

**SC276:** Well that was... interesting. Let's do something that's not that guy for the next three weeks, hm?

**Ringmaster:** I'd say "anything would be an improvement over Mykan", but next week is more LTD. *This* week, however, is the sort-of-followup to "Shepherd of Fire" from last month.

**SC276:** Oh right, *that* thing. This last month has been a bit of a mess, what with the almost-rape and rainbows and stuff, so it slipped my mind. So, does this thing have *less* dumb incoherent time travel or *more*?

**Mono:** Yes.

**Ringmaster:** From a quick glance, a good bit more, but that's really not the main focus here. This fic is the result of a friend of the "Shepherd of Fire" author not liking how that fic got such a negative reception, so he created his own self-insert fanfic of his friend's fanfic, and... well, I'll let Fallen explain:

**Fallen Prime:** Oh lord, this one. So the previous story was pretty damn bad, but at least the author kept his cool about it. **THIS** one, written by his friend... it may well be the worse story, that's on you to judge, but the friend was by far the worse person. He went on **SEVERAL** tirades, both publicly in his mass-deleted comments and privately to the story's detractors, and many contained ban-worthy conduct. Warning bans didn't do a damn thing to deter him, so eventually, after numerous arguments that even spilled over into the **OTHER STORY**, the author finally got axed for good. So yeah, one of **THOSE** snowflakes.

**CaptainPipsqueak:** I remember this lolcow. Good times.

**SC276:** Hoo boy... Not sure how he thought adding another layer over a flashback in a flashback wouldn't make the house collapse, but fanfic authors are sadly like that a lot.

**Ringmaster:** Without further ado, here's "Quest of the cool pony" by "Eder the cool kid".

**Dragonborne:** I remember reviewing this shitfest with Prime! Happy days... \*dons hazmat suit\*

**BittplexMutt:** Wow, that guy's got an ego.

**SC276:** Man, he's not even trying to be *subtle* about it.

**CaptainPipsqueak:** \*sets heavy chair over floor hatch and waits for Topher to arrive\*

**Mono:** \*shoots Pip a death glare, picks up the chair and beats Pip over the head with it\* No.

**CaptainPipsqueak:** Dude, it'll be funny. I'll give you a fiver. C'mon.

**Topher:** \*Climbs through the window\* Whaddup?

**Mono:** ...Since when do we have a window?

**CaptainPipsqueak:** Dunno, but I'm getting a lock.

**Crazy56U:** (rubs face) Oooh boy... (quietly; to self) you only need to make it to sunday, then you can ignore the rest

**ThatUnknownPony:** Well I survived all the horrors in Lordran, beat Dark Souls twice, I doubt a whiny author is anything compared to that.

**PanzerThiefZero:** Oh goodie, drama. This will be fun.

**Nox:** "Quest" is too good a word to be associated with a sequel to *Shepherd of Fire*.

Prologue: A devious plot.

**BittplexMutt:** An awful story.

**ThatUnknownPony:** A terrible author.

**Crazy56U:** And the dish ran away with the spoon.

You and I both know about the different races In the land of Equestria.

**Crazy56U: (deadpan) No. I do not. Care to explain?**

**Mono: And we start with implied racism! Great beginning!**

**BittplexMutt: We just had Mykan last week, author!**

**ThatUnknownPony: Oh goody! As if I didn't have enough racism in my life.**

**CaptainPipsqueak: I don't get it. What do you have against marathon runs?**

**Crazy56U: Nobody runs for fun anymore, and GDQ's increasing shittyness has ruined speed runs. That good enough of an answer?**

**CaptainPipsqueak: There, see what I mean? Classic raceism.**

**Crazy56U: *I will fight you in the street.***

**CaptainPipsqueak:**

There are a lot of ponies with their cutie marks that defines their special talents.

**CaptainPipsqueak ...and then there are the ones that are just *there*, y'know? "Oh this thing? Yeah, I dunno what a soccer ball with swastikas on it is supposed to mean, but at least I got my mark."**

**SC276: Does yours define your special talent as terrible grammar?**

**JofY: Each pony is their own race.**

**Crazy56U: Well, excluding that one cult out in the desert, they seem to have an equals sign thing going on, but they're weirdos...**

There are Earth Ponies, Pegasus', Unicorns, and Alicorns.

**Crazy56U: Well, granted, there's actually three to five alicorns, but given the Author doesn't give a fuck, I'm willing to bet it's around the upper hundreds.**

**CaptainPipsqueak: Alicorns for days.**

Each and every one of them were different, while at the same time they were exactly alike.

**Mono: Yep, they are all made of the same plastic.**

**BittplexMutt: It's like they were toys or something.**

**ThatUnknownPony: Especially when you removed their cutie mark, they would all be equal!**

**Crazy56U: But if everyone's equal, then *no one* is equal.**

**PanzerThiefZero: How can you be different, and also be exactly alike?**

**JofY: Friendship.**

**Dragonborne: Magic.**

**Nox: Believing.**

**CaptainPipsqueak: Flaming chainsaws.**

**Topher: Paying real-world money for cosmetics.**

But, there is one alicorn that waited his entire life to fulfill his destiny...

**JofY: "Hey bro! Wanna go to see a movie with us?"**

**"Not now, I'm waiting for my destiny."**

**BittplexMutt: And now he's dead.**

**ThatUnknownPony: Too bad that destiny was to die.**

**Crazy56U: And his name... is Larson.**

**SC276: OK, so zebras, griffons, donkeys, and dragons are *persona non grata* to you.**

**That's so racist it's not worth imitating CinemaSins.**

**CaptainPipsqueak: When *haven't* they been, with the exception of Spike? Zecora's basically just a token character.**

to become a hero of this world.

**Crazy56U: And, as a result, Equestria continues to burn to this day.**

**BittplexMutt: And there has been no resting at all.**

**CaptainPipsqueak: The Fire Nation was *not* expecting it to be that easy.**

His name...

**Mono: \*holds a combat rifle\* If anyone dares to reference that meme...**

**BittplexMutt: Slim Shady?**

**Dragonborne: Lazarus?**

**ThatUnknownPony: Donut Steel?**

**SC276: Great work, Mono, *now* it's gonna back up in the pipes and ruin the plumbing.**

**Crazy56U: (is in the process of plumbing the pipes; annoyed incomprehensible muttering)**

**Topher: What are you doing? You're making this WAY harder than it needs to be.**

**Observe! \*Drops a grenade in the toilet\* FIRE IN THE HOLE! \*Dives to the floor\***

**Giginss: Off to a great start already! Alicorn OC, let me guess, black and red style, generally most awesome character around? \*grabs a barf bag\***

is Eder;

**Mono: "Enigma" it is!**

**Crazy56U: ..."Double D" it is!**

**BittplexMutt: What even is an "eder" anyway?**

**PanzerThiefZero: (googles) The name of a portuguese footballer, apparently.**

**ThatUnknownPony: Also the name of a friend, who would probably be angry if he knew about this "masterpiece".**

**Mono: \*Nods\* I actually have a thing against Portuguese footballers, so congratulations! This riff is now semi-personal!**

**SC276: So, he's their "special friend."**

a, pony with a kind and warm heart.

**SC276:** Because it was on fire.

**JofY:** Unlike others whose hearts were cold and dead.

**Crazy56U:** [Random Example] "Excuse me, sir, do you have the ti--"

**[Double D]** "(loud as fuck groan) *Leave me the fuck alone!* (pulls out and throws a watch into the distance) There, you want the time, *GO GET IT!*"

**BittplexMutt:** And by kind, I mean being kind to his kiss-assers.

**ThatUnknownPony:** The role of Fluttershy will be played by this doofus.

**PanzerThiefZero:** Plot twist: This is taking place in Mykan's 'Friendship is Failure' fics.

**Topher:** I've never heard of those. My knowlege of Mykan's library has now been expanded even further. You will pay for this transgression.

He wanted to be seen among the many citizens of Equestria,

**Mono:** But it's hard when you're invisible.

**BittplexMutt:** But they didn't want to see him.

**CaptainPipsqueak:** Or be seen *with* him.

**Crazy56U:** And so Double D made a name for himself as a routine breaking-and-entering jackass.

**PanzerThiefZero:** Nobody wants to see a Mary Sue in the flesh.

but many thought he was different to all of them, yet they all failed to realize they were all different.

**SC276:** Author, you're not supposed to put down the detractors in the same breath as *introducing the guy*.

**Mono:** Okay, we're not even past the prologue and I'm already sick of this guy's preachy bullshit.

**Crazy56U:** (has diagramed the sentence on a napkin) ... ..yeah, I'm looking at this at all angles, I still don't fucking know what the point is.

**ThatUnknownPony:** I'd gladly take Season 5 Starlight philosophy over his, for sure.

**BittplexMutt:** "They don't realize that I'm better than all of them."

**Giginss:** The difference was clearly the same, while being different at the same time. Their sameness, however, was not from the Staff of Sameness, but instead created as a natural part of their differences.

**JofY:** And this proves that you can still have different words in your fic, but be the same level as fucking terrible.

**CaptainPipsqueak:** Wow, that sentence is a real nosebleeder, isn't it?

His cutie mark was so different and peculiar unlike the others.

**Mono: It was a raised middle finger!**

**ThatUnknownPony: It was a literal piece of shit.**

**SC276: It was a swastika because edgy.**

**Crazy56U: It was a swear!**

**Dragonborne: It was ellipses!**

**CaptainPipsqueak: It was a flaming razor blade with bat wings!**

The strange thing about it was that it was simply the letter "E."

**Mono: The E for "Enema"? ...Suddenly I feel really uncomfortable.**

**ThatUnknownPony: E for "Everyone"?**

**SC276: E for "Edgy!"**

**Crazy56U: Which, given his desire to be the pony everyone gives a shit about, sadly makes a looooooooooooooot of sense.**

**PanzerThiefZero: We interrupt *Quest of the cool pony* to bring you *Death Note*.  
(ding)**

**Topher: Actually, he thought it was an E because it was reversed when he looked in the mirror. It was actually a number 3. His ass confirmed half life three, and nobody knew.**

While some ponies believed this cutie mark was silly,

**Mono: -and it was-**

**ThatUnknownPony: -which nobody denied-**

**Crazy56U: -because the entertainment industry is toxic as fuck-**

**Dragonborne: -and because the Board of Directors is becoming inept as of late-**

**CaptainPipsqueak: *His* cutie mark, or the concept of cutie marks *in general*?**

**PanzerThiefZero: *They know.***

the truth was that this cutie mark was special,

**Crazy56U: As it *also* let's him do math!**

as his talent was that he could do everything.

**JofY: He couldn't do them well, but at least he wasn't a handicapped lesser being.**

**BittplexMutt: But could he do everything at once?**

**ThatUnknownPony: Oh! So the E stands for "Everything"... BLOW ME!**

**SC276: You could've done something interesting with that, like him being Kamen Rider Eternal, but *noooooooooo!***

**Crazy56U: *Stop assuming we get good things.***

**Mono: ...\*gets up\* Okay, fuck this. I'm out. This asshat is obviously not even trying.**

**CaptainPipsqueak: Well, much as I despise taking the side of a fic, there *was* Gabby Griffon, who literally *could* do everything...**

**PanzerThiefZero: (follows) Wait for me!**

**Crazy56U: *OI! If I'm not leaving until Sunday, then NEITHER ARE YOU TWO!***

**Mono: *HEY! I am riffing this during my vacation! I HAVE THE RIGHT TO LEAVE WHEN I DAMN WELL PLEASE!***

**Crazy56U: *STOP PISSING OFF RING!***

**Giginss: Except breathing. He could never figure out how to do that.**

But the question that lies unanswered to us is this,

**Crazy56U: "Why did *Pushing Daisies* get greenlit in the first place?"**

**PanzerThiefZero: "What's the meaning of life?"** and if you say 42, i will kill you.

**CaptainPipsqueak: They rounded off. It was actually 41.7654463676465. Kind of explains why it never made sense.**

what this pony can exactly do?

**Mono: Everything? Like you said?**

**BittplexMutt: All the things?**

**ThatUnknownPony: Jackshit?**

**PanzerThiefZero: Can he bake a pie?**

**SC276: There's like a *Barney* song that fits this situation perfectly.**

**Crazy56U: You read my mind.**

No pony knew for certain... until now.

**BittplexMutt: Because something... Was going to happen.**

**CaptainPipsqueak: It was going to be... later in the story. Or possibly... right now.**

**Crazy56U: "Someone finally fucking bothered to read the script."**

One night along the Everfree Forest, an alicorn flew above the dark and shady trees,

**Crazy56U: [Princess Cadance] "(looking at a map in desperate confusion) *I am SO lost!*"**

**Dragonborne: [Nobody, Alicorn Princess of Gravity] "Good for you! \*flies to the moon\*"**

**CaptainPipsqueak: Go, Nobody; go and play amongst the stars. \*tear forms in eye\***

**BittplexMutt: And crashed right into a tree.**

looking down upon the creatures that roamed it;

**JofY: Huh, must need more dark shade then.**

**BittplexMutt: It's not dark and edgy enough.**

**CaptainPipsqueak: Yeah; throw in some glowing red. That should do the trick.**

**Crazy56U: They then saw two timberwolves doing it, and decided they were done looking down for the moment.**

Nightmare Moon, the Princess of the Eternal Night.

**SC276: oh come on**

**Mono: Plot twist: all of this takes place during Past Sins.**

**Crazy56U: Uh oh, Luna stopped taking the pills and relapsed again...**

**Giginss: That does remind me of a question, Where in the timeline does this take place? This can't be the beginning of Season 1, NMM was redeemed in the first couple of episodes!**

**ThatUnknownPony:** Hasn't stopped hacks from breaking continuity.

**BittplexMutt:** Continuity is a myth. Confirmed.

**Crazy56U:** Look, when in doubt, just ignore the voice in your head screaming about the time inconsistencies... ...I mean, it doesn't work for *me*, but you all don't have my psychosis...

As she flew, laughing maniacally, she came across the entrance to a cave.

**Mono:** ***I WAS JOKING!***

**CaptainPipsqueak:** You know that's never an excuse here.

**Crazy56U:** How do you misspell "entrance"?

**Topher:** Like this: Kpssptthbbt

**BittplexMutt:** Caves are apparently hilarious.

As she entered to the cave,

**Crazy56U:** -a bear came rushing out and mauled her to death. THE END

**BittplexMutt:** -got eaten by a puma.

a strange but familiar voice called to the ruler of the night,

**Crazy56U:** [Princess Luna] "Okay, I have a *looooooooooooooot* of questions to ask right now..."

giving her a warm welcome back.

**Mono:** ***I SAID I WAS JOKING!***

**CaptainPipsqueak:** *You know that's never an excuse here.*

**Crazy56U:** How do you misspell "entrance"?

**Topher:** **WHY DIDN'T SOMEONE GIVE ME SOMETHING TO YELL ABOUT?**

It was Queen Chrysalis, the ruler of the Changelings.

**SC276:** *oh come on*

**ThatUnknownPony:** Oh god, not another "Villain Team-Up" fic...

**JofY:** Wait a second, this isn't an OC fic... It's a ship fic! Run for your lives everyone!

**BittplexMutt:** If this turns into a harem fic I swear..

**CaptainPipsqueak:** 'If', he says...

**Crazy56U:** ...this takes place during "The Cutie Remark", doesn't it? This is one of the timelines where Starlight choked on a loogie or something, and now all of the villains are teaming up, isn't it? *This is the spiritual successor to "better season 5 end", isn't it?*

"And so she returns...

**JofY:** [Chrysalis] "Did you remember to pick up milk?"

**CaptainPipsqueak:** [Nightmare Moon] "Aw *goddammit!*" \*leaves cave, swearing under her breath\*

[Queen Chrysalis] "And get some coffee cream, too! The *good* stuff, not that half and half crap!"

**ThatUnknownPony:** [Chrysalis] "You sure took your goddamn time coming back!"

**SC276:** [Chrysalis] "Sombra keeps trying to break into the cupboard. Thankfully, shadow cloud hooves are terrible with child-safe locks."

**Crazy56U:** [Queen Chrysalis] "*Thank fuck. I got bored...*"

the princess of the eternal night;

**BittplexMutt:** [Chrysalis] "How's that working out for you?"

Nightmare Moon, the last of what was once Equestria's Princess Luna,"

**Crazy56U:** So... ..Luna is dead...

**BittplexMutt:** She didn't want to be involved in this "sequel".

said Chrysalis as Nightmare Moon walked before her.

**BittplexMutt:** [Chrysalis] "I'm your biggest fan!"

**JofY:** [Nightmare] "Um... I know who I am..."

**Crazy56U:** [Queen Chrysalis] "*notice me senpai*"

And now I feel unclean. (proceeds to douse self in bleach)

**ThatUnknownPony:** [Chrysalis] "Could you please sign my body pillow for me?"

**Dragonborne:** [Nightmare] "Bite my cold, lunar ass."

Nightmare Moon came to a stop in front of Queen Chrysalis

**Crazy56U:** [Nightmare Moon] "Who the fuck are you, and why do your legs have holes?"

**Topher:** NOW KISS!

**CaptainPipsqueak:** *AND THEN THEY FUCKED. THE END.*

as she spoke, "Hello again Queen Chrysalis, it has been a while since we last met."

**Mono:** Even though you two never did...

**Crazy56U:** Mono, come on, they play checkers every Sunday! It was established in "Episode Name", that episode about Luna going to therapy! It was a very special episode, don'tcha know?

**BittplexMutt:** [Chrysalis] "I take it that last time was non-canon?"

**PanzerThiefZero:** Now all we need is Sombra, Tirek and *all* of the G1 villains, and we'll be set.

**CaptainPipsqueak:** They're in the next cave over, having a kegger. Also, they insist that their place be called 'The Man Cave'.

"Indeed it has. I have been waiting this moment for quite some time." said Chrysalis with a grim smile on her face.

**BittplexMutt:** [Chrysalis] "It's been in my horoscope for awhile."

**ThatUnknownPony: [Chrysalis]** "Even if I technically just met you."

**Crazy56U: [Queen Chrysalis]** "Well, come on. Take off that armor, it's killing the mood and I ain't waiting all night."

**CaptainPipsqueak: [Queen Chrysalis]** "*~Well here we are again; it's always such a pleasure. Remember when your sister's friends defeated me twice?~*"

Nightmare Moon stepped out of the cave, looking up at the dark sky.

**SC276:** Then what was the point of even going in in the first place...

**BittplexMutt:** Where's the moon?

**JofY:** Celestia blew it up in a drunken fit.

**Crazy56U: [Princess Celestia]** "(face covered in paint; fuming) **TAKE THAT, YOU FUCKING ROCK!**"

**Topher:** Meanwhile, in coastal cities: **MILLIONS ARE DEAD**

**CaptainPipsqueak:** That's okay, it wasn't a moon. It was a space station.

"Yes, this is the day that we are going to kidnap Twilight Sparkle and her friends."

**BittplexMutt: [Nightmare Moon]** "We won't kill them, just kidnap them."

**ThatUnknownPony: [Nightmare Moon]** "I have the evil vision of a 80's villain!"

**JofY:** It's already 11:43, so not sure how you plan to kidnap them *today*.

**Crazy56U: [Nightmare Moon]** "I especially love how this is *clearly* a suicide mission..."

"So, what's your plan to do that?"

**BittplexMutt: [Nightmare Moon]** "If you stop interrupting me, I'll tell you."

**Crazy56U: [Nightmare Moon]** "... .."

**[Queen Chrysalis]** "...uh... ..honey?"

**[Nightmare Moon]** "(holds up a hoof) Give me a minute..."

Nightmare Moon chuckled as she responded to the Changling Queen's question,

**BittplexMutt: [Nightmare Moon]** "I have no idea."

"The global anniversary of Equestria goes on tomorrow,

**ThatUnknownPony:** Isn't that what Hearts Warming's Day is all about? Is this happening on pony Christmas?

**Mono:** Soooo... Equestrian independence day? They better make sure there are no aliens around...

**Crazy56U:** You think *regular* Fourth of July is annoying? Wait 'til you see *Equestrian* Fourth of July...

**BittplexMutt:** Instead of universal.

**Dragonborne:** If gryphons, Minotaurs, Yaks and Saddle Arabians are *persona non grata*... does that mean Equestria conquered the rest of the world and caused a mass extinction?

**PanzerThiefZero:** ...that's racist? (ding)

**CaptainPipsqueak:** It's only racist if there are members of that race alive to complain.

**SC276: So I can make fun of dinosaurs as much as I want and no one will complain?! Awesome!**

and Twilight will be there at the town hall along with her... "friends.""

**Mono: Quotation marks are provided by Dr. Evil.**

**BittplexMutt: More like acquaintances.**

**SC276: Especially in this story.**

**Crazy56U: ...so, either the rest of the girls have been replaced by changelings by this point, and Twilight doesn't notice... ...or Chrysalis is referring to her jars of moonshine.**

**PanzerThiefZero: What about her enemies?**

**CaptainPipsqueak: Why do you think 'friends' was in quotes, Panzer?**

Chrysalis instantly became silent as she thought about something that frightened her;

**JofY: Getting gum stuck in some of the goo.**

**ThatUnknownPony: The presence of an alicorn OC.**

**Dragonborne: The thought of shaving her spindly mane. Hair ain't cheap to regrow.**

**PanzerThiefZero: The thought of being written by Mykan.**

**Crazy56U: The concept of death.**

**BittplexMutt: Heights.**

**Topher: Clowns.**

**CaptainPipsqueak: Mimes.**

**Topher: Come on Pip, Mimes are just ninja clowns.**

**CaptainPipsqueak: Doesn't stop them from being creepy.**

the Elements of Harmony,

**Crazy56U: So, at least we have a time frame established now. It's before the fucking tree was a thing...**

**BittplexMutt: I guess continuity isn't entirely a myth?**

the legendary power that brought Equestria to peace.

**BittplexMutt: Even though she never got hit with the Elements in canon.**

**ThatUnknownPony: Even though it was Cadance and Shining Armor who blasted her off with their Love Cannon.**

**SC276: Even though the author has clearly never watched the show.**

**PanzerThiefZero: Even though it's clear the author isn't giving a damn about canon.**

**Crazy56U: Even though that fucking tree was the real work horse in that regard.**

**CaptainPipsqueak: ~Even though there's not a single thing we share...~**

"Interesting... but what about... you know."

**Mono: Voldemort?**

**Crazy56U: Santa?**

**BittplexMutt: Batman?**

**ThatUnknownPony: Tirek?**

**Dragonborne: Starlight Glimmer?**

**PanzerThiefZero: The Unicornicians?**  
**Topher: Jesus?**  
**CaptainPipsqueak: Hot steamy sex?**

In that moment, Nightmare Moon laughed a bit. She had a plan.

**BittplexMutt: An awful plan.**  
**JofY: Well, of course she has a plan, you already stated that!**  
**Crazy56U: [Nightmare Moon] "... .."**  
**[Queen Chrysalis] "COME THE FUCK ON!"**  
**[Nightmare Moon] "QUIT RUSHING ME!"**

"Easy, I know how to prevent another loss."

**Crazy56U: I dunno, loss is a very hard thing to counteract. Here, I have a diagram that can explain further.**

**See, very tragic...**  
**Topher: Damn, The Emoji Movie got DAAAAARK.**  
**CaptainPipsqueak: I don't think that movie needs help to get worse.**  
**BittplexMutt: What are you talking about guys? That movie doesn't exist.**

Upon finishing her sentence, Nightmare Moon used her magic to take out a heart-shaped artifact

**Crazy56U: Because a box of Hearts and Hooves Day candy will solve *everything*...**  
**BittplexMutt: [Nightmare Moon] "Bring me the hearts of my enemies!"**  
**Mono: Specifically, a heart-shaped box.**  
**ThatUnknownPony: More specifically, Daisy's heart-shaped box.**  
**PanzerThiefZero: [Chuggaaconroy] "LET'S DO DAISY ON HARD!"**

that had a great power emerging from it, much like the Elements of Harmony.

**Crazy56U: Yes, Narrator, we already *know* about the Crystal Heart, but could you kindly explain how Nightmare Moon got it out of th-**  
**BittplexMutt: Don't tell me it's the-**

"Behold Equestria's secret artifact; the Element of Love."

**Mono: \*breathes heavily\* Out of all the goddamn elements...**  
**BittplexMutt: Another one?!**  
**ThatUnknownPony: Oh fucking damn, not another one of those.... We had enough with that fucking kid and his guitar!**  
**Crazy56U: (promptly gets up and repeatedly kicks a hole into the wall)**  
**SC276: *this thing's shown up like five times now***  
**Giginss: A 7<sup>th</sup> Element now? Let me guess, no, wait, I don't need to guess, that OC is going to get it. WHY IS A SEVENTH ELEMENT HERE IN THE FIRST PLACE?!**  
**JofY: Boy, Cadance is going to have some bad placement issues...**

and nothing will stop us.” said Nightmare Moon as she equipped the heart-shaped artifact.

