

The Technician Class Exam Cram is a free assisted self-study approach to preparing for the exam. It is intended for those interested in obtaining a license for the first time and those whose previous amateur radio license has lapsed. We will offer this class again on **Friday evening, October 27th and Saturday, October 28, 2023**. To learn more or register [click here](#).

The General Class Exam Class is a free assisted self-study approach to preparing for the exam. It is intended for Technician Class licensees who are preparing to take the next step. Our most recent offering was on Friday evening, March 31, 2023 and Saturday, April 1, 2023. We hope to offer this class again in 2024. We will post a link here when we schedule the next sessions.

In-person and online all-class **FCC Amateur Radio License Examinations** are being offered under the leadership of Herb, AA7HW, in affiliation with W5YI-VEC, an FCC-approved Volunteer Examiner Coordinator. He plans to offer the next in-person exam on Saturday, October 28, 2023 at 3 pm.

Regarding online exams, you should find the following links informative: ham.study/sessions/AA7HW and hamstudy.org/sessions.

Portland NET Amateur Radio Operator Workshops are held about twice a year. They cover how to program a handheld radio and many other topics you will need to understand to participate in NET exercises and deployments. Those that have not yet been certified as NET AROs these workshops will help you in that direction. Those who were previously certified will find many of the topics useful as well. We plan to offer workshops again on Saturday, November 4, 2023. You will find more information [here](#) when it becomes available.
