- Dave Kunert/ACE Cannabis - retail registration; 2 more cannabis businesses received County approval prior to Mr Kunert's final approval. While the County approved his grow & retail business, all 4 of the County's retail registrations have been filled so they would not be able to issue a 5th retail registration. The Township could consider handling the retail registration themselves under their own authority. It would mean adopting a cannabis ordinance and finding out if our insurance would cover us. Tabled until the April meeting.