**SC276:** Into her accessory slot.

**BittplexMutt:** A giant bunny?

**Mono:** Headcanon accepted.

**Crazy56U:** Specifically, picture Nightmare Moon wearing Ralphie’s pajamas from “A Christmas Story”.

**Giginss:** You’re going to destroy Harmony, with more Harmony. \*looks up the definition of harmony\* Yes, that is totally how an agreement or concord works, and how it smashes itself into a hundred pieces.

**ThatUnknownPony:** Not loving to bring this up... but didn’t the comics prove that using an Element of Harmony over something “harmonic” does nothing to it?

**SC276:** The guy’s clearly never watched the show, he’s not going to have read the comics.

**Crazy56U:** Well, at least the Author has a redeeming quality...

**PanzerThiefZero:** inb4 the universe collapses on itself due to too much harmony.

**Topher:** Ever bang two tuning forks together? It’ll be kinda like that.

**CaptainPipsqueak:** Tuning fork sex?

Upon doing so, she unleashes its power to create a storm in the sky and send it within a farther side to the Everfree Forest,

**Mono:** Because love is evil.

**BittplexMutt:** Love is like that.

**JofY:** Hey, it’s a hurricane of love.

**Dragonborne:** They’re in love *with* love!

**Crazy56U:** Okay, now I’m confused. What is love, anyway...

**CaptainPipsqueak:** Oh baby, don’t hurt us no more.

**SC276:** You probably shouldn’t be calling Ring a baby.

the location where the Tree of Harmony rests.

**BittplexMutt:** Oh yeah, that exists here.

**Giginss:** First Nightmare Moon, Season 1 start, then Chryssy, Season 2 end, then the Tree, Season 4 start. MAKE UP YOUR MIND ON WHERE YOU WANT TO BE IN THE TIMELINE!

**ThatUnknownPony:** Space is warped and time is bendable.

**Crazy56U:** (throws hands up in annoyance) *YEP, FUCKING CALLED IT, THIS IS ONE OF THE TIMELINES STARLIGHT CREATED! “BETTER SEASON 5 END” SPIRITUAL SUCCESSOR CONFIRMED!*

**CaptainPipsqueak:** Oh great. Crazy’s going... um... crazy.

As the storm enters draws closer to the abandoned castle,

**Crazy56U:** [Queen Chrysalis] “Uh, why are you-”

[Nightmare Moon] “Shut up, I’ve always hated this thing.”

**BittplexMutt:** [Nightmare Moon] “Fuck this one castle in particular!”

**Topher:** [Nightmare Moon] “THE BATHROOM DOOR WOULD ALWAYS BE TOO CREAKY!”

it tears Equestria's legendary artifacts into pieces, along with the tree.

**Mono: And shifts tenses with unrelenting force!**

**BittplexMutt: Even though it's a storm.**

**SC276: And the tree is in a cave with an entrance at the bottom of a *moat*.**

**Crazy56U:** Shh...

**JofY: Oh no! That might affect the box with all of the current actual power!**

**ThatUnknownPony: Not like anyone remembers the Rainbow Powers.**

### Crazy56U: Technically Luna does...

**Dragonborne: Or how the Elements can't be destroyed permanently. Apparently, Nightmare didn't learn shit the last time she tried something like this.**

As the unnatural storm subsided,

## BittplexMutt: Everything destroyed came back to life.

**ThatUnknownPony:** Everything began to feel horny and in love.

**CaptainPipsqueak: A funny third thing.**

**Crazy56U: It was then followed by the perfect storm.**

Chrysalis heads to the remnants of the locations to bring in what was once the elements.

**BittplexMutt:** They were all crumbled up and scattered.

**Crazy56U: But were now the Elementals.**

**ThatUnknownPony:** Even though the elements are either in Canterlot, or they were exchanged for a box.

**Crazy56U:** Shhhhhhhhhhhhhhhhhhhhhhhh...

They knew that the seventh one had went missing during the Day of the Descension,

**Crazy56U: You know, the day they invented the elevator?**

**BittplexMutt:** It was way better than the escalator.

so it was not a problem to them any longer.

**BittplexMutt: For now..**

**ThatUnknownpony:** Even if we don't know shit about this "day of whatever".

**CaptainPipsqueak: No. "Day of the *Descension*". The "Day of Whatever" was two weeks later.**

**Crazy56U:** "After all, that was the past, and the past is a myth."

**SC276:** And *now* I've forgotten if "Shepherd of Fire" *had* this thing already, because I feel like it does. (checks) ...Oh right, that was the Element of *Leadership*. So *this* bunch of Love is the *EIGHTH* Element.

**Crazy56U: (gets up again; slams head through wall)**

Chrysalis looked at the shattered pieces to the Elements of Harmony in disbelief as she spoke,

**JofY: [Chrysalis] "...Why don't we just kill Celestia?"**

**BittplexMutt: [Chrysalis] "You do realize they're just going to be put back together again?"**

**Crazy56U:** [Queen Chrysalis] "... ..*what have we done?*"

**ThatUnknownPony:** [Chrysalis] "...Didn't Twilight and friends already have them in their possession?"

**CaptainPipsqueak:** [Chrysalis] "... So. Wanna get something to eat?"

"I-I don't believe it! You were right after all, that artifact does work!

**Crazy56U:** [Queen Chrysalis] "(terrified) In fact, I no longer think we are of the right mindset to keep this around... Maybe we should-"

[Nightmare Moon] "(aims the Element of Love at Chrysalis) Should what, pray tell?"

**CaptainPipsqueak:** The gag is: there's no such thing as the *Elements* of Harmony. It's actually the *Elephants* of Harmony. That was just a box of costume jewelry.

The Elements of Harmony... are... DESTROYED!!!

**CaptainPipsqueak:** **DRAMA!**

**Mono:** And then they molded back together.

**BittplexMutt:** [Chrysalis] "I can't believe that's all it took to destroy them!"

**Crazy56U:** [Queen Chrysalis] "Couldn't we have just used a hammer instead?"

**Giginss:** They were destroyed before, and that didn't seem to bother the Elements much.

**Dragonborne:** \*sucks in a deep breath before screeching like an animatronic and pouncing Mono\*

**Crazy56U:** I'm severely confused as to what Mono did to prompt that, but I'm just going to shut my mouth.

**CaptainPipsqueak:** Just enjoy it.

**Mono:** \*rubs his jaw\* Shut up...

Now we can send our subjects to kidnap Twilight and her friends!"

**BittplexMutt:** And not the princesses?

**Crazy56U:** *That's* Phase 3.

**PanzerThiefZero:** That's going to bite them in the ass later. Quote me on that.

**Crazy56U:** (clicks off a tape recorder) Got it...

"Indeed. Not even the Shepherd of Fire can stop us...

**JofY:** Nobody?

**ThatUnknownPony:** Literally who? I missed that riff last time.

**Mono:** You don't wanna know...

**Crazy56U:** After all, Zippy is busy dealing with bylaws and cats, or some shit.

**CaptainPipsqueak:** "I'm Commander Shepard and fuck this shit, I'm out."

now that he's not here..."

**Crazy56U:** You know, what with him being (points in a nonspecific direction) over yonder.

**BittplexMutt:** No... there is another.

**JofY:** Oh, Love's brother... Remind me *why* he was called that again?

**SC276:** OK, did you just *forget* he's a time traveler, or...?  
**Crazy56U:** *Shhhhhhhhhhhhhhhhhhhhh...*  
**Dragonborne:** Dammit, Doctor Who! *You had one job to do! ONE JOB!*

---

Chapter 1: The visitor.

**BittplexMutt:** A dancing lobster?  
**ThatUnknownPony:** A laughing stock?  
**Dragonborne:** The Special Task Force?  
**PanzerThiefZero:** The Protectors of the Plot Continuum?  
**Topher:** Your neighbor here to tell you he's a registered sex offender?  
**CaptainPipsqueak:** Team Rocket *and* the Ginyu Force?  
**LimpBrisket:** No, no, guys. It's Sonic the Hedgehog.

The next day, it was Equestria's global anniversary;

**SC276:** Whatever the fuck that means.  
**BittplexMutt:** So like Thanksgiving?  
**PanzerThiefZero:** I'm going with 'A thousand years ago on the day the first episode premiered.'

everypony was preparing the decorations, flags, etc.

**Mono:** One poor bastard was in charge of all the etc.  
**BittplexMutt:** He had the hardest job of them all.  
**JofY:** You'd think they'd plan this all out in advance...  
**ThatUnknownPony:** Turns out Ponyville is home for the worst event planning in Equestria.  
**SC276:** Given their Winter Wrap-Ups...

Among the crowd, Pinkie Pie and Rainbow Dash were sitting together discussing the big day.

**BittplexMutt:** [Rainbow] "This blows."  
**ThatUnknownPony:** [Pinkie Pie] "You tell me. What happened to Hearts Warming's?"  
**JofY:** Is one of them pregna-... I'm not going to risk completing that.

"Oh boy Dashie, aren't you excited?! The best day ever on Equestria!"

**Mono:** If we're talking about the Spongebob episode then fuck no...  
**BittplexMutt:** Death Day?  
**PanzerThiefZero:** The day when *Xenoblade Chronicles 2* comes out? Because I'm excited for that.

said Pinkie Pie as she jumped for joy.

**BittplexMutt:** The coke was starting to kick in.  
**ThatUnknownPony:** That brownie she bought from Fluttershy sure tasted funny.

"Yeah, I've been thinking about having the rest of us being with the Wonderbolts today,

**SC276: ...what?**

**BittplexMutt: [Rainbow] "Even though most of my friends can't fly."**

but Twilight has been on the deck of the castle with her telescope."

**Mono: [Rainbow] "I think she's cheating on me with that thing..."**

**BittplexMutt: [Rainbow] "It's not like I have a choice to just go see them myself."**

**ThatUnknownPony: [Rainbow] "Something about looking for shining on the moon, I think."**

**Dragonborne: [Rainbow] "I think she may have killed Spike again, but I'm not entirely sure."**

said Rainbow Dash, feeling a little down.

**BittplexMutt: And not up.**

**CaptainPipsqueak: That's because she's on the ground. By definition that leaves her feeling down.**

Pinkie wrapped her arm around her blue Pegasus friend,

**Mono: \*gasps\* HUMANS!**

**BittplexMutt: Anthros!**

**ThatUnknownPony: Horses!**

**Dragonborne: CHIMERAS!**

**Toph: BEEEEEEEEES! ...wait, are we not yelling random animal names for fun?**

**CaptainPipsqueak: You can do it anyway. \*ahem\* EMUS!**

"I guess you're right, why didn't she come to join us?"

**BittplexMutt: One word: Moonshine.**

**PanzerThiefZero: She had the common sense to stay out of the fic.**

**CaptainPipsqueak: ...and moonshine.**

As Dash & Pinkie looked out to Twilight's castle, the purple Alicorn was observing Canterlot as they prepared for the big event as well.

**BittplexMutt: They had other people do the work for them.**

**PanzerThiefZero: ...aaand I stand corrected.**

**Giginss: \*pulls out his hair\* Season 3 end, season 4 end, my timeline map on this is full of pinholes! ARGH!**

**ThatUnknownPony: Okay, I think I'm going cross-eyed over when this is supposed to happen. Shouldn't this mean the Elements were obsolete at this point?**

**SC276: The only good thing the Shepherd of Fire did: isolate this dumb fic in a time pocket so it doesn't collapse the universe in a paradox.**

**JofY: And Twilight was able to witness the magnificent basement of Canterlot. She soon realized that maybe she should try looking from a place above the bottom.**

She was feeling a little depressed,

**BittplexMutt: She speaks for all of us.**

"You know Spike? I was wondering how Equestria would be without us."

**BittplexMutt: [Twilight] "I'm suddenly craving death now."**

**ThatUnknownPony: [Twilight] "Kinda wish I had an archnemesis that would come to change the past and erase our friendship. That would be nice."**

**Mono: [Spike] "Well, I die all the time, so the other ponies are- \*gets a sudden heart attack and dies\*"**

**JofY: [Spike] "Well, if all the Mare Do Well rection fics are to believed... Surprisingly well."**

**CaptainPipsqueak: It'd be nighttime and everyone would be dead.**

"Come on, Twilight. You've saved Equestria from many threats.

**BittplexMutt: [Spike] "Like that Lighting guy."**

Nightmare Moon, Discord, Chrysalis, Sombra, and Tirek.

**Mono: Don't forget Flash Sentry.**

**ThatUnknownPony: *Shush.***

**CaptainPipsqueak: And Flurry Heart. I can't believe you forgot how she dealt with Flurry Heart. I haven't seen a pillow strangulation in *ages*.**

**JofY: What about Sunset? She had an army of high schoolers and everything.**

**BittplexMutt: What about the Dazzlings?**

**Dragonborne: So Starlight Glimmer and Our Town aren't canon yet?**

**CaptainPipsqueak: Do we actually *know* where we are at this point?**

**SC276: Five bucks says when season 5 started, this guy went "Knew it!"**

Because of that, you're a hero." Said the little purple dragon as he gave her a cup of tea.

**BittplexMutt: Actually, Shining Armor and Cadance were the ones who defeated Chrysalis (the first time) and you, Cadance and the crystal ponies defeated Sombra.**

**Mono: \*shrugs\* Technicalities...**

**CaptainPipsqueak: I'm pretty sure Twilight had been captured and Shining Armor was suffering 'performance issues'. Did... did Spike just *forget* he's the hero of an entire Empire?**

"Well I'm not exactly a hero, I'm a princess.

**Mono: Star Butterfly would like to share some words with you, Twily.**

**ThatUnknownPony: Technically most Disney princesses would like to have a talk about that, Twilight.**

**CaptainPipsqueak: After which they'd beat her with baseball bats.**

**BittplexMutt: along with their animal friends.**

I should be looking out for this kingdom, not defending it.

**JofY: [Twilight] "Let's declare war on EVERYONE!"**

**Dragonborne: [Twilight] "Our slogan should be 'Harmony for one and all!'"**

**Topher: [Twiggles] "THOSE WHO REFUSE OUR FRIENDSHIP WILL FACE OUR WRATH!"**

**CaptainPipsqueak: FOUR LEGS GOOD, DIFFERENT FOUR LEGS BAD!**

Does Equestria want somepony coming from Canterlot on a hot air balloon just to learn about friendship like me to be a hero?"

**ThatUnknownPony: Uhm, yes?**

**BittplexMutt: Well, they have a princess who was once evil so I don't think it matters.**

**Mono: No, but at the same time, they kinda *need* you...**

**JofY: Didn't she arrive by flying chariot?**

**SC276: The only animation of this show the author's seen is the title sequence, got it.**

Spike walked down the stairs with the empty tray, "Well hey, you never know. Maybe somepony will do that one day."

**JofY: \*starts giggling\* So, Twilight completely and utterly forgot about Blades? Now, sure, we don't care for him, but this guy stated he was writing fan fic of Shepherd! Twilight was all "NO DON'T GO EVEN THOUGH END OF EVERYTHING!!!" Good job reading your friend's fic, author! Good job!**

**ThatUnknownPony: \*slow clapping\* You sure showed those haters how good that story was.**

Coincidentally, as Twilight looked out on her telescoped at Canterlot,

**SC276: That sounds like murder on the neck.**

**BittplexMutt: Sounds like a case of bad anatomy.**

**CaptainPipsqueak:**

she saw a hot air balloon coming towards Ponyville with somepony on it.

**Mono: [Twilight] "OKAY, WHICH ASSHOLE CARJACKED THE TWINKLE BALLOON!?"**

**CaptainPipsqueak: IT'S TWAHLAGHT SPAHRKLE'S BAHLOON!**

**JofY: [Twilight] "Boy, the front of that balloon is really dark..."**

**ThatUnknownPony: [Twilight] "Oh dear Celestia, who broke the flow of time?"**

Applejack was preparing the concession stands along with Rarity, who was preparing the ribbons.

**SC276: Meanwhile, Derpy was handling the clean scene transitions. She hadn't gotten any up yet.**

As the orange pony

**Topher: [Applejack] "YOU TAKE THAT BACK"**

finished setting up the last stand, she spoke to her generous friend,

**SC276: You couldn't get any more Lavender Unicorn if this sentence were about Twilight.**

"This is a lot of hard work for this special day, right Rarity?"

**Mono: [Rarity] "Considering we normally never speak of this day, yeah..."**  
**ThatUnknownPony: [Rarity] "It's almost like this happened out of nowhere."**  
**Dragonborne: [Applejack] "Wait, what were we doing again?"**  
**CaptainPipsqueak: [Rarity] "Why, setting up for the special day that nopony has ever mentioned or heard of before. ... Now that I say it out loud, it *does* sound kind of stupid, doesn't it?"**

"Indeed it is darling. I really hate working like this,

**JofY: [Rarity] "Having to deal with the poor."**  
**CaptainPipsqueak: [Rarity] "The unwashed masses disgust me."**

but if it's for something this important, I'm more than happy to help." Said the white unicorn as she set up the last ribbon on the town hall.

**SC276: You make dresses for a living, and yet you hate making things pretty?**  
**CaptainPipsqueak: She's not getting *paid* for it, Super.**  
**PanzerThiefZero: All work and no play makes anyone a dull person.**

"That's understandable, maybe after the event we can go to the park with the girls." Said Applejack as she walked with Rarity.

**JofY: Aren't you going to bother cleaning it up?**  
**ThatUnknownPony: That's what all the other peasant ponies are for.**  
**Topher: [Rarity] "Or maybe we can go back to my place." \*Porno music\***

"That sounds wonderful. Anyway let's have our break; I have drinks for us Applejack." Said Rarity as the two walked down to her house.

**Mono: ...I ship it.**  
**ThatUnknownPony: Meh, that ship is overrated.**  
**BittplexMutt: In reality, they were plotting a way to escape.**

As the two mares keep walking, they saw the hot air balloon descending upon Ponyville.

**JofY: That must be one eye catching balloon.**  
**Dragonborne: And then Rarity fainted because the air balloon's choice of decor was nothing but hideous plaid. THE END!**  
**Topher: OH GOD THE BALLOON HAS BURST INTO FLAMES OH THE HUMANITY**  
**CaptainPipsqueak: \*psst\* 'Equinity'.**

**Topher:** We're still not even sure about that dude, we might still be in anthro country.

"Hey uh, Rarity? Don't mind me askin' but do you feel a strange sense of déjà vu?" asked Applejack as she looked up at the hot air balloon.

**Mono:** ...no. Twilight came into Ponyville by chariot, remember?

**ThatUnknownPony:** I have the strange feeling the author doesn't remember.

**SC276:** How many times do I have to say "the author has clearly never watched the show" before you people get it?

**CaptainPipsqueak:** I don't know, but I get the oddest sense you've said it before.

"Darling, I was just about to ask the same thing." Said Rarity, also staring at the balloon. Applejack started walking down to the middle of Ponyville as she spoke to her friend, "Well, what are we doing staring at it for?"

**SC276:** Delivering clunky exposition. Pay attention already.

Let's go see what all the commotion is."  
All the ponies were gathered around Ponyville, socializing about the upcoming visitor.

**Mono:** Who is apparently more important than Celestia.

**JofY:** Did our protagon honestly plan on moving during a national holiday?

**ThatUnknownPony:** How else would they call the attention of everyone?

Some ponies said that it's nice to see another pony come to Ponyville. Others said they couldn't wait to meet him or her there.

**Mono:** The skeptical ones were being exiled.

**Dragonborne:** After being bound and gagged first to make said exiling a hell of a lot easier.

**Topher:** Actually, they're being used to lay out a landing pad for the hot air balloon, which comes equipped with spikes on the bottom for just such an occasion.

**CaptainPipsqueak:** It's not as fun as setting them on fire, but they suffer longer.

They all began to wonder who the pony could be.

**BittplexMutt:** *~Who could it be?/ This pony that I did see/ Can you help me guess this/ mystery?~*

**PanzerThiefZero:** Eder. You basically spoiled it from the prologue author.

Was he or she kind, funny, or possibly... a hero?

**SC276:** So, you think kindness, funniness, and heroism are mutually exclusive.

**CaptainPipsqueak:** They're *not*? That explains so many things!

**ThatUnknownPony:** Suddenly this became a MHA crossover.

**Dragonborne:** *\*sarcastically\** Nah, it's just a loser in the balloon hoping to score cheap hookers and booze!

**SC276:** Also, [mother of all monsters] "Eat a kind, or a funny, or at least... a hero."

"Well, from all the conversations I'm hearing, a new pony is arriving!" said Rarity as she walked into the crowd. "This seems exciting, doesn't it Applejack?"

**JofY: [Pinkie] "Wait, that's my line..."**

**ThatUnknownPony: [Applejack] "If by exciting you mean 'why do we care', I agree."**

Applejack nodded as she spoke, "It sure does. Can't wait to meet the visitor!"

**CaptainPipsqueak: [Applejack] "We could use some slave labo...I mean *a helper* at the ol' farm."**

"Um, I don't know. I'm a little too... nervous... to meet him." Said the sensitive Pegasus; Fluttershy.

**Mono: As opposed to the sensitive pegasus; Rainbow Dash.**

**PanzerThiefZero: [Fluttershy] What if he has a pointless vendetta against me and punches me in the face ad nauseum?**

**CaptainPipsqueak: [Fluttershy] "What if my latest batch isn't to his liking? I have an image to uphold!"**

**SC276: [Applejack] "AHH! Where did you come from?!"**

Rarity came up close to her friend, "Oh nonsense Fluttershy, what's there to be nervous about meeting a new pony?"

**ThatUnknownPony: [Fluttershy] "What if it's one of those feared alicorn self-inserts?"**

**SC276: [Fluttershy] "Or what if he's black and red? Y'know, like the last one."**

**Topher: [Fluttershy] "Gilda. That is all."**

**CaptainPipsqueak: [Rariy] "But Gilda was a *griffon*, dear."**

**[Fluttershy]: She was? ... That's what I get for sampling before I visit, I guess. I *thought* she seemed a bit tall..."**

"Oh, it's just... I'm not too good with talking to new ponies." Said Fluttershy in her soft, whisper-like voice.

**SC276: This is how we can tell the author hasn't watched the show: he assumes we haven't either.**

As the hot air balloon touched the ground, everypony gathered around to meet the new pony that arrived, and as the door to the air balloon opened,

**Mono: A duck jumped out.**

**Dragonborne: Carrying a leaf-shaped jewel on its feathered backside.**

**CaptainPipsqueak: Followed by a security detail of pidgeyblades.**

a red pony was standing inside. "Umm... hello."

**JofY: ...Hi? ...Huh, not a paragraph of description text... This is new...**

**ThatUnknownPony: I have no idea if to feel nervous or happy about it.**

**SC276: Well he's already halfway to the cliché...**

Pinkie Pie just burst with joy as she came close to the red pony. "OMIGOSH! A red pony! He's so red I wanna hug him!"

**Mono: ... ..Excuse me, are we riffing a parody fanfic?**

**ThatUnknownPony: No, Ring isn't a merciful being to give us that.**

**Dragonborne: RED FOR *DETERMINATION!* \*gets shot\***

**PanzerThiefZero: Plot twist: He's a bloodstained murderer.**

**SC276: Either that or the leader of a Sentai team.**

**CaptainPipsqueak: If red sets her off like this, why isn't Macintosh dead of asphyxiation?**

So Pinkie jumped on the red pony and squeezed him tightly with joy,

**Topher: -snapping his neck**

almost choking him. "Ack- Hey, you're hurting me."

**ThatUnknownPony: [Pinkie] "You want me to hurt you? DON'T MIND IF I DO!"  
\*starts squeezing harder\***

**JofY: [Protag] "Please... stop... I guess..."**

**PanzerThiefZero: Pinkie confirmed BDSM fetishist.**

**CaptainPipsqueak: Oh *please*; if you'd only seen *part* of the list of things that get her frisky... There's a *reason* you never see her at a tea party.**

"Yeah c'mon Pinkie, let him go." said a Pegasus that looked like Rainbow Dash.

**ThatUnknownPony: [Pinkie] "Hey, just because you look like Dashie you can't tell me what to do!"**

**SC276: [Pinkie] "Oooh, my next batch of cupcakes can have *imitation* Rainbow!"**

**Topher: [Rainbow] "HOLY SHIT WHAT THE FUCK"**

**CaptainPipsqueak: It's Chroma Zip, Rainbow Dash's stunt double!**

Applejack came up to the red pony, "You okay there partner?"

"Yeah, I'm fine. I've never met a pony that could hug so tight."

