

Call information:

Date: September 3, 2019

Time: 2pm (EST)

Web Link: <https://yalelibrary.zoom.us/j/700164148>

Or iPhone one-tap :

US: +16465588656,,700164148# or +16699006833,,700164148#

Or Telephone :

Dial(for higher quality, dial a number based on your current location) :

US: +1 646 558 8656 or +1 669 900 6833

Meeting ID: 700 164 148

International numbers available:

https://yalelibrary.zoom.us/join?pwd=Zm5kdWZgk2HYKd55XhQVabAbCNCA_qB

Attendees: Elizabeth, Sami, Ruth, Dominic, Gloria, Seth Shaw (late)

Regrets: Christy

Agenda

- Any updates from other groups?
 - Ruth: Wikidata / archives documentation kickoff
 - Current modeling draft:
https://docs.google.com/spreadsheets/d/17_SIWjNz9gTC7Unu-A-9EFJZMnp4eQUdQSwNm9Kj80s/edit#gid=0
 - subgroup specifically focused on Wikidata: Gloria, Dominic, Ruth
 - Hopefully draft this fall and then socialization
- Wikidata archives project
 - Dominic Byrd-McDevitt (NARA's Wikimedian in residence): NARA Wikidata work overview
 - Has been adding as much NARA data as possible
 - NARA has added 300,000 files to Wikimedia Commons through a py script
 - Interest in working with the structures of Wikidata for Wikimedia commons uploads; 500,000 archival descriptions added to Wikidata thus far
 - Looking to do more work around creators/agents
 - Roughly based on LCDRG
 - Hardest part is getting responses on Wikidata community; most are European-based
 - Scope and content proposal
 - Dominic will give us an orientation to Wikidata next meeting (including talk pages)
- Schema.org [actions](#)

- Mark M.: I like the idea of BorrowAction for reading room use, but I wonder if something more generic (and less loaded?) like a RequestAction might work. RegisterAction also seems like a reasonable starting point as well.
- Gloria: I found myself asking which property would be best for connecting the Person making the request with the ArchiveOrganization. For the BorrowAction, the property is "lender." Below I'm using "holdingArchive" which seems to work, but I'm not sure such a specific property would fly well with a proposal for a generic RequestAction. However, that may not be an issue if we have solid use cases and an example application using RequestAction.

Request action example:

```
<!-- ArchiveComponent with restricted access -->
{
  "@context": "http://schema.org/",
  "@type": ["CreativeWork","ArchiveComponent"]
  "url": "http://pid.emory.edu/ark:/25593/8zr8k",
  "name": "Louise Thompson Patterson papers, 1909-1999",
  "conditionsOfAccess": "Collection stored off-site. Researchers must contact the Rose
Library in advance to access this collection.",
  "hasPart": {
    "@type": "ArchiveComponent",
    "name": "Series 2: Correspondence, 1932-1995",
    "url": "https://findingaids.library.emory.edu/documents/patterson869/series2/",
  },
  "holdingArchive": {
    "@type": "ArchiveOrganization",
    "name": "Stuart A. Rose Manuscript, Archives & Rare Book Library",
    "url": "http://rose.library.emory.edu/"
  }
}

<!--Gloria registered for the Stuart A. Rose Manuscript, Archives & Rare Book Library-->
{
  "@context": "http://schema.org",
  "@type": "RegisterAction",
  "agent": {
    "@type": "Person",
    "name": "Gloria"
  },
  "object": {
    "@type": "ArchiveOrganization",
    "name": "Stuart A. Rose Manuscript, Archives & Rare Book Library"
```

```

}
}

<!--Gloria requested access to Series 2 of the Louise Thompson Patterson papers,
1909-1999-->
{
  "@context": "http://schema.org",
  "@type": "RequestAction",
  "agent": {
    "@type": "Person",
    "name": "Gloria"
  },
  "object": {
    "@type": "ArchiveComponent",
    "name": "Series 2: Correspondence, 1932-1995"
  },
  "holdingArchive": {
    "@type": "ArchiveOrganization",
    "name": "Stuart A. Rose Manuscript, Archives & Rare Book Library",
    "url": "http://rose.library.emory.edu/"
  }
}

```

- Registering to using a collection might be a good starting point. Will require a reference interaction. Request action could take people into Aeon, finding aid, etc., which is what the borrow action does right now (links into the catalog).
 - Options: Architype group proposal or commenting on github to get feedback
 - Will need a draft proposal; example of it in use (aeon/atlas)
 - Register is already available; Gloria will take this back to Atlas to get feedback from them.

Next meeting: September 17

To dos:

- Gloria to talk to Atlas about register/request Schema actions
- Ruth to kick off Wikidata group
- Dominic to give tutorial at next meeting on Wikidata editing, esp. talk pages
- All to get Wikidata ID if you don't have one already
