

PARADISE: LOST

CRRN

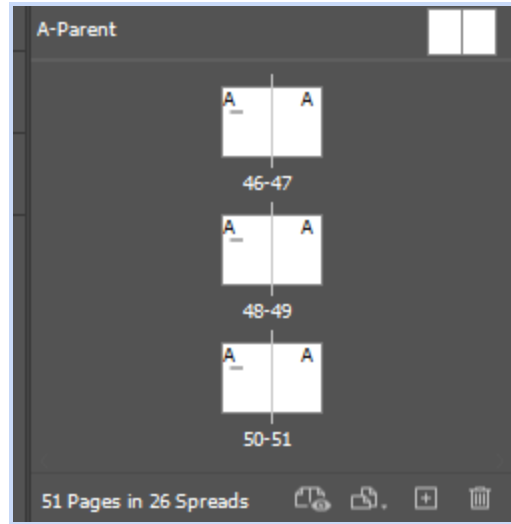

SINCE SEPTEMBER 2021

LINK HUB THE DIRECTORY

An ultimate 'cheat sheet' of all links correlated with lore.

Backstories, worldbuilding, characters, etc etc.

Ignore the tags, because everything is unfinished and probably going to change.

08/01/2026: I've re-picked up the artbook project from 2025 and hope to compound all of the Google Docs into an actual, purchasable lorebook! 90% of the content within it can probably be found in my posts or these docs, but it'll be a much easier (and more professional) way of directing people to PARADISE: LOST's worldbuilding than having to look through all of these documents. I'll hold off on making physical copies (for now...) but, hopefully, it will be done before the end of 2026 to celebrate ParaLost's 5th anniversary!

I can't say the price for now, but purchasing an ISBN and publishing... is relatively expensive...

This is an outdated map from 2023; several countries still need to be included, some are in the wrong place, some names have been changed, and the size of the countries are not to scale.

If any article is set to restricted, it means the document is being edited, rewritten, or is simply incomplete.

The lore of Paradise: Lost is constantly changed, added upon, or retconned. Do not take any existing information as canon forever or complete, even if I claim it is; Paradise: Lost is an ever-changing world and will likely never be complete. I'm not very good at writing, I do this for the love of the game! I often don't go back to read what I wrote. Please contact me if you have any critique or ideas, but I think it would be better overall to get someone who actually knows what they're doing.

Finally, all my documents were intended to be viewed in light mode and with narrow text width, so my documents may look strange on mobile, dark mode, or other settings.

WHAT IS PARADISE: LOST?

Hyun-Koune'li, a young prodigy like the world has never seen before, has lived over 7,000 years after gaining the ability to rewind time. His end goal is all-knowing omniscience; but the one thing he cannot find the answer to is the origin of this ability of his. Bell, a being with unlimited power, has spent these thousands of years tracking his activity across her domain, as it seems he is one of the few things she cannot control. When she finally reaches out to offer him truth and an answer to what he seeks in exchange for his cooperation, he must decide if her ideal Paradise is worth all the lives that were, are, and will be, if not existence as a whole.

Paradise: Lost is an OC project I (CRRN) have been working on since 2021. It has gone through many iterations, though has slowly solidified. It is a trilogy, split into *Paradise: Lost*, *Pandæmonium*, and *Paradise: Regained*. It mostly focuses on heavy worldbuilding, and while there are clear startings and endings to individual characters, there actually isn't a story in-between (yet).

ALLOWED:

- Draw / Create fanart or fan-creations!
 - Feel free to mention me (@_CRRN_), but I rarely check my main, so if you want me to see it, please consider using the tag **#ParaLost**

- Make your own fan character(s).
- Use any of my creations as reference or inspiration.

- However, I don't take kindly to copiers. While much of my work comes from the work of many others, I consider this synthesis of original ideas and well-known literature to be something unique.

- Do not use your fan creation in any sort of defamatory manner.

CHANGELOG

I'll try to keep it updated as well as I can, but I'll probably exclude minor fixes or grammar mistakes except on slow days.

All dates are recorded in CST/UTC-6.

07/27/2026

- Rewordings and large updates made to the *Humanity* doc.
- Nephilimae had very minor adjustments... more to come when I finish more art...

07/01/2026

- Updated Aryl's document, though it is still mostly out of date.
- Very slight edits to Asclepius's document

06/26/2026

- Polished Yenisei's document.

05/27/2026

- Rearranged Rei's profile to make it easier to read, and will hopefully do the same for other characters shortly. Also added a new excerpt, and expanded on his capabilities.
- Similar changes were made to Faust's document. Smaller changes were made to Nurse's document.

05/27/2026

- Changed some of Arene's profile

05/24/2026

- Rehailed some of the Link Hub and made edits to some characters' profiles, though completion will likely take multiple days.

05/18/2026

- Minor spelling / lore / grammar / etc. corrections amongst multiple parts of the Angelical document.

04/28/2026

- Minor spelling / lore / grammar / etc. corrections amongst multiple parts of the Angelical document.

03/07/2026

- Added a proper image for Dominions in the Angelical document

02/27/2026

- Made a few clarifications and changes to the Angelical document while parsing through it.