**Mono: [Pinkie] "\*\*maniacal grin\* Oh, I wasn't trying to hug you..."**

**ThatUnknownPony: [Pinkie] "If only you knew how I truly hug..."**

**BittplexMutt: "That boa constrictor on the other hand.."**

**CaptainPipsqueak: [Pinkie] "While I've got you here, do *you* know why it's called a hacksaw?"**

Said the red pony.

Rainbow Dash flew next to Applejack as she spoke to the red pony, "Sorry bout' that kiddo, she's just happy to meet you."

"Yeah, we all are. Welcome to Ponyville." said a pony from the crowd.

**Mono: [Rainbow] "Fuck you, you don't even have a name!"**

"Nice to meet you... I'm Fluttershy." said the yellow Pegasus.

**PanzerThiefZero: Plot twist, that's a Fluttershy doppelganger.**  
**CaptainPipsqueak: [Fluttershy] "I brought you some 'Welcome to Ponyville' brownies. Normally Pinkie would make them, but we all agree that my brownies are the best."**

Rarity was the next to speak to the red pony, "Nice to meet you darling, my name is Rarity. Don't worry, I'm very gentle and generous."

**ThatUnknownPony: [Rarity] "I like to talk about my main traits when introducing myself to others."**

**Mono: Except when she's not. Then you should hide for your life.**

**SC276: [red guy] "You're literally the least threatening pony I ever talked to."**

**Topher: [Rarity] "Oh yeah, I'll be gentle AND generous." \*Porno music\***

Pinkie Pie came hopping about like before as she introduced herself, "Hi, I'm Pinkie Pie! You know who I am already though after that big hug I gave you! Then again you don't cause we just met!"

**ThatUnknownPony: [Pinkie Pie] "\*maniacal grin\* Just hope your number doesn't come up soon..."**

**CaptainPipsqueak: [Pinkie] "Did I remember to ask you about hacksaws?"**

Spike came up from the castle with Twilight, "Good to meet ya, I'm Spike! I'm Princess Twilight's best friend and servant."

**Mono: [Enigma] "Ah, her slave. Okay."**

**ThatUnknownPony: [Spike] "Also the guy with the highest death count in this town."**

**CaptainPipsqueak: [Spike] "I'm also a walking flamethrower, so don't fuck around with anyone, 'kay?"**

**SC276: [Applejack] "How are y'all popping up from nowhere?!"**

"Name's Applejack, I live on the Apple Family Farm just on that hill over yonder." Said Applejack, introducing herself like the rest.

**SC276: In the least interesting way possible.**

At this point, all the other ponies began introducing themselves.

**Mono: DING DING DING! OC TIME!**

**ThatUnknownPony: Dumbass Roll Call!**

**Dragonborne: "Let's see... Golden Gelding, Rim Job, Broke Gate, Nyx Lookalike #67283243..."**

**SC276: [red guy] "Aren't you curious what my name is?"**

**[random pony] "Not in the fucking slightest!"**

"I'm Squidzle, and I'm a master dancer here in Equestria!"

**Mono: "Squidward". Got it.**

**JofY: \*spits out drink\* Your name is what!?**

**CaptainPipsueak: 'Swizzle Stick', didn't you hear him?**

**Crazy56U:**

"Hi there, name's Sunshade, the master of love."

**Mono:** "Cupid". Okay.

**Crazy56U:** "Summer Lovin'", got it.

**Giginss:** Cadance called. She want to know why in Tartarus you think you can steal her job.

**CaptainPipsqueak:** [Sunshade] "Tell her to do her goddamn job and we'll talk. Until then, the job's mine. Hey! You two! Start fucking!"

[Random Pony] "But... but... we're *brothers*".

[Sunshade] "I *said*: **START. FUCKING.**"

**JofY:** [Protag] "No you aren't. That's my shtick."

"My name's Felix. I'm an expert at inventions. Whatever you need, I can make it.

**Mono:** Whatever you say... Felix the Cat.

**ThatUnknownPony:** Hey Fix-It Felix! What are you doing outside your game?

**Crazy56U:** "Miles Luna", got it.

**SC276:** I'mma not bother to remember all these. I've got better things to do with my time, like try out this recipe for glass shard cookies.

**Topher:** Oh, those are GREAT! Have you ever had 'em dipped in bleach?

**CaptainPipsqueak:** I prefer them with a dab of cyanide. The almond aftertaste really adds to it.

Rainbow Dash was the next in the line of introductions, "Heya! Name's Rainbow Dash; best flyer in Equestria."

The Pegasus that looked like her was next in line, "I'm her brother, Dash Junior;

**Crazy56U:** (violently kicks the table over)

**CaptainPipsqueak:** (runs over to a table on the far side of the room and hides under it instead)

**Mono:** Okay, you're called "Lynn" now because fuck everything. Also, *why does Rainbow have a random brother now?*

**ThatUnknownPony:** I... dare to say it's the blue pegasus near her in that Season 3 flashback? I mean, we've seen her dad, so... Still, that's a stupid name.

**Dragonborne:** "Junior" would imply Dash had a teen pregnancy... not a brother.

**Topher:** Why not both? She learned a few special family activities from the Apple family. \*waggles eyebrows\*

pretty much the same as her."

**Crazy56U: "Not Important", got it.**

**Mono: [Lynn] "In fact, I don't even know why I exist."**

**ThatUnknownPony: [Lynn] "I might as well be a clone who just forgot!"**

**Topher: So you straight up admit you put no effort into this character? YA TWATKNOBBLER?**

Twilight was the last of introductions.

**JofY: [Twilight] "\*drowsy\* What shit do I have to deal with now..."**

**SC276: [Twilight] "OK I'mma tell you upfront: I have not had *nearly* enough moonshine to deal with this bullshit right here."**

As she walked up to the red pony, everyone began bowing for her.

**Mono: Y'know, as usual.**

**ThatUnknownPony: Because everyone in Ponyville treats her like a princess.**

**CaptainPipsqueak: Well, punching her in the face might give the visitor the wrong idea.**

"And I'm Princess Twilight, the Princess of Friendship. It's very good to have you here."

The Red Pony was surprised;

**JofY: People didn't like him at places!**

**Topher: [Redbone] "Oh, I know. I'm here to replace you. Sunbutt sent me."**

he never thought he would meet so many ponies here,

**Mono: Really? In *Ponyville*?**

**ThatUnknownPony: What, do you live in a cave or something?**

**CaptainPipsqueak: He lives in a cave with a box of scraps.**

rather he didn't think that they would all be friends with him.

**JofY: Barely know stuff about others = Friends**

**SC276: Considering the author, you have to take what you can get.**

It brought a smile to his face. "Well, nice to meet you all."

"What's your name?" asked Spike.

**BittplexMutt: [Spike] "And what's with the sudden indent?"**

**CaptainPipsqueak: Are you suggesting malicious intent with that indent, Spike?**

"My name's Eder; Eder the cool pony."

**Crazy56U: And then everyone died. THE END**

**Topher: [Spike] "\*Dies due to sheer force of awful\*" Oh dear god, and this was written unironically.**

**Giginss:** Just because there are names like Twilight Sparkle *does not mean you can have names like that and expect to get away with it!*

**CaptainPipsqueak:** Just a sec. Lemme shoo my dog out of my room so I don't risk punching her.

Said the red pony in response to the purple dragon's question.

**Mono:** [Everypony] **"\*groans\*"**

**ThatUnknownPony:** [Twilight] **"\*very quietly\* Oh Faust Almighty, not another one of these..."**

**SC276:** [Twilight] **"And right when we finally got rid of the last one..."**

**Dragonborne:** ... Confirmed Gary Stu right off the bat. **\*sharpens sword\***

**JofY:** So... Did his parents add 'the cool pony'? Did he get it legally changed?

**PanzerThiefZero:** Yeah. I was right. Learn to spoiler tag, author.

**~~Topher~~TheFuriousRiffer:** I'm going to set fire to the entire goddamn universe if you keep this Lavender Unicorn bullshit up.

**CaptainPipsqueak:** Guys, don't kill him. Hurting him stops being fun if he's dead.

"That's a "cool" title for your name." said Rainbow Dash, chuckling.

**Mono:** [Luan Loud] **"Get it?"**

**Crazy56U:** (angrily punches Mono the fuck out) **NO!**

**Mono:** ...Okay, legit question: Is this because I referenced "The Loud House" in general, or because I quoted Luan?

**Topher:** Why does a thin variety of plywood matter right now?

**Mono:** It's a long story.

"Ha ha ha, very funny RD." said Applejack with much sarcasm.

**Mono:** Very sarcasm. Much angry. Wow.

**Crazy56U:** [Pinkie Pie] **"...there was a joke?"**

**ThatUnknownPony:** Meanwhile, she was screaming in agony inside her head.

**SC276:** It's not sarcasm if it's *true*.

Twilight got a closer look at Eder after having a swift thought. "You remind us of a friend of ours; Star Blade."

**JofY:** "You look like you came out of the same OC generator."

**Crazy56U:** "Except without the stench of hobo blood."

**ThatUnknownPony:** "He is said to have come from the weather factory, you know... a missing snowflake if you will."

Applejack looked at Eder in realization, "Yeah, now that you mention it, you do look just like him!"

**SC276:** Which means he has a black mane, which means he's *another* fucking red-in-black OC.

**Crazy56U:** (unconvinced) Yeah, uh huh, okay, *I'll* be the judge of that:

See? Double D has *black* eyes, not *blue*; they're completely different.

Mono: Plus, Enigma is a unicorn, so there's that...

Topher: BACK UP, where did those images come from?

CaptainPipsqueak: Taking into account what we riff? I'm putting good money towards 'Hell'.

"That's because I'm his brother."

Mono: [Twilight] "Oh, fuck me. Another one?"

CaptainPipsqueak: [Eder the Dumbshit Donkey] "Yes. Another one." \*proceeds to fuck Twilight\*

Dragonborne: ... then who the hell is their father?

JofY: So, they named one kid Star Blade, they named the other kid Eder the Cool Pony... I'd say we'd know which one is the favorite, but I can't tell!

ThatUnknownPony: I mean, Star Blade is just another "trying hard to be cool" name, but it's leagues about literally being called Cool Pony.

Topher: Show of hands, who's surprised? Ok, everyone with raised hands: OUTTA THE GENE POOL!

The Mane Six, as well as some of the other ponies, looked quite surprised from what they heard from Eder.

**SC276: Given he looks exactly like him, what's surprising is that you didn't immediately assume it was him while he's time-traveling around in the Gaia Archive.**

However, Twilight was the most surprised of them all. "He's your brother?!"

JofY: [Twilight] "*Please don't say that we were dating. Please don't say that we were dating...*"

Eder smiled as he replied to Twilight, "Yeah, his little brother."

JofY: [Udder] "Where is he? I hope nothing bad happened to him. He was always talking about songs that nobody can hear."

ThatUnknownPony: [Enema] "You know, I'm like him but more annoying."

CaptainPipsqueak: "Also younger, so I'll be around longer."

"Wow... I didn't know he had a brother." Said Rainbow Dash, who was starting to feel a little down.

**JofY: By what?**

**ThatUnknownPony: By the realization they're trapped with a bad OC.**

**CaptainPipsqueak: Shut the fuck up, Rainbow; We didn't know *you* had a brother!**

"Why did he never tell us about it?"

**Mono: Well... there's this thing called "shame"...**

**ThatUnknownPony: And also this thing called "mercy"...**

**SC276: [Twilight] "I know this is hypocritical of me, but I feel offended."**

"Perhaps he wanted to keep family business a personal thing." Suggested Rarity.

**JofY: Udder was one of Blade's mafia connections.**

**Topher: Now I'm picturing marlon brando as a pony. This image is the only nugget of joy in this entire thing. Hee hee! His jowls look funny.`**

**CaptainPipsqueak: It'd bring a whole new level of meaning to finding a decapitated horse's head in your bed...**

"Well, I guess that makes some sense." Said Applejack. "Though I just wish he told us something about his family before he left..."

Eder looked confused, "Left?"

**JofY: I was joking! You mean to tell me that nobody let his family know about this kind of thing? They never did any research into his next of kin? Hell, how did Twilight not discover Udder when mopping over Blade's whatever he did? You'd think especially since she knew that he affected history in ways that were unknown to her, she'd look into more things about him. Did Blades not even give a farewell message to Udder? He knew he was going to die by the time he had access to the time machine! Was he so detached from the rest of his family that he couldn't be bothered to make a goodbye note?**

**ThatUnknownPony: All I have to say to answer that is... Yes. It's always yes.**

**PanzerThiefZero: Plot twist: Eder bribed Discord to warp reality to his favour.**

"Oh don't worry about it, it's nothing. He... left... a while back." Said Rarity, trying not to tell too much about their friend.

**Mono: Oh, come on. He didn't... wait, did he die?**

**ThatUnknownPony: There was some time-space shenanigans from what I read... But I have no idea what even happened there.**

**JofY: Even then, why are they trying to hide that? Does Udder seem so emotionally unstable that the slightest bad news might utterly wreck him? Are the events confidential? If it's the latter, then that's even further shame on Celestia and Twilight for not checking on loose threads.**

**SC276: This author wrote this for people hating on his friend's fic when he clearly hadn't read it himself. *Of course* he's emotionally unstable!**

Eder wasn't completely convinced, but he accepted those words nonetheless.

**SC276: He's as done with this shit as we are.**

**CaptainPipsqueak: Does that make him the most relatable character in the fic, or do we still hate him?**

Just after that conversation was over, Twilight spoke to Eder,

**SC276: Which means the conversation *isn't* over.**

**JofY: Opposed to the screaming she was doing before.**

"Anyway, how about we go to the Castle of Friendship and talk there."

**SC276: If that's the official name, it's still stupid.**

**Topher: I call it the "Shiny rock what twilight lives in"**

**CaptainPipsqueak: That's kind of stupid too.**

"But first, I'm gonna tickle him!"

**Crazy56U: *oh my fuck this is now g-rated "living the dream"***

**Mono: ...Author, are you trying to Pinkie? Because this is not how you Pinkie.**

**BittplexMutt: No one knows how to Pinkie.**

**CaptainPipsqueak: *Pinkie* doesn't know how to Pinkie.**

**Dragonborne: [Eder] "This is how she is when I'm involved! Shut your piehole!"**

**JofY: \*falls off chair\* Aren't they still in public? Why here? Why now?**

**ThatUnknownPony: Because potatoes. Pinkie's brain was replace with a potato.**

**Don't ask me why.**

**PanzerThiefZero: Pinkie has a tickle fetish. Confirmed.**

**CaptainPipsqueak: You act like she only has *one*.**

said Pinkie as she jumped on Eder again as he began to laugh. "No w-wait, that's tickles!"

**Mono: Noooo, getting tickled tickles?**

**Topher: Well, it can vary. For example, people say that when I tickle them, it's incredibly painful. They also say something about not using a spike bat to tickle them, but I'm usually not listening.**

**CaptainPipsqueak: I use sandpaper.**

As Eder continued laughing, he opened his wings, revealing that he was an alicorn, surprising the whole crowd,

**JofY: ...Did nobody see them? They're not perfectly flush with the main body when closed. Did nobody find the weird growths on his back strange?**

**ThatUnknownPony: They were too busy trying to avoid gazing at him nobody noticed.**

**PanzerThiefZero: Keep it PG, author.**

**SC276: Aaaaaaaand it's a *red-and-black alicorn OC*. Because an Earth pony that effectively made himself into an alicorn is apparently too creative for this author.**

**CaptainPipsqueak: \*pinches bridge of nose\* *God's fist...***

even Twilight who found it hard to believe. "W-w-what?! Y-y-you're an alicorn?!"

**Giginss:** Even Twilight knows how utterly nonsensical this is.  
**Dragonborne:** I must point out that *no* mention of a horn was on Eder's person at this point. I blame incompetence and refusal to pay attention to detail here.  
**ThatUnknownPony:** I blame the author's giant ego on that.  
**CaptainPipsqueak:** I blame everyone.  
**PanzerThiefZero:** [Twilight] "Big deal. I see them all the time!"

Eder got back on his hooves as he said, "Yeah, I'm an alicorn."

**Mono:** [Enigma] "Also, I'm God."

As everypony looked at each other in confusion,

**JofY:** It's understandable with this fic.  
**SC276:** They hurt themselves in their confusion!  
**CaptainPipsqueak:** How exactly do you do that? "A FACE! IT MUST BE MY OPPONENT'S!"

Twilight Sparkle was thinking to herself about something she was told some time ago, and decided to talk with the red pony. "Eder, we need to have a chat about this, come to the castle with me."

**Mono:** [Twilight] "Spike! Prepare the torture room!"  
**CaptainPipsqueak:** [Twilight Sparkle] "And don't forget 'the toybox'. And all the batteries you can find."  
**ThatUnknownPony:** [Twilight] "Remember all the trash we hid in the library's cellar? Time to dig that up again."

So Eder followed Twilight and Spike to the castle as everypony were now talking about Eder.

**ThatUnknownPony:** Mostly about how they'd dispose of him in his sleep.  
**BittplexMutt:** and how annoying he was.

Chapter 2: Magical material.

**Mono:** Tour.  
**Dragonborne:** .... \*stares blankly at Mono\* wat  
**Mono:** It's called a reference. Know your classics...  
**Dragonborne:** Sorry, am more a Shakespeare person myself.  
**SC276:** To be or not to be... this fic chose poorly.  
**Crazy56U:** (opens mouth to make joke; is C&Ded by Apple Records) *OH COME THE FUCK ON*  
**Giginss:** Incidentally, Apple Records sounds like the name of a bad lets play if you treat "records" as a verb and not a noun.  
**CaptainPipsqueak:** Apple Records sounds like a company that charges three times too much and only allows you to play their music on proprietary equipment.

As they were inside, the doors closed as Twilight quickly looked back at Eder.

**JofY: And back at the doors, and back to Udder. He is not the doors.**  
**CaptainPipsqueak: And now Twilight is on a horse. This story escalated quickly.**  
**Topher: "Alone at last" \*Porno music\***

"I had no idea that you were an alicorn until I saw it with my own eyes!"

**ThatUnknownPony: As opposed to how you were seeing him with your... horn, I guess?**

Eder chuckled as he spoke, "Yeah, surprising right?"

**Mono: [Twilight] "No. Surprisingly, I see a lot of red and black idiots like you around here."**

**ThatUnknownPony: [Twilight] "I was only surprised I just noticed your wings and horn. I blame the moonshine, it's blinding me."**

**CaptainPipsqueak: [Twilight Sparkle] "I'm surprised you got through the anti red and black alicorn OC death traps. I'm going to have to talk to the guy who set them up."**

Twilight Sparkle took a better look at Eder, feeling a strange sense of energy coming from him.

**JofY: That's just the fusion reactor.**

**SC276: [Twilight] "You haven't showered in two weeks, have you?"**

**Topher: He keeps several plutonium fuel rods in his ass.**

**CaptainPipsqueak: She's gonna want to fuck him , isn't she?**

"I feel something... different... about you.

**Mono: A disturbance in the force?**

**Giginss: As if millions of rifiers cried out at the sight of this story, and were suddenly silenced.**

**ThatUnknownPony: Bullshit, no one can ever silence us.**

**PanzerThiefZero: If they start falling in love, I'll go ballistic.**

**CaptainPipsqueak: Oh come on; you *have* to be expecting it.**

Let me check." Twilight used her magic on Eder, examining the energy that he possessed.

**BittplexMutt: It's too OP.**

"The magic you harness is stable, so you must be normal."

**Mono: I really fucking doubt that, but okay...**

**Dragonborne: Try telling *Flurry Heart* that she's normal.**

**CaptainPipsqueak: We don't mention the Antichrist here, Dragon.**

Eder looked down with a bit of shame,

**JofY: Oh, there there. It must be really tough being a completely normal and average god.**

**PanzerThiefZero:** [Eder] "Oh waaah! I'm not *the most omnipotent being in the entire universe!*"

**CaptainPipsqueak:** He should have a lot more shame than that.

"Well, not really. There was that other day I used my magic to shoot even though I didn't want to."

**Mono:** Premature magical ejaculation. We all had that at one point...

"What kind of magic?" asked Spike.

**BittplexMutt:** A stupid kind of magic.

"It was like a ball... and I only use it when it's necessary." Eder explained.

**ThatUnknownPony:** "I learned that from that anthropomorphic unicorn. What was his name? Lightning?"

**JofY:** He only plays magic tennis when it's absolutely necessary!

"A magic attack?!" said Twilight and Spike, looking at each other.

**JofY:** No, a magic ball. Listen up.

**ThatUnknownPony:** And then they bursted into laughter at how he believed that was uncontrollable magic.

**Dragonborne:** ... I wager that the magic ball was actually a weaker version of the Uniforce.

**CaptainPipsqueak:** Or a very weak kamehameha.

**Topher:** Congratulations, you know how to use a simple magic attack in a land where civilians carry around fully functional cannons.

Eder suddenly looked confused. Twilight was the only one that knew that kind of magic,

**SC276:** What the fuck kind of nonsense is *Twilight* of all ponies being the only pony in over a thousand years to use magic as an attack form?! Oh right, *this guy hasn't watched the show.*

**BittplexMutt:** And not the princesses.

**CaptainPipsqueak:** *Or any other unicorn anywhere.*

so how could somepony like Eder know how to do it too?

**Mono:** Because he's awesome like that.

**CaptainPipsqueak:** I thought he was cool?

**JofY:** ...Did Udder just realize this story makes no sense?

**Dragonborne:** [Udder] "Shaddap."

"Wow Eder, that's impressive that you know how to do an attack like that." Said Twilight, amused with what she heard from the red pony.

**BittplexMutt:** [Twilight] "And by impressive, I mean bland."

**ThatUnknownPony:** [Spike] "And somewhat predictable."

**SC276:** [Twilight] "Honestly, every first-level wizard knows it."

**CaptainPipsqueak: Any idiot can do Magic Missile.**

**Topher: [Twilight] "But magical badassery is my thing. You must die."**

Eder was still a bit confused and asked, "What you mean?"

**BittplexMutt: [Twilight] "I said that it was impressive that you know how to do an attack like that. Pay attention!"**

**SC276: [red pony] "I no take candle?"**

Twilight put what she said into more understandable words,

**JofY: "You are an OC."**

**CaptainPipsqueak: Ah. Single syllable words.**

"I mean, you're an alicorn that isn't very powerful,

**Mono: But... doesn't that negate his alicorn-ness?**

**ThatUnknownPony: It means he just stuck someone else's wings on him.**

**Topher: That would explain why they're not really red, there more of a formerly-blue-covered-in-the-former-owners-blood color.**

**CaptainPisqueueak: Well, *some* of it is his: he used staples. He considered a nailgun, but he was almost certain that would kill him.**

yet you know how to perform such an attack like that. That's what's impressive about it."

**SC276: ...I'm still not seeing it. Why would only particularly powerful alicorns know how to cast Magic Missile?**

**CaptainPipsqueak: But it's a *special* Magic Missile. ... With nukes an' *everything*!**

Suddenly, Spike had an idea and whispered it into Twilight's ear.

**Mono: [Spike] "Let's kill this shit..."**

**CaptainPipsqueak: [Spike] Save his skeleton for me. I'm in a marrow mood."**

**ThatUnknownPony: [Spike] "Can we throw him to a hydra or a quarry eel?"**

"Hey Twilight, why you don't make Eder as your student and teach him the magic you learned from Princess Celestia?"

**Mono: [Twilight] "...Spike, are you a moron?"**

**BittplexMutt: [Spike] "No, I thought I was a dragon."**

**Giginss: Why not add Starlight to the mix? You have already pulled stuff from practically every season opener or finale.**

**Dragonborne: I'd rather not, because then Starlight would go idiot ball all over again in Eder's presence.**

**ThatUnknownPony: Which would be weird because it's usually Twilight who goes idiot ball all over when Starlight's near her.**

**Crazy56U: A) *Shush*. And B) So, not only is this one of the timelines Starlight created during "The Cutie Remark", but it's also one where she fucked up royal and *erased herself from the timeline*.**

**SC276: Stupid bitch, she didn't take us with her!**

Twilight nodded as she spoke to her companion, "Well, I guess I could teach him some things I know that she taught me.

**JofY: [Twilight] "I doubt he'll use them for evil! We've known each other for so long after all!"**

**BittplexMutt: [Twilight] "We'll just rehash all of the seasons!"**

**CaptainPipsqueak: [Spike] "It shouldn't take you long, you can just skip the episodes that sucked."**

Having some experience with being taught this kind of magic,

**BittplexMutt: You know, like in the show.**

it would only make sense to be a teacher myself."

