

AI Workflow — Design Sprint

1) What's the challenge you face?

Today:

We want instead:

If this worked, we would see:

2) Describe the process

How it works today (no AI):

- 1.
- 2.
- 3.

How it would work with AI:

- 1.
- 2.
- 3.

3) Define the output

Format:

Language(s):

Length:

Must-include fields:

4) Define success

Accuracy:

Usability:

Time saved:

Safety:

Consistency:

5) Prepare to build your workflow

What we will use (files, data, messages, links):

Where this will live (Project, Canvas, GPT, Doc):

Starter prompt:

Task:

Context:

Output:
