

Joe Sturgeon
11/14/23
Blue Takagi

Stick welcomes us

Joe sturgoen (hill) a wilmie based conservationist with the sturgeons, atlantic

Applause

Joe has a cool ass jacket

Was a student here, directly equipped him with the skills for working with the sturgeon

Sturgeon have been listed since 03, but have been endangered for a lot longer.n.

Story map presentation with natgeo and (externship?)

Cool to introduce this novel activity to them

Now able to talk to nat geo filmmakers from around the world who are equally invested in this stuff

Intterrupt with questions

Doesn't like lecturing

Sturgeon get big af, population of sturgeon have dropped by 98%

Greg garmin phd from bcu

Wrote about how sturgeon was saving grace of colonists in jamestown

Winters were harsh

Euro colonization was the spark that started the death of the sturgeon

Hunted to near extinction, because there were so many, sold in abundance

If it weren't for sturgeon , VA wouldve been Spain

Sexually dimorphic, males are smaller

Ladies get way bigger

Gravid ladies are ROUNDED
Males are sleek and skinny

Weighing process to cause minimal stress

Caught in gill nets, checked immediately after setting, and every hour.
Unless busy day
Checking very often
You can see the net move when they hit it

Netting sturgeon is stressful cuz theyre huge and you gotta be careful with them

14" mesh

Smaller would mean loads of cats
Blue cat fish is bad for sturgeon because cats eating baby sturgeon

Unique faces

If you get photos of the faces, you can ID them
Good for in casetags go bad
400 faces in database

Has a major effect on marine and estuarine environments

Need research to see how the environments change with healthy sturgeon populations

Sturgeon netting during runs

Once in spring and once in fall
Different set each time
Individuals don't necessarily run every year
Females every 2-3 years

Procedure to get big sturgeon on board

2 people, float and lead line
Pull the boat down the net until you find the fish
Grab the fish in the net, then untangle it, harness it, then pack in the water
Tonic immobility
Nifty

Measuring

Tape length, board length, circ, weight
Fork length

Someone

Special bag, or thingy
Carry sturgeon on helivac stretcher
Modified for face hood

Cool story, animal outside of harness and pen, tried to escape,
It escaped
Joe got to tackle the sturgeon

Range;

East coast of US
Not in gulf
Gulf sturgeon
Joe focuses on chesapeake bay
They do run in the cape fear
No one does research down here
No funding
Raise awareness

Spawning grounds
Hard bottom, deep fresh water, gravel beds

Juvenile recruitment measurement

General percentage, but difficult to see how successful
We can tell how many lbs of eggs by weighing on the way in, and way out
Long life means long data set for long time period

How long do they stay in the rivers?

Unknown
Rising water from a storm force them out
Some years they're up there for weeks, some years its 3 days and stop

Juveniles in rivers

1-2 years in the rivers
When they get the scutes

Others stay for 3-5 years

1-2 feet to move sea ward

How do you figure population size

With no juvenile check

Idea of spawning pops because they've been sampling for 10 years

Estimation of spawning pop from that

Doing fancy stats to figure it out

Jason kahn

Christian hager

Phds in charge

Ask them for data analysis work etc etc.

Mimi

Lifespan

100+ years says jason

Conservative est 65+ years

We don't often get otoliths

Estimating age on non-constant growth rate

Estimated # of spawning scycles

Unknown

History of where they went

After saving the colonies

Bunch of people headed out for caviar money

Black gold rush

Well documented in historical accounts

7 million reported back in the 1600s

20 years later, several orders of magnitude less

Dams after cause even more spawning issues

We were changing the land to suit our purposes

Perfect storm, they gather behind the dams to try and reach spawn, we catch them all

