K.CC.1	Count a. Count to 100 by ones and by tens. b. Count backwards from 30 by ones.	• I can count to 100 by ones. • I can count to 100 by tens. • I can count backwards from 30 by ones.
K.CC.2	Count forward beginning from a given number within the known sequence within 100 (instead of having to begin at 1)	• I can count forward beginning from a given number within 100.
K.CC.3	Represent numbers. a. Write numbers from 0 to 20. b. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	• I can write numbers 0-20. • I can count sets of 0-20 objects. • I can write a number to represent a set of 0-20 objects.
K.CC.4	Understand the relationship between numbers and quantities; connect counting to cardinality. a. When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. b. Understand that the last number name said tells the number of objects counted. The number of objects is the same regardless of their arrangement or the order in which they were counted. c. Understand that each successive number name refers to a quantity that	• I can connect counting with cardinality. • I can count objects in standard order as I say each number name. • I can understand that the last number represents the amount of objects regardless of the arrangement. • I can understand that each successive number name refers to a quantity that is one larger.

	is one larger.	
K.CC.5	Given a number from 1-20, count out that many objects. a. Count to answer “how many?” questions with as many as 20 things arranged in a line, a rectangular array, or a circle. b. Count to answer “how many?” questions with as many as 10 things in a scattered configuration.	• I can count to answer “how many” questions about images presented in lines, arrays, circles, on fingers, and on 5-frames. • Given a written number 1-20, I can count out a group of objects. • Given a written number 1-20, I can draw a picture with that number of images in it. • I can write numbers 1-10 to represent a quantity.
K.CC.6	Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group.	• I can use comparison language to describe the number of objects in groups of up to 10 objects. •
K.CC.7	Compare two numbers between 1 and 10 presented as written numerals.	• I can compare two numbers between 1 and 10 presented as written numerals. •
K.OA.1	Represent addition and subtraction with objects, fingers, mental images, drawings, sounds, acting out situations, verbal explanations, expressions, or equations.	• I can represent addition expressions or equations with objects, fingers, mental images, drawings, sounds, acting out, or verbal explanations. • I can represent subtraction expressions or equations with objects, fingers, mental images, drawings, sounds, acting out, or verbal explanations.
K.OA.2	Solve addition and subtraction word problems and add and subtract within 10 by using objects or drawings to represent the problem.	• I can solve addition and subtraction word problems within 10 using objects or drawings to represent the problem.

K.OA.3	Decompose numbers less than or equal to 10. a. Decompose numbers into two groups in more than one way by using objects or drawings and record each decomposition by a drawing or equation. b. Use objects or drawings to demonstrate equality as the balancing of quantities.	• I can compose and decompose numbers up to 10 using objects and drawings. • I can compose and decompose numbers up to 10 in more than one way. • I can match equations to compositions and decompositions of numbers less than or equal to 10. • I can demonstrate equality with objects or drawings.
K.OA.4	For any number from 1 to 9, find the number that makes 10 when added to the given number by using objects or drawings and record the answer with a drawing or equation.	• I can find the number that makes 10 when added to a given number.
K.OA.5	Fluently add and subtract within 5.	• I can fluently add within 5. • I can fluently subtract within 5.
K.NBT.1	Compose and decompose numbers from 11 to 19 using quantities (numbers with units) of ten ones and some further ones. Understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.	• I can compose and decompose numbers from 11 to 19 using quantities of ten ones and some further ones. • I can understand that these numbers are composed of ten ones and 1-9 ones.
K.MD.1	Describe measurable attributes (length, height, weight, width, depth) of an object or a set of objects using appropriate vocabulary.	• I can describe measurable attributes of an object or a set of objects using appropriate vocabulary; length, height, weight, width, & depth.
K.MD.2	Directly compare two objects with a measurable attribute in common, to see which object has "more of"/ "less of" the attribute and describe the	• I can compare two objects with a measurable attribute in common to see which object has "more of/less" of the attribute and describe the difference.

K.MD.3	Classify and sort objects or people by attributes. Limit objects or people in each category to be less than or equal to 10.	• I can classify and sort objects or people by attributes. • I can limit objects or people in each category to be less than an or equal to 10.
K.MD.4	Recognize and identify coins by name (penny, nickel, dime, quarter).	• I can recognize and identify coins by name.
K.G.1	Name and describe shapes in the environment. a. Describe objects in the environment using names of shapes. b. Describe the relative positions of these objects using terms above, below, in front of, behind and next to.	• I can use informal language to describe shapes. • I can sort shapes into groups. • I can describe the location of shapes using positional words. • I can describe shapes and the location of shapes.
K.G.2	Correctly name shapes regardless of orientations or overall size.	• I can name shapes regardless of orientations or size.
K.G.3	Identify shapes as two-dimensional or three-dimensional	• I can identify shapes as 2D or 3D
K.G.4	Describe the similarities, differences and attributes of two and three dimensional shapes using different sizes and orientations.	• I can describe similarities and differences of two and three dimensional shapes using sizes and orientations. • I can describe attributes of two and three dimensional shapes using sizes and orientations.
K.G.5	Model shapes in the world by building figures from components and drawing shapes.	• I can model shapes in the world by building figures from components. • I can model shapes in the world by drawing shapes.
K.G.6	Compose simple shapes to form larger shapes.	• I can put shapes together in multiple ways to form larger shapes.

