Election in Numbers

- 81 registered voters
- 59 actual votes

What Went Well

- Community site was a great way to manage registration and communication
- Stayed on the planned timeline
- Great candidates!

Points of Feedbacks

- Slightly lower registration numbers, compared to 2020
 - ON: It is partially related to the process changes. This year we did not send emails to the entire LDAP database, and instead of that relied on the mailing lists and social media promotion.
- Not so many nomination submitters
