

SUMMERTIME RECORD REIMAGINED

Thank you for being interested in SUMMERTIME RECORD REIMAGINED!
Please read this entire document carefully before continuing with your application.

APPLICATION RULES

1. Beginners, intermediate, and advanced levels of animation and art welcome! We have parts both long and short, animation heavy and not, even still image redraws, all depending on how big of a responsibility you'd like. *If you have never edited before, a mod/helper can help you, so you can focus on trying something new!*
2. We encourage a wide variety of styles! Don't be afraid to apply if you do any sort of animation that's considered 'unconventional'. (EX: Stop motion, Traditional Paintings, 3D Animation, Cut Out animation, Puppeting, etc.)
3. **WE CANNOT GUARANTEE EVERYONE WILL GET THE EXACT PART THEY WANT.** We will be doing our best to give you parts we believe you'd enjoy! Please keep this in mind.
4. You will have 48 hours to respond to your acceptance email. Failure to do so will result in you **forfeiting your part**. We post regular updates on app status on our twitter, @DazeReanimate, and our Bluesky, dazereanimate.bsky.social.
5. **THERE IS A COLOR CODE FOR THE PART DENOMINATION.** It is as follows:
 - **BLUE PARTS:** This is a REANIMATE part. This is a traditional reanimate part!!
 - **WHITE PARTS:** This is a REIMAGINE part. **You can animate or edit whatever you'd like here, as long as it includes the listed character!**
 - **YELLOW PARTS:** This is a REDRAW part! Simply redraw the image.
6. Collaborations on parts are okay!

PRODUCTION RULES

1. Don't be afraid to be wacky with your part! As long as your idea **generally fits the original idea of the shot**, we encourage it!
2. Don't include the lyrics. (Note: if you have an idea involving the lyrics- tell the mods, we'll discuss something if need be!)

3. Please make your part 1920x1080 px.
4. Green screen is allowed.
5. **DON'T CUT YOUR OWN AUDIO!** We'll be providing cut versions in order to make sure everything flows well.
6. Your part must be as long as the shot you were given, down to the frame/audio length.
NOTE: *There are some black frames. This was edited to be in time with the new version of Summertime Record- if you have a reanimate part, simply fill in the black parts with what was traditionally shown on screen for your part in the original.*
7. We will have a system of monthly check-ins in place with a set schedule within the Discord server, where you will be required to check in with your progress with mods. Failure to do so within 24 hours of the check in will result in mods **chasing you up privately**. Failure to reply to the chase up within another 24 hours will result in **forfeiting your part to a backup or a mod**.
8. Extensions for check-ins will be given with enough heads up. Life happens, we understand! **Just please be communicative!**
9. If you're having trouble finishing your part, please contact a mod, and we can set you up with a helper.
10. We have a hard deadline of **August 10th**. Failure to complete your part by then will result in forfeiting your place in the reanimate, and mods will complete your animation for you.

Thank you for your interest in Summertime Record Reimagined!
