Session: 5-213

Title: Executive Functions for Every Classroom

Presenter: Mitch Weathers

In this session, educators will learn how to incorporate executive functions as a universal MTSS tier 1 intervention in every classroom. We will focus on both Core and Higher Order executive functions that support planning, organization, and flexible problem-solving, and the fostering of student agency. We will explore how clarity, predictable routines, and intentional modeling can create the conditions for students to strengthen these skills and apply them across academic and social contexts. Participants will also examine strategies for engaging families to reinforce consistency between home and school, ensuring that students experience aligned support. They will leave with practical tools and evidence-informed strategies to apply in their own settings.
