

DSLR FILM NOOB Podcast Episode 100

C-Pan [Slider, Jib, all in one](#), very compact size given the distance it can slide. Has a counter weight to help smooth out the movements. Kinda ingenious. Available in June for \$2200

SoftPanels LED Kickstarter has blown up

What makes this LED panel special is that it's got a spectrometer built in, so it will color balance itself to the ambient light, So if there's messy green cast, fluorescent lights this will green cast it's own light so it can match. [350,000 raised](#), But \$1000 for a 1x2, is outside of my price point for a light for me to own, but I could see this being a great tool for when you've gotta setup quick and you don't have time to dial in the best settings.

New AF Sony FE lens from an unexpected source. Samyang plans to launch a 50mm f1.4 and a 14mm f2.8 in the coming months. This will be one of the first AF lens from Samyang and the 50mm version is expected to [set you back around \\$600 new](#).

Safe Tap connector

Never plug your D-tap / P-taps wrong and burn out expensive equipment. [\\$80 is a little pricey](#) but considering you'll never burn out some \$1000 viewfinder or monitor it's worth it.

Do you need an Ultra tiny flash trigger? If so, they [FlashQ](#) might be the thing for you. \$39 will get you a transmitter and a receiver, and \$55 will get you that plus an extra receiver, looks pretty interesting and there are already some reviews hitting the street.

In my ever expanding effort to find really tiny lights. I've started trying out Various tiny light offerings. First on my list is the [iLED-MA iKan, micro flood](#). It's only \$49.

Are stereo mics jumping the shark? Meet the wacky looking [Sennheiser MKE 440](#). At \$349, this strange design could very well be amazing. But how often do you really need an on camera stereo mic?

“New stereo technique that offers a supercardioid pick-up pattern, which picks up sounds predominately from the camera angle and results in a well-balanced mix between ambient sound and clearly comprehensible speech and dialogue”

Show Notes:

3:05 C-Pan Slider / jib

7:30 Samyang AF lens

15:00 FlashQ wireless flash controller
