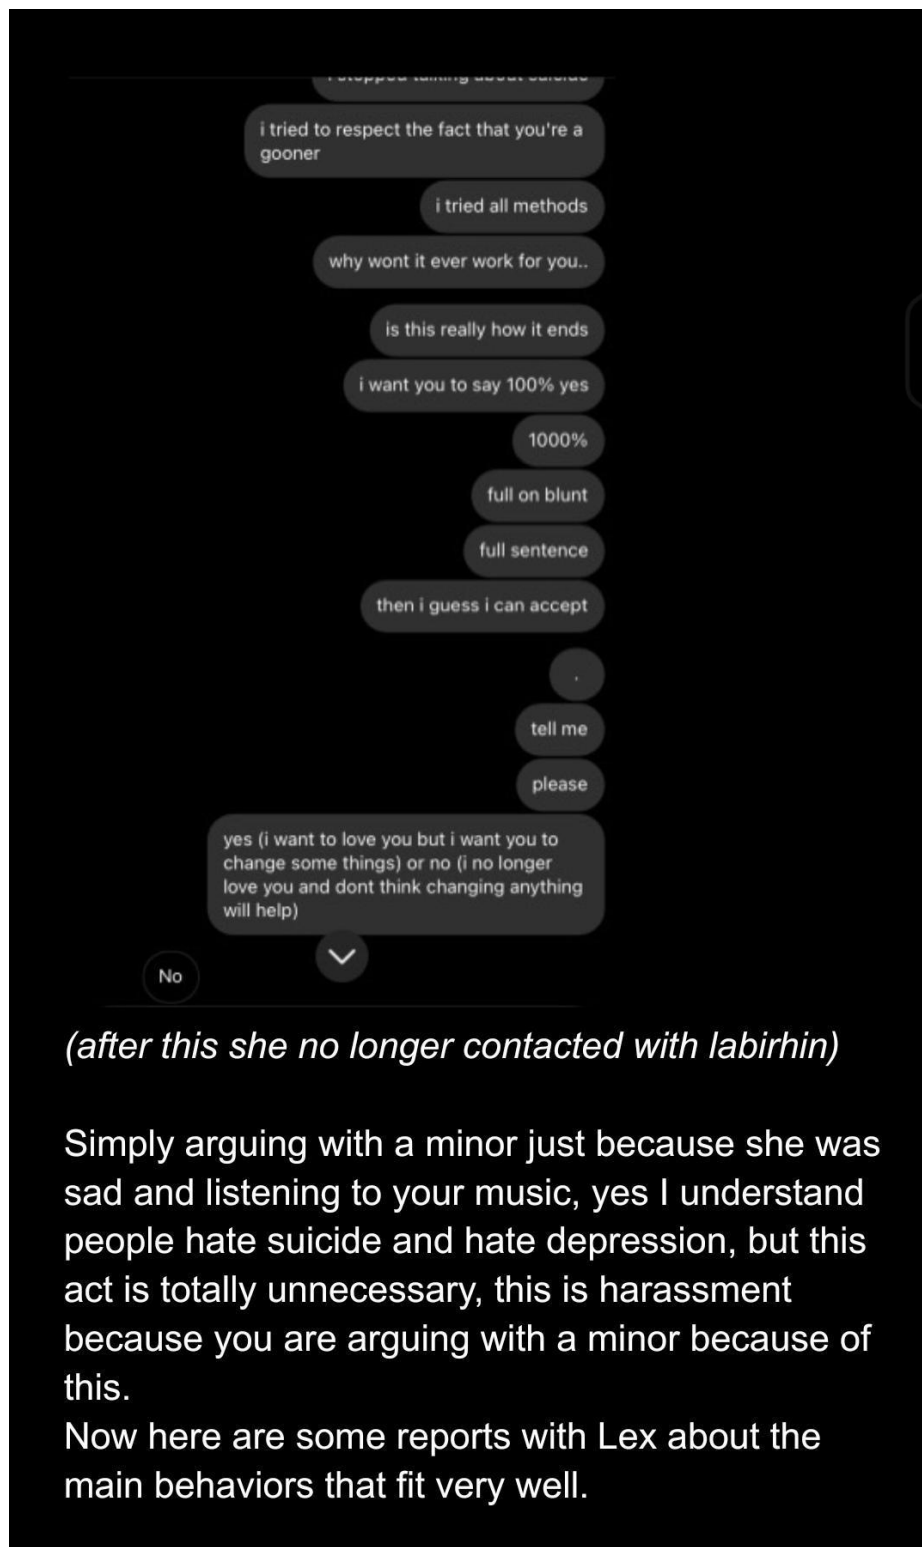

I'm adding a NSFW warning just in case since this post contains topics like depression, attempted suicide, and other things.

On march 11th I was talking to my friend on discord which I haven't talked too in awhile, while we were talking he told me that he recently got really interested in a up and coming indie animation and he showed me/give me the links to the episodes and when I watched it, It basically become my 1# most favorite indie animation series ever as I've never seen such a unique and beautiful animation style in such a long time and the plot was so original too and gix rapidly become my favorite character (plus comfort character too) as well since I can relate with him with some things, I've never seen such a underrated animated series in my entire life so far and I'm surprised that this hasn't have millions of views by now since it's so high quality and the music is so freaking good as well, but anyways to the main thing which is my depression, I've been suffering from depression for months now as my mental health was so bad since one of my online friend was extremely suicidal and try to kill himself so many times to the point where i lost count and I almost failed to save him multiple times, he's the closest friend that I ever had in my entire life and like a brother to me, and even know I have slight PTSD now due to how many times he tried to kill himself and cause me to stay up extremely late at night since I was worried that he might try to kill himself while I was asleep and me staying up late was already a big problem for me and it contribute to that, I never give up on him even though he told

It's clearly fake

Point out where I said NEONazi in any screenshots?

