## **HSO Email Lesson**

Subject line: I remember it like yesterday...

Stuck in my normal routine work that I've been doing for <u>SO LONG</u>.

I was working my same old 9-5 job like so many others out there do.

It was a comfortable job with decent pay but it didn't fulfill me.

I'd be sitting there doing my work and asking myself questions like, "Is this my life now?" "Is this it for me?" and "There has to be more out there for me!"

I was stuck, trapped, scared and felt like I had nowhere else to go.

The small voice inside my head knew I was made for more than this but had no idea where to start.

THAT'S when I stumbled across an ad for the book "F\*CK JOBS" by Jason Capital

I took it as a sign. THIS book is what I was looking for! I read and applied this book for **months** until I got my <u>FIRST WIN!</u> After that the wins became greater and the losses smaller!

I was able to quit my boring 9-5, become my own boss, AND live life the way I WANTED!
