Overview

With the introduction of FTI (Federal Tax Information) data and changes to income fields on the 2024-2025 FAFSA due to FASFA Simplification, the WCG CEMLI needed to be updated to accurately calculate the *WCG Income* and *Family Size* fields.

In July of 2024, we implemented our first phase of WCG CEMLI updates.

Per the [2024-2025 WCG Manual](#) the WCG Income for 2024-2025 should include AGI (or earned income when FTI AGI data is not available) and only the following untaxed income:

- o Untaxed portions of Individual Retirement Arrangement (IRA, or Individual Retirement Account) distributions (withdrawals);

NOTE: Do not include any rollover amounts from untaxed IRA distributions.

- o Untaxed portions of pension and annuity distributions (withdrawals);

NOTE: Do not include any rollover amounts from untaxed pension and annuity distributions.

- o IRA deductions and payments to self-employed SEP, SIMPLE, and qualified plans;
- o Tax-exempt interest; and
- o Foreign Earned Income Exclusion

The WCG CEMLI was updated to include all the following except 'IRA deductions and payments to self-employed SEP, SIMPLE, and qualified plans' as more research is needed to determine whether the SFA_xx_FTIM_DEIRA - IRA deductible and payments fields is accurate and doesn't contain rollovers (reference:

<https://askregs.nasfaa.org/article/36751/how-do-we-verify-rollovers-of-ira-pension-and-annuity-distributions>)

In November 2024, two queries were introduced into production to assist colleges with finding and cleaning up some WCG Income data:

QCS_FA_WCG_IRA_DATA – Query to finds students who have IRA data on their ISIR that should be included in WCG Income

QCS_FA_WCG_MFJ_RPTD_INC – Query to find students/parents who filed Married Filed Jointly and both parties reported the same income on the FAFSA.

Query criteria is as follows:

WCG income > 0, Student AGI & Student Spouse AGI not equal to WCG Income

AND

(Student & Student Spouse Tax filing status of married filed joint

OR

Student tax filing status married filed joint & Student spouse Manual AGI is not blank

OR

Student Spouse tax filing status married filed joint & Student Manual AGI is not blank

OR

Parent tax filing status married filed joint & Parent Spouse Manual AGI is not blank

OR

Parent Spouse tax filing status married filed joint & Parent Manual AGI is not blank)

With this second phase of updates implemented in December 2024, we've included the following:

- o Inclusion of the IRA deductions and payments to self-employed SEP, SIMPLE, and qualified plans into the WCG Income calculation
- o Further tweaking of the WCG income SQL to better align with WSAC's data hierarchy
- o Updated the Family Size SQL to align with the following data hierarchy
 - 1) *Reported Family Size on ISIR/WASFA*
 - 2) *Assumed Family Size on ISIR/WASFA*
 - 3) *Exemptions matrix (Appendix C of [2024-25 FAFSA Pell Eligibility and SAI Guide](#))*
 - 4) *Assumption Hierarchy Chart provided in the [WSAC Manual p.34](#)*

Outline of sections in this guide:

- [WCG Income Hierarchy](#)
- [Family Size Hierarchy](#)
- [Dependent Students \(DS\) Scenarios and Outcomes](#)
- [Independent Students \(IS\) Scenarios and Outcomes](#)

WCG Income Hierarchy

Dependent Student

#	Parent MARITAL STATUS	#	FILING STATUS
1	Single	1	Single
2	Unmarried living together	2	Married Filed Jointly
3	Married not separated	3	Married Filed Separately
4	Remarried	4	Head of Household
5	Divorced	5	Qualifying Surviving Spouse
6	Separated		
7	Widowed		

Note: * represents a field being blank in the SQL

Criteria and order of processing for Dependent Student

Dependency Override/PJ Flag on ISIR

- Parent & Spouses' Manual AGIs & untaxed incomes
- * If Manual AGI is not present, use FTI AGI

Parent Marital Status (2, 3, 4) and Parent or Parent Spouse's Filing Status = 2

- Parent's FTI AGI & untaxed income
- * If Parent's income info is blank, use Parent Spouse's FTI AGI & untaxed income

Parent Marital Status (2, 3, 4) and Parent's Filing NOT (2, *) and Parent Spouse's Filing Status NOT (2, *)

- Parent & Parent Spouses' FTI AGIs & untaxed incomes

Parent Marital Status (2, 3, 4) and Parent's Filing Status NOT (2, *) and Parent Spouse's Filing Status is (*)

- Parent's FTI AGI & untaxed income + Parent Spouse's Manual AGI & untaxed income
- * If Parent Spouse's Manual AGI is not present, use reported income worked

Parent Marital Status (2, 3, 4) and Parent's Filing Status is (*) and Parent Spouse's Filing Status NOT (2, *)

- Parent's Manual AGI & untaxed income + Parent Spouse's FTI AGI & untaxed income
- * If Parent's Manual AGI is not present, use reported income worked

Parent Marital Status NOT (2, 3, 4) and Filing Status NOT (2, *)

--- Parent's FTI AGI & untaxed income

Parent Marital Status NOT (2, 3, 4) and Filing Status = 2

--- Parent's Manual AGI & untaxed income

* If Parent's Manual AGI is not present, use FTI AGI

Parent Marital Status (2, 3, 4)

--- Parent & Spouses' Manual AGIs & untaxed incomes

* If Manual AGI is not present, use reported income worked

Parent Marital Status NOT (2, 3, 4)

--- Parent Manual AGI & untaxed income

* If Parent's Manual AGI is not present, use reported income worked

Independent Student

#	Student MARITAL STATUS	#	FILING STATUS
1	Single	1	Single
2	Married	2	Married Filed Jointly
3	Remarried	3	Married Filed Separately
4	Divorced	4	Head of Household
5	Separated	5	Qualifying Surviving Spouse
6	Widowed		

Note: * represents a field being blank in the SQL

Criteria and order of processing for Independent student

Dependency Override/PJ Flag on ISIR

--- Student & Spouses' Manual AGIs & untaxed incomes

* If Manual AGI is not present, use FTI AGI

Student Marital Status (2, 3) and Student or Spouse Filing Status = 2

--- Student's FTI AGI & untaxed income

* If Student's income info is blank, use Spouse's FTI AGI & untaxed income

Student Marital Status (2, 3) and Student's Filing NOT (2, *) and Spouse's Filing Status NOT (2, *)

--- Student & Spouses' FTI AGIs & untaxed incomes

Student Marital Status (2, 3) and Student's Filing Status NOT (2, *) and Spouse's Filing Status is (*)
--- Student's FTI AGI & untaxed income + Spouse's Manual AGI & untaxed income
* If Spouse's Manual AGI is not present, use reported income worked

Student Marital Status (2, 3) and Student's Filing Status is (*) and Spouse's Filing Status NOT (2, *)
--- Student's Manual AGI & untaxed income + Spouse's FTI AGI & untaxed income

Student Marital Status NOT (2, 3) and Filing Status NOT (2, *)
----- Student's FTI AGI & untaxed income

Student Marital Status NOT (2, 3) and Filing Status = 2
----- Student's Manual AGI & untaxed income
* If Student's Manual AGI is not present, use FTI AGI

Student Marital Status (2,3)
----- Both Student & Spouse Manual AGIs & untaxed income
* If Manual AGI is not present, use reported income worked

Student Marital Status NOT (2,3)
----- Student's Manual AGI & untaxed income
* If Student's Manual AGI is not present, use reported income worked

Out of Scope

Due to unexpected or "bad" data reported by students or parents on ISIRs/WASFAs, the WCG Income SQL will not calculate every student's WCG Income value correctly, but we aimed for an 80 – 90% accuracy rate!