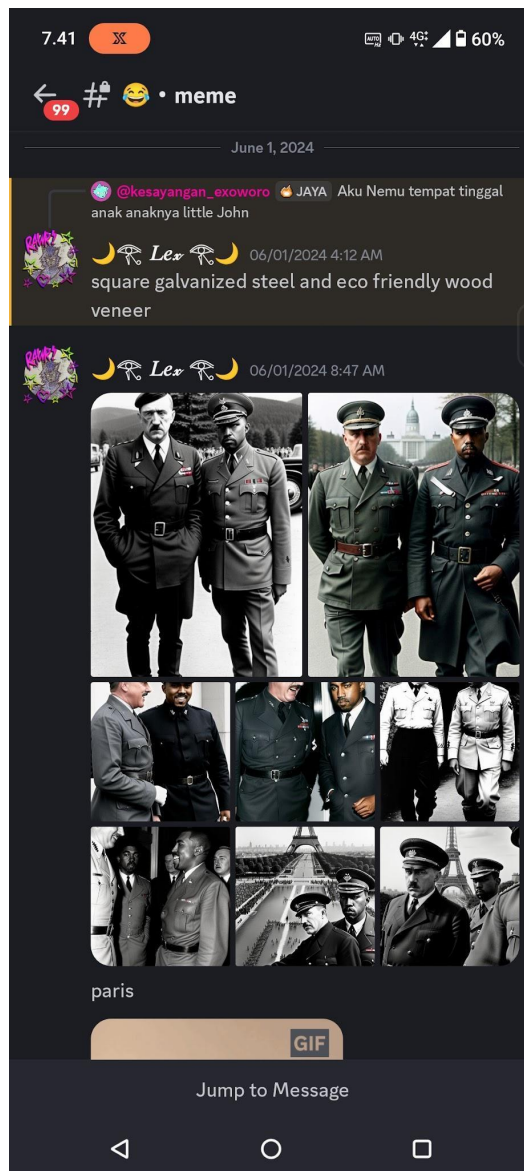

Is the proof in the room with us?

Is it in the number 13? Because no, it's not NEONazi, it was my highschool group class name which is a larping nazi because it was an art school, and everyone's jokes in that class.

Nazi goreng is a parody name of “nasi goreng” which means fried rice. So that means that group class name is “fried nazi”

And who is the actual Nazi? Lex

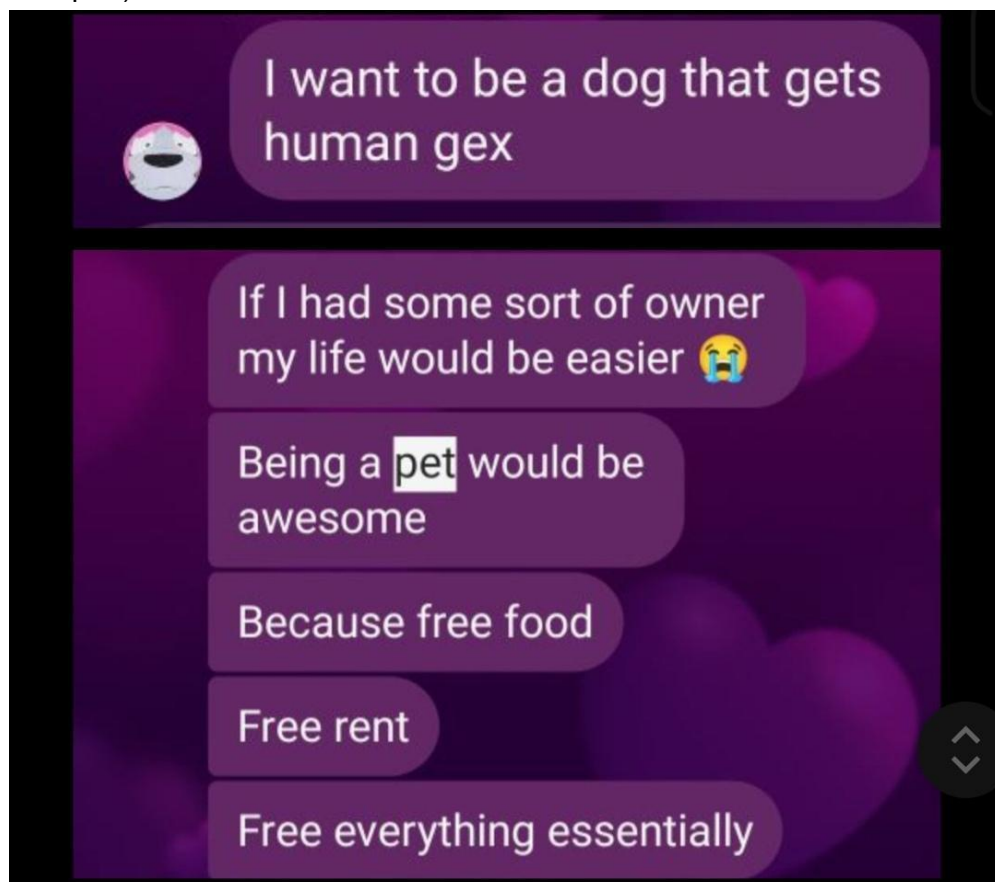

I remember and don't.

But now with context. The fish was before I knew about zoophiles and im more thinking to the vore than to the fish.

I hate this account so much because I don't know how to delete stuff. I was 14 or 15 when I uploaded all this drawing. That means all of these drawings should get removed because the one who drew and uploaded it was an underage artist.

And what even was that favorite page, it's like Ten Millions post was there, before Lex told me how to unfavorite posts. And now it still has a lot of numbers, but the hidden post is not showing itself. Is this glitch or I need to turn on something, or I'm blocked by those artists? I literally don't know. I'm not what i was, now i know all the meaning of the bad tags.

Speaking of bad tags, I didn't know that a post in e6 can change its own tags to the scary one without the uploader contribution. Because some of my deleted posts have very scary tags that I don't even remember being added to, and it's all forever there.

Lex actually helped me delete some of my posts a long time ago. Thank you Lex. But the scary tags are still there forever. But she were underage too. Why is she in e6, it's just as stupid as me when I upload stuff at 14.

