

Hey [Name],

great testimonials on your page, it's an amazing way to build trust and authority with your clients, especially since all of them are 5 star reviews.

I found your company while doing research on businesses in the trading market, and I am reaching out to a handful to find the one best suitable one to partner with.

Here is an idea that I had that could help you improve your conversion rates on instagram and reach more people. I will attach it to the bottom of this email.

The idea is to grab as much attention as possible to then intrigue them to go to your website and find out the answer to what they want to know.

The photo that you have used for this post was already enough to grab a lot of people's attention, the last tweaks were regarding the text to give them a big urge to click the link to your website.

If you are happy with the example and would like to know some more ways I can help you attract more clients, I would be more than happy to share some more examples of how I can help.

Kind regards,
Gleb Blaauw.