02/20/2026

- Added World Incident Collection; some interesting things may be added, but it's more worldbuilding than vital information...
- Hoping to focus more on making a cohesive story this year rather than endless worldbuilding.

01/04/2026

- Minor grammar / diction fixes in Bell's document.
- Minor updates to Faust's design explanations.
- Made characters appear in the tabs of the link hub.

12/27-28/2025

- Changed Enoch / Asclepius / Metatron's images in the Link Hub (this document).
- Finally changed *Paradise Lost* to *Paradise: Lost*. We'll see if this sticks. Hasn't been fully implemented everywhere yet.
- Updated the following documents (minor changes such as small additions, grammar fixes or fixes of inconsistencies):
 - Terminology
 - Nation-States
- **Added EIGHT new excerpts** (though they aren't very detailed) to **Arene's** profile.
 - Technically not even complete so they'll probably change more in the next few days (and get added upon).
- Added the differences between PL I/II/III on the main page (this doc).

12/06/2025

- Large additions to the Angelical document (War & Crime, additional information on family units, misc info, and other small changes (I don't remember...)).
- Changed ALL (except motifs and trivia) of Mrs. Bell's document to be in the first person.

11/23/2025

- Centurions were changed to be *up to date*.
 - Their doc is already quite short since I think their current role in the story is a bit underwhelming..
 - Jotunns were also made to be up to date, but I may scrap their concept or move them to be a subdivision of Nephilim.

- If they are going to be changed, they will most likely be renamed to *Sentinels*.

11/07/2025

- Added explanations for the Angelical's skeleton/shell designations in their document (under "DESIGNATION").
- Fixed *The Martyr's* date of birth.
- Edited some formatting discrepancies in Koune'li's doc.

09/19/2025

- Added some more information to Arene's document to better match Rei's.
- Moved some images around in Koune'li's doc
 - New cover image for Arene and Aryl + Koune'li

09/13/2025

- I tried adding a summary about PL in the Link Hub but didn't know what to write, so it ended up being just one paragraph.
- Added a little section about Primordial Assimilation to the Universal Graph document.

09/08/2025

- Divided *Humanity* into a few sub-groups for better organization. Will probably expand upon it in the future.
- Added all of the Defunct Angel artworks to the Praestabilis Project document and fixed the organization a bit.
- (This was added a while ago but I only thought to make note of it now...) Changed the cover image for the Birthdays / Rei's / Metatron's / Faust's / Some other cover images.
- Minor grammar edits in Rei and Fausts' documents.
- Added and fixed a few things in the Countries and Nation-States document (very little).
- Moved the Universal Graph document into Universe Overview and deleted the 'Explained' category.

09/07/2025

- Metatron now has a document under Major Supporting Characters! It's not very detailed, but He's not a very detailed character...

08/30/2025

- Updated some of the choir descriptions and added more images... trying to decide what I want to do with Cherubs.

08/20/2025

- Found some old concept art for Angelicals from 2022, so I added them under a new tab in the Angelicals doc!

08/17/2025

- Minor updates to the human/Jotunn doc. *Incredibly* minor.
- Updated Rei/Aryls' docs a bit but also very minor. Changed a few sentences but lore overall remains the same euu... also gave Rei a quote I think fits him more
- Unrestricted Nurse's doc because I probably won't have time to finish her excerpts anytime soon. Things are literally still in their first draft though so it's probably cringe and boring to read

08/07/2025

- Expanded more on **Nurse's** excerpts. Her document is **restricted** for now.
- Organized **The Martyr/August's** document to be a bit clearer and easier to understand.
- Added a placeholder for **Bell's** excerpts but I'm not sure how I want to write them yet.

08/06/2025

- **Yenisei's** document has been caught up-to-date and expanded upon, though things are still in their first draft stage. Since she's a rather minor character, there's not much left to add.

08/04/2025

- I meant to just fix a few things, but **Faust** now has much more in-depth excerpts (though a few have remained untouched). Her document is now over 15000 words!

08/03/2025

07/19/2025

- Fixed some inconsistencies in Sanctum's buildings and added a few new ones to better lay out the city. Expect more preening of the Angelical document in the next few days.

07/09/2025

- Changed the wording and flow of many of Rei's primary excerpts; also added two new ones, *Promotion* and *Jericho*.
- Added a new section that will slowly be rolling out for a majority of my characters! "*Insight; Character Design*" will go into the original designs, past designs, design procession, and more of my characters. At the moment, it only exists for Rei and Faust.

06/28/2025

- Fixed a few words in the Watcher document and added images of the Watchers/The Creator.
- Updated documents about the Commandments.

06/27/2025

- Updated August's profile a bit. No lore was changed or added.
- Added the References section in the Link Hub.
- Gabriel's document is finally up-to-date.

06/13/2025

- Made some changes to Aryl's document so it and his ArtFight profile match.
- Changed the name of The Abyssal Heaven; it just never really fit. Has temporarily been replaced with 'The Mass(es)'.
- Added upon some things in Terminology
 - I've been considering removing cores from Angelicals entirely, as I would like them to be fully mechanical beings, but I haven't made the change yet. I most likely will.