The following are current known scenarios that are out of scope:

#1 WSAC's Inclusion of Optional Income Offsets

The WCG Income in the WSAC Portal includes the optional income offsets mentioned in [WSAC Manual p.34](#). The income offsets are *allowable* but *not required* so after discussing with FAST, the income offsets were not included in the WCG CEMLI SQL. If an edit appears on the WCG Interim due to this difference of WSAC including the optional offsets while the WCG CEMLI does not, the college would address the edit by indicating the optional offset was not included in the college calculation.

#2 Married Students or Parents with One Filed 'Married Filed Jointly' and the Other Filed a Different Status

There are cases when married Students/Parents have filing statuses that do not appear to be in alignment with one side indicating they filed 'Married Filed Jointly' and the other indicating they filed a different status. Querying ISIR data systemwide, these cases are rare.

More common are scenarios where married Students/Parents report the same income data when they filed 'Married Filed Jointly'. There are many cases systemwide where the WCG Income is incorrectly doubled because of these duplicate data points. Hence, we created QCS_FA_WCG_MFJ_RPTD_INC query for colleges to find these students until the WCG CEMLI was updated to address this population.

In favor of addressing the more common issue of doubling income, the SQL has criteria where it prevents including both incomes when the Student/ Parent marital status is married and filing status of either the Student/Parent OR Student Spouse/Parent Spouse is 'Married Filed Jointly'.

The following query was developed to address the other issue.

QCS_FA_WCG_MARITAL_FILING_DISC

Report to find students who fall under one of the following:

Independent student with marital status of 'Married/Remarried' AND

- Student filed a single status and Spouse filed 'Married Filed Jointly'
OR
- Student filed 'Married Filed Jointly' and Spouse filed a single status

Dependent student with marital status of 'Married/Remarried/Not Married Living Together'

AND

- Parent filed a single status and Spouse filed 'Married Filed Jointly'
OR
- Parent filed 'Married Filed Jointly' and Spouse filed a single status

#3 IRA or Pension Rollovers

There may be cases where IRA or Pension Distributions on an ISIR *appear* to include rollovers. There is no coding that we felt comfortable adding that would automatically remove the manually reported IRA or Pension Rollovers from the IRA or Pension Distributions. Having the same number reported in the distribution fields and rollover fields does not always indicate incorrect reporting.

A query was developed to find these students should your college have a process where you would verify IRA or Pension Distributions that appear to contain IRA or Pension Rollovers.

QCS_FA_WCG_IRA_PEN_ROLLVR_DISC

Report to find students who fall under one of the following:

Independent student with Student or Spouse reporting IRA or Pension Rollover

Dependent student with Parent or Spouse reporting IRA or Pension Rollover

Family Size Hierarchy

Dependent Student

#	Parent MARITAL STATUS	#	FILING STATUS
1	Single	1	Single
2	Unmarried living together	2	Married Filed Jointly
3	Married not separated	3	Married Filed Separately
4	Remarried	4	Head of Household
5	Divorced	5	Qualifying Surviving Spouse
6	Separated		
7	Widowed		

Hierarchy 1 – If Parent Reported Family Size (NUMBER_IN_FAMILY field) exists on ISIR/WASFA, the Family Size SQL will populate that value. If it does not exist, the SQL will move to next criteria

Hierarchy 2 – If Parent Assumed Family Size (SFA_ASMD_PAR field) exists on ISIR/WASFA, the Family Size SQL will populate that value. If it does not exist, the SQL will move to next criteria

Hierarchy 3 – If at least one of the parents is a tax filer, the Family Size SQL will calculate the family size according to Appendix C of [2024-25 FAFSA Pell Eligibility and SAI Guide](#). If neither parent are tax filers, the SQL will move to the final criteria

Hierarchy 4 – If neither parent are tax filers, the Family Size SQL will calculate the family size according to the Assumption Hierarchy chart below

Family Type	Family Size Assumption
-------------	------------------------

Dependent Student; 2 Parent Contributors	3
Dependent Student; 1 Parent Contributor	2

Behavior of ‘Unmarried Living Together’ in Family Size SQL

Due to unexpected or “bad” data reported by students or parents on ISIRs/WASFAs, the Family Size SQL will not calculate every student’s Family Size value correctly, but we aimed for an 80 – 90% accuracy rate!

According to Appendix C of [2024-25 FAFSA Pell Eligibility and SAI Guide](#), ‘Unmarried Living Together’ is categorized as ‘Unmarried’ for Family Size purposes. However, Appendix F of [2024-25 FAFSA Pell Eligibility and SAI Guide](#) (which addresses marital status for SAI purposes) indicates to place ‘Unmarried Living Together’ in a ‘Married’ marital status for SAI calculation.

During our testing , we came across a Dependent student whose Family Size would be inflated if we moved ‘Unmarried Living Together’ to a married marital status in the SQL.

The scenario

Student Filing Status: Single	Exemptions: 1
Parent Filing Status: Head of Household	Exemptions: 3
Parent Partner Filing Status: Single	Exemption: 1

The Parent’s exemptions incorrectly contained the Parent Partner so there would be a double counting of exemptions if the ‘Unmarried Living Together’ was categorized as ‘Married’.

With keeping ‘Unmarried Living Together’ as ‘Unmarried’ in the Family Size SQL, it calculates the more modest family size total. We chose this path after seeing over 90% of students systemwide will have the correct Family Size with this setup.

Independent Student

#	Student MARITAL STATUS	#	FILING STATUS
1	Single	1	Single
2	Married	2	Married Filed Jointly
3	Remarried	3	Married Filed Separately
4	Divorced	4	Head of Household
5	Separated	5	Qualifying Surviving Spouse
6	Widowed		

Hierarchy 1 – If Student Reported Family Size (NUM_FAMILY_MEMBERS field) exists on ISIR/WASFA, the Family Size SQL will populate that value. If it does not exist, the SQL will move to next criteria

Hierarchy 2 – If Student Assumed Family Size (SFA_ASMD_STD field) exists on ISIR/WASFA, the Family Size SQL will populate that value. If it does not exist, the SQL will move to next criteria

Hierarchy 3 – If the student or spouse is a tax filer, the Family Size SQL will calculate the family size according to Appendix C of [2024-25 FAFSA Pell Eligibility and SAI Guide](#). If neither student nor spouse are tax filers, the SQL will move to the final criteria

Hierarchy 4 – If neither student nor spouse are tax filers, the Family Size SQL will calculate the family size according to the Assumption Hierarchy chart below

Family Type	Family Size Assumption
Independent Student; Not Married	1
Independent Student; Married	2
Independent Student; Not Married w/Dependents	2

Note: The *Child or Other Dependents* field on ISIR/WASFA is a Yes or blank field, not a number.

Dependent Students (DS) Scenarios and Outcomes

Disclaimer: For testing purposes, we used the access we had to two college's WSAC Training Portal to verify WSAC's calculation of income and family size. Between this section and the [Independent Students \(IS\) Scenarios and Outcomes section](#), we have tried to touch upon as many scenarios as possible to show how the WCG Income and Family Size SQLs act.

Labelling Federal Tax Information as Controlled Unclassified Information

FTI is categorized as CUI//SP-TAX and may contain sensitive PII. Accordingly, all FTI must be handled—at minimum of Section 6103(l)(1)(13) of the IRC and in accordance with all applicable privacy laws, regulations, and policies. The user agrees to the appropriate use of this data.

This page contains confidential Federal Tax Information (FTI). Sharing of this data, or any other FAFSA data, is strictly prohibited.

RISKS OF MISUSING FTI:

- Willful unauthorized disclosure of tax return or return information (IRC §7213)
 - Felony, fine up to \$5,000, or imprisonment up to 5 years, or both, plus the costs of prosecution
- Willful unauthorized inspection of tax return or return information (IRC §7213A)
 - Fine up to \$1,000, imprisonment up to 1 year, or both, plus the costs of prosecution
- Knowing or negligent inspection or disclosure of tax return or return information by officer or employee in violation of the Internal Revenue Code
 - Taxpayer may bring a civil action for damages against officer or employee

This box contains information using restricted CUI//SP FTI data and may ONLY be used for the purpose of student (state) aid programs and is permitted under the HEA and IRC rules.

