Dear Mrs. Sawyer,

I am writing to you today as a resident of [Your Town/City] and a frequent user of our local library. I am deeply concerned about the proposed changes in **Bill 28 (The Municipal Affairs and Housing Statutes Amendment Act, 2026)** and how they will impact our community's access to information and local governance.

Our library is more than just a building; it is a vital hub for [mention something personal, e.g., my children's education / my small business research / senior community connection]. I am particularly worried about the following aspects of the bill:

- **Erosion of Local Decision-Making:** For decades, our library boards and professional staff have successfully managed our collections based on the specific needs and values of our community. Shifting this authority to the Minister undermines the principle of local autonomy.
- **Privacy and Barriers to Access:** New requirements for age-verification and parental consent processes risk compromising patron privacy and create unnecessary hurdles for vulnerable residents, such as youth or those without fixed addresses.
- **Operational Strain:** Small, rural libraries are already operating on lean budgets. The logistical costs of physically separating materials and retraining staff to act as "age-verifiers" will divert precious resources away from the programs and services we rely on.

As our representative, I ask that you advocate for the protection of our local library boards' independence and ensure that any new regulations do not create barriers to the intellectual freedom of Albertans. I would appreciate hearing your position on Bill 28 and how you plan to represent the concerns of library users in Olds-Didsbury-Three Hills.

Thank you for your time and for your service to our constituency.

Sincerely,
