DToD Post-Internship/Fieldwork Experience Questionnaire

Now that you have completed your DToD research internship or fieldwork experience, we ask that you reflect on your experience. You are welcome to refer to your Pre-Internship Questionnaire as you answer these questions, as it may clarify your prior thoughts and how they have evolved after your internship/fieldwork. While neither this nor the Pre-Internship Questionnaire is graded, both might be read by program faculty and staff to inform our administration of the DToD program. We ask that you answer these questions thoughtfully, as it will help us to learn about your experience and how the program can support its success, and very importantly, it will help you reflect on and learn about your own growth through the DToD program.

Please note that this questionnaire will not be shared with anyone outside the DToD administration (DToD faculty and staff). As we seek your candid feedback about the organization you worked with, we will NOT share this feedback with them unless you explicitly ask us to. Please email your completed form to dtod-deveng@berkeley.edu **no-later than 2 weeks after your return**! If you have any questions you may email Matt Podolsky and Yael Perez via the dtod-deveng@berkeley.edu address.

Today's Date: ANSWER

Full Name: ANSWER

SID: ANSWER

Home department: ANSWER

Anticipated graduation year: ANSWER

What organization did you intern/fieldwork with? ANSWER

What country (countries) did you travel to? ANSWER

What dates were you on-site/in-field *(if multiple countries answer for total trip and for each country)*? ANSWER

Please respond to the following questions with a minimum of 200 words each. As you will see, some are more in depth than others. Please respond accordingly.

1. Please describe the work you conducted during the internship/fieldwork: tasks you completed, roles you performed, etc.

YOUR ANSWER

2. Please discuss whether the work you did matched or differed from your expectations. What, if any, unexpected events occurred that changed the work you were doing?

YOUR ANSWER

3. Please discuss at least three key insights that you gained during your experience. These might be anything relating to the experience, from being in a new place, to working with a new kind of organization, to gaining new understanding about a different culture, to acquiring key data for your research, to the specifics of effects of digital transformation on poverty or resources in the region where you worked, or anything else that you have gained knowledge about during your experience.

YOUR ANSWER

4. Given your insights from the question above, what questions and issues remain, for you, unresolved?

YOUR ANSWER

5. What tips or advice would you give for the next student working with/for this organization?

YOUR ANSWER

6. What feedback would you give to the organization you worked for/with? We will not share this feedback with the organization unless you explicitly ask us to.

YOUR ANSWER

7. After the internship/fieldwork experience, how will you carry forward the insight you gained? What challenges and opportunities do you anticipate in doing so?

YOUR ANSWER