**ThatUnknownPony: Somewhere, Starlight cries as if she had been suddenly replaced, and began planning to erase Enema from existence.**

**SC276: Were some rules not in place, I'd suggest pitching in.**

As the two came to their agreement,

**BittplexMutt: More like Twilight saying it's her idea and Spike just accepting it.**

Twilight walked to Eder to tell him their idea, "Eder, me and my friend Spike have come with the decision that I should be a teacher to you."

**ThatUnknownPony: [Spike] "Whoa! Way to throw me under the bus, bitch!"**

**PanzerThiefZero: Thankfully not literally.**

**CaptainPipsqueak: [Twilight Sparkle] "After which we decided that that was crazy talk and that I should tell you to fuck off."**

Eder was surprised by what he heard from her. "What?"

**Mono: You and us both, idiot.**

**SC276: [Twilight] "And your hearing is terrible. This is going to be *great*."**

Twilight explained their plan to Eder,

**JofY: [Twilight] "...And then you fling the quarterback's corpse onto the third baseman."**

**SC276: [Twilight] "...and the moment her back is turned, *that's* when you throw the snakes across the canyon."**

**BittplexMutt: [Twilight] "..and that's when you light everything on fire."**

**Topher: [Twiggles] "And then the yaks will surgically implant jars of moonshine in your chest cavity so you can transport it back to me."**

**CaptainPipsqueak: And remember, the password is 'hope'.**

"I will teach you some of the skills of magic that Princess Celestia once taught me."

**SC276: "I will teach to you the skills of my people."**

**CaptainPipsqueak: "It'll likely take a while, because we tend to randomly break into song around here."**

**BittplexMutt: "And then you will teach them to another and so on.."**

"Awesome! Perhaps I'll learn some things I never knew before!" said Eder.

**ThatUnknownPony: [Enema] "Which aren't really much things, because I'm that cool."**

**Dragonborne: [Twilight] "Actually, I was going to teach your how to write."**

He was happy to hear this from the alicorn princess. To start, Twilight gave him some bits and a list of materials.

**Mono: Like fire, brimstone, etc.**

**CaptainPipsqueak: Bat eyebrows, frog testicles, the usual spell stuff.**

**JofY: [Spike] "You're my bitch now! MUWHAHAHAHAHA!!!"**

"Now the first and most important things you need are the materials.

**Mono: Except not, but...**

**SC276: The part of Equestria's magic system will be played by *Dungeons & Dragons*.**

**CaptainPipsqueak: Which one? There's about twenty versions now.**

They're all written down on this list. I would recommend looking to buy them at the shops in Ponyville."

**ThatUnknownPony: [Twilight] "And don't come back until you've found that elbow grease and headlight fluid, ok? I don't care if they say they don't sell those, you must get them!"**

**JofY: [Twilight] "Only those who support the local economy are good."**

**CaptainPipsqueak: Or you could pump points into stealth and just steal them. Whatever.**

She then turned to her dragon comanion. "Spike, I would like you to accompany Eder in looking for each one."

**ThatUnknownPony: [Spike] "Okay, one thing is implicating me in this stupid plan, and another one is leaving me in charge of the motherfucker!"**

**BittplexMutt: [Spike] "I will so fail you now!"**

**SC276: [Twilight] "And once you're alone, get him into an alley and shank him."**

**Dragonborne: Should've left the bastard to his own devices, Twi. He could've killed himself quicker.**

**Topher: [Twilight] "Make sure the guy at the quill shop doesn't sucker him into buying a sofa!"**

**CaptainPipsqueak: Comanion. Why, I can remember when Spike was just as comboyion. Time sure flies.**

Spike gave Twilight a big thumbs up as he said, "Okay Twilight! You can count on me!"

**SC276: And then he died.**  
**CaptainPipsqueak: YOU BASTARDS!**

And so, Eder and Spike went to town square of Ponyville to purchase the materials for Twilights.

**Mono: Suddenly, Sci-Twi ended up in Ponyville!**  
**JofY: Suddenly, glitter.**

As Eder and Spike walked through the town, all the ponies looked at the red alicorn with delight, still having conversations about him.

**Mono: Because the entire town apparently has a fetish for him now...**  
**JofY: I wonder if we've done a fic with this much masterbation in it...**  
**ThatUnknownPony: Most of them involved methods of disposing of bodies without getting noticed.**

"Wow, everypony seems to be talking a lot about you. You must be special." Said Spike, complimenting the red unicorn.

**ThatUnknownPony: Yeah, specially annoying he is.**  
**BittplexMutt: A Gary Stu kind of special.**  
**CaptainPipsqueak: An exceptionally short bus kind of special.**

"Yeah, although I never thought this would happen in the first place."

**Mono: [Enigma] "Normally, I'm unable to mind control an entire town like this..."**  
**BittplexMutt: [Eder] "There was that weird vampire pony though.."**  
**JofY: [Udder] "Normally people don't give two shits about seeing an incredibly rare and powerful being."**

Said Eder, thinking about where he was before arriving at Ponyville.

**SC276: Namely, the void.**  
**BittplexMutt: He never thought strange things could happen to him.**  
**JofY: \*aims gun\* If you have a flashback I will shoot.**

"Well, it happened." Said Spike as he pat Eder on the back.

**BittplexMutt: [Spike] "So, suck it up."**

"Anyway, what's the first item on the list?"

**BittplexMutt: Napalm.**  
**ThatUnknownPony: Arsenic.**  
**Mono: Brimstone.**  
**SC276: Kirby's head.**  
**CaptainPipsqueak: Cyanide.**

The two checked the list and saw that the first thing to get was a notebook and some spell books.

**BittplexMutt:** Not just any spell books, *some* spell books.

**JofY:** A specifically vague amount. And no more.

**CaptainPipsqueak:** So more than one and less than a hundred thousand million billion trillion.

**SC276:** Twilight doesn't want to share hers.

**Mono:** "A Beginner's Guide to Parlor Tricks."

**ThatUnknownPony:** "The Complete Moron's Guide to Getting Out."

**Dragonborne:** "Instruction Manual For How to Operate Fanfic."

**Topher:** "My First Necronomicon"

**CaptainPipsqueak:** A dictionary. A 'spell book', get it?

"You'll need the notebook for all the lessons you've learned from Twilight,

**JofY:** [Udder] "But I haven't learned anything yet..."

**SC276:** Failing that, doodles.

and the spell books will help you learn the many ways of magic." Said Spike, explaining the different items.

**BittplexMutt:** Yes, Spike. We already know that from the last sentence.

"There's a shop right over there where you can buy the notebook."

**BittplexMutt:** Why am I suddenly reminded of college?

**Mono:** I dunno. Why am I reminded of middle school?

**ThatUnknownPony:** Why am I reminded of high school?

**Crazy56U:** Why am I suddenly depressed?

**JofY:** Why am I reminded of Pre-K? I never even went there!

Spike guided Eder to the bookstore to buy a notebook and some spell books.

**BittplexMutt:** BittplexMutt was then suddenly reminded of college.

**ThatUnknownPony:** ThatUnknownPony was then reminded of high school.

**SC276:** And insert everyone else's comments here.

Meanwhile, a mysterious black unicorn

**Mono:** That edgy OC from the MLP movie?

**ThatUnknownPony:** Nah, Tempest is more a dark violet. My money's on Sombra.

**BittplexMutt:** Is it Nyx?

**SC276:** If Epic Failure shows up again, I swear to god.

stood within the shadows, looking upon Eder as he was walking to the shop with Spike.

**SC276:** OK, I've honestly been mentally substituting Eder's name with "Eclair," and now I'm hungry.

**BittplexMutt:** Now, I want to eat an éclair.

"That red alicorn, he seems so... nice..."

**SC276:** [Epic Failure?] “~*That you really should take our advice...~*”

**Mono:** Even the villain has the hots for him!?

**JofY:** [???] “Hey! You! Let’s have sex!”

I need to keep an eye on him.”

**SC276:** [Epic Failure?] “(rips his eye out of his skull) Go fetch, boy.”

As the two walked into the shop, all the ponies were looking directly at Eder.

**JofY:** This lead to many accidents occurring with the shop burning down.

**BittplexMutt:** There were little survivors.

“They’re still curious about me.” Said Eder, feeling a bit nervous about it.

**BittplexMutt:** [Eder] “They want to be friendly with me.”

Suddenly a voice at the counter spoke to the red pony, “Ah, Eder the alicorn.

**Mono:** No, it’s “Eder the cool pony”.

**BittplexMutt:** No, it’s “Eder the douchebag.”

**ThatUnknownPony:** No, it’s “Enema the loser”.

**Crazy56U:** No, it’s “Eggo the Waffle”.

**PanzerThiefZero:** No, IT WAS ME, DIO.

It’s a pleasure to have you here.”

**JofY:** “Yippe.”

**BittplexMutt:** “Great.”

It was Crescent Moon, who was an employee at the bookstore.

**SC276:** And she’s... who now?

**Topher:** The pony who’s been trying to have Sofa Quill assassinated for years now.

“So... I guess everypony knows about Eder, huh?” said Spike to the attendant at the counter.

**JofY:** Well, given how the whole town plus extras came and christened his arrival... I dunno.

“Yeah, everyone saw him and were talking about him.” Said a pony looking for a couple books.

**SC276:** [attendant] “Hey, he was talking to me, nosy!”

While they were talking, Scootaloo saw Eder and walked towards him, waving hello. “Hey there, I’m Scootaloo. ”

**Mono:** NO, SCOOT! GET OUT WHILE YOU STILL CAN!

**ThatUnknownPony:** DON’T TOUCH HIM OR HE’LL STICK HIS STUPIDITY ON YOU!

**JofY:** HE MIGHT TRY TO ADOPT YOU! RUN!

"Well, nice to meet you all and you too, Scootaloo." Said Eder, giving a smile to everyone in the room.

**BittplexMutt: [Eder] "Now stand back, and watch my awesomeness."**

**Mono: Also, why the heck is Scootaloo in a bookstore? Alone? Willingly?**

**Dragonborne: ... child-catering, I assume.**

**SC276: She lost a bet.**

**Topher: Rainbow sent her to study the eggheads in their natural habitat.**

Scootaloo came up to Eder with curiosity and said, "Hey don't mind me asking,

**JofY: [Udder] "I do mind."**

but I'm trying to get my cutie mark. Could you tell me what your cutie mark is?"

**BittplexMutt: "I don't know what it's supposed to be."**

**Dragonborne: "E for Everyone."**

**ThatUnknownPony: "It's a letter. A vowel, more accurately."**

**JofY: Because its time for him to start masterbating with his ass.**

**SC276: [Scootaloo] "I'd check directly, but you don't want a little girl looking at your ass."**

Just from that moment, the red pony was a little nervous about showing off his cutie mark, thinking that they will laugh at Eder.

**BittplexMutt: I'm pretty sure everyone has already seen your flank.**

**JofY: How could they not? Was he just so attractive they could only look at his face?**

**Mono: Shhhhhhhhhhhhhhhhhhh...**

But he toughened up and he showed it to the orange pegasi. "This is my cutie mark, the letter "E.""

**Mono: [Scootaloo] "You're... extreme?"**

**BittplexMutt: [Scootaloo] "You're an elephant?"**

**ThatUnknownPony: [Scootaloo] "...that's it? What's your talent, literature?"**

**JofY: [Scootaloo] "You're a Sesame Street character?"**

Crescent, Scootaloo, and some of the other ponies saw Eder's cutie mark,

**BittplexMutt: Like they've never saw it before.**

and they looked at each other in confusion; thinking that it was silly for an alicorn.

**JofY: Unlike Twilight who has a few geometric shapes!**

"Is that...your special talent?" said one of the ponies; Coco.

**Mono: Is she loco?**

**SC276: Coco Pommel, you don't deserve to be in this fic.**

"I'm not trying to be mean or anything, but that cutie mark of yours looks silly." Said Crescent Moon, trying to be nice to the red pony.

**SC276: If you're trying to be nice, why did you say that?**

**Mono: [Enigma] "THE FUCK DID YOU SAY? \*incinerates Crescent Moon on the spot\***

After hearing these words, Spike decided to defend the red pony.

**JofY: Not Udder, the other red pony.**

"But hey, his mark couldn't not only mean his name, it could mean another talent...like..."

**ThatUnknownPony: "Being the opposite of 'cool', you know... Eww."**

"Like what?" asked Scootaloo.

**BittplexMutt: That's what we would like to know.**

Spike thought for a moment,

**JofY: [Spike] "Yeah, I've got nothing."**

then spoke his suggestion, "Umm... perhaps he can do... everything."

**Mono: Wait, if he can do anything then why does he need training in magic?**

**Dragonborne: Because Gary Stu logic. Otherwise known as "bullshit."**

**BittplexMutt: Because then we wouldn't have a story.**

**SC276: Because being the Everywhere Man isn't interesting enough.**

**Topher: Aaaaand the season 2 finale of Rick and Morty is retroactively ruined.**

"Really? An alicorn like him can do everything?" asked Crescent Moon in disbelief.

**ThatUnknownPony: Crescent is now the most relatable pony in this story.**

**JofY: Okay, I'm confused about how much they're trying to suck his dick now. They all want to do it, but they don't want to do it that much?**

"Yeah, maybe that's why it's the letter "E"." said Spike.

**SC276: There are like a thousand different words that start with E.**

"Well that seems like it would be a special talent." Said Coco.

**Mono: A special kind of bullshit, yeah.**

**ThatUnknownPony: [Coco] "I just don't think it's a talent he has."**

Hearing about the words of Coco, Eder looked at the 3 ponies and said, "Do you think I'm... silly?"

**ThatUnknownPony: [All Three] "Yes."**

"No, you're actually the opposite of that,

**JofY: [Scootaloo] "You're humorless."**

**SC276: [Scootaloo] "You're a black hole of comedy."**

**Topher: [Spike] "I have literally begun to suffer from clinical depression after being within 100 feet of you for ten minutes. You remove even the slightest inkling of joy from everything you get close to. Children's balloons pop and lover's passions grow cold. I had twilight test my hormone levels before we even left, and found I was completely devoid of endorphins."**

you're wonderful." Said Scootaloo, trying to make him feel better.

**BittplexMutt: Stop lying, Scootaloo.**

**Mono: Gyroscope is our town compulsive liar around here.**

Eder felt better and smiled at the three ponies around him

"So, what is it you're looking for?" Crescent Moon asked Eder and Spike.

**SC276: [Crescent Moon] "Let's get this plot over with already."**

Spike gave the list of materials to Crescent Moon.

**JofY: Who gave it to Scootaloo who gave it to Apple Bloom who gave it back to Spike.**

"We're looking for a notebook and some spell books."

"That will cost you 25 bits total." Said Crescent Moon, holding out his hoof.

**Mono: [Enigma] "Fuck you. \*incinerates Crescent Moon\*"**

**ThatUnknownPony: [Enema] "...what? It isn't free for a cool pony like me? Do you even know who you're dealing with?!"**

**BittplexMutt: That's pretty cheap.**

**JofY: No tax?**

**Topher: Equestria includes sales tax in the prices, because that makes logical sense.**

Eder took out the bits given to him from Twilight and paid for the first set of items they needed.

**SC276: Out of however many the author thinks he can get away with.**

Crescent Moon gave the two materials, giving off a smile to the red alicorn. "Thank you, and have a good day."

**ThatUnknownPony: [Crescent] "Hope you slip down a cliff and die."**

With curiosity flowing through his head,

**SC276: -unimpeded by the lack of brain in the way-**

Eder opened one of the spell books and saw one called "Shield breaker," and he began to read it as him and Spike walked out of the bookstore.

**JofY: [Udder] "Damn, it's overleveled!"**

**LimpBrisket: "It's just a Dungeons & Dragons rulebook!"**

"This one looks interesting, it says that I can break a target's magic shield."

**BittplexMutt: Hence the name. Shield Breaker.**

**Mono: \*groans\* Mykan has more creativity than this fic!**

**ThatUnknownPony: Those are some cursed words, and yet they're so true.**

**JofY: Mono please. You're just annoyed by the OC. Let's not say things we can't take back.**

"Oh yeah, Twilight has a book like that when it comes to battling enemies." Said Spike.

**SC276: [red pony] "So why couldn't she just lend me her books?"**

**[Spike] "Because she hates you."**

**BittplexMutt: [Spike] "There's also a book on Gary Stus."**

Distracted by reading the book, Eder accidentally bumped into Rarity and they fell to the ground.

**BittplexMutt: Was the ground cold and dark?**

"UGH!!!

**JofY: [Udder] "What do you think you're doing poor person!?"**

Don't any of you ponies have manners and eyes to see where you're-"

**Mono: [Enigma] "Mind your words, bitch! \*incinerates Rarity\*"**

Rarity then realized that he had bumped into Eder, and felt sorry for yelling at him.

**SC276: [Rarity] "I beg your forgiveness, my god!"**

**BittplexMutt: Don't be sorry. He's a douche.**

**JofY: So, anyone else, and she would have cursed at them for days, but because "GUY SHE DOESN'T KNOW" bumped into her, she's to blame?**

Spike was blushing as he looked at Rarity. "Umm, S-sorry, R-Rarity, Eder was-"

"Oh my, I'm so sorry! I didn't know it was you two!" said Rarity, gathering the books Eder had dropped.

**JofY: [Rarity] "Can I suck you off to make up for this?"**

**[Udder] "You already are."**

"It's okay, Rarity, I was distracted from reading these book of spells.

**Mono: Just the one. Running joke.**

I'm trying to understand what I will be learning from Twilight."

**JofY: Completely random yet conveniently useful material.**

Said Eder as he showed off the book he was reading.

**ThatUnknownPony:** And then Rarity laughed at the idea of Twilight teaching something to him.

**SC276:** This guy has clearly never had higher education. You *never* cover the entire book in one semester. Not even in *two* if it's calculus.

After their little accident,

**Mono:** ...Interesting way of putting that...

**Dragonborne:** Eder's *conception* was an accident.

Spike helped the two ponies up on their hooves.

**SC276:** Rarity started picking his books up without even standing herself back up?

**Author,** you know your choices have *consequences*, right?

**JofY:** I don't know if the author knows what that big word means.

"So, what brings you here?" asked Rarity.

**BittplexMutt:** [Eder] "I have to do shopping and she let her "assistant" help do all the work."

"Twilight sent me to buy these materials so I can learn everything from her."

**JofY:** Except creative writing. That subject seems to have gotten cut.

Said Eder as he got all of his books together.

**SC276:** [Rarity] "And she didn't just lend you some of hers, given she lives in a *library?*"

[red pony] "That's what *I* keep asking!"

Spike took out the note of materials and gave it to Rarity.

**JofY:** [Rarity] "...What? You expect me to get this shit for you?"

His arm was shaking a bit.

**Mono:** HUMANS! AGAIN!

**SC276:** I'm relatively certain that "arm" is also a term for the front leg of a horse or pony, but I didn't want to give the author any credit.

Rarity took a good long look at the list, "My goodness, that's a lot of things."

**SC276:**

**Topher:** "Yes, indeed! Magic requires much stuff! You better go by the doodads to do the thing!"

"Yeah. Now that you think about it, Eder, don't you think that those materials will be a little to heavy for you?" asked Spike, looking at him as the books start falling down again.

**JofY:** [Udder] "But Spike, I can do **everything!**"

**Topher:** Eh, you said it wrong. "I can do **EEEEEEVERRRRYYYYTHIIIIIIING!**"

"Wha? Nah, I'm good. Just gotta get a good grip, that's all."

**Mono:** **PICK A BODY TYPE AND STICK WITH IT!**

**ThatUnknownPony:** Consistency? In this story? Boy, you're wishing too much.

**PanzerThiefZero:** I am so quoting that out of context.

Said Eder as he dropped the books again.

**SC276:** Can we talk about how Twilight sent red pony out to buy things and *didn't* give him saddlebags to carry them in? She's *trying* to fail him!

**BittplexMutt:** Maybe that was her plan the whole time!

After hearing this, Rarity came up with an idea.

**JofY:** [Rarity] **\*fires gun\***

"Follow me you two, I have the perfect solution to your problem!"

**BittplexMutt:** "Murder!"

So Eder and Spike followed Rarity to her house,

**SC276:** Of course the author doesn't know what her business is called.

wondering what she wished to do.

Rarity walked to her shelf as she said to the red pony, "I'll make a bag for you Eder,

**JofY:** ...Oh yeah, that's right. Udder moved here, right? If that's the case, where is he living? Even Void Tray got that part down first!

it'll put all those materials in one place."

**Mono: He can't hold it, but still.....**

**ThatUnknownPony: [Rarity] "I just hope the weight doesn't crush your back, that would be dreadful and oddly satisfying to see."**

So Rarity began to make Eder a bag, moving place after place, finding the things she needed to make it.

**JofY: The whole experience became more trouble than it was worth.**

**Topher: Is it just me or does this guy have a stuff-gathering fetish?**

After a while, Rarity showed Eder the completed rucksack.

**SC276: A backpack. A *backpack*. If this isn't proof the author has never watched the show, I don't know what is!**

**Topher: \*Tickles SC with a spikebat\* A SADDLEBAG, YOU IGNORAMUS!**

"I hope you will put this to good use darling."

**Mono: [Enigma] "\*...tears it apart\*"**

As Eder took a look at the bag Rarity made for him, Sweetie Belle;

**JofY: [Rarity] "Finally rid of that good for nothing sister."**

Rarity's younger sister, saw Rarity with Eder & Spike. "Hiya sis!"

**BittplexMutt: [Sweetie] "Hiya freak of nature!"**

**SC276: [Sweetie Belle] "I'mma unnecessary insert myself into this scene and telegraph that Applebloom will show up later!"**

Rarity looked to her sister. "Ah, hello Sweetie Belle! I don't think you've met Eder yet, have you?"

**Mono: [Sweetie Belle] "Does it look like I *want* to?"**

**ThatUnknownPony: [Sweetie Belle] "No, but I planned to keep it that way."**

"No, but I saw him when he came into Ponyville. I heard he's an alicorn too." Said Sweetie Belle as she walked to the three.

As the fine gentlepony he was,

**SC276: *Apparently.***

**ThatUnknownPony: *Coughbullshitcough.***

**PanzerThiefZero: (Gets crushed by the sheer amount of ego on display)**

**Topher: Dear god in heaven... We may have actually found the ego to top *Mykan...***

**Ladies and Gentlemen at home, I'm so sorry you have to experience this with us.**

the red alicorn gave a kind greeting to the little filly unicorn.

**JofY: If he was a regular pony, he would have punted the filly across town.**

"Hello, little pony."

"It's a pleasure to meet you, Mr. red alicorn."

**Mono: Read: Mr. Edgelord.**

**ThatUnknownPony: Also read: Mr. Dumbass**

**Topher: Also read: *The Color of Magic*. It's a good book.**

Said Sweetie Belle, giving Eder a smile.

**SC276: [red pony] "Um, my name is--"**

**[Sweetie Belle] "I couldn't possibly care less."**

Spike tapped the red pony to get his attention, "Uh, Eder? We need get going."

**ThatUnknownPony: [Spike] "Seriously, it says on the list: 'Get going'."**

**BittplexMutt: [Spike] "We're slowing the plot down."**

Just before they were about to leave, they were stopped by the two unicorns. "Wait Eder, before you go..."

**BittplexMutt: "Sign my autograph!"**

Then, Rarity took out a strange looking cap.

**BittplexMutt: It smelled like a fish.**

It was bright red and it had a capital "M" on the front of it.

**BittplexMutt: *Oh for fuck's sake... Mario doesn't deserve this!***

**Mono: Jeez, Bitt! Calm down!**

**ThatUnknownPony: *No, I support her and say Mario should remain untouched by this shit!***

**SC276: Who does the author think he is, fucking Kirby?!**

**PanzerThiefZero: Wow guys, *Super Mario Odyssey's* looking godawful.**

**LimpBrisket: The "M" stands for "Mary Sue".**

"I was inspired to make this hat one night when I looked upon the stars.

**BittplexMutt: Get it? Because *Super Mario Galaxy!***

**Mono: *Calm the fuck down!***

**ThatUnknownPony: *MAKE US!***

I wasn't quite sure why though,

**Crazy56U: There was nothing good on TV.**

it just came to me.

**BittplexMutt:** [Rarity] "It's like the author gave me this idea in my head."  
**ThatUnknownPony:** [Rarity] "Almost like this was meant to make you look more like a self-insert!"  
**SC276:** [Rarity] "Almost like a spherical ghost mugged someone and left their hat in front of me."

Anyway, I'd like you to have it.

**BittplexMutt:** "And get it out of my sight."

It's no use to me, so why not for you?"

**BittplexMutt:** "Someone more stupid like you."  
**ThatUnknownPony:** Because he's not Super Mario, nor is he worthy of that hat.

