What is atomos? Explain what the early Greeks believed.

What did Boyle promote?

Explain Rutherford's model.

How did Bohr improve Rutherford's model?

IMAGE OF THE DAY: Draw the progression of the understanding of atomic structure.

Day 2:

What are the three basic components of an atom and what are their charges?

What are the largest particles and where are they found?

What two particles make up an element's atomic mass?

What is a Dalton? What is an AMU?
