

## Octopus Dog Toy

### Materials Needed:

Old T-Shirt or Fabric

Scissors

Tennis Ball

### Instructions:

1. Cut long strips from an old t-shirt or fabric. The strips should be around 4 inches wide and 2 feet long.
2. Tie one strip around the tennis ball, and then tie a second strip perpendicular to the first. (You can use as many strips as you would like.)
3. Then take three of the strips, and braid them very tightly. Do this with all of the extra strips of fabric. (You may need to cut the strips apart into more strips depending on how many braids you want to make.)
4. Make sure to pull the braids tight.
5. You can decorate the “Face” of an octopus with fabric markers.
