The Establishment of Religion

God's Message: I was sitting in a corner and I remembered that some of the things were lying beside me and I wanted to cross-examine what was there because I knew I had a lot to discover. I looked and saw a variety of old items, old wires, old phones and old clothes (long garment), but I still kept looking through a thick book, trying to look at the cover but I cannot read it because It's a very old document and written in tiny letters and I wondered what kind of book it was and I heard the voice of God the Father " THAT'S BIOSCIENCE 'the word of God.

I opened it to read what was written but not finished because someone came and said: What are you doing? I said I was looking for something and he saw the dress and pointed out and said what it was. I replied that it was a long dress. He told me; give it to me because we can use that. I gave it and kept looking for a string/rope because I knew that there was a string/rope in that long garment. Soon I saw the rubber, white and black with a string/rope placed on a plastic and then I left, but he asked, what was in your hands? I replied that this was a string/rope, maybe I needed it. Then, he said, could I see? Then he picked up the strings/ropes (white and black) from me and he returned the black rope and said, do not forget the payment. I said you want me to RETURN? Then I left and woke up. The word of the Lord.

This is what I understand by what God means here.

OLD ITEMS - meaning that in ancient times people thought that they could use God the father, Jesus Christ whatever story they thought of the Lord Jesus Christ to build the religion using the word and the name of God.

WIRE AND TELEPHONE (Old) – means the agreement- that they needed to agree whatever is required.

AS I CONTINUE TO FIND THE OLD ITEMS - means that they studied for a long time what they needed to do in creating the story of Jesus Christ's life.

LONG DRESS/GARMENT - means that they thought that the appearance of their dress was meant for people to be amazed because as I took it I was surprised and he said that “we could use it”

The BIOSCIENCE BOOK means they are studying the whole human race in terms of weaknesses so that people will follow them.

WHITE STRING/ROPE means it is strictly forbidden, to say the truth to the people, this is the white thread that he did not give back to me.

BLACK STRING/RUBBER that was given to me meant that he was asking for a fee. This means that they studied that people in future generations should be bound by false beliefs because they are the black string.

REQUESTING A FEE means that they are teaching the church for every member of the church who believes in them should pay.

The word **RETURN** means these are the teachings they share that the more you give to the church is multiplied by 10 times returning to bless the members.

Because the rubber/string bounces or changes the real form; this means they thought the church collection amount/values and church teachings can be changed according to the instructions from the founder of a higher church official.

As we know, the RUBBER/STRING if we pull them, it is FLEXIBLE/ELASTIC/. The first church practice on the many changes or revisions in our generations, for example, is the church's collection of money. Before, the church money collection was done once only (offertory). Now, they collect two times or more, the first collection then another collection towards the end of the mass or in between. Secondly, the amount of money imposed on each of their church activities (such as the wedding) is changed. Before, they collected 1,000 pesos now 1,500 pesos. This is the meaning of the rubber/string - constantly changing the value/amount in the church money collection including BIBLICAL CHANGES according to their preference or interest. Perhaps I did not explain well God's message, but the point in this message is about establishing religion or how people established the religion before until the present time.

THE TRUTH ABOUT THE BIBLE. GOD CALLS THE BIBLE AS AN ORDINARY BOOK.

You can't find any evidence that I speak ill against the bible so that people will believe in me. First of all, I do not have an intention of whatsoever to form any religion. Second, I healed people with various diseases for free, absolutely free, In fact, I spend my own hard earned money to call them long distance in order to heal them. I do not receive any amount of money not even a single cent in return and for what do I gain from doing it? Absolutely nothing right? Now, if you have to ask me about the bible, I believe in the bible 100%, but the contents are not all from God the reason behind it is because there are so many religious sectors who have changed the words for the benefits of their own interests and because of the changes the bible lost its holiness or sacredness. This is the reason why God called the bible a BOOK. Let me ask you something how many times God existed as a human being, your answer is definitely once only, in other words only once. Now my next question is, if it's only once, then why there are about 1,600 different classifications of the bible when in fact He existed only once as a human being. There should be only one bible because of its holiness and nobody, and no one should have the right to make some revisions under any circumstances. God said "YOU DO NOT TELL THE WORDS I DO NOT TELL YOU" the word of God. This means we are not to convey messages that do not belong to God, and this means we commit a sin because the number already reaches 1,600 and this means it is full of lies and people got confused and misguided. Therefore, these religious leaders commit a sin. What did God say? " THE PRIESTS/PASTORS WHOM THEY ADORED AND ADMIRED, THEY ARE DEFENDING THEM THEY SHOULD BECAUSE THEY ARE THE NO.1 SINNERS" the word of God, for their teachings do not come from God and for these reasons they commit a sin for misrepresenting God's teachings. Now given the benefit of the doubt that they have spoken to God why is it that they don't have the capabilities of what an ordinary man like me can do, my voice heals the sick according to their strong faith, I can see a person's sin, I can see incoming tragedy. These served as my back up from God so that people will believe in me. So go ahead and explain how you defend your faith in the bible and prove it also that you have the abilities and capabilities of what an ordinary person can do

