

Math Websites for kids

Some of these websites may require usernames and passwords. If kids come and ask, we can show them how to log in at home.

- [Prodigy](#): This is a math game created to motivate students. The students are given grade level problems to solve and the more problems they get correct the farther they move through the game.
- [Freckle](#)- Math games that help increase fluency with basic facts.
- [Kahn Academy](#)- videos that take students step by step through practice problems.
- [Learn Zillion](#) - Practice problems and videos with step to step directions
- [Math Before Bed](#) - Great for getting your kids to talk about math
- [Math Playground](#) - Games
