

AP BIOLOGY ENRICHMENT COURSE

Meeting Time:

Twice a week

- **Wednesdays** after school from 12:40-1:20PM (Room 216) [instruction]
- **Fridays** during HS lyceum (Room 216) [practice]

AP Biology Exam:

Monday, May 3rd, 2027 Session 2 at SPA

(you will be notified of a more detailed time at a later date)

Information:

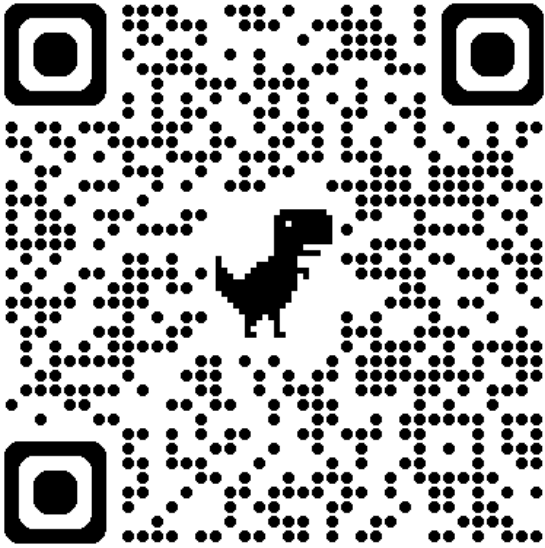

You will receive a reading/study/"homework" schedule each quarter. The "homework" is not graded, but the homework and schedule are designed to keep you on track for studying and preparing for the exam.

*Please note that, although this course is designed to help you study for the AP Exam, it is **YOUR** responsibility to study on your own outside of class and outside of the extracurricular course. The Honors Biology Class at SPA is **NOT** an AP course although it does cover many AP concepts in depth. Further, the EC enrichment course will cover some of the more difficult AP concepts not covered in class, but will not cover all material tested on the AP Exam. It is **imperative** that you study on your own and follow the homework calendar.*
