

SL: Increase your daily patients

Hey Ana Maria,

I'm a regular patient at <business name> and wanted to thank you for your gentle care and excellent communication during my visits. My teeth wouldn't be the same without you 😊

A couple days ago I caught the bus home from school and noticed that there seemed to be many competitors you're battling against to attain patients within <X location>

And I just wanted to point out an opportunity in which I noticed Gentle And Caring Dentistry, (one of your biggest competitors in X location), were utilising to accumulate a ton of patients

If you have 5 minutes to watch a quick loom video, I will explain this concept, and how it works. Is that something you are open to see?

If you want insight into this patient's generating idea and explanation of what it is, send a quick "yes" and i'll send it over

Have a great day,

Harrison Ide