Labelling Federal Tax Information as Controlled Unclassified Information

FTI is categorized as CUI//SP-TAX and may contain sensitive PII. Accordingly, all FTI must handle confidentiality protections of Section 6103(i)(13) of the IRC and in accordance with all applicable privacy laws. Accessing this information understands and agrees to the appropriate use of this data.

This page contains confidential Federal Tax Information (FTI). Sharing of this data, or any other FAFSA information, is prohibited. For more information, see the FAFSA Privacy Policy.

RISKS OF MISUSING FTI:

- Willful unauthorized disclosure of tax return or return information (IRC §7213)
 - Felony, fine up to \$5,000, or imprisonment up to 5 years, or both, plus the costs of prosecution
- Willful unauthorized inspection of tax return or return information (IRC §7213A)
 - Fine up to \$1,000, imprisonment up to 1 year, or both, plus the costs of prosecution
- Knowing or negligent inspection or disclosure of tax return or return information by officer or employee of the IRS (IRC §6103)
 - Taxpayer may bring a civil action for damages against officer or employee

This box contains information using restricted CUI//SP FTI data and may ONLY be used for the administration of student (state) aid programs and is permitted under the HEA and IRC rules.

The screenshot shows a web application interface for WCG Eligible Data. At the top, there are tabs for 'WCG Eligible Data' and 'WCG Archive Data'. Below the tabs, there are input fields for 'Academic Institution', 'Aid Year' (with options for 2025 and 2024-2025 Financial Aid Year), 'Student ID', and 'Daisy'. The main section is titled 'Eligibility Data' and includes a search bar with 'Find | View All' and pagination 'First 1 of 7 Last'. The form contains several fields: 'Effective Date: 12/05/2024', 'Effective Sequence: 2', 'Operator ID: CTC_DENGLEHARDT', 'FTI label start: CUI//SP-TAX', 'WCG Income: \$0.00', 'ISIR Family Size: 2', 'WCG Family Size: 2', 'FTI label end: CUI//SP-TAX', 'Lock Eligibility Override: [checkbox]', '*Eligible ?': Yes, 'MFI Percent Calculation: 65', 'WCG Award Amount: \$4763', and a 'Message' box containing 'All conditions have been met. Student is eligible.' A 'Calculate' button is located at the bottom right. At the bottom left, there is a 'Transaction Number: 1' field.

WSAC's SQL may be seeing the zero populated for Exemptions as a result of the FTI Data match failure.

Our SQL does not look at Exemptions if there is no FTI Filing status.

We match the value the college chose for the student.

Labeling Federal Tax Information as Controlled Unclassified Information

FTI is categorized as CUI/SP-TAX and may contain sensitive PI. Accordingly, all FTI must be handled—at minimum—in accordance with confidentiality protections of Section 6103(x)(13) of the IRC and in accordance with all applicable privacy laws, regulations, and policies. Accessing this information understands and agrees to the appropriate use of this data.

This page contains confidential Federal Tax Information (FTI). Sharing of this data, or any other FAFSA data, is strictly prohibited.

RISKS OF MISUSING FTI:

- Willful unauthorized disclosure of tax return or return information (IRC §7213)
 - Felony, fine up to \$5,000, or imprisonment up to 5 years, or both, plus the costs of prosecution
- Willful unauthorized inspection of tax return or return information (IRC §7213A)
 - Fine up to \$1,000, imprisonment up to 1 year, or both, plus the costs of prosecution
- Knowing or negligent inspection or disclosure of tax return or return information by officer or employee in violation of any provision §6103
 - Taxpayer may bring a civil action for damages against officer or employee

This box contains information using restricted CUI/SP FTI data and may ONLY be used for the purpose of the application, award administration of student (state) aid programs and is permitted under the HEA and IRC rules.
