

THE VALERIE GARDNER STUDENT TRUST

BOARD MEMBER APPLICATION

The CVU 2000 Student Trust is established for three main purposes:

1. To help students sustain and increase the diversity of groups and activities available in the CVU community.
2. To create an environment in which more members of the CVU community feel included.
3. To help students and teachers improve the CVU community.

The founders of the Trust do not attach any order of importance to these purposes, but believe it is important that they are achieved as a whole. The committee is charged with allocating the funds from the Trust in a manner that will further these three goals most significantly. We recognize that it will not be possible for the committee to allocate the funds in a way that will advance all of the goals every year, but we hope that attempts will be made to address them all over time.

The founders of the Trust would like to establish three requirements on the use of the funds: (1) the money must remain within, and aid directly, the CVU community; (2) the projects supported by Trust funds should be co-sponsored by both students and faculty or staff, and (3) the funds are not used to supplement the school budget. It is up to the committee to decide in its discretion how the money can be used to meet the purposes described above and to best help the CVU community.

Please respond to the following questions:

1. How are you uniquely qualified to serve on the Board?
2. How would you further the purpose of the Trust?
3. What are some ways in which you feel the money could be well spent?
