

~Found Object Friends~

Have you ever seen something little kicking around your house that just inspired you to create art?! This week's drawing lesson will have you looking at every little thing as an art opportunity.

- You will need a pen or pencil and a few pieces of paper.
- Find 3-4 small objects around your house.
- Lay each object on a piece of paper and **think** about how you could include it in your picture.
- Could a little person or creature be holding or using your object?
- Could your object be a part of a person or creature's face or body?
- Draw and have fun!
- Share your artwork with me if you're able to at kim.aucter@mmuusd.org!