Problems today

Dams, water quality, dredging

Dredging causes issues from environmental shifts

Ship strikes

Cargo ships take up nearly the whole channel, and can hit by boats

Suspected to stay inshore, to within about a mile out

They don't have a reason to go to open ocean

Stay largely inshore

How to help

4/10 surveyed didn't know what a sturgeon was

Almost 40 years to be listed after the act was passed

20,000 in the whole atlantic ocean

Rough estimate

Terrifyingly small number

Sturgeon grow slow

It takes decades to bring them back

Fish trees

Sturgeon researchers struggle with funding and personnel

Friends of sturgeon

Pay isn't great

Biology is like that

You do this for passion not money

Who do we contact to volunteer

Friends Of Sturgeon

Joe is trying to get them to get a better website

Jason and christian are on facebook

Jobs

Ain't rich, but livable

Maybe

Sampling only in fall

Rodgers mentions DR fred Scharf locality

Whited was a tech, and now parker works there

Sampling is kaput in winter

Ask parker about volunteer ops in spring

Will asks

Means of detriment

Vessle strikes

Data on vessel strikes

Why are they up in the water column

Why do they jump

We don't know

Sometimes a display

Possibly a escaping dudes

Freshwater floats at the surface

Joeangealien@gmail.com

Marine Tech Club Meeting
Thursday 12PM
September 22, 2022

President: Myles Oxendine
Vice-President: Isaac Reeves
Secretary: Megan McDeavitt
Treasurer: Parker Hodges
SGA Representatives: Mimi Dunn, Blue Takagi

No pizza was had but next time pizza will be had.

BOT- Rogers talked about what to expect and how to act at the Board of Trustees meeting. We will be staying up to date on any future BOT/MT related happenings.

FISHING SCHOOL- Gary Hurley is looking for volunteers for the Fishing Schools coming up. (exact dates are coming)

PUMPKIN CONTEST- Trying to schedule a date for the judging, possibly doing on Monday Oct. 31st, Time TBA. Working on pumpkin donations to the club. Registration for the contest will be between \$5-\$10. Carving period will be from Oct. 1-14. (could change/extend cause of cruises) Prizes include MT swag, and gift cards to local businesses. **PARTICIPATION NEEDED**

GUEST SPEAKER- Our first guest speaker is former MT student Rohan Rao. Currently works for Geodynamics. He will be giving a presentation on what he does. Informal meet and greet and Q&A. Good networking opportunity.

BEACH CLEANUP- Carolina Beach, Oct. 8th 1000-1200. Bring a friend. Bring your dog. Come clean up the beach. If you can't make it, but still wish to participate- walk around your neighborhood, park or somewhere in the community and pick up trash. Local organizations like **Cape Fear River Watch** and **Plastic Ocean Project** also hold monthly cleanups. Document it and send it in. This counts as a participation hour required to attend the **Georgia Aquarium Trip** in April.

CLOTHING- Find MTC garb on the website: <https://www.bonfire.com/store/cfccmt/>
Embroidered clothing/hats are available (Ask Degan)

OCEANFEST- Oct. 7-8. Possible opportunity to set up a MTC table at this event promoting sustainability and marine awareness. **POP/MTC-** If you participate in any POP (**Plastic Ocean Project**) event it counts as participation for the **Georgia Aquarium Trip**. Jess Hufham is CFCC POP president, contact her if you are interested in working one of their events. (jthufham379@cfcc.edu)

IDEAS- What do you guys want to see MTC get involved in. Share your ideas!

Next Meeting: 1200, Thursday September 29th, 2022

Marine Tech Club Meeting

September 29, 2022

Executive Committee

President: Myles Oxendine

Vice-President: Isaac Reeves

Secretary: Megan McDeavitt

Treasurer: Parker Hodges

SGA Representatives: Mimi Dunn, Blue Takagi

Pizza was had, even for the vegans. No thanks to Parker.