I'm not doing anything human in my drawing. I was 14 at that time. And I'm scared of drawing women's genitals. I have never drawn sex and I have never drawn women's nipples. I think it all goes back to art, rather than porn.

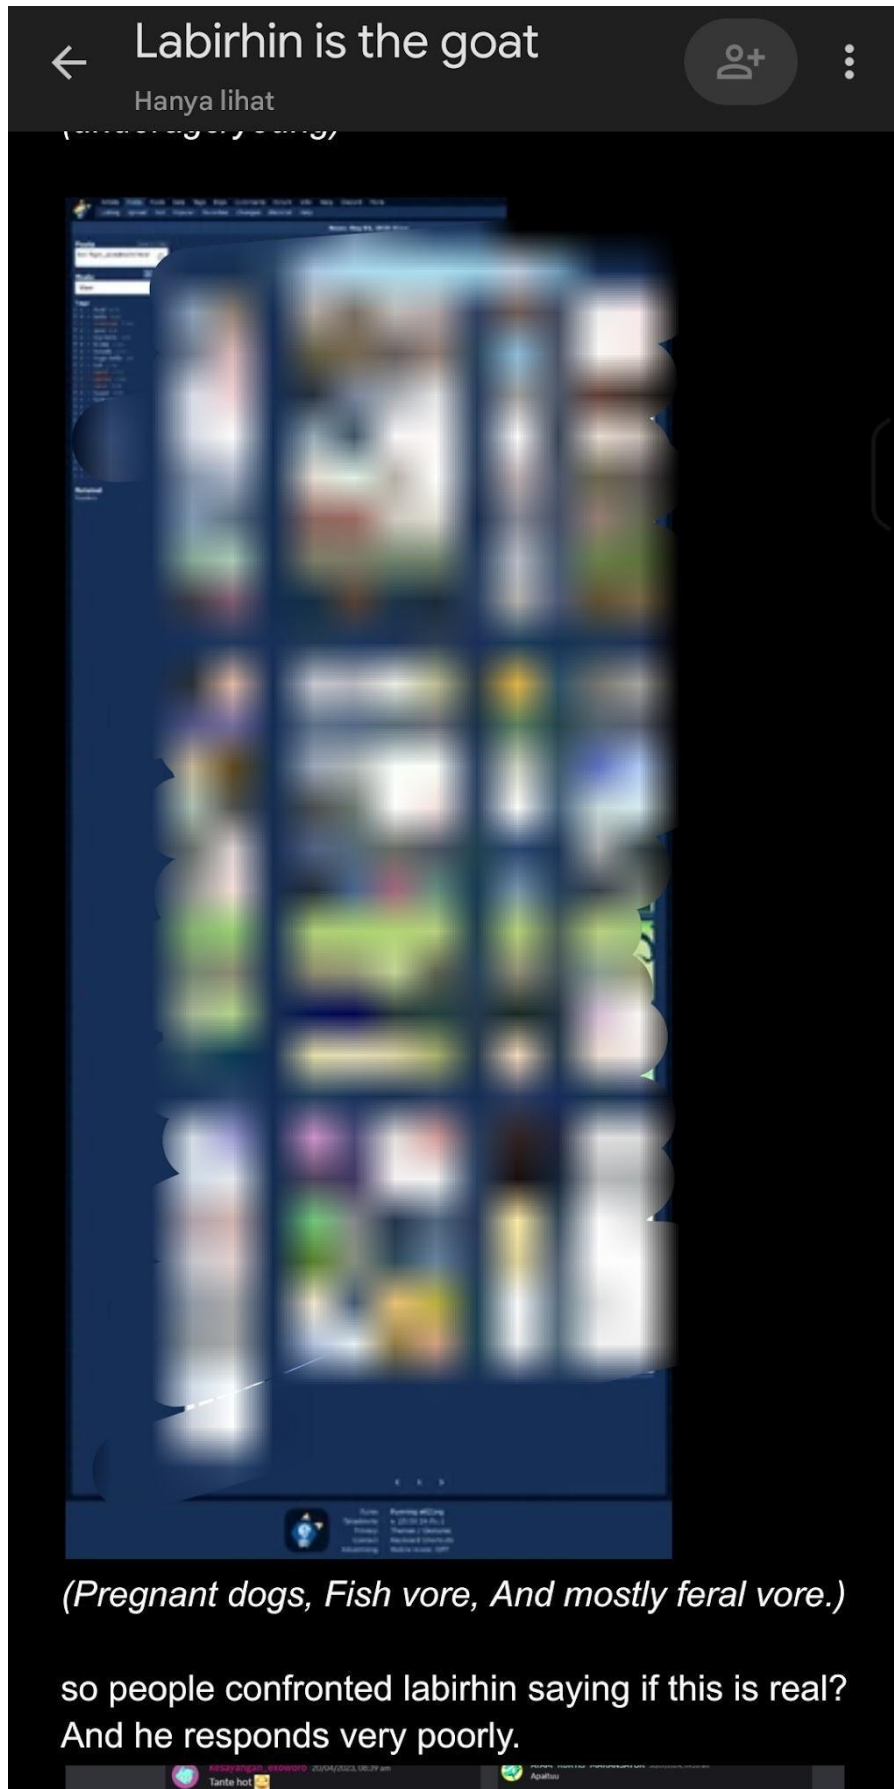

But who did draw porn that was actually doing sexual stuff? Lex

I genuinely don't understand what this is.

22.

(Pregnant dogs, Fish vore, And mostly feral vore.)

