

Rust Editing Contest - Result

About: Rust Editing Contest is a series of competitions for high-end editors, but also for new editors that have potential in editing. The purpose of the contest is to assess the editing skills. This also comes with great exposure for potential winners. For this type of contest the host will not be receiving any monetary benefits. The creators shall receive that. This contest will be crowdfunded, so if you wish to become a sponsor in order to increase the prize pool size, don't hesitate to leave a message at this [email](#). If you want to support the upcoming contest, there is plenty of work to do with the demo recording part. The part in which you create fake action requires a lot of players, and your help is well appreciated. The first time that this event took place was in 2018, when for every competition a pre-rendered rust clip was provided, and even demos.