AN EXPLANATION OF GOD'S MESSAGE "PLEASE DO NOT SELL MY WORDS"

BY: Narciso Olalo

For those who told me that I've been ruining the reputations of the Catholic church, this is for you, I am not choosing who I bump into because God said "DO NOT CHOOSE WHO YOU WANT TO" the word of God. For those who have ears, eyes, and in their right state of mind, do what is right before you accuse me of destroying the name of the Catholic church, is that how you interpret it, don't you understand that God said for sending messages to the people He said "ABSOLUTELY FREE" the word of God. Other religion they have tithes for 10% of their members when this is against God's will, but if we have to compare this to the Catholic church, this church is absolutely money grabbing, every single move is money grabbing, if this doesn't make you sick, God is already sickened and appalled by their deeds. If you think I am wrong, why don't you come face to face with me and tell me to stop whatever I'm doing, I won't fail you, I am more than willing to confront you with the presence of the media and camera so I can prove to you that God speaks to me. I'm challenging everyone to come face to face with me in front of videos and cameras so that if proven that what I posted were all bunch of lies and not truthful then this is going to be your chance to put me in a

AN EXPLANATION ABOUT THE CHURCH- CHURCH IS NOT NEEDED FOR SALVATION.

BY: Narciso Olalo

Jesus Christ preached and healed the sick before without being in a church, how many years was there a church during His time? Let's say it all started when He was only 12 years old or from 10 years up. It is clear that He became known to people. Why didn't he think of building even a small chapel so He can use it for preaching, but He sacrificed a lot walking and preaching with no boundaries? What are your bases that we need to build a church? God is powerful and sees each and individual person wherever we are, He knows what we do, even if done in the past for such a long time. Take for instance I healed this person and knew nothing about him, but why I was able to describe in detailed about his recent whereabouts, what he had done in the past, and why I knew that he had killed somebody, and how he did it. My question is why I knew all these in detailed it was God who told me everything. This proves that God is powerful and he knew why people needed to build a church. People gather in the church and that is the place that they can collect money from their members. Without church how they collect the money. Take for instance, if somebody owes us money we go to their house and collect the money that they owed but even then you will have a hard time finding them. How much more, if the church does not exist collecting money, is impossible. It is funny if they come to your house to collect the money when you don't even owe them any. The other religion if you don't show up to their church they will come to your house and collect the money and pretend to be just saying how you've been doing and why you were not at the church, but actually, their main intention is to collect the money in a subtle way. Going to church according to my belief is according to what pleases in the eyes of God. What is the point of going to church, but a person is doing something that is not pleasing to God? The church is teaching the people to serve God so that people who believe in them will serve the church for free. This is another way of getting the people to consider volunteering so that the church gets their services for free because they brainwashed the people that this deed is pleasing to God. These are all bunched of lies and they just fooled the people. Think about it and if God told them this then they should have the capabilities of doing something that an ordinary man can't do so that people believe on them. If their teachings were right, then God doesn't need to use somebody like me to spread His true messages. If their teachings were right then why God said that "EVERYTHING THEY SAID ARE LIES BECAUSE THEY CANNOT PROVE IT, YOU ARE THE RIGHTFUL ONE BECAUSE YOU CAN PROVE IT TO THE PEOPLE" the word of God. I have the abilities and capabilities to prove them that God speaks to me and that every single word comes from God. What else they want from me, I have all the proofs and they have nothing else to say that I made this on my own. That's why they cannot come near me because they themselves know that all the messages that I sent to the people are true.

Narciso Olalo-is # 1 instrument used by God in spreading the truth.

"The words of God of Second Coming" the word of God. These things I do now that ordinary people cannot do are an indication that God is coming soon to judge the living and the dead. "I will separate the "good" and the "bad", the word of God. For everyone, your faith will determine where you go,
