Abstract

Suggested length is less than 500 words in total. Use concise, plain language. The abstract should include introduction, methods, results, discussion, and conclusion. One figure is optional and should directly support the main message.

Introduction

[~2–4 sentences] Briefly state the background, problem, and motivation for the project.

Methods

[~3–5 sentences] Describe the data, model, workflow, tools, or experimental design used.

Results

[~3–5 sentences] Summarize the main findings, performance metrics, or outcomes.

Discussion

[~2–4 sentences] Interpret what the findings mean, why they matter, and any limitations.

Conclusion

[~1–3 sentences] State the key takeaway and the broader implication or next step.

Optional Figure

Tip: Allow a short caption to describe the figure and its main message. Keep the abstract readable as a stand-alone submission even if the figure is omitted.