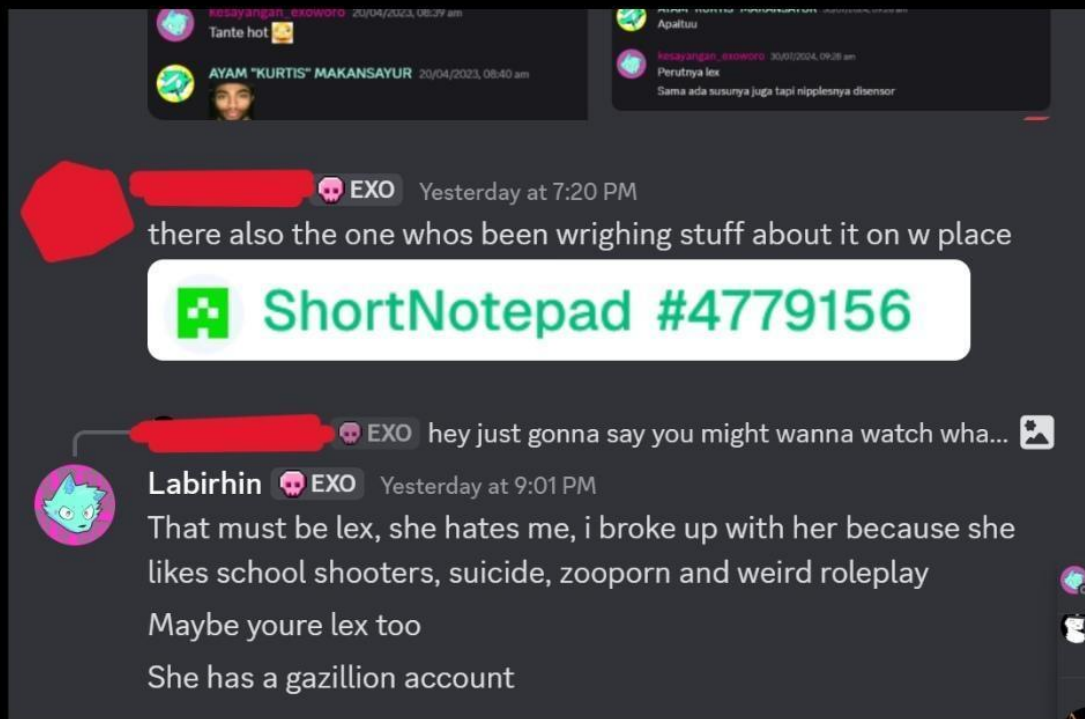

so people confronted labirhin saying if this is real?
And he responds very poorly.

I remember

But all this before I knew about the bad tags. I'm so sorry, I did favorited so many posts a long time ago before I knew if it was bad, I didn't have any internet friends that told me about all this, I didn't know about the tags and what all those really means. I always say this over and over again because I really meant it.

23.

so people confronted labirhin saying if this is real?
And he responds very poorly.

(yes he said that, he also said the same thing in my comment section about her on youtube and he simply deleted, what cowardly)

I remember the discord one, but i don't know who it was, but I never commented on kenjius YouTube ever (if yes, it must be one of the people that hold my YouTube channel)

It was around the time the kenjius video was uploaded and i didn't know who is another person or who is Lex or kenjius anymore, because Lex really did that multiple account texting to me as different people and makes me feel stupid to trust people online. I didn't even understand why

she did that, it's like I'm just scared of people talking about all this Lex stuff because they might just be her in disguise.

I always respond very poorly because I can't really type what I want in my head in English, especially when I'm scared because it was around the time Lex and Kenjius stuff was not that big. So when people know about it, I probably assume it was them. I'm sorry.

@Labirhin • há 1 h

My ex keep harassing me and threat with suicide for not saying what they wants. many screenshots was fake or made me. And Lex have so many account and use those account to get freaky to me pretending to be other person. Don't believe. keep listening to music of school shooter and shotgun to head scary stuff. I don't like.

And Kenjius probably angry for me not replying to his messages in forever. But he keep attacking Finny too. They make some mistake but long time and is ok with other now and they help. Kenjius keep being rude and I block Taggo on patreon 🌹 i lost 3 dolar

I just want to stop being harassed by this persons 💀 sent me arm with cut and blood 💀

I don't have any memory of typing this ever.

Is it YouTube? Because there's multiple people running that YouTube channel.

Freak? You simply spent years and years being a disgusting man since you were 15 years old. You literally drew this scat art, including your Instagram account (not the other one you know, the one that was deleted, this one).

also what do you mean thousand accounts?, what do you mean im harassing you or your Ex girlfriend is harassing? Where's the evidence? Where's the evidence about her having a "GAZILION ACCOUNT" like what does this mean?

I remember

That I did bad stuff when I was 14, it was because it's the first time I found out about furry stuff. I was too immature to think what I did was bad or not because nobody told me about which one is bad or good, I don't know where's the line of too much. I didn't really understand it back then. It's like the first time I tried to use the internet on my own.

The scat art 🦋 (i didn't even know its called scat when i Drew that, why kenjius is 15 and know what is it, is just like goofy for me) it was drawn not for being gooned. but i drew it because,

back in 2021/2022 i always do the Instagram story drawing request where you can type whatever you want (like prompt) and i'll draw it with that iconic pink line, i was a nobody back then and i was 14/15 and i don't know it will be one drawing that always haunt me forever. I forgot who request that but that drawing was uploaded in the early day i Made x account 🦋 and the first thing i did on x was commented on my irl friend post using that drawing (because he was one of the people that request in my Instagram story). but then i forgot if i ever commented that with my x account. Some people must have downloaded that and always used it for this type of stuff and called it scat while i didn't even know if it even called scat back then.

I can't open the drive because it's deleted?

And why kenjius document always changing too?

Was,
and I only knew what he looked like back then. He's not even in Indonesian history book too, at
least the schools that I've been through

27.

A. On the first page he doesn't understand a joke like she was calling you, what sense does that make? This applies to the second page where he doesn't understand it as satire; she's talking about the actor, not the actual killer in this incident. It mainly applies to the third page because she was edgy at 15 or 16 years old.

Is it satire if that happened a few times while she says she has a shotgun in the basement and is going to kill herself?

she more liking the school shooters character because he's doing school shooting, same like she liking postal guy because he shot his own head.

27.

B. On pages 4 through 6 and 7, he's showing that Lex was a "freak," even though in the evidence she asks "choose whatever you want" and he replies "I don't know 🙄," and then at the same time he says "I never said I liked roleplays, she forced me." If she forced him, where is the evidence for that?
And why were you acting like you want to do this?

