

## **SOUP AND BREAD TRANSPORT POSITION DESCRIPTION**

15 – 20 Volunteers are needed for Soup and Bread Transport on Friday before the Bread and Soup Luncheon.

Transport typically occurs between 2 and 4 PM. Transport volunteers must be able to drive to 3 – 5 restaurants, in the same general area, pickup soup and bread donated by the restaurants and deliver soup to the loading dock at the back of WVU Towers. (Volunteers at Towers will sort the soups and store them overnight. In the morning the soups will be heated then delivered to Mylan on Saturday morning.) Transport Volunteers will then deliver the breads to Mylan. Restaurants are primarily located in the following areas: downtown, Suncrest, Cheat Lake, Westover, Waterfront, Sabraton, Grafton Road and Star City.

Transport Volunteers must have a vehicle to transport soup and breads – vehicles like pickup trucks are ideal as, even though the soup containers are covered with lids, at times a bit of the soup may spill from the containers. Transport Volunteers must also be able to lift up to 5 gal of soup.
