

# MEASUREMENT

**WALT:** understand what millimetres and centimetres are.

1. In your own words, what is a millimetre?

→

2. In your own words, what is a centimetre?

→

3. List 3 things that you can see that you think might be 1cm

|  |
|--|
|  |
|  |
|  |

4. List 3 things that you can see that you think might be 5cm.

|  |
|--|
|  |
|  |
|  |

5. List 3 things that you can see that you think might be 10cm.

|  |
|--|
|  |
|  |
|  |

6. Convert the following millimetres into centimetres.

| Millimetres | Centimetres |
|-------------|-------------|
| 13mm        | __cm        |
| 20mm        | __cm        |
| 47mm        | __cm        |
| 58mm        | __cm        |
| 96mm        | __cm        |

7. Convert the following centimetres into millimetres.

| Centimetres | Centimetres |
|-------------|-------------|
| 4.8cm       | __mm        |
| 2.9cm       | __mm        |
| 7.1cm       | __mm        |
| 3.5cm       | __mm        |
| 6cm         | __mm        |