The proof is literally in there, you just have to open your eyes.

28.

C. On pages 8 and 9, he tries to show that Lex is actually a strange and criminal person, but at the same time tries to prove that she has alter egos, which is why she's such a freak. What kind of accusation is that? There's no evidence showing the accounts she has This includes page 10; he talks as if he's sure she has a lot of alter egos, but in reality, she's just responding to you, worried about the cuts on her arm.

It has Ties ever 💀💀💀

The account name is firstplacedjack

And her account is secondplacedlex

And the third account i forgot the name but she use this drawing for the profile picture

Is every account run by each of her alter egos? If so, why can the alter egos change the account manually, why don't they use the same account and tell who's speaking here.

29.

D. Throughout pages 18, he shows evidence upon evidence of how disgusting Lex is, even though he's proving the opposite. Labirhin is an adult, and he's talking to a girl who's 15 or 16 years old. Even knowing this, why didn't he block her? Why did he keep talking to her for over 3 or 2 years, knowing that the young man became like this? it just edgy jokes simply

Maybe because im not from the west that i don't understand the internet culture, about these type of suicide, school shooter, and shotgun stuff are just a normal thing or not. But I don't think it's okay to be this type of person. I was new to the internet as late as 2018-2019 and I didn't know about how people can be so cruel and scary like threatening me that they will kill themselves if i do this and that. And then making misinformation about me and announcing it with bad words all over the place to make me a bad person.

And all i got is this

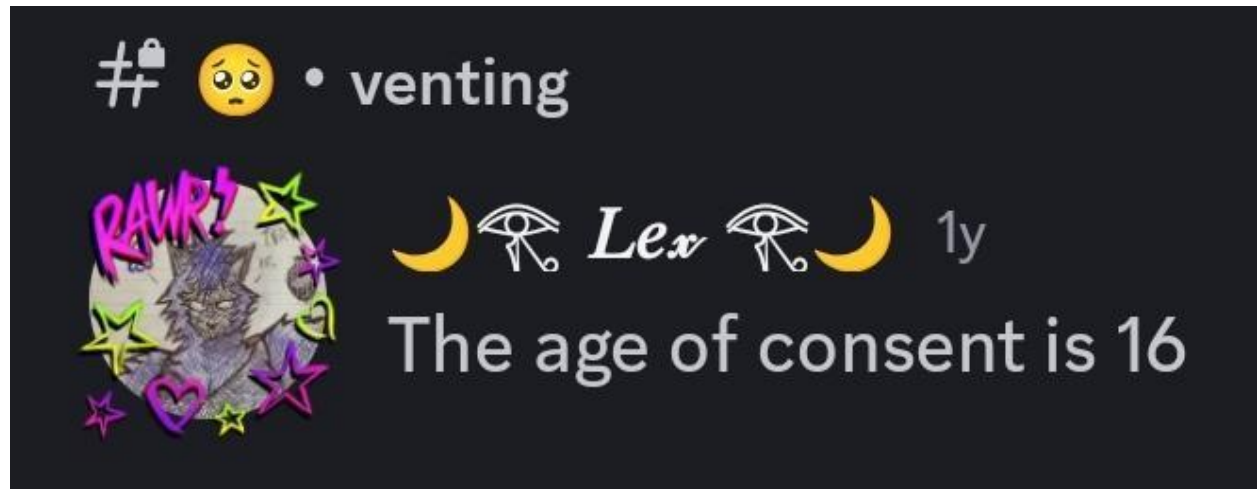

E. (GO TO PAGE 26) New in 2019? You don't know what this means because it is from the west?

Are you serious? You basically talk about vore and also have confirmed that you are into vore stuff, you basically make jokes about vore, you simply ask a 15 year old her pound like wtf?

I have never blocked anyone before, i didn't know i can do it until i can block kenjius 💀 maybe he's the only one that i blocked ever. I just think that blocking is just cruel for Lex, she can block me whatever she wants to, because she's the one who needs to choose whether we broke up as a friend or as kenjius mode. At first she want to choose the friend one, but then i think one of her alter egos is literally just kenjius 2.

I don't want to consider myself an adult before I go into campus like I am now, because I am more educated now. And if kenjius asks Lex what an adult? She might say herself is an adult

too. But why is she still sending fat furies in server full of minor? And talking about vore,e6 and cp too? In general channel KDI, server full of min

The average age at which a person is first exposed to pornography has been a topic of much study and debate. Research indicates that this age has decreased over the years due to the increased accessibility of the internet. Studies from the past decade suggest:

1. **Boys** tend to be exposed slightly earlier than girls, often around ages **11 to 13**, though some reports suggest initial exposure can occur even younger, sometimes as early as **8 or 9 years** old.
2. **Girls**, on average, are exposed a bit later, usually in their early to mid-teens, though this gap has been narrowing.

The factors influencing early exposure include:

- **Increased internet access:** Smartphones and tablets make content more accessible.
- **Peer sharing:** Friends may share explicit material.
- **Accidental exposure:** Ads, pop-ups, or innocent searches leading to inappropriate content.

i think cropped porn is fine bro 🙏🥲

Kenjius's defense is just like "its just edgy, its just an edgy jokes, she was just edgy" bro im also edgy and joking around too and didn't understand anything back then because I'm still learning English, im locked in after i went into campus.

The only way Kenjius can defend her is just by saying everything bad she did was her alter egos who are edgy and always joking. And don't forget to defend yourself from doxing, threaten people, then harass people too? Problematic, control freak, attention seeing little prick, awful and horrible human? (I just copy and paste his achievement from number 3 🦴)

Bro, people can be into something and joking about it at the same time 🦴. Its like "i love this movie!" Then "hahaha this scene the cgi is goofy ahahaha"
It's the same like "wow vore" Then "ahahaha vore is goofy"
Why is that hard to understand for him 🦴. Is kenjius brain already full of the address of a thousand people that he dox and cant even do basic thinking.

