

CURRENCY EXAMPLE

\$100 AUD =
\$65 USD - £50 GBP - €60 EURO

The smaller the sculpt, the *less* detail & realism.

Shipping is an extra fee.

These are only examples - prices can change!

Forms are commitment to order & payment - it is NOT a quote!

I recommend you ask me first for a FREE quote (reference & size required).

Extra fine details: e.g a pet, with glass eyes & clay accents, 10cm+ tall size is necessary.

Different types available; *framed portrait, figure, memorial, BJD pet*; or larger & more complex, extra detailed *full body, busts, faux taxidermy*, etc!

Just let me know what you want & suggest any ideas you have!

Accessories are available to add in other materials, like a collar, toy replica, gems, body piercings, 3D print props, etc.

Art references have to be *high quality*: no blurry scans, graph/lined paper sketches, pixel dolls, MS-paint, base lineart, etc.

TURNAROUND

In conjunction with my physical disability, I have limits.

I CANNOT DO DEADLINES OR RUSH ORDERS.

It takes 50+ hours of work to felt. Please be aware that a sculpt can take 4 weeks or more to finish! Each turnaround time is different regarding the complexity & size that determines it!

Sourcing unique materials not in stock like glass eyeballs, 3D prints, jewellery, & others specially ordered can add delay.

PET MEMORIALS

I can use a pet's fur, for a memorial, *however* this may be limited to Australian residents because of overseas customs restrictions & delays.

Pet fur is difficult because it is a different fibre to sheep's wool, it stiffens like straw & changes appearance, or falls apart. It is best used for accents such as iconic markings, or encased in a bauble/vial as a charm or felted inside the body as a heart.

REVIEWAL / PROOFS

You will be sent proofs (work-in-progress) when I find it necessary, such as for updates & your feedback.

The pose is chosen & accepted *prior* to work, & cannot be changed after agreement, due to the armature construction (*wire skeleton*). Felts cannot be revised later because you changed your mind, *without* destroying the original. That is too costly & time consuming.

- No major revisions after the first WIP
- No requests in between proofs

- **No excessive edits when asked**
- **Do not guilt trip / passive aggressive ask for WIPs**
