These are the **live notes** for the **Software & Computing Round Table on Data Management**. This document will be used during the meeting to moderate and record the discussion and gather input from all participants.

For more information about the Software & Computing Round Table, see our **webpage**. Recordings of the Software & Computing Round Table are available on **YouTube**.

Discussion

SKA Global Data Management Challenges and Prototypes

Speaker: Dr Rosie Bolton (SKA Organization)
Questions:
1) Forename Surname (Affiliation): Question

Rucio at Belle II

Speaker: Dr Cedric Serfon (BNL)
Questions:
    1) Forename Surname (Affiliation): Question

Running Rucio: Design, Deployment, and Maintenance of a Critical Service from a Facilities Perspective

Speaker: John DeStefano (BNL)
Questions:
    1) Forename Surname (Affiliation): Question

Richard Jones (UConn): Has anyone tried deploying Rucio as the file catalog layer for an organization with globus online serving in the place of FTS as the data movement layer? Matt - just saw your answer in the chat, thanks I will reach out to you by email.

> Sorry for my ill-timed connection issues 😕