"For me?" asked Eder as he looked at the two sisters.

**BittplexMutt:** For you!  
**SC276:** Pay attention already!

"Yeah! A gift of Generosity!" said Sweetie Belle with a big smile.

**BittplexMutt:** A gift of Honesty!  
**Mono:** A gift of Laughter!  
**ThatUnknownPony:** A gift of Kindness!  
**SC276:** A gift of Magic! (blows red pony up with Magic Missile)  
**Topher:** A gift of high explosives! \*Pulls out a claymore\*

Rarity gave the hat to Eder. "Go ahead, take it."

**BittplexMutt:** [Rarity] "Do it. Now."

So Eder took the hat that the unicorn made, seeing how kind she was to offer it.

**BittplexMutt:** It's not like he had a choice now, did he?  
**ThatUnknownPony:** He had the choice of leaving and never coming back, but we ain't that lucky.  
**SC276:** And then he threw it in the trash instead of putting it on.

"Thanks Rarity! I really like the way it looks!

**BittplexMutt:** [Eder] "It looks just awesome like me."

Now we just need to find a pencil to go with the notebook."

**Mono:** Doesn't Twilight have one?  
**SC276:** No, that would imply that ponies don't write with *quills* in this show. Not that the author would *know*...

And so, the red alicorn and his dragon friend left Rarity's home,

**BittplexMutt: You mean the Boutique?**

as the two sisters said good bye to them. "Bye Eder! Bye Spike!"

**Mono: Bye Chief!**

**SC276: Bon voyage, Charlie Brown, and don't come back!**

---

Chapter 3: The chase.

**Mono: And we're riffing Kudzu now!**

**Crazy56U: DON'T**

**ThatUnknownPony: Since I wasn't here for Plant-Boy... Is this better or worse?**

**SC276: Depends on whether or not a filly gets it in the ass.**

**Topher: At least Kudzu had some creative ideas. hell, there are parts of *the catch* i genuinely enjoyed for the creativity displayed in the setting and scenario. This? This is just bland, uninspired drivel.**

As the two walked out of the house,

**BittplexMutt: Again, Boutique.**

Eder asked the little dragon, "Hey Spike. Not trying to be personal or anything but,

**Crazy56U: [Double D] "(rubs nose) You, you got a... hanging from your nose right..."**

do you have a crush on that pony?"

**BittplexMutt: Yes. Is it that obvious?**

**Mono: [Spike] "Well, not if you believe Sunrise..."**

**ThatUnknownPony: [Spike] "It's the only thing bad authors seem to remember about me."**

Spike was shocked, and blushed upon hearing this. "W-What are you talking about?"

**BittplexMutt: [Eder] "That you have a crush on her."**

"Well, you ARE blushing so you MUST have a crush on her." Said Eder, giving off a smirk.

**BittplexMutt: You sure it's not just embarrassment?**

**ThatUnknownPony: Or just shock from such a question?**

**SC276: Or any one of a number of other possible factors that would cause someone to blush involuntarily?**

**Topher: Maybe he just farted and he's pretty sure everyone heard.**

"Oh yeah, but I-I-I've always been too nervous to talk about that." Said Spike as he scratched his head.

**Topher: But not so nervous that your eyes don't turn into hearts and you start floating.**

**BittplexMutt: That you would need to see a doctor for.**

During their walk, Eder & Spike heard the voice of a mare with Dash Junior.

**Mono: [Lynn] "What do you mean I have no reason to exist?!"**

**ThatUnknownPony: [Lynn] "WHAT DO YOU MEAN DASH IS MY MOTHER AND NOT MY SISTER!?"**

**SC276: OK, can we talk about how this is the least fortunate brother in existence that his parents loved his sister so much, they named him after *her*? This is like Luigi in Mario's shadow times like 120%.**

**Topher: at least they didn't name him Pichaël.**

**BittplexMutt: Or Mashy Mash.**

"Ha! Do you really think that you can beat your own sister's speed?"

"Of course I can, I want to be just like her someday!" said Dash Junior,

**SC276: [Dash Jr] "What other hope do I have in life with *this* stupid name?!"**

getting a angry with the mare.

**Mono: \*waiting to get a happy\***

**ThatUnknownPony: \*Hoping to not get a floppy\***

**SC276: (has plenty of aggravated to share)**

Spike slapped his hand against his face. "Oh no, not Trixie."

**Mono: [Spike] "They got her into this too?"**

**BittplexMutt: [Spike] "She doesn't have the Alicorn Amulet, does she?"**

**ThatUnknownPony: [Spike] "If only there was some antisocial unicorn she would annoy/bond with instead."**

**Topher: Oh no, not Trixie!**

The red alicorn and the purple dragon came up to the other two ponies, interrupting their conversation.

**SC276: Until the author *explicitly points out* her clothing, I'm just going to assume Trixie's naked. I don't trust him to do otherwise.**

**BittplexMutt: Assuming the author even knows what he's doing.**

"What's the matter?" Eder asked, curious about the situation.

"I've kept telling Trixie here over and over that I can beat Dash's speed record." Said Dash Junior as he looked at Trixie with a mad expression.

**Mono: Sure, Lynn... I'm surprised if he can reach 2 MPH.**

**ThatUnknownPony: Whatever you say, sweetheart.**

**SC276: [Trixie] "U mad."**

**[Dash Jr] "STOP SAYING THAT!"**

**Topher:**

**Mono: \*eyes begin to bleed\* Jesus, Topher, this is worse than your Sonic OC's!**

**BittplexMutt: [Dash Jr.] "I have to have something that will make everyone notice me!"**

Trixie then looked at Eder as they were having their conversation. "So, you're the new pony around town. Eder, right?"

**SC276: [Trixie] "Trixie's just gonna put this out: that's the stupidest name I've ever heard."**

**Topher: [Udder] "Actually, It's Eder the cool pony."**

**[Trixie] "The great and powerful Trixie thinks that that's fucking stupid."**

**BittplexMutt: [Trixie] "Quit stealing my spotlight!"**

Spike crossed his arms as he spoke to Trixie, "Yeah, he's the new Pony here, and he's also Princess Twilight Sparkle's student."

**ThatUnknownPony: And then Trixie freaked out and began searching for Starlight.**

Trixie laughed for what Spike had to say about the red alicorn. "That pony is Twilight Sparkle's student? Him?!"

**Dragonborne: SOMEPONY HAS THE RIGHT IDEA! \*hands Trixie a gold medal\***

**Mono: I can't fucking believe Trixie is the most relatable character in this fic.**

**ThatUnknownPony: I can't fucking believe I'm okay with that.**

**BittplexMutt: I can't fucking even.**

Eder nodded in response to her question, but it only made Trixie laugh even more. "Hahahahahaha! Oh, don't make me laugh! How can an alicorn like him be her student? Is he a little Prince?"

**ThatUnknownPony: No, but he acts like a Drama Queen.**

**Mono: Did Trixie just diss French literature?**

Hahahahahahaha! Well, I guess I HAVE to congratulate you."

**SC276: [red pony] "Yes, I know how my own mind-control works."**

"I'm still trying to do my best." Said Eder, a little annoyed by what Trixie had to say.

**ThatUnknownPony: Yeah, your best at being the worst.**

**BittplexMutt: At everything?**

By the way, what's your name?

**Mono: ...Didn't Spike just say that?**

**SC276: You don't get the benefit of knowing that, narrator!**

Trixie was surprised by what Eder had to say. "Wait what?! You've... never heard of me? The Great and Powerful Trixie? "

**Mono: Well, in his defense, you're not a protagonist yet, so...**

As the dark blue unicorn was introducing herself, Eder heard something in the distance.

**SC276: Boy, the author fucking *hates* Trixie.**

**Mono: ...\*is about to say something, but chooses to stay silent\***

**BittplexMutt: "i like trains."**

He pushed Trixie, Spike, & Dash Jr. on the ground. "Everpony down!"

**SC276: What is that, some combination of pony, *Everquest*, and *Watership Down*?**

The three ponies and Spike looked up and they saw a Blue Pegasus, full of rage.

**BittplexMutt: Instead of hot gas.**

Eder was shocked from who he saw. "Bolty!"

**Mono: "Bolty McBoltface" it is!**

**Crazy56U: ...I wanna say "Cib", personally...**

**SC276: And the author's five years old. Good to know.**

"Hello, enjoying your first day at Ponyville?" said the Pegasus.

**SC276: Boy, for someone full on age, you're really fucking casual right now.**

"Who are you?!" Spike demanded.

**Mono: [Tenth Doctor] "*I DON'T KNOW!*"**

**Crazy56U: [Spike] "And, more importantly, why should I care?!"**

**Topher: [New guy] "I'm Deus ex Machina man!"**

The Pegasus looked at Spike in anger. "I'm Bolty, one of the Pegasus' from the Wonderbolt Academy.

**Mono: Oooooooh... ...10/10, best name ever.**

**Crazy56U: [Spike] "*are you fucking kidding me*"**

**[Cib] "HEY! I don't question *your* life!"**

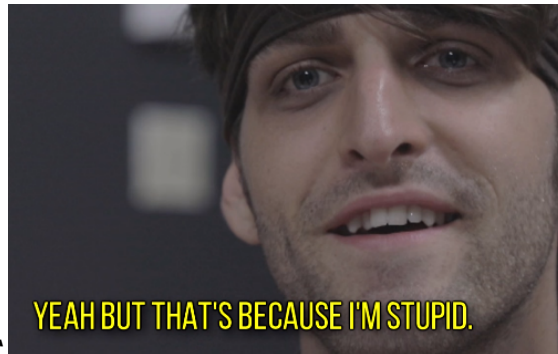

Or at least I was, because of him!" Bolty pointed to Eder.

**Mono: [Enigma] "IT WAS AN ACCIDENT! \*incinerates Bolty McBoltface\*"**

**Crazy56U: [Double D] “(legitimately confused) I have never met you before in my life, what the fuck are you talking about?”**

**SC276: And... you’re *mad* you’re a Wonderbolts trainee?**

“Eder?!” said Trixie, Dash Junior, and Spike together.

**Crazy56U: [Double D] “**  
**BittplexMutt: [Eder] “Yeah, that’s me.”**”

Bolty began to explain his story.

**BittplexMutt: “This is a story all about how my life got turned upside-down...”**

“Yeah, one day I was talking to him because I thought he was a disgrace to all alicorns and that nopony would like him because of that.

**BittplexMutt: He’s not wrong though...**

**Crazy56U: [Double D] “So, *not* because of the red and black, got it.”**

So because of that, he attacked me with magic.

**BittplexMutt: “Like a jerk.”**

**Dragonborne: “Trixie and Bolty merely thought that Enema was seriously compensating for something.”**

**Mono: Looks like Bolty McBoltface couldn’t handle the truth...**

**SC276: Look at this way, Mono: your running gag is canon.**

**Crazy56U: Eh, magic, a 2x4, same diff.**

I tried to defend myself from the attack by blocking it;

**Crazy56U: Well, clearly you did not, since you are not dead.**

however it unintentionally hit the academy, destroying it completely,

**SC276: *what***

**Crazy56U: UH OH, SPAGHETTIOS!**

**Mono: \*plays a sad trombone\***

**Topher: Woopsie doodles!**

and Spitfire blamed me for the cause and banned me from ever joining again!”

**BittplexMutt:** I think you could sue her for banning you unfairly.

**Crazy56U:** But if Cib took the fall for the destruction of a government facility, *why is he not in jail for life?*

**Giginss:** The academy was destroyed by a magic attack, and Spitfire blames a pegasus for that. *Logic.*

Dash Junior looked worried. "But what are you gonna do with Eder now?"

**BittplexMutt:** [Bolty] "I'm gonna make a callout blog against him!"

**Crazy56U:** [Cib] "Hint: *the roads will be stained red within the hour.*"  
[Trixie] "... ..you're going to shave him bald?"

Upon hearing this, he gave Eder the evil eye and took out a sharp kitchen knife,

**Crazy56U:** So essentially:

[Cib] "(hands Double D a glass eye) Hold this a sec?"

[Double D] "(confusedly takes it) Uh, sure... ..but why?"

[Cib] "(pulls out the knife) No reason."

**Mono:** ...Holding it with *what*, exactly?

**BittplexMutt:** With magic?

**SC276:** So, you intend to shank a bitch... with *at least three witnesses?*

that made everyone tremble as they looked at the angry Pegasus.

**BittplexMutt:** And then the knife was taken from them because the ponies remembered that some of them have *magic*.

**Crazy56U:** Mainly because a cold snap occurred and it was now chilly.

"I'M GOING TO KILL HIM FOR CRUSHING MY DREAMS OF BECOMING ONE OF THE WONDERBOLTS!"

**BittplexMutt:** I can't believe that Bolty is the most relatable character in this story.

**Mono:** \*ahem\* I can't *fucking* believe, Bitt. Proper terminology please.

**Crazy56U:** You know, when *Lightning Dust* had her dreams crushed, *she* didn't resort to murder. She just stopped existing.

**Topher:** Well, except for that one time in the comics.

Eder looked at his reflection in the knife,

**Crazy56U:** [Double D] "...my *God*, am I really that fat?"

**BittplexMutt:** [Eder] "I'm hideous!"

standing in fear as Bolty pointed the weapon at him, ready to strike.

**BittplexMutt:** All he needs is a bowling ball.

"Hehe, funny story Bolty, but if you excuse me everyone... GOTTA GO!"

**BittplexMutt:** Gotta go fast?

**Mono:** ...Crazy, if you even *try*...

Using his instincts,

**BittplexMutt: Heh, "instincts".**

Eder grabbed Spike and put him on his back as he ran as fast as he could,

**BittplexMutt: Was he running in the 90s?**

as Bolty jumped closer, almost hurting Eder.

**BittplexMutt: Almost, but not quite.**

"Hey, what do you think you're doing?!" said Trixie, about to use her magic.

**BittplexMutt: [Bolty] "I'm gonna kill him. Were you not paying attention to my backstory?"**

**Dragonborne: [Trixie] "Why the fuck didn't you get the flaming chainsaws?! Now he'll never die, you fool!"**

**SC276: She's actually angry he's only rescuing Spike, and leaving her and Dash's overshadowed brother behind with the walking insanity plea.**

Dash Junior stood with her. "You should be in prison you psychopath!"

**Crazy56U: [Cib] "I've been there at least twice. Trust me, *it's boring.*"**

**Mono: [Bolty McBoltface] "SHUT UP, YOU WASTE OF EXISTENCE!"**

**opher: [Bolty] "You calling me crazy? Just because I got a hotel in my foot don't make me a BOOGILY MOOGILY MOOGILY!"**

Bolty stopped and pointed the knife at them.

**BittplexMutt: [Bolty] "Stabby stab stab!"**

"Don't you try and stop me, or you will suffer the same fate!"

**SC276: [Trixie] "And you think we want to do that, *why* now?"**

And so, Bolty began to chase after Eder and Spike.

"Help, Bolty is trying to kill me!" yelled Eder as he ran as fast as he could with Spike.

**SC276: For very good reason! You fucking *attacked* him with a spell strong enough to *destroy Wonderbolt Academy*! You actually *did* try to fucking kill him! No jury would convict him!**

Spike looked back at Bolty. "Run faster Eder! He's catching up and he doesn't look too happy!"

**BittplexMutt: [Eder] "Yeah, I can see that!"**

**Mono: Really? The guy with the knife doesn't look happy?**

**Topher: Yeah, see the problem is he needs two knives.**

"You don't think I see that?!" said Eder

**SC276: [Spike] "I sure hope you're not, because that would mean you're not looking where you're running!"**

as he tried running as fast as he could.

**SC276: But failed miserably.**

**BittplexMutt: As usual.**

Just unexpectedly, Eder and Spike bumped into Scootaloo, riding her scooter.

**Mono: Scootaloo Ex Machina. \*ding\***

**SC276: You're running as fast as you can, and when you collide with a *little filly* riding her scooter, it's a *bump*? Boy, you're *absolutely fucking pathetic*.**

**Topher: It soon escalated into a ten-car pileup. Three people are dead, dozens in critical condition.**

Eder? Spike? What are you two doing?"

"Scootaloo you gotta help us, Bolty is trying to kill me!" begged Eder as the blue Pegasus was getting closer every second.

**SC276: [Scootaloo] "Uh huh. Let me guess: your tie is evil too?"**

"And he's just about caught up with us!!!" yelled Spike, shaking Eder.

**BittplexMutt: [Scootaloo] "And you expect me, a kid, to do something how?"**

"Well, you guys can use my this!

**Mono: ...I don't wanna use her that...**

**BittplexMutt: This is not effective.**

You can get away faster with it!"

**BittplexMutt: [Scootaloo] "But you owe me \$50.00 for this!"**

The orange pegasi

**Mono: Oh my God, Scootaloo is multiplying! It's a dream come true!**

hopped off of her scooter as Eder and Spike hopped on and rode away from Bolty.

**SC276: What is this, *Back to the Future*?**

**BittplexMutt: And then the scooter was crushed because it can't support a baby dragon and fully grown colt at the same time.**

"Thanks a lot Scootaloo! I owe you!"

**SC276: \$4.95.**

**BittplexMutt: \$9.99.**

**Topher: Tree fiddy.**

"We'll return it if we make it out alive!" said Spike as he wove to Scootaloo.

**BittplexMutt: [Scootaloo] "But you always die!"**

Unfortunately, Eder stumbled upon a rock which caused the scooter to shake, making Spike fall from Eder's back, but luckily was hanging on the end of Eder's tail.

**BittplexMutt: Somehow.**

"Ahhhh! Eder, help me!"

**BittplexMutt: [Spike] "I don't wanna die again!"**

**Mono: [Enigma] "LET GO OF MY TAIL! \*incinerates Spike\*"**

Everypony saw Eder and Spike being chased by Bolty.

**Crazy56U: And since no one is actually doing shit about it, this means the Bystander Effect is alive and well.**

However, even with the speed of the scooter,

**SC276: Given you're clearly not using your wings to propel it like Scootaloo does, you running your own four hooves is probably faster.**

the blue Pegasus caught Eder and Spike, making them fall from the scoot.

**BittplexMutt: Which means going on that scooter was pointless.**

With Eder on the ground Bolty walked slowly to him, pointing the knife to his neck. "This is it little red alicorn, your days of troublemaking are over. You made me suffer, so I'm going to give you that same feeling."

**Mono: Trust me, we would've done the same if we had the chance...**

Eder was lying on the ground, scared that this was his end.

**SC276: Except we're not even halfway through the story yet, so... (snaps fingers)**

But just as the blue Pegasus was ready to strike, Spike threw a rock at him.

**Mono: I see Spike went to the Far Cry school of distracting opponents.**

**Topher: Or the killer croc school of killing opponents.**

**BittplexMutt: Or both.**

"Leave my friend alone! If you mess with him, you mess with me!"

**SC276: [Spike] "I FEAR NOT DEATH!"**

**BittplexMutt: [Spike] "Literally! I'm a walking voo-doo doll!"**

Bolty chuckled from the purple dragons actions. "How ridiculous, you're defending this useless pony, HUH?"

**BittplexMutt: [HUH] "I don't even know what's going on now!"**

Upon hearing this, Eder was getting angry. But instead of Bolty killing Eder, he took Spike and prepared to kill him instead of the red alicorn.

**Crazy56U: (begins violently laughing)**

**Mono: This is called a regular wednesday for Spike.**

**SC276: This guy is even more useless than red pony.**

"No wait, I was joking! Please let me go!" said Spike with fear.

"Too late now dragon!" said Bolty, just as he prepared to strike.

**BittplexMutt: [Spike] "Gee, what a way to go."**

**Crazy56U: [Spike] "Okay, look, seriously, *really think about this! Is it really worth killing someone who will not stay dead?!*"**

**Dragonborne: [Spike] "Oh well, at least I have an infinite supply of Phoenix Downs."**

But before he got the chance, Eder used a magic attack to push Bolty into the air.

**BittplexMutt: So, Force-Push?**

**SC276: Sending Spike flying, ramming headfirst into a tree and dying.**

Eder then took this time to help Spike on his feet before Bolty landed on the ground. "Leave my friend alone you crazy pegasus!"

**BittplexMutt: [Bolty] "Crazy?! You ain't seen crazy yet!"**

**Crazy56U: (cheerfully flips off the fic)**

At that moment, one of the royal guards arrived just in time to capture Bolty. "Bolty Cakehole,

**BittplexMutt: Oh my god, Cakehole? Is that the PG version of Asshole?**

**Dragonborne: I'd assume so. Either that, or it could refer to a possible food fetish.**

**\*ducks and lets a flying brick pass over her head\***

**Mono: ...Cakehole- ohhhhhh... 20/10 da best namez evaaar!**

**Topher: BAAHAHAHAHAHAHAAAA! OH MY God, this guy's level of maturity is on par with *South Park*!**

you are under arrest for causing physical damage to a citizen of Ponyville."

**SC276: Really? And not *ATTEMPTED MURDER*?!**

**Mono: Pssh! If that was a real offense Pinkie would've been given a life-sentence by now.**

**BittplexMutt: Even they don't care about Eder.**

**Topher: As opposed to mental damage, which is totally legal. So psychic head-popping is still a go!**

Bolty struggled, hoping he could free himself. But it was too late. "No, you're not taking me to prison! NO!

**BittplexMutt: No, you!**

Oh, Eder you're gonna pay for this! I swear, YOU WILL PAY!!!"

**BittplexMutt: [Bolty] "You'll pay for my taxes!"**

**Dragonborne: [Bolty] "You'll pay for my mortgage! And my unborn child, too!"**

**Mono: Fortunately, this is no sequel hook.**

**Topher: [Bolty] "YOUR TAXES WILL PAY FOR MY THREE HOTS AND A COT!"**

**[Guard] "Yeah, more like some slop and a drop." Now that's what I call gallows humor!**

Eder stared at Bolty as he was being dragged away to Canterlot to be put on trial.

**BittplexMutt: and to be executed.**

"I feel bad for doing that to Bolty, but I didn't want him to kill me."

**BittplexMutt: But you made him this way, so it's still your fault.**

**SC276: Especially given you tried to kill him first for the mere act of insulting you. *Jerk.***

**Topher: Well, at least there's been some character development. We've gone from absolute blandness to irredeemable, trigger-happy jackass.**

Spike patted Eder's hoof to make him feel better. "Don't worry Eder, it's okay. All you're new

**SC276: Well yeah, he only got here a few hours ago.**

**BittplexMutt: You mean, enemies?**

friends are here to help you."

"Are you sure Spike?" asked Eder as he looked at the eyes of the purple dragon.

**SC276: [red pony] "Given I tried to kill a pony for insulting me, it should be obvious I have no idea what friends are."**

**BittplexMutt: [Spike] "No, I'm just saying that to lift your spirits up."**

Spike smiled as he said, "Positively. Now let me just bring Scootaloo's scooter back to her. I'll see ya at the castle."

**Mono: And this chapter has been... completely pointless.**

---

Chapter 4: Cards of the popular.

**SC276: ~The cards, the cards, the cards will tell / the past, the present, and the future as well~**

**Topher: Aaaand now I wish I was watching that movie. Then again, I also would wish to watch paint dry instead of this, so take what I say how you will.**

As Spike left, the red alicorn went to pick up Bolty's kitchen knife and saw the name of the owner.

**BittplexMutt: "Chucky?"**

"Looks like this knife belong to the Apple family.

**BittplexMutt: [Eder] "Even the initials are on this knife."**

**SC276: who the fuck initializes a *kitchen knife***

**Mono: OH MY GOD APPLEJACK WAS IN CAHOOTS WITH BOLTY MCBOLTFACE ALL ALONG!**

**Topher: WRONG! That might be interesting.**

I'll return it to Applejack so she can bring it back."

**SC276: Because walking to Sweet Apple Acres to return it yourself is too much work and leaves you carrying evidence of an attempted murder.**

**BittplexMutt: Because logic.**

The red pony took the knife and walk down Ponyville to look for Applejack. But little did he know, the black unicorn was still following him.

**Mono: Oh, right. He exists.**

"His magic is very impressive.

**SC276: Theoretically.**

**LimpBrisket: How does he fit all those handkerchiefs in his throat?**

It's time to begin..."

**SC276: Finally! It's chapter fucking *four* already!**

**BittplexMutt: Oh right, this was supposed to be a story.**

So the black unicorn climbed to the roof of a building Eder was walking past, and as he came close, the unicorn jumped from the roof in front of Eder.

**Mono: And promptly broke his neck and died.**

"WAH! Who are you?!" said Eder, shocked.

"Hello there, young alicorn," said the black unicorn.

**SC276: [red pony] "That doesn't answer my question, asshole."  
[Epic Failure?] "Right, like you're one to talk."**

Eder gave a serious expression to the stallion. "You didn't answer my question.

