Farm Strategies

Mechanics

Blast, i suggest standing on the bottom of the V of the M

After the blast you can avoid ALL damage in this fight with the following two clicks
You can also go bottom left corner
If you can tank the DEGEN just click the top left of the M and stay there until body doubles

Click 2 after the yellow bullet passes you

Final phase just stand opposite of him he'll spawn randomly out of the four body doubles

Damage check mechanic if u do too low damage you'll see this just dodge the "pinwheel"
