

NotSkype (WW) Release 1.1.0

Release Notes

This NotSkype update fixes and adds new functionality, most notably:

1. **ReSkype 3.2 + Skype Classic 4.0** released!
 - a. Note that all 3 clients/flavours connect to the same server.
 - i. (They all can communicate with each other.)
 - b. Installer for NotSkype R/C mentions that Teams will be uninstalled
 - i. Only for design (to match the WLM migration screen).
 - ii. It will **NOT** (for now) uninstall Teams.
2. Calling
 - a. Added support for Video Calling.
 - b. Fixed intermediate Calling/Ringing screen.
3. Image uploads fixed
 - a. Images now upload and render properly.