**SC276: *Stop reading my mind!***

Who are you??"

**SC276: [Epic Failure?] "I've come to confiscate your extra question mark."**  
**BittplexMutt: "Who am I?"**

"I'm one of the new royal guards to Princess Luna, Dukes Rubel." Said the unicorn.

**Dragonborne: \*does a quick Google search\* ... Rubel means oilseed rape, diminutive of rapum... I-I can't...**

**SC276: I got "the basic monetary unit of Belarus." What Google are *you* using?**  
**Mono: ... "Rebel Yell" it is, then.**

Eder gave a sigh of relief as he examined the unicorn, confused as to what was going on. "What do you want from me?!"

**SC276: [Epic Failure?] "Why are you shouting like a guilty man?"**

Dukes walked up to Eder. "Nothing. I've been watching you and I've seen how kind you are to other ponies, having nice conversations with them. It's like you have a heart of gold."

**Mono: [Enigma] "Well, I am a Gary Stu, after all..."**

**SC276: So, you missed the part where he shot the magic spell that destroyed Wonderbolt Academy. Boy, you suck at this.**

Eder sat down, tired from what happened during the day. "Yeah, everypony seems to be talking about me for being a alicorn, having a unique cutie mark,

**SC276: Unique in its terribleness.**

and now they thought I would have been killed by Bolty, but of course I knock him with the same magic ball I used when he was at the academy."

**SC276: ...Do you think the author is paying attention to anything he writes, or is he too busy having a hateboner to worry about consistency?**

**Topher: Flattening half of ponyville and killing hundreds, but who cares?**

"Look, have a reason for being here.

**BittplexMutt: I don't have a reason. I'm practically forced to be here.**

It's a warning, something is coming." Said Dukes, looking Eder in the eye.

**SC276: Namely, vagueness.**

"What's coming?" asked Eder, looking concerned.

**Mono: [Rebel Yell] "Winter."**

**Topher: [Duke] "This. \*farts\*"**

"2 great and powerful villains of Equestria.

**Mono: ...So Trixie and her clone?**

They've joined forces and plan to conquer Equestria." Said Dukes in a slightly low voice.

**SC276: Equestria Equestria, Equestria. Equestria? Equestria!**

**BittplexMutt: [Dukes] "It's kinda stupid, I know."**

Now Eder was worried. "Huh? Villains?"

**BittplexMutt: [Dukes] "Yes. Villains. Pay attention!"**

**Dragonborne: [Spike] "Shitty foreshadowing!"**

Dukes nodded. "That's right. I know one of them is Queen Chrysalis, the ruler of the changlings.

**SC276: Y'know, the one that *wasn't* out and about in the prologue.**

As for the other... I'm not completely sure...

**BittplexMutt: "Let me check the script."**

although it felt like... Princess Luna. But it can't possibly be her, she turned good again."

**BittplexMutt: Even he knows this is bullshit.**

**Dragonborne: I can now assume that all other changelings are extinct. Which means Thorax isn't canon.**

**Mono: Ummmm... you know the legend, right? Especially since you're her guard?**

Eder thought to himself. "Two villains want to conquer Equestria?"

"And the ones who harness the Elements of Harmony are in danger." Said Dukes.

**SC276: And yet you're not going to *them*.**

**Topher: I mean, they are high-profile defense targets. It's kind of a no brainer to go after them.**

Eder asked the unicorn, "But what does this have anything to do with me?"

**SC276: This honestly sounds like he tried changing what sentence he was saying in the middle.**

**Mono: [Rebel Yell] "Nothing. I just like to scare random ponies."**

Dukes placed his hooves on Eder's shoulders. "You are Twilight's student, you have to warn her that she's not safe."

**BittplexMutt: [Eder] "And what if I don't?"**

**Giginss: And this chowderhead couldn't warn Twilight directly because...?**

**Mono: Would you be convinced by an idiot wearing a cape? No! Of course a red alicorn is a much more reliable source!**

**Topher: \*dejectedly removes cape\***

Eder was still very confused. Dukes was warning him about Chrysalis' plan with another villain to kidnap the Mane 6,

**SC276: Bit of a logical jump, ain't it? Did you make sure to stretch first?**

the ones who hold the power of the Elements of Harmony.  
"Head my warning young alicorn, the time is coming." Said Dukes

**SC276: What time? Not the one for the story to be good, I'll tell ya that much.**

**Crazy56U: At this juncture, let's take a look at the reviews!**

#2 · Jul 8th, 2014 ·  · 37  · Prologue: A devious plot. ·

Besides the occasional small grammar mistake it is good. 

**Mono: Damn, I'd hate to have the taste of that guy...**

**Topher: The only way anyone should have that kind of taste is if they have taste buds in their rectum.**

as he jumped onto the roofs and walked away.

**BittplexMutt: [Eder] "Well, enough of that. Let's go back to being me."**

While Eder continued to watch him until he was out of sight, Babs Seed and Applebloom saw the red alicorn and walked towards him.

**SC276: And this just got five times worse.**

**BittplexMutt: It was already worse.**

"Howdy there. Aren't you that red alicorn that are talking about?" Applebloom asked Eder.

**BittplexMutt: [Eder] "The one and only."**

"Why yes I am." Said Eder, trying to calm down.

**Mono: [Apple Bloom] "\*sticks a knife into Enigma's ribs\*"**

Applebloom gave Eder a big smile. "Well, mighty nice to meet you, I'm Applebloom, and this is my cousin Babs Seed."

**SC276: [Applebloom] "She's in town on the author's request."**

**Topher: [Babs] "Ayy, pizza, fuggedaboudit, subways, taxi cabs!"**

Eder thought for a moment as he saw Babs Seed and Applebloom together, and giggled. "You're like Scootaloo and Rarity's little sister; you're all fillies."

**Mono: ...Has this guy never seen fillies before in his life?**

**SC276: *The author has never watched the show. Keep up.***

"Yeah! With all of us together, we are the Cutie Mark Crusaders." Said Applebloom, trying to show off a cool pose.

**Mono: Like Apple Bloom does...**

**Topher: [Babs] "We're gonna retake the holy land, bada-bing bada-boom!"**

"Yeah!" said Babs Seed as her cousin made her pose.

"Crusaders huh?" Eder said to the fillies.

"Yup! We're planning to get our cutie marks, no matter what!" said Babs Seed, wrapping her arm around Applebloom.

**Mono: [Apple Bloom] "\*pulls out a knife\* Now show me that flank..."**

While the three ponies were talking with each other, Snails and Snip walked to the red alicorn and the 2 fillies.

**Mono: Really? You couldn't even be fucked to write to word "two"?**

"Hi there Eder, looks like you've started to make new friends."

"Indeed I have." Said Eder, giving a slight smile.

**BittplexMutt: [Eder] "Although most of them tried to kill me."**

**Dragonborne: [Spike] "\*in a voice dripping with sarcasm\* Yeah, because *they like you.*"**

**SC276: [red pony] "Who are you again?"**

"The Great and Powerful Trixie told us about you being Twilight's first student." Said Snip.

**Crazy56U: (fart noise of derision)**

**Mono: Words of wisdom, Crazy.**

**Crazy56U: Thanks, it took me all night to draft that.**

"You're Twilight's student?" said Applebloom, looking surprised.

"Wow, that's pretty cool!" said Babs Seed.

**SC276: And it doesn't mean much of anything, given he hasn't learned anything from her yet.**

Eder simply stared at the friendly ponies, happy about how much they were amused with his accomplishment.

**SC276: [everyone else] "(laughing derisively at him)"**

**[red pony] "They adore me!"**

Applebloom whispered something in her cousin's ear,

**Topher: And she blushed hotly.**

then looked to the red pony and asked, "Hey Eder, you wouldn't mind us giving you something, would you?"

**BittplexMutt: "Like money, perhaps?"**

"Not at all." Said Eder, giving the two fillies a smile.

**BittplexMutt: [Eder] "And by that I mean, like hell I'll give you my money!"**

**Mono: [Apple Bloom] "Excellent! Now be a good colt and turn around..."**

"Well, here you go." Said Babs Seed as she gave Eder 99 special collectors cards.

**SC276: "I can do it! I can do it 99 times!"**

"What are these?" Eder asked the two fillies.

Snails came up to look at the cards. "Oh! Those are card of some of the most famous and popular ponies in Equestria!"

**Mono: [Babs Seed] Like, Celestia, Luna, Cadence, and... Rotten Eggs, the hobo on the streets of Canterlot?**

**LimpBrisket: [Eder] "Mr. Ed?! He's super rare!"**

"They show info about each one!" said Snip as he looked at his friend Snails with joy.

**BittplexMutt: Yes. That's a trading card.**

**SC276: Either 1) they're publishing cards in-universe about actual ponies, which has to be a nightmare of royalties and rights issues; or 2) the author is shoehorning in the *real-life* MLP trading cards, a.k.a. his only source of information about this franchise.**

"Me and my cousin thought we could get our cutie mark by collecting cards." Said Applebloom.

"Yeah but we never got them, plus we had too many cards that are repeated so we decided to give them to all the fillies at the school." Said Babs Seed.

**Mono: It then turned out they've given away numerous ultra rare cards.**

**SC276: [Applebloom] "Thought we kept the ones with us on them because if anyone else saw those, we'd die of embarrassment."**

Applebloom then looked at the other ponies and said. "Welp, I better get goin. My sis' Applejack might be worried sick about me."

**BittplexMutt: I think she already is.**

**Mono: \*gets flashbacks to Cutie Bloom. Shivers\***

Before Applebloom could leave, Eder stopped her. "Wait, Applebloom!"

**BittplexMutt: [Eder] "I need those cards!"**

Applebloom then looked to Eder. "What is it?"

"If she is your sister then take me to her. I have something that was stolen from her family." Said Eder as he took out the knife that Bolty stole, then he put it away.

**Mono: [Apple Bloom] "Suuuure... "stolen"... "**

So Eder & Applebloom walked together to find Applejack, and said bye to Babs Seed, Snail and Snip.

**SC276: Babs Seed bolted for the next train to Manehattan. They had to be warned.**

**BittplexMutt: They had to quarantine themselves.**

---

Chapter 5: The begin of the end.

**BittplexMutt: The end of the begin.**

**Dragonborne: Space-time's gonna distort again, ain't it? Discord already went haywire once...**

**Mono: \*sighs\* Finally...**

Eder was very intrigued by the cards that Babs Seed gave him.

**BittplexMutt: They're just regular cards though.**

"Hmm, these cards are special. It has everything I'd want to know about who each pony is."

**BittplexMutt: Like Pokemon!**

**Mono: ...Are those cards 2 feet tall or something?**

"Exactly, everypony is famous and popular, even the one that made the cards." Said Applebloom.

**BittplexMutt: Even Babe Ruth?**

Eder took a look at card #50, and checked the information from behind.

**BittplexMutt: The Grand Daddy.**

**Dragonborne: Fausticorn.**

**Mono: Albus Dumbledore**

**SC276: Jenny from the Block**

**LimpBrisket: JOHN CENA**

"The Shepherd of Fire, a legend that changed the history of Equestria forever.

**BittplexMutt: Somehow, I guess.**

**SC276: Changed history, took credit for canon, same difference.**

This stallion fought during the last day to the Great War of Equestria against Discord before his days of Chaos began.

**BittplexMutt: That's not even what happened at all!**

**Mono: Well, that's what happened offscreen...**

**SC276: Wait, if he showed up on the last day and fought, and Discord's reign was after that, doesn't that mean he *lost*?**

Duing the fight, he stood alongside 5 ponies that helped him bring an end to the war.

**BittplexMutt: Even though there was no war.**

**Dragonborne: Even though there were six ponies.**

**SC276: Even though it was by losing.**

A few months after the war had ended; the Shepherd of Fire had suddenly vanished.

**BittplexMutt: The world however, did not need him.**

**Crazy56U: Presumably on a flying fedora.**

**Mono: ...I swear to fuck that is the greatest mental image ever. Fuck King Nidoran beating Peppa Pig to death.**

**LimpBrisket: Just like Richard Simmons.**

Many assumed he returned to his home, others assumed that he had died.

**BittplexMutt: Others assumed he died on his way home.**

**SC276: Unfortunately, we don't get nice things.**

No one know exactly for sure what happened, but to this day he is remembered by many as a hero to Equestria."

**BittplexMutt: That's a load of crap.**

**SC276: Who wants to bet he time-traveled to when this card was designed and wrote it himself?**

Applebloom stopped to take a look at the card. "Oh, the Shepherd of Fire, Applejack once told me about him, she never quite mentioned who he was."

**BittplexMutt: "She forgot who he was."**

**Dragonborne: "She hated his guts."**

**SC276: "She, like the author, never read the original story."**

Eder flipped the card to take a look at the picture of the stallion.

**BittplexMutt: It made him laugh.**

**Crazy56U: [Double D] "...why is he strangling a hobo?"**

He couldn't quite make out who it was at first, but as he took a closer look, he saw who it really was. "My brother?!"

**BittplexMutt: Dun dun... dun?**

**Mono: The author of the journals?**

**SC276: *Didn't you already know this?* Even if you didn't, I don't care.**

Applebloom looked at Eder in confusion. "Huh? Your brother?"

**BittplexMutt: [Eder] "Yes, my brother."**

Eder showed the card to Applebloom. "My brother Star Blade, he's the Shepherd of Fire."

**BittplexMutt: [Applebloom] "Wow, your brother sucks."**

**Crazy56U: [Apple Bloom] "... ... (snickers; proceeds to violently laugh)"**

Applebloom gasped in shock when she heard this. "Star Blade?! I can't believe it!"

**Crazy56U: [Apple Bloom] "Hey, since you knew him and all, is it true that-"  
[Double D] "(aggressively deadpan) I am not going to answer any  
questions related to hobos or internet history ."**

Eder continued to stare at the card. "Me neither.

**SC276: You'd think a time-traveler would visit his family every once in awhile.**

But... how is this possible? My brother being the one who defeated Discord during that war... It's hard for me to believe."

**BittplexMutt: Well.. you gotta just believe.**

**Mono: Ask Lightning Dawn to help you, then.**

**SC276: And leave Parappa out of it.**

"Well he is friends with my big sister and her friends. Maybe you ought 'a ask them about him. I'm sure they know a lot more than me." Said to Eder as they continued walking.

**BittplexMutt: He doesn't even know his own brother? Wow, that's just pathetic.**

**Dragonborne: Eder had a very selective memory, Bittplex. Very. Selective.**

**SC276: Given he apparently remembers "fillies" to be sandwiches, I can believe that.**

"I hope so..." said Eder as he looked away from the card.

"Speak of the devil, there's my sis right there!" said Applebloom as she caught sight of her sister with Pinkie Pie and Fluttershy by her side.

**SC276: How convenient, the three ponies that haven't gotten a one-on-one yet. I think.**

Eder gave a nice greeting to the three ponies. "Hello mares, good to see you all."

**BittplexMutt: [Eder] "Have you come to shower me with praise?"**

**Dragonborne: [Trixie] "No, Mr. Pony, Trixie expects you to dine. \*hiding a bottle of poison behind her back\*"**

**Mono: [Applejack] "\*notices Enigma. Thinking\* Darn it, he's still alive..."**

Pinkie Pie was very ecstatic to see Eder. "OMIGOSH! It's Eder the red alicorn! Ohhhh I just want to hug him and tickle him and hug him some more and tickle him some more!"

**Mono: ...Pinkie, what is with your sudden red alicorn obsession?**  
**SC276: *that's what you're worried about why is she into tickling***

But Applejack stopped her just before she could reach him. "Calm down Pinke. There's a time and a place."

**SC276: The time is never and the place is no country for old men.**

Applebloom walked up to Applejack. "Big sis, Eder has somethin' that belongs to us."

**BittplexMutt: [Applejack] "Well, tell him I don't want it anymore."**

Eder then took out the knife and gave it to Applejack.

**BittplexMutt: She then stabbed him with it.**  
**Mono: [Applejack] "Ah will succeed where that idiot failed!"**

"Bolty stole it from your family and tried to kill me with it.

**BittplexMutt: [Applejack] "I know what happened. Word travels around Ponyville."**

So I thought I'd give it back."

**BittplexMutt: [Applejack] "I said I don't want it anymore!"**  
**Mono: [Applejack] *"\*thinking\* By Celestia, this guy is naive..."***

Applejack took the knife from Eder. "Hey thanks, I was looking for that thing. I use it to cut the apples for Granny Smith's famous apple pie!"

**BittplexMutt: So take away one knife, and no more apple pies..**

"So, I heard that Eder is gonna be Twilight's first student." Said Rainbow Dash, who was laying on a cloud in the sky.

**BittplexMutt: [Rainbow] "I'm not jealous or anything."**  
**Dragonborne: [Spike] *"LIES!"***  
**SC276: [Rainbow] "Shut up."**

This surprised the three mares, who didn't realize she was there.

**BittplexMutt: Rainbow Dash will now be played by Lucy Loud.**  
**Mono: *\*looks at Bitt\** Suddenly, I like you a lot more. I don't know why, though...**

"That's right, I bet he will be a great student for her." Said Applebloom as the rest of the mares clapped to Eder.

**BittplexMutt: [Applebloom] "He's that awesome after all."**

"Congrats Eder, we wish you good luck with Twilight." Said Applejack after she stopped clapping.

**BittplexMutt: [Applejack]** "Now, don't try and do any funny business with her.. Or else.

**Mono: [Applejack]** "Not that you'd have much time with her, bein' dead in a few hours..."

**SC276: [Applejack]** "After the next time she shouts 'drunk science,' I suspect you won't be here."

The red alicorn then saw Fluttershy, and immediately blushed upon seeing her.

**SC276: AND NOW, BECAUSE THIS FIC ISN'T PAINFUL ENOUGH ALREADY, SHIPPING!**

"Hey Flutters, something wrong?"

**BittplexMutt: [Fluttershy]** "Nothing, I'm just stoned."

Fluttershy turned to Eder nervously upon hearing him. "Oh um, n-nothing Eder. It's just that... I feel a little... strange... when I talk to ponies."

**BittplexMutt: [Fluttershy]** "The pot is telling me to kill ponies but I don't wanna."

"She's always like that Eder" said Rainbow Dash, putting her arms behind her head as she laid comfortably on her cloud.

**BittplexMutt: It's called OOCness.**

Pinkie gave a big smile as she noticed Eder blushing. "Ohhhhh, I think Eder has a crush on Fluttershy."

**BittplexMutt: [Pinkie]** "That's a shame, I was betting it would be Rainbow."

**Mono: NO! NO SHIPPING! BAD!**

**SC276: (flipping a coin repeatedly)** Of course there is. Every. Single. Goddamn. Time.

From that moment, both the shy Pegasus and the red alicorn were surprised of what Pinkie Pie said.

**SC276: What, the obvious?**

"Are you saying... Eder l-l-likes me?" said Fluttershy, feeling more nervous than Eder.

**BittplexMutt: [Fluttershy]** "That can't be right. We didn't have any scenes with each other."

Eder didn't want to admit it. "W-what are you talking about Pinkie?"

**BittplexMutt: [Pinkie]** "I said you have a crush on Fluttershy."

"I can SEE right in those eyes of yours and see that you must have some affection for Fluttershy," said Pinkie Pie.

**BittplexMutt: Was that a pun? Why put see in all caps?**

**Mono: I don't KNOW. Bad comics DO it all the TIME, apparently.**

Applejack giggled as she watched how Eder was blushing because of what Pinkie said to him.

**SC276: He was already blushing! How could you possibly tell?!**

"I guess he has some good looks for mares like Fluttershy?"

**BittplexMutt: [Rarity] "And not *moi*?!"**

"W-what? I never said that." Said Eder, who was blushing so hard he looked like a raspberry.

**Mono: ...Not a tomato? Oh, shit, he already looks like one, of course!**

"WELL is it true that you love her?" said Pinkie Pie.

Eder couldn't stop feeling nervous and couldn't stop watching Fluttershy.

**SC276: After all, the author couldn't think of another plot point to put here.**

He tried to keep quiet, he didn't want to talk about that.

**SC276: Good, neither do we.**

"Um, Eder? It's okay... I don't mind if you really...love me." Fluttershy said to Eder, in hopes of making him feel better.

**Mono: Actually, she does...**

The red alicorn took a deep breath upon hearing this, toughening up as he prepared to say those words to her. "I do."

**BittplexMutt: Bam! Now they are married.**

**SC276: What is this, fucking *Harvest Moon*?**

"Good job lover boy." Said Applejack as she patted Eder on the back.

**Mono: [Applejack] "Hookin' up with mah pals. Nice goin', friend..."**

**SC276: [Applejack] "I totally did not attach a tracking device just now."**

Fluttershy giggled seeing how shy Eder was when he said that. "You're the cutest pony I've ever met Eder."

**SC276: [Applebloom] "And *now* I'm offended!"**

She came close to kiss the red alicorn's cheek, and he blushes and fainted with a smile on his face. "Oh my godnesss, a-are you okay Eder?"

**SC276: His head's about to explode, what do you think.**

**Mono: Huh, guess Queen was right about something...**

Rainbow Dash flew from her cloud toward the passed out red alicorn. "We better take him to the hospital."

**SC276: What is with Stus being hospitalized for the *stupidest things*?!**

**LimpBrisket: It might be an allergic reaction. I don't think he's ever touched a girl before.**

Sometime later, Eder was recovering slowly after he fainted. "He'll be fine. I've never met a pony that passed out like that."

**Mono: Good for you, Random Voice.**

**SC276: [???] "Boy, he's fucking pathetic."**

"Huh? Is that you, Spike?" say, Eder as he got up.

"Girls! He's getting up." said Pinkie, getting all excited .

**Mono: [Applejack] "Fuck..."**

"Feeling better, darling?" said Rarity, watching Eder get up.

The red alicorn nodded, he still felt dizzy before passing out.

"Umm, Eder?" say Fluttershy, nervous and worried that Eder will be bad from the kiss.

**SC276: Don't worry, Fluttershy, he was already bad.**

"What is it, Flutter?"

**BittplexMutt: [Fluttershy] "That is not my name."**

And then the yellow Pegasus gave Eder her bunny, Angel. "I suppose you will need a company from my little pet."

**Mono: [Angel] "\*kicks Enigma's teeth out\*"**

**SC276: He'd have better odds with Dot's pets.**

Eder didn't have words to describe about how friendly the Manes 6 was to the red alicorn.

**SC276: How about "unbelievably?"**

"Eder, you have shown us that you're like your brother, Star Blade,

**Mono: -except with less hobo-killing-**

and we've shown you how friendly we are." Said Twilight, smiling to Eder.

**SC276: [Twilight] "Now you better have finished getting all the materials I listed, or I will shank you like a *bitch*."**

It wasn't long for Eder to remember what Dukes told him. "Twilight, I have to tell you something!" Twilight turned around and saw how surprised Eder was. "What's the matter Eder?"

**Mono: [Enigma] "I maaaay have caused a guy to go to jail..."**

"A mysterious black unicorn told me that 2 villains were about to conquer Equestria, and were about to do something evil to you and your friends!" said Eder.

**BittplexMutt: "I'm pretty sure he's not evil or anything!"**

The purple alicorn and her friends all gasped from what Eder told them. "2 villains will conquer Equestria?!"

**SC276: What is this, a *Mario* RPG?**

**BittplexMutt: Hey guys, I think 2 villains will conquer Equestria!**

**Mono: Two-colored tight-fitting pants?**

"If someone even tried to mess with my friends, they have to mess with me first!" said Dash, feeling brave.

**BittplexMutt: [Rainbow Dash] "I have a death wish!"**

"Oh my, look at the time. We'd better get to the Town Hall, we have to start Equestria's global anniversary!" said Rarity.

**BittplexMutt: I think that can wait.**

**Mono: Gee, it's almost like this is a re-hash...**

**SC276: Oh come on, author, the show already did that!**

"Well Eder, you have to stay here until you get better." Said Twilight.

**SC276: [Twilight] "That way, when we all get captured at the celebration thingy, you can leap out of bed and rescue us!"**

And so the Mane 6 and Spike left Eder alone on the room. "I can't stay here, I must warn to the town." Said Eder as he got out of his bed and out the door.

**Mono: And he promptly fell down.**

**SC276: This is so goddamn weak...**

The just as the Mane 6 were walking to the Town Hall with Eder following them, the Princess of Eternal Night & Queen of the Changelings appeared on the roof of a afternoon's day.

**SC276: [Brighton] "Hey, get off my house!"**

"Look at Twilight and her friends. They don't even know what to expect!"

**Mono: Yes. Because they've been reduced to dumbasses.**

said Nightmare Moon, watching the Mane 6 running with a smile on her face. She was ready to start her operation.