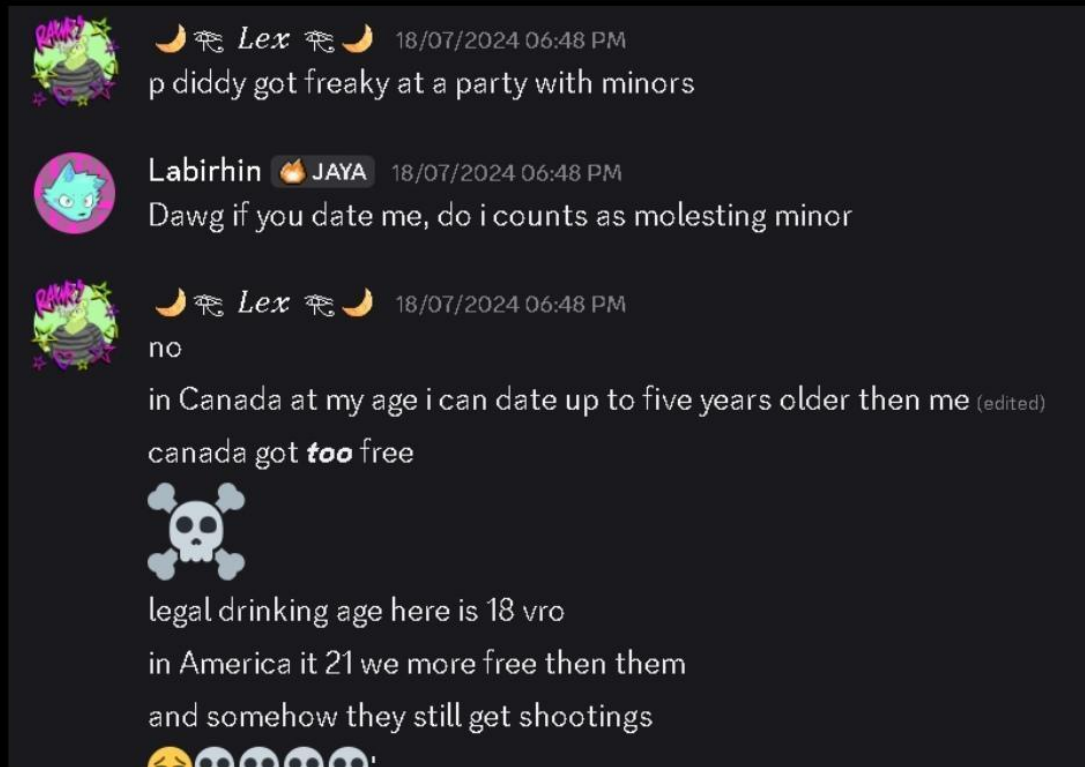

I don't even understand what he type on the last one there
"You simply ask for 15 year old her pound like wtf?" bro what is this supposed to mean 🦴. Like what is a pound? Is it poundsterling, or pounds like weight? Because i don't even know pound weight 🦴 Indonesia use kilogram. So I don't know how heavy any pound ever was.

I literally don't know so many words because it is from the west, like i always go back and forth to google translate just to read kenjius docs. Sometimes i always Heard a word and misinterpreting it by other meaning 🦴 like what i learned is "minor" why don't people just type children or kids. I thought minor literally like minority or minor keys in music. Or like word grooming, in 3D grooming is like modeling but for the fur or hair. But people use it for manipulate 🦴

I'm not from America, Mexico, Canada or Brazil, so I don't know anything about their culture. But thank you for teaching me a lot about all this internet stuff.

30.

A. Another lie in the first page here's the evidence proving that labirhin knows her real age, and also lex is a girl not a male.

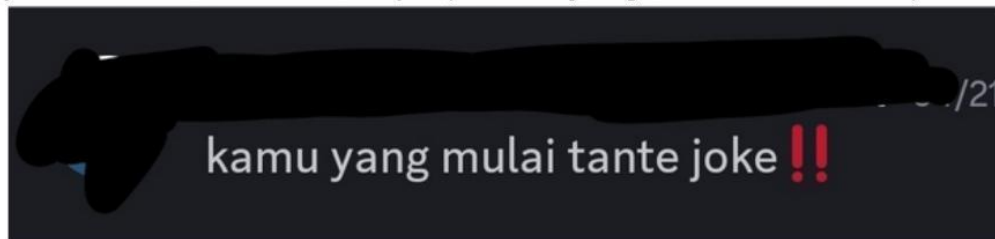

I didn't know the meaning of molesting or minor 🦴 i just Heard it from Instagram reels. I didn't know what it even meant.

And is that even a real screenshot? I have no memory of that. She always says she's an adult and there's no proof I say the exact age she is in that screenshot ever. And what is she even talking about, shootings? I didn't know shootings mean like gun shot, i thought shooting is film shooting before Lex show me "Elephant 2003"

31.

B. In that private chat, Lex was there or you were posting this because you thought it was "funny." By the way, there's no artwork of that "aunt joke." If there is, the artist must only be making an incest joke.

The aunt inside joke and the Lex Belly pic is not taking place in a public server full of minors, Lex hides the fact that it takes place in a private channel for me talking and joking to my irl friend from the old server. I think the aunt joke started from someone's drawing, it's an artist from Seattle as I remember, but I forget who. The art caption saying something like "she's like that one aunt that you used to crush when you were a kid" and it's become an inside joke (im not disrespecting the artists who Drew that art)

(My irl friend said "You started the aunt joke!!")

I didn't even know what is incest even mean 🦋 until last year. I must always be ready it like "insect" without knowing it, like I thought it must be a bug or something. Then i realized its a differet word and written differently 🦋. I didn't know anything about incest.

there's the original artwork, but i cant find their x account. The only remains of their artwork was a telegram sticker pack, their drawing is not porn or scary drawing. It's just similar to this.

C. It's impressive that in the same sentence he admits to being friends with "dark humor" and especially being in a group called "Nazi goreng"—maybe it's because I didn't get the joke, maybe.

