

# HillRAP Web App - Resource Guide

Sharable Link: [bit.ly/HillRAP-Web-App\\_Resource-Guide](https://bit.ly/HillRAP-Web-App_Resource-Guide)

## Overview

The HillRAP Web App was launched July 2022. Unlike our previous app, the HillRAP Web app can be used on ANY internet-connected device, including Chromebooks, iPads, laptops, and Android tablets for remote or in-person instruction.

Check out what's new in the HillRAP Web App (also **highlighted in yellow in this resource guide**):

- **all HillRAP student data** (past and present) can be viewed in the HillRAP Web App
- **Oral and Written Spelling** is included as part of the HillRAP components
- **Instructional Improvements**
  - Enhanced **Fluency from Text** with rubric and direct instruction
  - New **PHA** practice screen
  - Student markings in **WAT** appear on teacher screen
- Easy PDF download of individual **student fluency graphs**
- Seamless transitions to **virtual/remote instruction**
- **Class Management in the HillRAP Web App** - *You no longer go to HLS*
- Annual **update of skills released** - *to be used for your 2022-2023 classes*
- **Skill Tracking Report** - *formerly Parent Skill Tracking and Assessment and Skill Tracking reports*
- **Attendance Report** - *updated to include session details*
- **Help Resource** available on non-instructional pages

**Please check out our [Best Practices guide](#) prior to getting started for the best experience.**