**SC276: But she's no brain surgeon.**

"Indeed, and our minions will take care of the other citizens!" said Chrysalis, giggling with evil.

**Mono: Giggling with pure evil!**

The two then saw Eder running towards the Town Hall, and then Nightmare Moon remembered something before she transformed again.

**BittplexMutt: She left the stove running.**

**Mono: She had a pie in the oven.**

**SC276: She still needs to get that there Kirby.**

---

3 MONTHS BEFORE THE PRESENT TIME

**BittplexMutt: Oh no! It's happening again!**

**Mono: Brace yourselves! \*ducks underneath the table\***

**Crazy56U: *FOR FUCK'S SAKE***

**Dragonborne: STOP FUCKING WITH SPACE-TIME ALREADY!**

"Wait... there's something on the back!" Said Twilight as she flipped the last page to the book.

**BittplexMutt: "D... I... O?"**

**Mono: "Made ya look?"**

**SC276: "It was *pain*!"**

The Mane 6 came up to her to see what it was, even the two sisters came to see it.

**BittplexMutt: But not Spike.**

Twilight began to read the text written. "Afterword, by the Shepherd of Fire. Hello old friends, and here we are. I know how much you are all missing me right now,

**SC276: To anyone but this group, this is going to look goddamn insane.**

but I just want to let you all know that I'm still alive and kicking.

**BittplexMutt: "I even kicked myself once."**

**Mono: ...I'm not gonna make the same joke twice.**

When we will see each other again, I do not know. But when you look up to the stars, think of them as my soul.

**SC276: For some reason, given he has no association with stars whatsoever.**

**BittplexMutt: So, you are dead.**

**Mono: Taking the "body of Christ" thing to a whole new level.**

Don't fret, when the time comes, I will come back. But until that time comes, you all need to be patient.

**SC276:**

After all, you all know that time is much more spent living...

**Mono: Eh? I always spend my time being dead.**

than waiting.

**SC276: Then why is the story stalling out with this flashback?**

So continue your lives like you usually would... and one day you may see me again.

**BittplexMutt: Soon...**

And one more thing.

**SC276: *OK, that's it, I'm checking. (checks) ...OK, yeah, this was in the previous story. Still not really evidence that the guy actually read it.***

I know for a fact that one day, you; my friends, may not be there to save Equestria.

**BittplexMutt: You'll be dead.**

But I know there is still hope...

**BittplexMutt: "There is another.."**

which is why I've called upon someone before I left to come in a few months time to be there if anything like that ever happens.

**SC276: (pulls out a tape recorder and hits Play)**

**Tape Recorder: "Basically, I can't trust you to do your fucking jobs."**

I can't say who... but you'll find out in due time. I will say this though... he is close... very close to me...

**Mono: "In fact, he *is* me..."**

He can be someone who protects Equestria... a hero... I could be too... but not there. I am a hero of the past... but he... he... can be a hero of the present...

**SC276: Again, this would look fucking insane to literally anyone else.**

However, if I cannot come back and this is the last time I ever talk to you... I just want to say... thank you for everything... You've made me realize who I am...

**SC276: A narcissistic Earth pony that turns himself into a red-and-black alicorn OC and takes credit for everything good that happened in Equestrian history. And whose brother tried to kill someone just for *insulting him*.**

Not just a leader... not just a hero... but a good friend...

**Mono: "And a terrible OC..."**

and I can't thank you enough for that...

**SC276: (realizes something) ...aaaaaaaand I'm done with this bit. Page Down!  
\*whoomp\***

**BittplexMutt: For doing something... I guess..**

So... farewell. Until we meet again."

**BittplexMutt: "Never."**

"F-Farewell Star Blade... my good friend..." said Twilight as a couple tears came from her eyes.

**BittplexMutt: [Twilight] "Okay, sad time over. Let's get back to our lives."**

Princess Luna then placed her hoof on Twilight's shoulder. "Do not cry young princess, you should be happy that he is safe."

**BittplexMutt: No, he's dead.**

"Yeah! For all we know, Star Blade may come back! And we'll all live happily ever after!" said Pinkie Pie, giving Twilight a small hug.

**Mono: Not while you're in this fic...**

"Hey, we all miss him now as much as you do Twilight." Said Rainbow Dash as she patted Twilight on the back.

**BittplexMutt: [Rainbow] "You can tell by my dripping sarcasm."**

"If he comes back, we'll be there to see him."

Twilight stopped crying as she spoke to her friends, "Thank you girls... thanks for being there to support me." Twilight then looked up at the night sky, and reached her hoof towards the stars. "Star Blade... whoever this pony is... I will help him for whenever we are not here to save Equestria... I promise..."

**SC276: \*pmoohw\* OK yeah, guess what: this is just the ending of the original story. And there's the line break coming up, so this entire section is *pointless*. The idea is Luna remembering something, but that could just as easily be communicated by a *single paragraph* describing the incident. Except that would imply the author *read* any of the story and didn't just open it up and copy the last several paragraphs blindly. Fuck this story and everything it stands for.**

---

PRESENT TIME

"Don't leave me please. You never left my brother, but what about me?" said Eder.

**SC276: [red pony] "He had to *make* himself an alicorn! I was one already! I'm better in every conceivable way!"**

"Brother? That red alicorn is... Star Blade's brother?!" said Nightmare Moon as she exploded with anger.

**Mono: Even Nightmare Moon can't believe this shit...**

"Wait, who is that pony? And who is Star Blade?" Chrysalis questioned as she still watched the red alicorn run.

**Crazy56U: Look, Chrysalis, honey, I don't blame you for not reading the script, *but it's still required!***

Nightmare Moon was still angry as she explained to Chrysalis, "Star Blade is a friend to the Mane Six that stood by their side long before I transformed again.

**Mono: Which reminds me, why the fuck did you transform again?**

He helped them fight evil using the Element of Leadership, a seventh Element of Harmony that Celestia kept hidden just like the Element of Love."

Chrysalis quickly looked at Nightmare Moon in shock. "Wait, there's a seventh Element of Harmony?!"

**Crazy56U: YOU MEAN "EIGHTH" YOU FUCKNOZZLE, OR ARE WE JUST FLAT OUT DECLARING A DECENT CHUNK OF THIS STORY NON-CANON?!**

**Mono: Eh, I don't blame the characters for not giving a shit...**

**SC276:**

We need to destroy it!"

"Well that Element doesn't matter to us. Three months ago he left this time to stop a paradox from spreading on the Day of the Descension. Not just that, but he took the Element of Leadership with him. What a fool!" said Nightmare Moon as she calmed down.

**Mono: Well, apparently that's not canon anymore, so...**

"I see." Said Chrysalis as she looked at Eder as he ran. "But what about this pony? You said he's Star Blade's brother. Will he be a problem?"

**BittplexMutt: Yes, as if he wasn't already.**

"I believe he harnesses the Element of Love." said Nightmare Moon as she began to get furious again.

**SC276: How?! Literally nothing he's done indicates love! He tried to kill someone for insulting him, let him take the fall for the collateral damage, literally has the most conceited name ever conceived, and *fainted and had to be hospitalized* for being *kissed by his crush*! If anything, he's *allergic* to love!**

**BittplexMutt: [Nightmare Moon] "Why are there so many Elements of Love?!"**

**Dragonborne: [Chrysalis] "\*throws her forehooves into the air\* I have no fucking clue!"**

"But that's doesn't matter."

"How can that not matter? If he's this "Star Blade's" brother, he could defeat us." Said the Queen of Changeling.

"As long as we have the Element of Love, he cannot stop us." Said the princess of eternal night. "And if I cannot stop the Shepherd of Fire, I WILL DEFEAT HIS BROTHER INSTEAD! HAHAAHAHA!"

**Mono: Oh, the narm in this story is wonderful...**

**SC276: The part of Nightmare Moon and Chrysalis will be played by Rita Repulsa.**

As Eder continued to catch up the Mane 6, he heard the laugh of Nightmare Moon, remembering what Dukes told him, "Head my warning young alicorn, the time is coming."

**SC276: [Epic Failure?] "Also, there is a time and place for everything, but not now."**

Meanwhile at the Town Hall, everypony was awaiting for the start of the celebration.

**SC276: What is with Nightmare Moon and gatecrashing celebrations?**

"Ponies from Ponyville, and others all across Equestria, it is my pleasure to welcome you all here."

**BittplexMutt: "Now get out."**

Said Mayor Mare to large crowd of ponies. "I would like to take this time to have our beloved Princess Twilight Sparkle speak before we begin."

**SC276: [Mayor Mare] "Unfortunately, you instead get eight straight hours of polka music."**

Everyone then clapped as Twilight walked towards to the microphone.

**BittplexMutt: And walked right into it.**

"Greetings fillies, colts, mares, and stallions of Equestria.

**BittplexMutt: [Spike] "But what about.."**

**[Twilight] "Not you."**

**Mono: [Twilight] "How the fuck do microphones work in this world?"**

**SC276: [Twilight] "I have not had *nearly* enough moonshine to speak in public, but whatever."**

Today, we are all here to honor the very place that we have been living on for centuries.

**BittplexMutt: [Twilight] "Aaand now we're done."**

The very place we have brought our families upon.

**SC276: From... somewhere else?**

**BittplexMutt: "And their families and so forth.."**

If it wasn't for me, my friends, the other Princesses, even the Shepherd of Fire... we wouldn't be standing here at this very moment.

**BittplexMutt: [Twilight] "I'm surprised we even got this far."**

Today, we honor the anniversary... of Equestria."

**BittplexMutt: Yeah, you said that.**

**Mono: ...How the fuck do you celebrate the anniversary of a country? Countries can't age.**

**SC276: This is either Independence Day or a really glorified Earth Day.**

Everyone at the Town Hall clapped as Twilight stepped down from the stage, as the Mane Six said altogether, "Let the event, begin"

**BittplexMutt: And then, explosions.**

**Mono: [Pony] "...So what do we do now?"**

But while everyone continued to clap and cheer on,

**SC276: Instead of, y'know, beginning anything.**

Eder slammed the doors open.

**BittplexMutt: [Eder] "I object!"**

"Wait, stop this!" said the red alicorn as the crowd saw Eder. "I heard an evil laugh, the time has come!"

**BittplexMutt: [Pinkie] "But Evil Laugh Day isn't until next week!"**

"What are you talking about Eder?" asked Twilight.

**SC276: [Twilight] "An evil laugh by itself with no context is no evidence of anything! Spike does it all the time when he's about to eat a gem salad!"**

"And what are you doing here? You're supposed to be at the hospital."

"He is talking about Chrysalis and her mysterious helper.

**SC276: You work for Luna, and yet you don't know that Luna turned again?**

"They're here at Ponyville" said Dukes Rubel as he appeared between the Mane 6, with everyone in the crowd watching him.

**Mono: [Mayor Mare] "Who is this asshat?"**

"Dukes! You know about this?" said Applejack.

**SC276: And you know who he is. Why am I not surprised.**

**BittplexMutt: [Dukes] "I googled it!"**

"Indeed Applejack, I told this young alicorn that Chrysalis and her associate was coming and I told him to warn you Princess Twilight." Said Dukes as he looked to Twilight.

"But how? We defeated her at Canterlot" said Dash

**Mono: ...Noooo, Cadence and Shining Armor did.**

**SC276: NEVER. WATCHED. THE SHOW.**

But just then, the Mane 6 looked at Eder and remembered what Star Blade told them in the Afterword, that somepony close to him will be the hero of Equestria.

**BittplexMutt: [Rainbow] "Oh, you've gotta be kidding me.."**

"Eder. You are... Star Blade's brother, right?" Rarity ask.

**BittplexMutt: [Eder] "Yes. I've been saying that this whole time."**

"Like I said before, I'm his little brother, and he is my big brother.

**Mono: And somebody is the middle brother?**

We always were close to each other!" said Eder, answering Rarity's question.

**SC276: Which is why he went completely unmentioned last fic, and time-boy couldn't be more specific about who he meant.**

"The Afterword!" said Applejack. "Eder is close to Star Blade!"

"Are you saying Eder, the new citizen of Ponyville, is the brother of Star Blade; the Shepherd of Fire?!" Mayor Mare asked the Mane 6.

**Mono: Yes... we know this already....**

**SC276: [author] "If I keep saying it, it *has* to be true!"**

While the Mane 6 explained to everyone about it, the red alicorn looked around to see if there were any suspicious ponies that would start the attack.

**SC276: What I wouldn't give for the fourth wall to be down right now...**

"Hey you." said a mysterious member behind the curtains, getting Eder's attention.

**SC276: Well someone's gay.**

"Huh?" Eder followed the voice to find a Changeling in disguise, surprising Eder.

"Don't worry, it's okay." Said the changeling.

**SC276: [red pony] "(has already killed him)"**

"W-who are you?" Eder asked the mysterious Changeling.

"My name is Zeebo,

**Crazy56U: (annoyed) DONALD IT IS**

**Mono: Weeaboo it is!**

a changeling and Cadence's son." Said the changeling, taking off his cap.

**Giginss: First, that's a stupid name, your new name is Zeb, secondly, *how in all that is holy are you Cadance's son!?!?! Thirdly, you misspelled Cadance, you utter monster.***

**Crazy56U: ...huh... ...guess Cadance got bored of Shining and had an affair with Chrysalis.**

**Mono: The sad thing is that that might as well be somebody's fanfiction...**

**Dragonborne: I actually went to ask ERich about this, and he told me Hobo here was merely adopted. Which *still* begs the question of *why*.**

"A changeling?!" said Eder, worried that he might be a threat.

**SC276: And yet *not* worried enough to attack right away, when he attacks someone with lethal force for *insulting him*.**

"Calm down! I know it's odd for a changeling like me to be with a pony, but I'm not like them." Said Zeebo, trying to calm down the red alicorn.

**Mono: [Weeaboo] "Even though changelings like me won't be invented until season 6..."**

"What you want?" asked Eder.

**BittplexMutt: Freedom!  
Dragonborne: Hookers and booze!  
SC276: And blackjack!**

"I know about Chrysalis' helper." said Zeebo.  
"Who is it?" ask Eder again, trying to know the truth.

**BittplexMutt: We already know who it is.**

"Nightmare Moon, the princess of the eternal night." said Zeebo, in response to Eder's question.  
"Nightmare Moon?"

**SC276: "Everypony run!"**

I heard of her before, but why she is helping Chrysalis?" ask Eder, being concerned.

**BittplexMutt: That's what we'd like to know!**

"Actually It's the complete opposite. Chrysalis is Nightmare Moon's helper." said the changeling.

**Mono: ...Well, that changes everything...  
SC276: Ah, so "everything" is equal to 0 then.**

After Zeebo's explanation, Twilight called Eder over to her to explain something about his brother.  
"Listen Eder. Your brother Star Blade was responsible for saving Equestria 3 months ago from a force linked to the space-time continuum.

**BittplexMutt: "Somehow, I guess."**

He was brought into the past and became a hero.

**SC276: "Apparently."  
BittplexMutt: "There was a lot of flashback bullshit as well."**

He told us that somepony close to him was coming and that he may be a hero, and that is you.

**BittplexMutt: "It was always you."**

If Equestria is in danger, and if we are too, you are the only one to--

**BittplexMutt: "do the Macarena."**

**Mono: "-be sacrificed."**

**SC276: "-be sacrificed to the Macarena."**

But she didn't have time to explain any longer, as Nightmare Moon & Chrysalis' minions invaded the Town Hall.

**BittplexMutt: Oh god, minions!**

**SC276: [minions] "BA-NA-NAAAAAA!"**

"Oh no, they are here!" said Rarity

**SC276: oh noes**

as she saw each Changeling and Lunar Guard come in one by one.

**BittplexMutt: [Minions] "We are here! We are here! We are here!"**

"This doesn't look so good" said Applejack.

**BittplexMutt: [Applejack] "But it don't look bad either."**

Most of the ponies at Ponyville started to panic and ran away, while others stood forth to fight the enemies.

**SC276: Namely, the enemy of tense changes.**

**BittplexMutt: They failed miserably.**

**Mono: ...Who are these "minions" anyway?**

Twilight was looking everywhere. "Where's Pinkie Pie?"

**BittplexMutt: She's over there \*points in nonspecific direction\***

"Girls help!" yelled Pinkie Pie as she got captured by one of the Changelings.

**BittplexMutt: [Pinkie] "Suddenly, I can't fight!"**

"Hey, leave my friend alone buster!" said Rainbow Dash as she flew to the Changeling.

**BittplexMutt: [Changeling] "Um, my name's not buster."**

**Mono: [Other Changeling] "I'm not even attacking your friends, bitch!"**

"I'll help you sister!" said Dash Jr. as he flew with Dash.

**BittplexMutt: [Dash Jr.] "I don't have much to live for anyway!"**

**Mono: [Lynn] "This'll show everyone who says I don't deserve to exist!"**

"We took em' down once, we'll do it again." Said Applejack, and she got ready to fight.

**SC276: Yeaaaaaaaaaaaaah...**

The purple alicorn watched how Eder was standing there,

**SC276: -doing nothing-**

and her imagination made her see Star Blade standing exactly the same way just before it disappeared

**SC276: -doing nothing.**

"Eder, you have to fight with us!" Said Twilight.

"I will fight for my brother!" said the red alicorn and prepared his magic.

**SC276: [Ike] "I fight for my friends!"**

During the fight, Applejack was captured by the Lunar Guards of Nightmare Moon. "Oh no, they got me!"

**Mono: oh no background pony...**

"I'm getting tired of all of you!" said Dash Jr. as he kept fighting,

**SC276: What a coincidence! I'm getting tired of the living contradiction that is your universe! No wonder a paradox tried to destroy it!**

but he got hit by an attack fired by a Changeling.

"Brother!" screamed Dash as she got captured by ton of Changelings.

**SC276: ...I'm not sure how to feel about this character the exists *only* to provide a "reason" why Rainbow Dash would lose.**

Eder saw Rarity and Fluttershy, about to be captured by 2 Lunar Guards of Nightmare Moon and 2 Changelings.

**SC276: -of Nightmare Moon.**

**BittplexMutt: But they easily took them out.**

"Not them!" said Eder, as he used his magic attack against his enemies.

**Mono: [Enigma] "They're the author's favorites!"**

"Thanks for the help Eder. You're great, like your brother" said Rarity as she got up.

**SC276: [Rarity] "I expect you to teach me how to do my job after this is over."**

This left three remaining ponies from the Mane Six. So the rest of them, Dukes, and Eder got away from the Town Hall and watched as the Lunar Guards and Changelings were attacking Ponyville.

**SC276: [Nightmare Moon] "Three of them got away? Whatever, raze these assholes."**

"I will take care of Rarity & Fluttershy. You take care of Twilight young alicorn!" said Dukes, giving his brief plan.

**Mono: [Enigma] "...You want me to kill them?"**

Twilight decided to head to the Everfree Forest. "Eder, you have to take me to the Everfree Forest, there's a way to stop this." Said Twilight.

**SC276: Let me guess, you're talking about the tree. That was incinerated in the prologue.**

"But how? Ponyville is in trouble!" said Eder as he watched the entire place being invaded.

**BittplexMutt: [Twilight] "Just trust me on this, okay!?"**

The red alicorn turned back, but Twilight disappeared.

**BittplexMutt: Just like Batman.**

**Dragonborne: And Robin.**

**Mono: And third superhero.**

"Looking for somepony, red alicorn?" said Nightmare Moon.

Eder looked up to see Nightmare Moon & Chrysalis holding Twilight Sparkle.

**Mono: So much for taking care of her, Enigma...**

**SC276: *you had one job you red menace***

"Princess Luna! But... how? How are you like this? And why are you are Chrysalis' helper?!" said Twilight.

**SC276: Did you not hear the one good changeling because season 5 and 6 didn't happen?**

"That's Nightmare Moon to you,

**SC276: "That's *The* Hacker to you!"**

and that's none of your business."

**Mono: Read: the author didn't want to explain it.**

**SC276: Read: the author doesn't know either.**

Said Nightmare Moon, giving Twilight the evil look she once gave Celestia 1,000 years ago.

"Also, I'm Nightmare Moon's helper" said Chrysalis, watching Twilight.

**SC276: [Chrysalis] "Boy, your hearing *sucks*."**

Nightmare Moon looked at Eder again as she spoke. "And don't even bother presenting yourself. I already know who you are."

**BittplexMutt: [Nightmare Moon] "You're the dumbass they call Eder."**

"I know you who you are too!

**BittplexMutt: "You're Batman!"**

You are the one who almost brought eternal night to Equestria!" said the red alicorn to his enemy.

**BittplexMutt: "We would have frozen to death!"**

**Mono: "And died!"**

**Dragonborne: And the other half of the planet would've turned into sandy desert, given time. I'm amazed nobody even considered what happens over in Eternal Dayland.**

**SC276: So, Equestria becomes Flamefreeze Galaxy? So... wait, if it's eternal night on one side and eternal day on the other, what's on the "equator?"**

"Princess, we have the last 2 mares" said one of Nightmare Moon's Lunar Guard.

**BittplexMutt: "They didn't put that much of a fight."**

**SC276: "The stallion that was protecting them sucks more than we do."**

"Excellent! We've finally won my lord! The Elements are destroyed, and the Mane 6 are captured!" said Chrysalis, laughing maniacally with joy .

"Don't be celebrating already, we still have one more mess to deal with." Said Nightmare Moon, looking at Eder again.

**BittplexMutt: [Eder] "Wait, what mess? Can I clean it up?"**

"Leave the Mane 6 alone." Zeebo said as he appeared next of Eder.

**BittplexMutt: [Chrysalis] "Traitor."**

**Mono: [Nightmare Moon] "Why should I listen to you?"**

**[Weeaboo] "Ummm..."**

Even Dukes Rubel appeared. "Or the young alicorn will show you a lesson."

**BittplexMutt: [Duke] "Prepare for a lesson in geometry, bitch!"**

**SC276: [Nightmare Moon] "You didn't kill the guy protecting them?!"**

**[guard] "Turns out that, while he sucked more than we do, it wasn't *that* much more."**

Both Chrysalis & Nightmare Moon laughed as the red alicorn felt insulted, even like what happen to him years ago, when some ponies laughed at him.

**SC276: "WE'RE TORMENTING YOU!"**

He wasn't like his brother... he wasn't like the Shepherd of Fire.

**Mono: Even though he's an alicorn and thus more powerful...**

**SC276: And can shoot a magic ball strong enough to destroy an entire school...**

"This alicorn will beat us?!" said Nightmare Moon as she continued to laugh.

"Well if he think he can face us, he made the wrong choice!" said Chrysalis.

**SC276: This entire fic is a wrong choice.**

Nightmare Moon used her magic on Eder, teleporting him to a place where he will battle. He ended up in front of the Tree of Harmony, the sacred power of Equestria located in the Everfree Forest.

**Mono: So you send him to the place where the most powerful defense in Equestria is? WHYYYYYYY?**

**SC276: Now let's see if the author remembered he blew the tree up in the prologue.**

---

Chapter 6: Showdown!

**Dragonborne: Of ultimate destiny!**

**SC276: Da... SHOWTIME!**

"Where am I? What is this place?" ask Eder as he looked left and right, trying to find somepony to help him.

**SC276: I've heard of Final Boss, New Dimension before, but this is ridiculous.**

As the red alicorn continued to examine where he was, he saw a crystal piece on the ground.

**Mono: A cobalt start shard?**

**SC276: Mine.**

"Huh?" He crouched down to pick it up. The piece shined for a brief second before the rest of the pieces were levitating one by one. They all surrounded Eder, and he realized what he was looking at.

**SC276: An advanced drone defense array. He's gonna have *so many* punctures in two seconds.**

It was the very artifacts that protected Equestria with the magic of friendship... The Elements of Harmony.

**SC276: Boy, good thing Nightmare Moon just *smashed* the tree and not learned from the second episode- oh right, *the author hasn't watched the show.***

"Wow, they're so beautiful."

Said Eder, and continued to watch the elements, showing projections of each pony from the Mane 6 that each one represented.

**Mono: Like they always did...**

Then another projection showed the night that Nightmare Moon found the secret artifact

**SC276: *what***

of Equestria, the Element of Love, and that she used it's power to destroy all the elements, so the Mane 6 couldn't defeat her and Chrysalis. "So that means..."

**Mono: "...something."**

"That means Equestria won't be save anymore." Said Nightmare Moon, finishing off Eder's sentence as her & Chrysalis appeared behind him.

**SC276: So... basically, Flowey has the six human souls.**

The Mane 6 were frozen by Nightmare Moon and Chrysalis' magic to prevent them from escaping.

**SC276: And they couldn't be left behind in prison with their minions because how else are they supposed to be involved in the finale?**

"So this is what you do?! You destroy those Elements by another element? What was the point of that?" ask Eder as he found out the horrible truth.