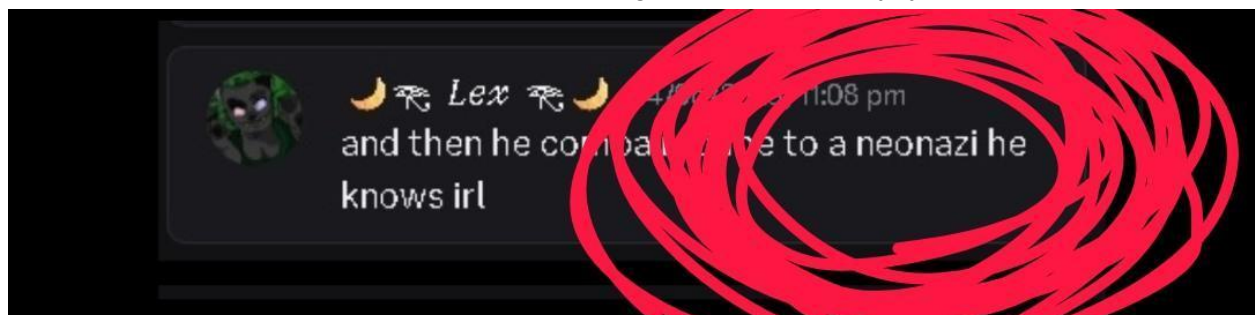

And the nazi people in my school is not a neonazi or og nazi, it's just like they pretending to be nazi because it's my class's inside joke, im an art student, their jokes are like Hitler getting rejected from art school type jokes (my group class name was "nazi goreng", its parody of "nasi goreng", means fried rice), but they not actually neonazi like what kenjius explain.

and where the hell i said that people of your school is neonazi dude

Nazi goreng means fried nazi, fried like fried chicken, fried rice. Where is the dark humor that you don't get? It's just as simple as it is

And here!!!! Look at this!! I think Lex have alter egos that accidentally type "Neo" nazi

To be honest, I hate nazi or Neo Nazi. Because I watched a movie called "American history x 1998" kinda recommended, the first half is uncomfortable to watch if you hate Neo nazi, but then after the character changes, it feels so satisfying.

F. Your actions are cute, but that doesn't justify you insulting Lex for no reason. You were just slowly tearing her down because of music. You're so stupid you don't even understand the song title. How the hell did you think the music Lex listened to promoted something like that? Even so, it won't justify anything, like nothing. You humiliated a girl. It's funny that you tell people to seek help from trustworthy individuals while at the same time you end up criticizing Lex because of the music, incredible.

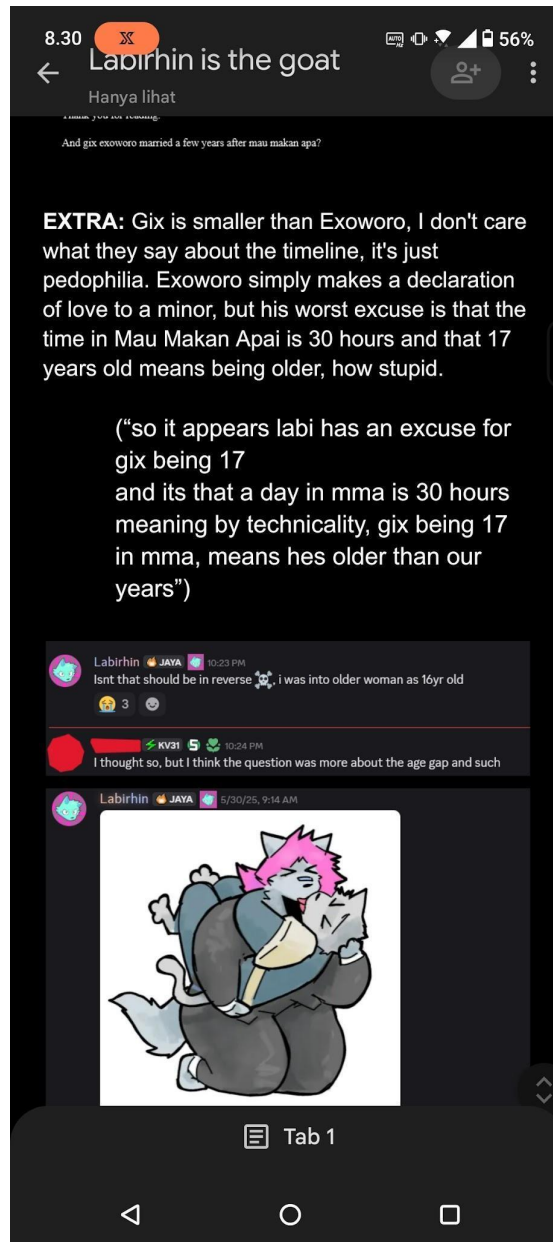

Kenjius also said that I am disrespecting people with mental illness and said mental health doesn't matter. But I know what kenjius said about the choice or not, Mental illness is not a choice, i never said its a choice. But if a person really wants to take their own life, I feel like there's a choice to do it "not" or in front of many people knowing that people will be scared or happy about it (im not asking anyone to do it in any way too! getting help from someone who cares about you is what im asking). People with no feelings will use a tragedy as something like a whatsapp sticker to make other people scared or even joking about it, and it's just more disrespectful. But speaking of this, I read this story of my show that helped someone through depression and it makes me so happy because I can help, I even tell people about this. <https://www.reddit.com/r/MauMakanApa/s/3pKq5fDRD2>

Insulting for no reason? There's so many reasons. It's not because of the music, it's about the way she was constantly wanting weird roleplay and constantly changing feelings about me, sometimes she's mad, sometimes she's super horny. She teaches me a lot about internet stuff that I appreciate, without her I literally will go down hill into the pit of scary internet person types with millions of e6 favorites of Bluey herself. She's the one who told me this is bad stuff.

