

Name: _____

Livestock Facilities Notes

How can knowing about animal behavior assist in developing livestock facilities?

Describe a time when you've seen an animal relay a message through body language.

Give an example of the following in animals, discuss with your class as needed:

- Imprinting
- Conditioning
- Habituation

Draw a flight zone for a cow:

Describe your flight zone and pressure zone when a stranger is around you (approximately how many feet away, etc.):

What are your thoughts on using electric prods with cattle or other animals?

What are the goals of livestock facilities?

What do curved chutes do for animals?
