

Hướng dẫn bài tập 2.2

Thư mục chứa các file

Code tham khảo

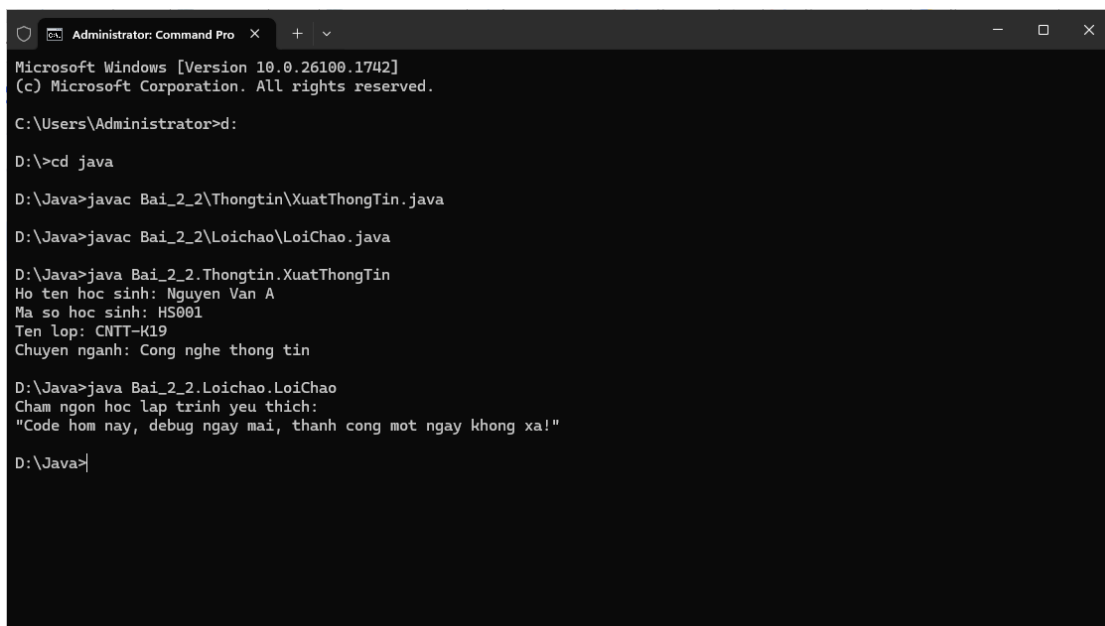

```
Welcome X LoiChao.java X XuatThongTin.java X
D: > Java > Bai_2_2 > Thongtin > XuatThongTin.java
1 package Bai_2_2.Thongtin;
2
3 public class XuatThongTin {
4     public static void main(String[] args) {
5         String hoTen = "Nguyen Van A";
6         String maSoHocSinh = "HS001";
7         String tenLop = "CNTT-K19";
8         String chuyenNganh = "Cong nghe thong tin";
9
10        System.out.println("Ho ten hoc sinh: " + hoTen);
11        System.out.println("Ma so hoc sinh: " + maSoHocSinh);
12        System.out.println("Ten lop: " + tenLop);
13        System.out.println("Chuyen nganh: " + chuyenNganh);
14    }
15 }
```

The screenshot shows an IDE with three tabs: 'Welcome', 'LoiChao.java', and 'XuatThongTin.java'. The 'LoiChao.java' tab is active, displaying the following code:

```
D: > Java > Bai_2_2 > Loichao > LoiChao.java
1 package Bai_2_2.Loichao;
2
3 public class LoiChao {
4     public static void main(String[] args) {
5         System.out.println("Cham ngon hoc lap trinh yeu thich:");
6         System.out.println("\nCode hom nay, debug ngay mai, thanh cong mot ngay khong xa!");
7     }
8 }
```

Biên dịch và chạy

The screenshot shows a Windows Command Prompt window titled 'Administrator: Command Pro'. The user has navigated to the directory 'D:\Java' and performed the following commands and actions:

```