But then she's literally the one who goes down that path with the weird roleplay stuff with feral, hyperegnancy, and 0 years old kink picker stuff while wearing thick padding inside underwear and sending photos of donut assholes. And she's not even 18. I just want to break up with her and can still be friends, I just don't think I want to go to that weird stuff. But kenjius and Lex literally use everything to go against me and make me look like Jeffery Epstein. I just don't want

all this stuff become my death just because kenjius have problem with KDI server staff that i have nothing to do with, KDI server was forming itself outside my contribution from the start.

33.

The last one is this. And I don't want to continue making all this document stuff ever again because I'm already addressing all of it. If they make a new one, they are just trying too hard.

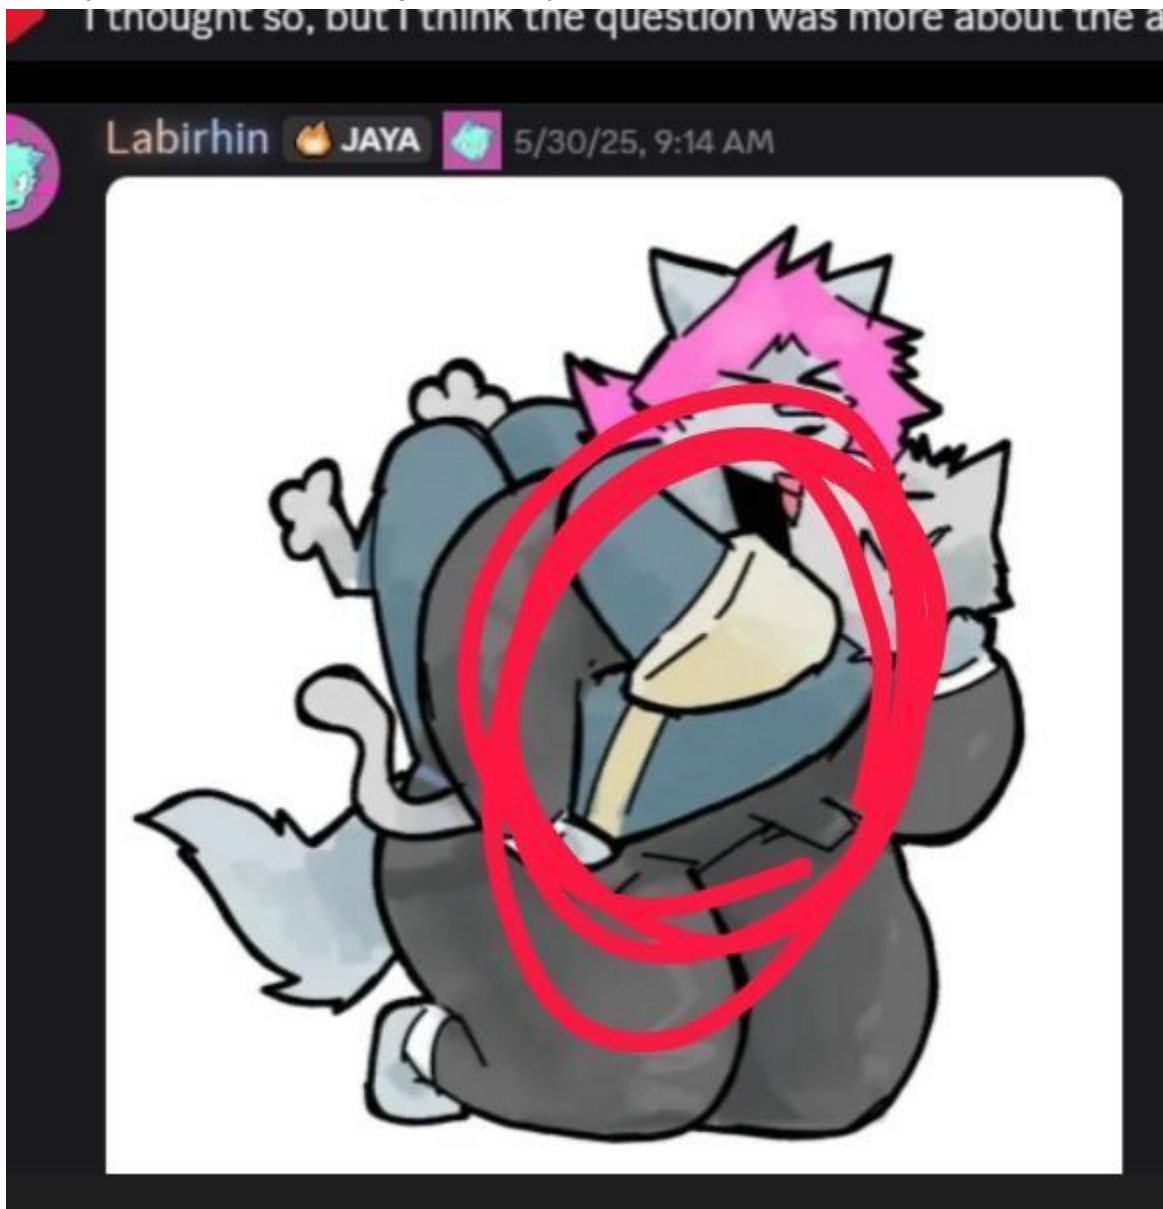

About gix and exoworo is NOT about pedofila ever.
because i never self insert myself as a big woman.

I like the big woman. I made exoworo and gix when I was a little boy. I never thought about pedofila when I was a boy. Instead I would think if I have a big woman instead, she can protect me.

And why is it so hard for a random kid from Brazil (kenjius) to think that. He might be the one who is a pedophile because of seeing that might give him the idea of being the exoworo instead.

And in mau makan apa, the world rotates 1,25% slower because the moon is farther away from earth. with a 30 hours day rule, it makes gix 21,25 years old, and exoworo 37,5 years old.

And if you still want to believe gix is literally 17. Just see that part there

It shows the event after mau makan apa, because at the end of the series, Gix has his shoulder ripped off by Erika. And then...

(I draw this a long time ago)

He's an adult now... wow. He's more mature than the people who are making this drama.

Thank you everyone for reading all of this, I just finally can say what I want to say about all this. And I hope you all have a great day.