**Mono: ...To make sure Equestria is not save anymore, duh.**

**SC276: Especially given Nightmare Moon *literally tried that before* and failed.**

"Because..." Said Chrysalis. "Those pesky ponies made more trouble on us in the past, so we are not going to make that mistake!"

**SC276: Except, again, destroying the Elements doesn't take them out of the picture.  
BittplexMutt: [Chrysalis] "This time, I'll destroy them!"**

"Exactly, everthing was according to plan,

**SC276: Including all the typos.**

and now Equestria will be ours forever!" said Nightmare Moon, and the two laugh with their accomplishment.

**BittplexMutt: [Chrysalis] "Okay, now what?"**

**PanzerThiefZero: [Nightmare Moon] "I'm going to Disneyland!"**

**SC276: [red pony] "You've already taken down Celestia?!"**

**[Chrysalis] "...Taken down who now?"**

**[Celestia] "(rides in on a tidal wave of paint)"**

The red alicorn was mad, seeing the state of the Mane 6.

**BittplexMutt: In a solid state.**  
**SC276: In a save state.**

"You may be evil as I thought,

**SC276: You expected anything different from these two?**

you may want to put Equestria in danger, but there's something you cannot and will not do; mess with my friends!"

**SC276: *What friends?* Not only has it not been a full day, you haven't finished Twilight's errands and I'm pretty sure you didn't have a single one-on-one conversation with Rainbow Dash like you've had with the other five. You are mild acquaintances with them, *at best*.**

**BittplexMutt: "Those other guys though can go fuck themselves!"**

Eder used his magic attack against Nightmare Moon, but she protected herself with a magic shield.

**SC276: It bounced off, flew out of the cave, and destroyed Wonderbolt Academy again. Nightmare Moon was blamed.**

"Think you have a chance of winning against me?!" said Nightmare Moon as she used the same spell to attack Eder,

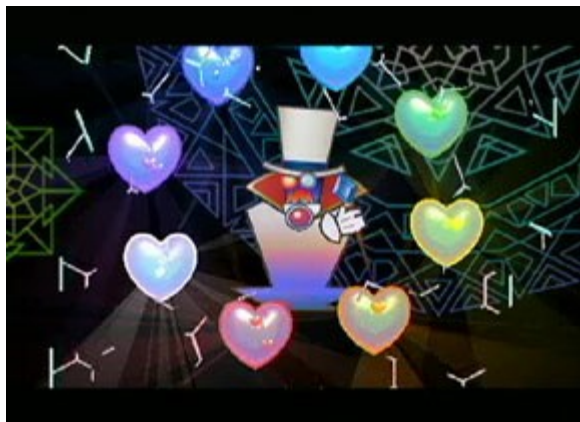

**BittplexMutt: [Nightmare Moon] "You've made your grave, now go lie in it!"**  
**Mono: And then the climax of Goblet of Fire happened for some reason.**

fortunately, Eder dodged it!

"I almost forgot that spell!" said the red alicorn

**SC276: The one you just used?**

"Shield Breaker." And then, Nightmare Moon's magic shield broke.

**SC276:**

"Well, he has some potential!"

**SC276: Debatable.**

Nightmare Moon was ready to attack Eder again, but Chrysalis decides to fight by her side.

**SC276: [Chrysalis] "Don't be a glory hog, sister!"**

"Have no fear. This time, 2 villains are better than 1 hero."

**Mono: Well, words are better than numbers, idiot!**

The red alicorn watched both villains, as they were preparing to fight him. "No fair, its 2 vs 1!"  
"Everything its fair!" said the two villains together.

**Mono: -in love and war.**

**PanzerThiefZero: Your grammar its bad.**

At this point, it was lucks choice to decide who wins.

**SC276: ~High on the winner, got a hot hand / Place your bets, ladies and gentlemen~**

Eder battled against Nightmare and Chrysalis, spell after spell, doing whatever it took to at least lay a scratch on both villains.

**SC276: I can tell he's supposed to be struggling, but it's clear the author is struggling *more*.**

"He is good, very good!" said the changeling queen. "Do we at least have a chance of winning?" But Nightmare Moon knew that she would not fail, and she equipped the Element of Love.

**SC276: Into her accessory slot.**

**Mono: And promptly turned into a giant bunny.**

"Take this!" She attacked Eder right on by using the power of the element, leaving the red alicorn weak.

**SC276: Sure, you can use it to blow up the goddamn tree, but you can't blow *him* up?**

"Ugn...I don't feel...good." Said Eder as he was tried to stay up, but Nightmare Moon held him with magic and throw him to Chrysalis. "You weak little fool, we are in control of Equestria!"

**Mono: No, you're in control of Ponyville...**

**SC276: Honestly, at this point, it's amazing the author knows what the town's called.**

Then the queen do the same like Nightmare Moon, and held the red alicorn with magic, making the weak hero watch the Mane 6 in their trapped state.

"Look at your friends, watching how weak you are.

**SC276: They didn't need you trapping him to prove that.**

And now Nightmare Moon beats you, with no one to save you!" said Chrysalis, and Nightmare Moon prepared to summon the eternal night.

**SC276: ...You mean set *the sun*?**

"And now, it's time... the night... will last... FOREVER!" and then the two laughed together again, watching the kingdom perish from the hooves of Equestria's two dangerous villains.

**Mono: Well, at least they know the kingdom would perish because all the ponies would freeze to death and die...**

Eder and the Mane 6 watch the sky, preparing for the worst to happen... but the Mane Six wasn't looking upon the stars because they believed all was lost,

**SC276: Given this story physically pains me to observe, it kinda *is*.**

they watched them because they believed there was hope... they were thinking of Star Blade. "The stars..." Said Rarity, as a tear came from her eye.

**BittplexMutt: "They're so beautiful."**

**Mono: "-look very different today."**

"...they remind us our good friend." Said Applejack, smiling and tearing up like Rarity.

**SC276: [Applejack] "The Warner Brothers and their sister Dot."**

"We should have done a party for him... even if he wasn't there." Said Pinkie, getting sad. "You were the best friend Star Blade." Said Fluttershy, tearing up with her friends.

**SC276: Some best friend when he leaves his *freakin' DOG behind!***

"I won't forget the times we come." Said Rainbow Dash, feeling brave even with a few tears falling.

**SC276: *TMI***

"Star Blade... I will never forget you... Don't you ever forget me!" said Twilight, with more tears than her friends.

**SC276: [Twilight] "Come free me from being frozen! I haven't had *nearly* enough moonshine for this bullshit!"**

"I want you back big brother, you are a true hero. Your friends need you... your family needs you ... but I need you the most." Said Eder.

**SC276: So... you don't consider yourself part of his family?**

"Come back..."

Then they could see something flash in the sky. It was coming directly where everyone was gathered.

**SC276: Which is kinda impressive considering they're in a cave.**

**Mono: It's the meteor that killed the dinosaurs!**

"What is that?" ask Nightmare Moon, looking at the star. "Look out!" Said Chrysalis as she moved away from the object with Nightmare Moon. The object crashed to where Eder and the Mane Six were trapped, freeing them.

**SC276: Boy, containment spells in this fic fucking suck.**

It was a sword with a star plaque near the handle, followed by a pony jumping behind the dust caused by the sword that crashed.

**BittplexMutt: It was... Somepony!**

**Crazy56U: You *might* say that the blow of the sword brung some light to the situation.**

**SC276: What's fucking Exor doing here?**

Everyone coughed, and they saw the earth pony standing there.  
"Oh my" said Fluttershy.

**BittplexMutt: Oh dear.**

**SC276: [Fluttershy] "Oh sweet baby Jesus."**

**Crazy56U: [Fluttershy] "Why the fuck are you back?"**

**Dragonborne: [Applejack] "Ah, great, now we gotta deal with *double* the horseshit..."**

"OHMYGOSHOHMYGOSH IT CAN'T BE!!!!" said Pinkie Pie as she hopped with excitement.  
"Oh... my... Celestia." Said Applejack, watching the pony.  
"But how can this be?" asked Rarity, looking confused.

**SC276: Because the author is an idiot. A very willful idiot.**

"Is that who I think it is?" ask Rainbow, as her jaw dropped with surprise.  
"My brother!" yell Eder with happiness.  
"It is... Star Blade..." said Twilight, as tears of joy ran down her face.

**Crazy56U: [Zippy] "Who *else* were you expecting? Jesus?"**

**Mono: [Idiot McAssface] "Missed me? No? Great!"**

**SC276: Boy, for a guy with a time machine, you sure are fucking late.**

"Star Blade?! But that's impossible!" said Nightmare Moon.

**SC276: [Nightmare Moon] "*YOU WALKED INTO A FUCKING BLACK HOLE!*"**

**Crazy56U: Nightmare Moon, this is the fic where logic goes to die. *Shut up.***

"Hello. Miss me?" Said Blade as he grabbed his sword and put it away.

**SC276: Not in the slightest.**

"So... you are that Shepherd of Fire Nightmare Moon was mentioning huh?" ask Chrysalis, but then, she saw that Star Blade have the element, and tell to Nightmare. "He has the Element you mentioned before. Destroy it before it's too late!"

**SC276: Finally, someone has a good idea!**

"Ohh your pathetic fool, you should never have come here. This time, I will defeat your brother, AND I WILL DEFEAT YOU!" said Nightmare, aiming the Element of Love to the Element of Leadership.

**SC276: ~Prepositions, attention / PICK THE RIGHT ONE~**

"I don't think so." Said Star Blade

**Crazy56U: [Zippy] "Granted, kicking your ass *is* probably going to be a poorly-written, ugly mess... (shrugs; smirks) but *someone's* gotta do it."**  
**Mono: [Idiot McAssface] "Because I AM A COLT! \*punches Chrysalis\*"**

as he used magic from the Element to disable the Element of Love's power.

**SC276: oh come on that thing can only control the first six**

"What are you waiting for, destroy it!" yelled Chrysalis.  
Nightmare Moon kept trying to use it's power, yet she couldn't. "I can't. It's like it's empty.

**Mono: Because magical elements work just like iPhones.**

Eder then had an idea. He went up to the two while they were distracted and used his magic to grab the Element of Love.

**SC276: Congratulations, you came up with something stupider than having a bunch of people hold their breath to knock them out.**

"Hey, what are you doing?! Give that back!" yelled Nightmare Moon trying to take it back, but Eder took the element and ran to his brother, standing next of him. "Hey look, I have the element now."

**SC276: ~I've got a jar of dirt / I've got a jar of dirt...~**

"Give me back that element!" said Nightmare Moon. "Get him, Chrysalis!" and the queen changeling was going to get Eder, but he was protected by the Element of Love, and pushed Chrysalis back to Nightmare Moon.

"What was that?" ask Dash.

**SC276: Bullshit, is what that is.**

"Eder, you are the element of love!" said Twilight.

**Mono: As indicated by him... loving... something...**

**SC276: Yeah, I've already been over this...**

"Me? The one who hold this element?" ask Eder, as he watched the float around him.

**SC276: Well, after the shards of the first six fled into limbo when you stopped looking at them, you'll probably need it.**

"Yes. You were meant to use that Element, I knew it would happen. That's why I sent you. Now repair the elements!" Said Star Blade as Eder used the power of the element to repair the others that were destroyed by Nightmare Moon.

**SC276: Because god forbid *friendship* play a part in all this.**

"Now put them back on the Tree!"

**SC276: [red pony] "Shouldn't I rebuild the tree first?"  
[fire pony] "Fuck that!"**

So Eder used his magic to put all the Elements back on the Tree.

**Mono: "Now fuck off!"**

"Yeehaw! The Elements are good as new!" said Applejack.  
"And I know who did do it" said Rarity,

**SC276: Who did-deedily-do-dad dit.**

and look at Nightmare and Chrysalis.

"No! We planned this, all this time we thought we would finally succeed. Yet we were stopped by the Shepherd of Fire?!!" yelled Nightmare Moon.

**Mono: No, you were stopped by his brother...**

"That's not fair!!" said Chrysalis, as angry as Nightmare Moon.

**BittplexMutt: Life's not fair.**

**SC276: Preaching to the choir, sister.**

"Oh I'm not the one to stop you..." Said Star Blade. "And also... Everything is fair.

**SC276: Say that *after* you've riffed terrible fanfiction weekly for two years straight.**

Finish it bro."

Eder used his magic to lift the Element of Love up, and it's power linked with the Element of Leadership and the others on the Tree. "By the power of these sacred's jewels,

**Mono: *BY THE POWER OF BADFICS!***

I will finish both of you two,

**SC276: In the name of the moon, I will punish you!**

and you won't dare to conquer this world. Because I'm Eder the cool pony...

**Crazy56U: And then everyone promptly stopped what they were doing, and realized the full, vast weight of how fucking stupid this story has become, promptly causing reality itself to implode, destroying all life as we know it. THE END.**

I AM THE HERO OF EQUESTRIA, AND WILL BE HERE TO SAVE EVERYONE THAT LIVES HERE!" said the heroic alicorn,

**SC276: Stop acting like you're a fucking Kamen Rider about to get his Super Mode.**

and then all the elements power was sent to the Element of Love and the Element of Leadership as it destroyed the two villains.

"NO!!! THIS WILL NOT LAST! I WILL COME BACK AGAIN AND I WILL DESTROY ALL OF YOU!!! I WILL COME BACK! I WILL COME BACK! I WILL COME BACK!!!" yelled Nightmare Moon as she was .

**Mono: ...She was what?**

**SC276: Probably something that looked like a filename.**

"THIS CAN'T BE HAPPENING!!! I thought we could win, yet in the end a red alicorn beat us!"

**Mono: "It's like any other generic sue story!"**

yelled Chrysalis as the power of friendship disappeared with Chrysalis, and leaving Nightmare Moon in her normal state as Princess Luna.

**Mono: No, Luna died in the blast.**

**SC276: Honestly, I wish we were dead.**

"Eder, you did it!" said Twilight, happy as he ran up to Eder. Pinkie tackled Eder, giving him a very tight hug, and Eder returned the favor. "Wow, Eder. That was... spectacular!"

**SC276: No, not really.**

You were great out there like your brother!" Rarity watching Star Blade, happy to see him back. "But how did you come back Star?" said Dash.

**Mono: [Idiot McAssface] "Plot magic."**

**SC276: So... does he *not* have a time machine?**

"I had a little help from an old friend of the past." Said Star Blade as he took out a large piece of paper and showed it to everyone. "He sends his regards." It was a painting of Star Blade with Star Swirl the Bearded, and four other ponies.

**Mono: The four ponies of the apocalypse.**

Twilight was astonished with the painting,

**SC276: [Twilight] "This is the worst hoofpaint picture I've ever seen."**

and was happy with the red alicorn. "Well Eder, I honestly can't think of any other way to congratulate you."

**SC276: Try staking him through the heart. It's the only way.**

But Eder looked at the element as it floated around him.

**SC276: That's telling me "I'm tied to you, but I want absolutely nothing to do with you."**

"But... why do I harness this element's power?"  
"Because you were destined to harness it. You showed love and tolerance with the Mane 6,

**Mono: SHUT UP, FUCKSTICK!**

and everypony in Ponyville.

**SC276: [red pony] "Oh OK, so you *don't* know about the guy that tried to kill me in a mad rage because I tried to kill him and destroyed Wonderbolt Academy as collateral damage and he took the blame for it. And apparently neither does the universe! *My morals don't matter! My actions have no consequences! :D*"**

You even cared about everyone when the town was attacked."

**Mono: Yeah, like any pony would do...**

Said Star Blade as he patted Eder's back.  
"Thanks bro." Said Eder as he hugged his brother.  
Princess Luna then woke up, looking as confused as ever. "W-What in the name of Equestria is going on?"

**SC276: Bullshit, is what.**

"Ah, rise and shine Luna. You're looking fine as usual." Said Star Blade as he stopped hugging Eder.  
Princess Luna gasped from who he heard. "Star Blade! Is that you?"  
"That's the Shepherd of Fire to you,

**Mono: "-mario!"**

**SC276: "That's *The* Hacker to you!"**

and of course it's me!" said Star Blade as he walked up to Luna.  
"Well it has been a while hasn't it?" asked Luna as she got back on her hooves.

**SC276: That depends. Is three months a significant amount of time to someone that's lived for over a thousand years?**

"Indeed it has." Said Star Blade.  
"Oh, one more thing Star Blade." Said Twilight as him and Eder stopped hugging.  
"What is it?" asked Star Blade.  
Twilight then slapped Star Blade on the face, feeling a little ticked off.

"Ow! What was that for?" asked Star Blade, looking confused.

**SC276: To make me feel a little better. It's working.**

Twilight then came up to Star Blade and kissed him on the lips, surprising him. Everyone just looked at the two.

**Mono: [Fluttershy] "Oh my..."**  
**[Applejack] "What in tarnation?"**  
**[Pinkie] "Ewww! Grossgrossgross!"**  
**[Rainbow] "You gotta be kidding me?!"**  
**[Rarity] "\*faints\*"**

"Ooooooh" said Pinkie Pie.

"Heh heh, somepony's in love." Said Rainbow Dash as she chuckled a little.

**SC276: [Rainbow Dash] "This'll make *awesome* blackmail material!"**

"That somepony is my brother." Said Eder as he smiled at his brother.

"Don't you ever leave us again, and maybe I won't do that again." Said Twilight as she broke the kiss.

"Do what? The slapping or the kissing?" asked Star Blade as he smirked at Twilight.

**SC276: Hey, we're the rifiers here.**

Twilight playfully pushed Star Blade as she spoke, "Oh shut up you."

**Mono: [Twilight] "No, literally, shut up."**

"Anyway, we better go back to Ponyville." Said Dash, and then the Mane 6, Eder, Star Blade, and Princess Luna were teleported back to Ponyville.

**Mono: How? Fuck if the author knows!**

---

Epilogue: Ascension.

**SC276: You know how a prologue works, but not how an epilogue works?**

The heroes returned to the Town Hall at Ponyville, and everyone saw them in safe keeping.

**SC276: Tucked away in a large box.**

"Hey look, it's Eder, and he brought back the Mane 6!" said Squidzle and pointed to him.

**Mono: [Squidward] "Remember me?"**

At this point EVERYPONY in Ponville were talking not only the fact that Eder saved the Mane 6 and brought back Princess Luna to her normal self, but that Star Blade; the Shepherd of Fire, returned to Equestria.

**BittplexMutt: They didn't care about Star Blade though.**  
**SC276: And his gift was punctuation from the future.**

"Princess Luna!" said Dukes as he ran to her.

"Sir Dukes! I am appreciated with your outstanding work with assigning Eder on this quest. You are dismissed." said Luna.

**Dragonborne: Wait... so Luna was a Deux Ex Machina?!**

"Thank you my lord!" said Dukes as he joined the crowd.

**SC276: [Luna] "I'm your QUEEN, you little- oh forget it, I'm going back to my Dreamcast."**

"Sister, you're alive!" said Dash Jr. as he hugged her sister.

"Heh, of course I am. What did you expect?" Said Dash.

**SC276: [Dash Jr] "You to be dead, because once I get the name change filed, that's the only way I'm getting out of your shadow!"**

"Hey, isn't that the Shepherd of Fire?!" ask Felix as he saw Star Blade.

"At your service." Said the red earth pony.

**Mono: [Who were you again?] "KILL HIM!"**

The mayor came to Eder, holding 8 medals for the heroes. "Eder, red alicorn from Equestria. For your heroism and brave courage, I award you, the legendary Shepherd of Fire, and the manes 6; these medals."

**SC276: [Mayor Mare] "They're not medals of anything, I just picked up some blank metals at the Salvation Army real quick."**

And the mayor equipped Eder, Star Blade, Rainbow Dash, Twilight, Pinkie Pie, Fluttershy, Applejack and Rarity with the medals.

**SC276: Into their accessory slots.**

Everyone at Ponyville started to clap at the heroes. But a shine light start to make appared, Princess Celestia.

**Mono: R.I.P. Grammar...**

**SC276: It is missed dearly.**

"Good evening my subjects." Said Celestia as everyone bowed to her. She then walked to Star Blade with a smile on her face. "Well young Shepherd of Fire. It has been a while hasn't it?"

**SC276: It's been three months. That is not "awhile" to someone that's lived this long.**

"Celestia. Good to see you're doing well." Said Star Blade as he walked up to Celestia.

"Indeed. I see you are doing well too." Said Celestia.

**Mono: OH, FUCK OFF WITH YOUR "DOING WELL"!**

Star Blade chuckled as he spoke, "Well, after a big fight with Discord in the past,

**Mono: Which we didn't get to see because fuck you.**

you could say that."

Twilight then came up to her to talk about Eder. "Princess Celestia, I have something to tell you!"

Celestia smiled to her. "About the red alicorn that saved Equestria? There is no explanation needed."

"How did you know about it sister?" asked Luna.

**SC276: You mean *besides* the entire giant ceremony?**

**Dragonborne: Celestia thought with portals, that's how. Either that, or she set this whole fucking thing up.**

"Well, long ago when we were younger, Star Blade came from the future, and mentioned to me that if any other pony were to save Equestria if no one else could, it would be his brother.

**SC276: [Celestia] "Honestly, I was just humoring him out of boredom. Two brothers being such awesome heroes their very existence is a contradiction? They're not the Belmonts."**

When you had vanished, I brought Eder to Ponyville help." Said the white alicorn.

**Mono: So, at the end of the day, Celestia caused all of this.**

Star Blade then came up to his brother holding a card. "And if there's one pony that truly deserves to be called a hero...

**Mono: "It's Squidward!"**

it's him."

Eder looked at the last card for his collection of Famous & Popular Ponies. #100, and he saw the picture; it was him.

**SC276: He's a Voltorb?**

"That's... me!" and he check behind, and read. "Eder the cool pony, Hero of Equestria..."

**Mono: "Certified asshat?!"**

but where did you get this?"

"Maybe the proper question to ask is; when did I get this?" said Star Blade as he winked at his brother.

**SC276: [red pony] "...Will you answer either question?"  
[fire pony] "Not on your fucking life."**

The red alicorn then hugged his brother. "Thanks bro." said Eder as Star Blade hugged him back. "You're welcome."

"Before we begin, I would like to take this opportunity to show everypony that has come here something to honor our heros that will be brought to the castle at Canterlot" said Celestia

**SC276: Again, what hero abandons their dog?!**

as two guards pulled the curtains up, showing glass art of Star Blade fighting Discord at the Great War of Equestria on one side, and Eder fighting Chrysalis and Nightmare Moon in the present day of Equestria on the other side.

**Mono: [Luna] "\*thinking\* Somepony please break those..."**

**SC276: And on the *other* other side was the ruffers punching both of their faces in.**

"Without these two, we wouldn't be here today.

**SC276: You say that as if that's a good thing.**

Let us all be thankful for him. Princess Twilight, you have the honors."

"Well, without anymore interruptions, let the anniversary of Equestria...BEGIN!" said Twilight.

**SC276: This is still a really glorified Earth Day.**

And so Star Blade; the Shepherd of Fire, returned to the present day with his friends and brother, once again bringing peace to Equestria...

**Mono: Much to our dismay...**

They all lived happily ever after...

**SC276: Much unlike us.**

and of course...

"I'm Eder the cool pony, and I'm the pony that saved Equestria."

**Crazy56U: And, on that note, *blow me*.**

The End.

**Mono: AND GOOD RIDDANCE! I HOPE TO GOD NEXT WEEK... I just realized it's gonna be LTD. Fuck...**

**BittplexMutt: Well, at least the fic was kind enough to give us a classic "The End." The rest is crap though.**

**Giginss: Agreed. How could "Eder the cool pony" pass for a name in any world? Then we have the classic alicorn OC, 7th Element fic, in which said OC becomes completely awesome and beats up all of the enemies. This grates on my nerves, how everything in the world is handed to the OC on a gilded platter.**

**Dragonborne: I hated Eder enough to have my OC Foxfire beat him up in a Death Battle fic. Though looking back on it now... I wonder what possessed me to even give the twatwaffle OC more attention than he deserved...**

**SC276:** What can I even say about this story that I didn't say for its prequel? Its narrative is linear and less confusing, but otherwise it's another "red and black alicorn OC gets a 7th element" on top of *another* "red and black self-made alicorn OC gets a 7th element." It's like trying to build a house with a foundation of quicksand. This author is so unaware of everything - of canon for the show, canon for the fic he's making a sequel of, of this story having so many contradictions Phoenix Wright would wet himself - I'm not even entirely sure he's *self-aware*, much less *sentient*. Fuck this story to high heaven *and* low hell.

**Crazy56U:** Whelp, I got nothing else to say, (picks up a suitcase) see you all in a week! Toodles! (leaves)
