## ALICE IN WONDERLAND - PART 2

"The birds and animals are cold and wet, so a Dodo suggests running a Caucus Race. Half an hour later, the race ends and everyone wins. Alice gives out chocolates as prizes. Alice misses her cat, Dinah, but when she talks about it, the birds and animals go away. The White Rabbit appears again and thinks that Alice is Mary Ann, his housemaid, so he tells her to fetch his white hat. Alice goes into his house, and she finds a bottle. She drinks from it and grows so big that the White Rabbit can't get into the house and she can't get out. A cake is thrown through the window and Alice eats it, gets small again and runs out of the house. She runs into a wood and sees some mushrooms. There is a large green caterpillar on top of one of them."