Unit 11: Prepare for Severe Weather-2 weeks

Science Standards and Learning Targets

Standard Code	Standard	Learning Targets
K-PS2-1	Plan and conduct an investigation to compare the effects of different strengths or different directions of pushes and pulls on the motion of an object.	I can plan an investigation to compare the effects of different strengths or different directions of pushes and pulls.
K-PS2-2	Analyze data to determine if a design solution works as intended to change the speed or direction of an object with a push or a pull.	I can analyze data to determine if a design solution works as intended to change the speed or direction of an object with a push or pull
K-PS3-1	Make observations to determine the effect of sunlight on Earth's surface.	I can make observations to determine the effect of sunlight on Earth's surface.
K-PS3-2	Use tools and materials to design and build a structure that will reduce the warming effect of sunlight on an area.	I can use tools and materials to design and build a structure that will reduce the warming effect of sunlight on an area.
K-LS1-1	Use observations to describe patterns of what plants and animals (including humans) need to survive.	I can describe patterns of what plants and animals need to survive.
K-ESS2-1	Use and share observations of local weather conditions to describe patterns over time.	I can use and share observations of local weather conditions to describe patterns over time.
K-ESS2-2	Construct an argument supported by evidence for how plants and animals (including humans) can change the environment to meet their needs.	I can construct an argument supported by evidence for how plants and animals can change the environment to meet their needs.
K-ESS3-1	Use a model to represent the relationship between the needs of different plants or animals (including humans) and the places they live.	- I can identify the needs of plants. - I can identify the needs of animals. - I can use a model to represent the relationship between the needs of different plants or animals and the places they live.
K-ESS3-2	Ask questions to obtain information about the purpose of weather forecasting to prepare for, and respond to, severe weather.	- I can ask questions about the purpose of weather forecasting. - I can describe various forms of severe weather.

		• I can explain how to prepare for and respond to severe weather."
K-ESS3-3	Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.	• I can describe the impact of humans on the land, water, air, and/or other living things in the local environment. • I can communicate solutions that will reduce the impact of humans.
K-2-ETS1-1	Ask questions, make observations, and gather information about a situation people want to change to define a simple problem that can be solved through the development of a new or improved object or tool.	• I can ask questions and make observations to learn more about a problem. • I can gather information about what people need or want to change to solve a problem.
K-2-ETS1-2	Develop a simple sketch, drawing, or physical model to illustrate how the shape of an object helps it function as needed to solve a given problem.	• I can develop a simple sketch, drawing, or physical model to illustrate how the shape of an object helps it function to solve a problem.
K-2-ETS1-3	Analyze data from tests of two objects designed to solve the same problem to compare the strengths and weaknesses of how each performs.	• I can analyze data from tests of two objects designed to solve the same problem. • I can compare the strengths and weaknesses of how each object performs.

Social Studies Standards and Learning Targets

Standard Code	Standard	Learning Targets
K.C.CP.1	Explain the purpose of local government.	I can explain the purpose of the local government.
K.C.RR.1	Identify roles and responsibilities of self and others at home, in school and neighborhood settings.	- I can identify the role of myself at home, in school and neighborhood settings. - I can identify the role of others at home, in school and neighborhood settings.
K.C.RR.2	Identify symbols and events that represent American patriotism.	- I can identify symbols that represent American patriotism. - I can identify events that represent American patriotism.
K.C.CV.1	Explain ways people can work together effectively to make decisions.	I can explain ways people work together effectively to make decisions.
K.C.PR.1	Identify examples of rules that apply in the school and community, and explain why they exist.	- I can identify examples of rules that apply in school and explain why they exist. - I can identify examples of rules that apply in the community and explain why they exist.
K.C.PR.2	Describe consequences of following or not following rules.	I can describe consequences of following or not following the laws.
K.C.KGO.1	Identify leaders in the local community, and explain their roles and responsibilities.	- I can identify leaders in the community. - I can explain local leaders' roles and responsibilities.
K.C.KGO.2	Identify local and Kentucky state symbols and events.	- I can identify local symbols and events. - can identify Kentucky state symbols and events.
K.E.MI.1	Describe why people purchase goods and services.	I can describe why people purchase goods and services.
K.E.MA.1	Identify places in communities that provide goods and services.	I can identify places in communities that provide goods and services.
K.E.ST.1	Demonstrate ways trade can be used to obtain goods and services.	- I can demonstrate ways trade can be used to obtain goods. - I can demonstrate ways trade can be used to obtain services.

K.E.IC.1	Differentiate between needs and wants.	• I can differentiate between needs and wants.
K.E.KE.1	Explain how various jobs affect communities.	• I can explain how various jobs affect communities.
K.G.MM.1	Identify why and how people and goods move to and within communities.	• I can identify why people move to and within communities. • I can identify how people move to and within communities. • I can identify why goods move to and within communities. • I can identify how goods move to and within communities.
K.G.HI.1	Identify and describe the culture of communities.	• I can identify and describe the culture of communities.
K.G.HE.1	Identify ways humans interact with their environment.	• I can identify ways humans interact with their environment.
K.G.GR.1	Create maps of familiar areas, such as the classroom, school and community.	• I can create a map of my classroom, school, or community.
K.G.KGE.1	Identify physical and environmental characteristics of communities.	• I can identify physical characteristics of communities. • I can identify environmental characteristics of communities.
K.H.CH.1	Identify and describe how communities change over time.	• I can identify and describe how communities change over time.
K.H.CH.2	Compare traditions found in communities over time, including those from diverse backgrounds.	• I can compare traditions in communities over time.
K.H.CE.1	Identify the cause and effect of an event in a community.	• I can identify the cause and effect of an event in a community.
K.H.CO.1	Describe interactions that occur between individuals/groups in families, classrooms and communities.	• I can describe interactions that occur between individuals/groups in families, classrooms, and communities.
K.H.KH.1	Compare life in the past to life today in communities.	• I can compare life in the past to life today in communities.
