City: Indianapolis

Year in school as of Fall 2025: Junior

Field of Study (Major/Minor): Biology (major), Chemistry (minor)

GPA: 3.96

Interest Statement (100 words maximum)

How will this scholarship empower you to pursue your academic and personal aspirations? (100 words max)

This scholarship will aid me in my long-term goal of becoming a physician. This long journey consists of 4 years of undergraduate, 4 years of medical school, and 5-7 years of residency. It is a long path that can be very costly. Receiving this scholarship would help me to pursue my dreams and give back to my community by being a future physician.

Leadership Statement | Greek Leadership

I currently serve as Director of Academic Excellence for Delta Delta Delta, Delta Lambda Chapter. In this role, I track and monitor members' academic progress to ensure chapter-wide GPA goals are met, as well as develop and implement academic support plans for members needing improvement. I implemented a system that recognizes and rewards academic achievements through incentive programs and events. I am also tasked with providing members with access to tutoring resources, study materials, and campus support services. During house tours, I assist in recruitment efforts by promoting the chapter's academic culture and highlighting member success. I also maintain detailed records of members' academic standing in compliance with national standards. Overall, my experience as an executive member at Tri Delta has given me much perspective and leadership skills.

Leadership Statement | Campus Involvement & Community Service

During the summers of 2024 & 2025 I was an intern at the Warren County Community Foundation. I was able to spearhead the National Night Out Street Fair that provided backpacks and school supplies for over 300+ children, along with supporting our local first responders. I was also given the opportunity to allocate over \$60,000 to local non-profits in my county.

At Butler, I am now a team lead for Butler Ambassadors for Special Olympics (BASO) fundraising and finance, where we developed fundraising events campus-wide to secure funds for donation to the Special Olympics, such as Polar Plunge with a previous total funds raised equaling \$70,000 and an attendance of 150 people. I constantly deal with networking and outreach to local and global companies for fundraising purposes.

I intend to continue this philanthropic mindset with working towards becoming a physician. From a very young age, I decided I was going to become a doctor, and I have been working towards it ever since. I truly believe there is no way to quantify how much of an impact my future career choices and philanthropic work will have, but I just know I will be content as long as I am always striving my best to help those around me. Hopefully, that impact is as large as I can possibly make it and will be ever-expanding.

Personal Statement Prompt (500 words maximum)

Admittedly, I was very hesitant at first to join a sorority. It was never something I believed I could see myself being a part of or joining. However, I was very quickly proven wrong. Tri Delta has taught me so much in such a brief time. One of the most important values I have learned from Tri Delta is the value

of sisterhood. Being uplifted and supported by such a large group of young women has given me so much drive to pursue my passions. Academics have always been extremely important to me, and Tri Delta has given me ample opportunities to flourish with study tables, academic mentors, and a sister to always do homework with. During the recruitment process, I was pushed out of my shell, which led me to gain many leadership and conversational skills. These newfound skills have given me the courage to apply for a leadership role within Tri Delta, and now I have the honor of being the Director of Academics. Most importantly, Tri Delta has given my life more love with over 150+ sisters to share that with, and I will be forever grateful for that.

The skills and values Tri Delta has taught will forever aid me in my life, especially with the career path I have chosen. Tri Delta's philanthropy was an exceptionally large reason I fell in love with the sorority. My cervical cancer research project during my 8th-grade year of junior high school determined my future. Right there and then, I decided I was going to become a physician, and I have been on that track ever since. Tri Delta's philanthropy has given me the chance to immerse myself in a philanthropic space and reminds me every day why I made the decision to become a doctor. My ability to support others, have compassion, be diligent, and have a philanthropic mindset will all aid in this journey of becoming a future physician, all values and skills taught to me by Tri Delta and my sisters. Being a part of Tri Delta is something I will always be grateful for and cherish for all it has provided for me.

Recognition Permission

If awarded this scholarship, I grant permission for the Indianapolis Alumnae Panhellenic (IAP) to share my name, university, and sorority affiliation in announcements and on the IAP website for recognition purposes.

If you are uncomfortable having your name shared, we will share your university and sorority information only if you check this box:

A handwritten signature in black ink that reads "Macy M. Smith". The signature is written in a cursive style with a large, stylized "M" and "S".
