

# STEAM Team Monthly Activity

## September

### Why STEAM?

We want our youth to think more broadly about the world around them. How can we achieve this?

Make our activities/programs experimental driven!

1. Students ask the questions?
2. Connect dots
3. Problem Solve
4. Think creatively
5. Be innovative

### Lesson & Link

- In this lesson youth use simple materials to build a paper robotic hand!
- Material List: Paper, ruler, needle, string, tape, scissors and straws.
- Students connect art and engineering skills in this fun activity!
- Robotic Hand / Simple Paper Robot:
