## INTRODUCTION (12pt)

The introduction contains background, problem formulation, research objectives, and a literature review. This section asks The author to formulate the problem concretely and clearly.

This section is supported by a literature review that is used as a support for the research concept. Authors must present an up-to-date primary literature review (references to journal articles and conference proceedings) (references published within the last five years). The literature review is not limited to theory but also includes empirical evidence. Enrich this introductory section with the efforts that others have made.

## RESEARCH METHODS (12pt)

(Write here) ... Research methods describe data, research tools, approaches, activity design, scope or objects, primary materials and tools, places, data collection

techniques, operational definitions of research variables, and analysis techniques.

## RESULTS AND DISCUSSION (12PT)

(Write here) ... This section presents the study results; the number of pages is 25–30% of the total pages. Research results can be supplemented with tables, graphs (figures), and charts. The discussion section describes data processing results, interprets findings logically, and links with other research or relevant reference sources. Name the advantages and uniqueness of this study compared to other studies. png/jpg image format. The structure of writing results must match the research method so that each step in the process is given results and discussed.

## CONCLUSION (12pt)

(Write here) ... The conclusion contains a summary of the results of the research and discussion. The decision should be concise and answer the purpose of the study. Spelled out in the narrative, not bullet points.

### Statement on the Use of Artificial Intelligence.

AI was used in the preparation of this manuscript. The authors used artificial intelligence tools solely to assist with language improvement, grammar checking, and editing for clarity and readability. The authors remain fully responsible for the accuracy, originality, integrity, and academic content of the manuscript. All AI-assisted content was reviewed and verified by the authors before submission.

### If AI was not used, you may use the following:

AI was not used in the preparation of this manuscript. The authors did not use artificial intelligence tools to generate, analyze, or modify the content of this article. The authors are fully responsible for the accuracy, originality, integrity, and academic content of the manuscript.

### Conflicts of interest

Authors must disclose any actual, potential, or perceived conflicts of interest related to the research and its publication. If no conflicts of interest exist, authors should explicitly state: "The authors declare no conflict of interest."

### Author contributions

For research articles with multiple authors, a brief statement specifying the individual contributions of each author must be included. The following format should be used to clearly identify and describe each author's contribution to the research and manuscript preparation: Conceptualization, XXX and YYY; data collection, XXX; data validation, YYY; formal analysis, XXX and YYY; writing—original draft preparation, XXX; writing—review and editing, YYY; visualization, XXX. All authors have read and approved the final version of the manuscript.

### Acknowledgments

The Acknowledgments section should recognize and acknowledge the support, assistance, facilities, or funding provided by organizations, research laboratories,

institutions, agencies, or individuals who contributed to the research or preparation of the manuscript but do not qualify for authorship.

For example:

“This research was supported by the Accounting Research Laboratory and the Research and Community Service Institute of [University Name]. The authors gratefully acknowledge the support, facilities, and resources provided to facilitate the completion of this research.”

## REFERENCE (12pt)

Writing a bibliography uses APA 7th Edition Format. Must use tools such as Mendeley, Zotero or other reference management tools

## Contoh Penulisan Daftar Pustaka
