2. Construction science principles

Worksheet 15: Approved documents (learner)

The building regulations approved documents control the standards of construction work.

Download Part A of the regulations from the following link:

https://www.planningportal.co.uk/info/200135/approved_documents/62/part_a_-_structure

Answer the following questions.

1. What determines the depth of a foundation?

2. What is the minimum depth of a foundation?

3. How many joists should a galvanised strap span for lateral restraint?

4. What is the width of a 60kN/m loaded foundation on sand and gravel?
