Commissions are: OPEN

If you're interested, please send me an email at iesnoth91@gmail.com
The emails are not a contract, and don't guarantee I'll take your commission. Payment is sent through invoice, and isn't taken until after I follow up with the client and agree to do the commission. I am always paid (at least partially) in advance.

All commissions are digital, and so there is no shipping charge, or need for a shipping label.

Once I've begun work on a commission, I check in with the commissioner regularly with updates. In the sketch and line art phases, changes can be made to the design.
After color has been added, the client gets 2 free changes before I start adding charges for modifications (price will scale on how much I have to redraw to make the change).

For all commissions, adding additional characters will add the price of the piece again per character. (Example: 2 flat color characters will be $90, 3 will be $135.

All the prices below are based on the image having little to no background. **More complicated backgrounds will cost extra.**

~All prices are in USD~

↠ **Sketches:** One subject is $20. (So the picture below would be $40)

↠ **Lineart:** One character is $35. (for this piece, because they aren't all fully body, it would be about $114)

↠**Flat colors:** One character is $45. (a background like in this one would cost extra)

↠**Cel Shading:** One character is $55.

↠ **Painted:** One character is $80. (there would be an extra charge for the background and props on this one)

↠**Character sheets**: $100 for one flat colored body, one line art, and some sketches and headshots.

↠ **Black and White illustrations:** This comes with a full-rendered background. $150.

↠ **Full color illustration:** This comes with a fully-rendered background. This is $200.

↠ **All commissions are 25% off if waist-up is requested. 50% off if bust is preferred.**
