FILM DESCRIPTION:

LADY BIRDS is a love letter to female friendships, the community women build, and the importance of nurturing platonic love. Mari finds herself battling with a reality she never thought was possible, she is emotionally reeling and scrambling to regain her footing in the face of a devastating loss. Her journey back to herself will be a long and unforgiving one, but hands are there to hold her along the way.

CHARACTER OVERVIEWS: all female, aged 18-25

MARI - a vibrant and confident girl who is reeling from recent events and is struggling to feel like her normal self. The world drops out from beneath her feet in the first scene and we spend the film following as she grapples to regain her footing and come to terms with her new reality.

ROBYN - Robyn is the emotional support of the film, she has a big heart and is the main person Mari feels comfortable being truly vulnerable in front of. Robyn is artistic and loves supporting local work, she is attentive to her friends when they are in need and possesses a stable, reassuring nature. - a cancer

ISOBEL - The social organiser of the group, she is always thinking of others and looking for new things to do. She loves being in a room of people she doesn't know, her confidence and self-assured nature never fails her. You'll never see her without a good cup of tea, and you can always rely on her for a good time.

GRACE - Grace is the mum of the group who is always taking care of others and can always be relied on. She is thoughtful, organised, and shows her love through acts of service. She knows that small things go a long way and does them without expectation of reward.

CHARLIE - Charlie is a character who adamantly believes in the spiritual and fits her star sign - Aries - to a T. She is independent, intelligent, creative and fiery. She is high energy, and her vibrancy is infectious.

MYA - Mya is a quieter, more reserved character. She isn't as outgoing and confident as the other girls but she loves spending quality time with the people she loves.
