

Is It Worthy? ˘_(ツ)_/˘

Our Scenario

Identify Information Needs & Source Types - Introduction to Library Research

Pretend we need sources for a paper on the ways in which the evolution of a facet of pop culture mirrors and/or shapes shifting societal values. We have decided to focus on dystopian fiction in young adult media. Let's team up and evaluate some to identify what types of sources we're looking at and discuss if they would be worthy to use in our paper.

Instructions

Open your source and:

1. Figure out what kind of information source you've been given.
 - a. Need help? Try our [Introduction to Library Research](#) or [NoodleTools Show Me](#)
2. Cite it MLA Style.

3. Determine if it's worth using or if we should skip it. Remember, this wouldn't be our *only* source, just one of at least 3 sources.
4. Give evidence to support your determination. Why is it worthy, or why isn't it?
5. Present your source and your findings to your classmates.
