

AI Services Disclaimer

Last Updated: June 21, 2026

AI Technology Usage

Pilani Pixels may utilize artificial intelligence tools, machine learning systems, language models, automation platforms, and related technologies while delivering services.

No Accuracy Guarantee

AI-generated outputs may contain:

- Errors
- Omissions
- Inaccuracies
- Outdated information

Clients should independently review and verify outputs before implementation.

Human Oversight

Although reasonable quality control measures may be applied, Pilani Pixels does not guarantee complete accuracy of AI-generated content.

Client Responsibility

Clients remain responsible for:

- Reviewing outputs
- Legal compliance
- Regulatory compliance
- Business decisions
- Publication decisions

Third-Party AI Platforms

AI services may rely on third-party providers.

Pilani Pixels is not responsible for outages, changes, limitations, or inaccuracies resulting from third-party AI systems.

Limitation of Liability

Pilani Pixels shall not be liable for losses resulting from decisions based solely on AI-generated outputs.
