FAQs:

OCDSB eLearning

- Once a seat in an eLearning course is requested through your Guidance Counsellor, confirmation of a space in this class will come from the e-Learning Consortium - being on a waitlist does not mean you are accepted into the course
- There will be no textbooks for online courses.
- Students **may NOT work through the course at their own speed** - each course is facilitated by a teacher who controls the timing/pace of the course to encourage collaboration and enable effective feedback.
- An eLearning course can give you additional flexibility in your daily schedule. However, students are expected to **log in each day** and should plan to spend **6-8 hours per week** on their eLearning course
- A student is allowed to take a maximum of 4 courses in any one semester (excluding Night School). If you have been placed in an eLearning course through the consortium, you will be allowed to take a maximum of 3 other courses in your day school
- Elearning courses are **asynchronous**. This means that the teacher and the students engage with the course content at different times and from different locations. The teacher provides students with the course work which may include: assigned readings or uploaded media, online quizzes, discussion boards, and more. The teacher

guides the students, provides them with feedback, and assesses them.

- Success in an eLearning course requires organization, time management, and the ability to be a self-directed learner.
- For information about **opting out**, please fill out the Opt-Out form below