FISHING SCHOOL- Contact Gary Hurley if interested: gary@fishermanspost.com, or call/text (910) 352-0603

Dates and Times Below:

PLEASURE ISLAND FALL SURF FISHING CHALLENGE

Friday, October 14: 1300-1630 or 1600-1930 or 1900-2230

Sunday, October 16: 0900-1230 or 1200-1330

TOPSAIL FALL SURF & PIER CHALLENGE

Friday, November 4: 1400-1730 or 1700-2030

Sunday, November 6: 0900-1230 or 1200-1330

BEACH CLEANUP- Carolina Beach/**Ft. Fisher State Recreation Area**, Oct. 8th 1000-1200. Bring a friend. Bring your dog. Come clean up the beach. If you can't make it, but still wish to participate- walk around your neighborhood, park, wherever and pick up trash. Local organizations like **Cape Fear River Watch** and **Plastic Ocean Project** also hold monthly cleanups. If you decide to participate in any capacity, document it and send it in. This counts as a participation hour required to attend the **Georgia Aquarium Trip** in April.

PUMPKIN/COSTUME CONTEST- A vote was had, and we decided to go with a good old fashion **costume contest**. Judging panel will be made up of MT instructors (TBA). Prizes will be given out. Prizes include: a Yeti cooler (\$250 value) for the main prize (Thank you Mimi!), gift cards for local businesses, and MT swag. **Entry fee is \$5. Registration opens Oct. 1. Contest takes place Monday, October 31st. Time/location (TBA).**

CLOTHING- Find MTC garb on the website: <https://www.bonfire.com/store/cfccmt/>
Embroidered clothing/hats are available (Ask Degan)

GUEST SPEAKER: Rohan Rao, from Geodynamics, gave a great presentation about the work he's done before and after the MT program. Thank you Rohan!

Chris Stewart, another **BIOLOGY** speaker. He will be joining us to talk about his experiences working as a Fisheries Biologist with the [NC Division of Marine Fisheries](#) (NCDMF) **Tuesday 2/14 in S-209 at noon.**

Thursday 2/16, Amber Phillips from [Prince William Sound Aquaculture](#) will be giving a Zoom presentation at **noon in S-209**. Amber will give an overview of the hatchery operation in addition to discussing job opportunities with the company. There will be an opportunity for a Q&A after her 30 minute presentation.

The Spirit Week basketball double-header is taking place in the **Schwartz Center on Wednesday 2/22**. MTC is hosting half a table in the Schwartz Center Lobby from **5:30-7PM**. Another opportunity to show up and show people exactly what we do. Last year, we taught a bunch of attendees how to tie knots.

Devin is planning an MTC Night at the end of the semester. We're working on this

April 1st Boat Show. The MTC club will host a whole table during the CFCC Boat show. No foolin'

This is a great way to come out and support the Boat Building program! **Location:** CFCC Wilmington Campus on the riverfront on Water St. (between the Hilton and Coastline Convention Center). Free parking in the CFCC Parking Deck on Nutt St. **Hours:** 9:30 a.m. – 4:00 p.m.

Sign up for a shift! **(MS. D INSERT SIGN UP SPREADSHEET HERE)**

Race for the Planet 5K is happening **April 23rd**. MTC is putting together a team of athletes to support a great cause in a healthy way. All proceeds go towards the Fort Fisher Aquarium, and it's just a lot of fun. Contact Ms. Degan about signing up. (You don't have to run the whole thing, or at all if that's your prerogative) Sign up!

(MS. D INSERT SIGN UP SPREADSHEET HERE)

Devin and Megan are planning an MTC Night at the end of the semester. **April 27th** is the night! (It's a Thursday, right after D02 gets back from cruise). A **taco bar** is being planned, and for **\$10** you can enjoy all you can eat tacos. Reach out for more information!

ANOTHER ONE? We had such a great time cleaning up Greenfield lake, that we want to do another one. Let's come up with a good day/time!

MTC Group Chat! We have launched a chat group. Any last minute updates and other information can be found here. Or we can just talk about all things marine! Download the GroupMe app and join!
