

Parent Email to Suggest Tutoring

DIRECTIONS: Copy/Paste the following template to send to parents when you want your students to come to tutoring. You can attach the tutoring flyer directly or use the link in the text.

Dear (Parent Name),

I would like to make you aware of an opportunity that we have at CHS for morning tutoring. We have certified teachers available in the mornings to work with students in their core subject areas. I think that (student name) would benefit from this individualized support and that it could help them in getting their work completed and submitted for class. [The flyer with all the details is attached.](#) Please let me know if you have further questions.

Thanks,
